State's Report On Woodville School

The following report of school supervisor on the Woodville high school, rendered to C. V. Compton, dated Jan. 20, and to the president of the local board, J. E. Wheat, and also under supervision of M. J. Fields, from the office of the State Board of Education, and signed by J. W. O'Banion, director of supervision, follows:

The work of classifying and accrediting the public schools of Texas is under the direction of the State committee composed of 15 members representing the high schools and colleges of the State. This committee, by establishing educational standards, determines the conditions upon which high schools are classified and accredited and is interested in encouraging schools to attain these standards and in certifying those that have attained them so as to facilitate the transfer of students to any other school or college.

The regulations as prescribed by this Committee are administered by the State Department of Education through high school supervisors. In the visit of the supervisors and in their reports to school authorities, recommendations are offered in the spirit of co-operation and helpful suggestion, with the earnest desire that all school authorities will join with the State Department of Education in their efforts to maintain the necessary standards of secondary education in Texas.

In order that the schools may be properly certified it is essential that minimum requirements be met. To that end the supervisor who recently visited your school makes the following recommendations:

1. That trigonometry be dropped, and a course in Texas history be added.
2. That Current History Magazine and English Journal be provided for the library.
3. That the library have a partition separating it from study hall.
4. That more attention be given to covering of pupils' books in the high school.
5. That a fireproof steel filing cabinet is needed in the office to protect records from fire.
6. That the superintendent should be made business manager and keep financial records.
7. The Encyclopedias in high school library are out of date and should be replaced.
8. That a rotary hectograph or ditto machine is badly needed.
9. That an adding machine would be helpful in the commercial department.

The school is to be commended for the following worthy features:

1. The addition of class rooms, gymnasium and auditorium, and equipment to high school through a $35,000.00 bond issue.
2. A C. W. A. project for $1,000 for beautifying campus.
3. The adding of 2½ acres of land to the campus at a cost of $2,000.00.
4. The installation of an electric clock and bell system for both buildings at a cost of $460.00.
5. Special maps of all Spanish countries in Spanish room.
6. Additions to libraries at $400.00.
7. The publishing of a weekly school paper.
8. The active P. T. A. organizations.
9. The excellent organization of the school work, and organization of student body into eight clubs, and student self-government.
10. The office systematized and excellent system of records installed.

The courtesies extended the supervisor are sincerely appreciated.

MONEY COMING IN FOR THE NEW ATHLETIC FIELD

At the football banquet a project was started to raise $2,000 to pay for an athletic field on the vacant lot between the high school building and highway 40.

A rather unique plan was suggested in which 500 friends of the school of Woodville be requested to give $1 cash a year for three years in order to raise the necessary funds.

The following have already subscribed and paid $1.00 with the exception of those who paid in full:

Utilities Rates Discrepancies

Washington, Feb. 3.—Huge and glaring discrepancies in the prices charged 20,000,000 household consumers of the country for their electricity were revealed by the federal power commission Saturday, February 3.

In the first official, nationwide survey of rates ever made, the commission found charges in one community 343 per cent higher in one community than in others of comparable size.

Electricity worth 88 cents in Cleveland, Ohio, was found to cost $2.76 in Miami, Fla., and $6.40 in Tacoma, Washington, cost $28.81 in New Rochelle and Mount Vernon, N. Y.

By assembling and making public these discrepancies the commission struck a responsive blow for lower and more nearly uniform rates. Its aim was expressed by Vice Chairman Basil Manly:

"If this survey succeeds in directing public attention to the wide divergencies in the rates charged for electric service in communities similarly situated and possessing the same general characteristics it will have served its purpose.

"If, as we hope and believe, the more detailed studies and analyses which will appear in succeeding reports point the way to the removal of these discrepancies, the electric rate survey will have a great constructive value for every section of the country."

Manly recognized the justification for some difference in rates, due to population, geographic conditions and accessibility of fuel or water power.

The study embraced the 911 largest cities of the country.

