BUT NO IDLENESS FOR THIS ALL-WEATHER CAR

NEW FORD CONVERTIBLE CABRIOLET (F. O. B. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost.) This car gives the airy freedom of a roadster, the snug com-

Cold weather emphasizes the value of the Ford car's simplicity of design and its dependable performance under all conditions. There is an enduring quality, too, in its exterior finish. The pyroxylin finish is not affected by cold, or the usual hazards of snow or water. The Rustless Steel used for the radiator shell and other exterior parts is an additional assurance of permanent beauty.

Throughout this country—in Canada and in Europe —the new Ford has made an unusual record for endurance and reliability. Through swirling sleet and drifting snow it has fought its way on missions of business and of urgent need. Men, mails and materials have been moved with greater speed and with less interruption for a longer period each year. In rural and snowbound sections, thousands upon thousands of Ford owners have found that it is no longer necessary to lay up the car-inidleness when winter comes.