R. C. DUFF PLANS TO RUN FOR CONGRESS NEXT ELECTION

R. C. Duff, president of the Waco, Beaumont, Trinity and Sabine Railway Company, announced Monday that he will be a candidate for congress from this district at the next election.

Joe H. Eagle, present congressman, has announced as a candidate for the United States senate.

"I don't think it is time for a detailed platform, but I just want my friends to know that I plan to make the race," said Mr. Duff. "I believe I could do some good up there."

Mr. Duff was born in Brazoria County in 1875. He began practicing law when he was 19 years old and practiced law several years. In 1900 he moved to Beaumont, where in 1904 he was sent to the legislature.

In 1905 he bought the Beaumont, Sour Lake and Western Railroad, now a part of the Gulf Coast Lines. He sold it to the Frisco Lines. In 1908 Mr. Duff bought the Beaumont and Great Northern Railway in association with J. M. West. In 1910 he bought the Texas Central Railway and sold it to the Katy Railroad.

All his life Mr. Duff has been interested in public affairs but has never held public office except for the term he served in the Texas legislature.

EMERGENCY FEED LOAN LIMIT RAISED

College Station.—In instances where the applicant has no feed on hand and the general weather conditions have been severe, the regional emergency crop and feed loan offices serving the primary areas have been authorized to allow up to $4.50 a head a month to purchase feed for farm cattle, $6 for farm work stock and $2 for range cattle, according to information received by the Extension Service from the Farm Credit Administration. Otherwise maximum base rates now in effect will be continued.

"The increased amounts will apply only in exceptional cases where the applicant's feed has been exhausted and weather conditions have been severe," Norman Manoghan of the Emergency Crop and Feed Loan Division of the Farm Credit Administration said. "Each application for increased allowance will be considered on its own merits and must be accomplished by detailed information as to the feed on hand and weather conditions."

Applications for loans may be made to the county crop and feed loan committee serving the applicant's county.

TOMATO MEETING SATURDAY

A meeting of farmers interested in growing tomatoes is to be held at the court house in Woodville Saturday, Feb. 9, at 2:30 p. m.

All farmers and business men in Tyler county are invited to attend.

Abraham Lincoln's Anniversary

Before another Booster shall be printed and delivered to the Booster's many subscribers Lincoln's birthday anniversary shall have passed. For this reason The Booster is publishing this week a few Lincoln stories of interest to all. His anniversary is Tuesday, February 12.

New York Herald "Extra" Telling of Assassination of Lincoln is on Display in Houston.

The Houston Public Library displayed an extra edition of the New York Herald, dated April 15, 1865, and which gave first news of the assassination of Abraham Lincoln. The newspaper was loaned to the library by Mrs. W. B. Thorning, to be shown on Lincoln's birthday.

The front page is given over almost entirely to the assassination of President Lincoln and the attack on Secretary Seward and his sons. Three accounts are given in addition to various dispatches. The paper is in "mourning dress," with all column rules set apart by heavy black lines.

The principal story of the assassination appears in the left-hand column under the headlines: "Important Assassination of President Lincoln. The President Shot at the Theatre Last Evening. Secretary Seward Daggered in His Bed, Not Mortally Wounded. Clarence and Frederick Seward Badly Hurt. Escape of the Assassins. Intense Excitement in Washington. Scene at the Deathbed of Mr. Lincoln. J. Wilkes Booth, the Actor, the Alleged Assassin of the President, Etc., Etc." The headlines took up more than half of the column.

At 12:30 a. m. the first dispatch was received. It read: "The president was shot in a theatre tonight and is perhaps mortally wounded." The second dispatch read: "The president is not expected to live through the night. He was shot at a theatre. Secretary Seward was also assassinated. No arteries were cut."

At 7:30 a. m.: "Abraham Lincoln died this morning at 22 minutes past 7 o'clock."

The leading editorial on page 2, on "Assassination of President Lincoln and Attempt to Assassinate Secretary Seward," started off: "An unlooked-for and terrible calamity has befallen the nation."

The masthead shows James Gordon Bennett as editor and proprietor of the Herald. The extra was a four-page affair. Practically all of the reading matter was about the tragedy at Washington.

News took up about a page and a half of the paper. The other two and a half pages were given over to advertising—"Smith's Buchu-Lithia Pills," the advertising consisting mainly of the letters from "respected citizens and "returned soldiers," who has found the pills effective.

Courtroom Which Heard Lincoln's Voice Resounds With His Praise

By Democratic Speaker in Houston

Springfield, Ill., Feb. 12.—Claude G. Bowers of New York, keynoter of the last democratic national convention, stood in the Sangamon county court room whose walls once echoed to the voice of Abraham Lincoln, and painted a parallel between the emancipator and Stephen A. Douglas, his life-long political rival.

"Had Lincoln and Douglas both died in the first year of the civil war, the historical status of one would have been different greatly from that of the other. The Lin-

CENSUS ENUMERATORS OF TYLER COUNTY CHOSEN

E. M. Brewer of Beaumont, director of the 1935 census of Agriculture has appointed C. A. Barclay of Chester and Robert Rotan of Woodville to take this census for this year.

The work covers a number of topics. For instance, how large is the farm, how many acres under cultivation, how many fruit trees on the place. State number of horses, mules, cows, jacks and what else is there.

It is not known how long it will take to go over the entire county, but ere the work is completed, it will have been some task for only two men.

The census is taken every five years.

Woodville Locals

Deep sympathy is felt for H. N. Adams of Colmesneil in the death of his beloved father. Mr. Adams was called to Mabank Tuesday.

Curry Crumpler and sister, Mrs. Ogden of Barbers Hill with the parents, Mr. and Mrs. O. B. Crumpler of Hillister were in Woodville Tuesday.

Miss Nell Gray of Port Arthur spent Sunday with her mother, Mrs. T. R. Gray.

Services at the Christian church tonight. Song service at 7:30 o'clock. Please observe time is half hour later.

J. H. and Mrs. Willard spent Saturday night in Houston driving to Texas City and Galveston Sunday morning. Attending church in Galveston, they returned to Houston in the afternoon and took in the Automobile show. The beauty on wheels of the nation was there, but they drove away in their Dodge feeling well satisfied.

Mrs. P. H. Powell has spent most of the past week here. Some inside work on the apartment that the D. F. Mumsell family vacated is being done making ready for Mr. and Mrs. J. H. Perkins, who will then call it home.

THE SAME, 24 CENTURIES AGO

Aristophanes, the Greek comic poet, in one of his plays, has a bunch of women chant a chorus which might well be put into the movies as "The Follies of 1935." This piece of satire shows that men and women were very much the same in the fifth century B. C. as they are today. In the English translation this is the way the words run:

You're always abusing us women,
As a terrible plague to men;
You say we're the root of all evil,
And repeat it again and again.
We cause wars and quarrels and bloodshed—
All mischief, be it what it may.
Then, say, why do you marry us,
If we're all the plagues you say?
And why do you take such care of us
And keep us so safe at home
And are never easy a moment
If ever we chance to roam?

Woodville Locals

Deep sympathy is felt for Mr. and Mrs. Turner Neal of Peach Tree Village who lost their baby with pneumonia Sunday night. Funeral services were held Monday.

L. B. Hanks suffered a stroke of paralysis Saturday, suddenly stricken while on main street near the Davis Bros. store. Much concern is felt over his condition, and very little hope is held out for his recovery.

Mesdames Clyde, Allen, Carl Phillips and Miss Joe Hawkins were Beaumont shoppers Tuesday.

Prof. and Mrs. J. Webb Miller spent the week end with relatives near Waelder.

Judge and Mrs. R. A. Shivers and grandson, Bobbie of Port Arthur visited Dr. and Mrs. J. E. Shivers Sunday.

Mesdames Booth McAllister and Louis Miller were in Port Arthur Monday.

GOT IT ON THE RADIO! ALAS, IT FAILED TO WORK!

Nobody ever called me up
And asked me for a date;
I sat alone alone all time,
I simply didn't rate.
I thought I wasn't homely,
Or quite devoid of wit;
So I studied long and deeply
To find the cause of it.
I bought me then some Listerine
And gargled it with might;
My lindies got a nice Lux bath
When I took 'em off at night.
I got some Mum, (that's the word,)
To keep me smelling sweet;
I bought Arch Preserver shoes
To put spring in my feet.
My hair got Golden Glint shampoo,
My lips a Tangee-ed lightly;
I poured Murine in both my eyes
To make them sparkle brightly.
Now, sure, I thought, I'll find men
To whisper, "Dear, you're charming."
But still the absence of the brutes
Was really quite alarming.
So I've came to this conclusion:
We might as well admit
You can't buy charm as advertised—
You must be born with "IT."

When and How to Decorate Your Auto

Within the last few days many inquiries have reached this office from tax collectors regarding the date that 1935 automobile license plates should be attached to motor vehicles.

House bill 6 passed by the 3rd called session of the 43 L. G. changed the automobile registration year from the first part of [illegible] this state any time during any month of a motor vehicle registration year without having displayed thereon and attached thereto two license number plates, one plate at the front and one at the rear, which have been duly and lawfully assigned for said vehicle for the current year, shall be guilty of a misdemeanor."

It is therefore unlawful to operate an automobile in this state during [illegible] month of January, and [illegible] this year we see it has been [illegible]

Hiwy Beautification Committee's Plans

Mrs. D. P. Mann, county chairman of the Highway beautification committee, accompanied by Mrs. G. C. Lowe, Mrs. C. H. Kendall and J. E. Wheat, attended a meeting of the County chairmen of District No. 11 and others who are interested in beautifying highways in preparation for the Texas Centennial, at a luncheon in Beaumont last Tuesday.

This meeting was called by the District chairman, Mrs. Liscomb Norvell, in order to get reports from the different counties and to hear an address by Mrs. Sorelle, of San Antonio.

In addition to committees heretofore appointed Mrs. Sorelle urged that committees be appointed in the various counties to beautify the county entrances. Mrs. Mann has announced the following committees for the various highways of Tyler County: Tyler and Angelina counties: Mrs. D. A. Sparger, Mrs. G. C. Lowe, Mrs. Nannie Feagin, Mrs. Fred Mathews, Tyler and Hardin counties: Mrs. C. M. Davis, Mrs. Marlin Sandlin, Mrs. J. E. Wheat and Mrs. C. E. Goolsbee, Tyler and Jasper counties: Mrs. Esca Walker, Mrs. Ezra Eaves, Mrs. A. B. Ford, Mrs. Clyde Phillips, Tyler and Polk counties: Mrs. C. H. Kendall, Mrs. R. E. Pennington, Mrs. R. I. Reid and Mrs. Webb Miller, Tyler and Polk No. 105: Mrs. U. G. Feagin, Mrs. Henry Priest, Miss Jackson and Mrs. Fletcher Barclay.

Supt. Brashier and Mr. Tease will assist these ledies in any possible way.

AUTO TAGS FOR 1935 ARE TO BE MAROON AND WHITE

Automobile license plates for 1935 of all Texas motor cars will be a product of the penitentiary at Huntsville. They will be ready for delivery February 15, 1935. County Tax collectors will receive 1,389,000 pairs of the plates, to be attached to all vehicles on or before April 1.

Material for the work, including 25 carloads of sheet metal, enamel paint and shipping boxes has been contracted for at a cost in excess of $50,000. Machinery to make the plates, bought by the state cost about $3,000.

There will be eight different colors for that many types of motor vehicles. Passenger car plates are estimated at 1,100,000, those plates will have white numerals on a maroon background. Quantities and colors of other types are: Commercial vehicles, 150,000 green numbers on gray background; farm vehicles, 75,000, black and orange; trailers, 40,000, orange on black; dealers, 6,500, black and green; motor buses, 1,500, gray on green; tax exempt (government owned) autos, trucks and trailers, 12,000, white on black; motor cycles, 4,000, black on orange, and side cars 1,050, orange and black.

EXECUTIVE BOARD MEETING SET FOR FEBRUARY 23

Because of a lack of a quorum at the February 5th meeting another date was set for the meeting of the executive board. The new date set is for Saturday afternoon, Feb. 23, at 2:30 o'clock. Please let every church see that your member of the board is present, because we have some very important matters to discuss and decide upon. 9-10-11

COURT HOUSE JANITOR APPRECIATES HONESTY

Early last week Henry Frank discovered that he had lost $15 in bills and for just a few minutes was really ill. Glancing up, after searching his pockets, he noticed Charley Smith coming toward him, and Henry told him of his loss. Mr. Smith listened to him and then handed the bills to him saying he had picked them up just a few minutes before. Henry deeply appreciates that an honest man found them.

FARMERS PROFIT FROM CATTLE SALES

The Government cattle buying program closed in Tyler County Feb. 1, after giving every cattle owner in the county an opportunity to sell his distressed and cull cattle. Besides bringing many needed dollars to men and women who needed them it was a move in the right direction toward herd improvement. The sales benefitted owners to the amount of $36,-616.00.

Boy Scouts Publicity Boosts

Scouting is sound economics.—The gang is capitalized. 90 per cent of crime is the gang. A boy scout patrol is an organized gang against crime.

Good Social Work—The judges of Criminal Courts repeatedly declare that a boy scout rarely comes before a court of justice.

Education Association—The religious education association on investigation placed the scout movement first among fifteen other agencies in tests on educational methods and as to democracy. Most all churches, all the larger ones, have adopted scouting as their boy's program.

Sound Economics—It costs $500 a year to maintain a delinquent boy. Scouting keeps the boy an asset instead of a liability.

Geographically—The Scout movement is now operating in 74 different countries.

Edison Scholarships—The 40 boys selected by the Edison Scholarship Program included 30 former scouts and active scouts. Eight of the ten highest were former scouts, all of the six highest were former scouts and one was a life saving scout.

Honor Students—D. Willard Sutton, former President of the N. E. A. states that 22 per cent of the students of the Atlanta Georgia High School were former and active scouts, but that 85 per cent of the honor students are scouts.

Cecil Rhodes scholars of the class of 1931 were 71 per cent scouts. This has increased from 34 per cent in 1926 to 71 per cent in 1931.

Colleges—54 per cent of the students in colleges are former Boy Scouts. Yet only 16 per cent of the total number of boys have been reached by scouting.

Leadership—In a study of Football captains of the larger American colleges, 59.3 per cent were scouts.

Time—The Scout Movement has lived for 25 years, while thousands of boy movements have dropped out.

Cost—Operating budgets are multiplied many times by thousands of volunteers who render direct service to the boys.

Scouting Looks Ahead to Life—"The Boy Scouts make one of the finest foundations for the responsibility of citizenship in this Republic."—Calvin Coolidge.

Life is worth living only to those who know how to live right.

Warren FFA Boy's 'Feed' February 16

The Future Farmers of America of Warren will give a banquet at 8 p. m. Harris Campbell, the vocational Aggy instructor recently called on The Booster regime and gave out the announcement and also stated we were invited.

We remember the very excellent feed put over by the F. A. A. boys last year at Warren. We also have vivid recollections of what the able speaker, Dr. James Gee, Huntsville, had to say of Vocational Education. In this connection it is well to remember vocational education does not mean vocational agriculture alone. Indeed quite the contrary. Vocational education means learning to do some one thing as well as instructors can put their work over. Home Economics is Vocational Education and nothing else but.

A home economics instructor does not specialize in Latin, Spanish, geometry, typing or American history—and what else have you? But rather the art of home making, which includes cooking, garment manufacture, use of kitchen equipment, etc.

Vocational agriculture teaches everything about farming. Stock raising, poultry, judging stock, correct methods of crop raising and rotation, besides the care of farm land, terracing, etc.

Vocational education is the best and most practical education there is, especially when the student completes high school work and knows he is unable to go on through college.

Dr. James Gee is one of the splendid speakers of East Texas who gets his message clear across and over the foot lights and into the hearts and understanding of his auditors. Warren is particularly fortunate in being able to a second time book Mr. Gee for this occasion.

JOHN W. LAIRD ON UP

John W. Laird, former state representative, is now a member of the State Board of Education, his appointment having been confirmed by the senate.

Grand Jury Asked by Ickes to Investigate PWA Graft Charges—Future of NRA Hangs Upon Outcome of Suit Against Little Sawmill Operator.

By EDWARD W. PICKARD
Western Newspaper Union.

"HONEST HAROLD" Ickes has been handed a couple of shoves by two senior Republicans, but he does not intend to be anything he can cover up in the Public Works Administration. Both shoves were delivered by Senator Hiram Johnson of California, veteran Republican insurgent, and Senator Arthur Vandenberg of Michigan, Republican leader in the senate. Both shoves were delivered in the senate, and both were delivered in connection with the senate's investigation of the PWA.

Secy. Ickes

Johnson's shove was delivered when he introduced a resolution directing the senate to ask President Roosevelt to instruct Ickes to refer to a federal grand jury charges that PWA officials have been guilty of graft in connection with the construction of the Passamaquoddy tidal power project in Maine. Vandenberg's shove was delivered when he introduced a resolution directing the senate to ask the president to instruct Ickes to refer to a federal grand jury charges that PWA officials have been guilty of graft in connection with the construction of the Mackinac bridge between the lower and upper peninsulas of Michigan.

Behind the shoves of these senators are the charges made by Representative Jerry J. O'Connell (Dem., Mont.) that PWA officials have been guilty of graft in connection with the Passamaquoddy project, and the charges made by Senator James Couzens (Rep., Mich.) that PWA officials have been guilty of graft in connection with the Mackinac bridge project.

Behind the shoves of these senators and the charges made by Representative O'Connell and Senator Couzens is the fact that the senate has refused to confirm the appointment of Colonel Lehman Miller, PWA engineer in charge of the Passamaquoddy project, as a member of the federal power commission. WE READ in the papers that wages were raised 10 dollars on the textile mills of Gastonia and 10 cents per hour in the cotton fields of Texas. What we have failed to see is where the laborer is any better off. It seems to us that the cost of living has increased more than the wages.

DIVIDENDS: Everything is selling cheaper than it has been in a long time. Prices are down considerably. Interest rates are low. Taxes are down. Everything is cheaper except the dividends on the investment which have been raised in the form of taxes. Where is the dividend coming in?

WHAT A splendid thing it will be for all of the boys in Bible Book Class of Sam Houston school to see the growing face of Huntington White Swan and Mother Goose characters. It will only cost a dime for a wonderful, noble each day (or nearly so) and it is enough to say that there is no difference, but the dime will decide. This is only the FIRST treat of 5 in the series and should have been done in the American or any other democratic style.

THE DUKIN Daily News came out on its birthday anniversary number commemorating the paper's 21st anniversary. There were 64 pages containing much of the Dukin City's early history. Many early-day responsibilities of pictures were of special interest. The two young men, C. S. Boyles and Jack McDermott, who purchased the plant about a year ago, are making Best Texas newspaper history, and are to be congratulated upon selling their paper to the Dukin businessmen who are actively supporting the paper in a great way.

A LOT OF baloney fescues the Roosevelt administration and then about the terrible, awful action of the Government getting in competition with the private utilities. Those who are clamoring seem to say nothing about raping off a few of the many favors made by the Utilities companies. We have reference to Muscle Shoals plant and the cheaper electric power the Government is going to sell in the Tennessee territory. This is correct and all the "tummyaking" in the world can not change the verdict. Those who think differently are invited to read a story on page one of the issue, datelined from Washington, D. C., entitled "Utility Rates Discrepancies." Wish the Government could send up a little juice to East Texas.

PUBLIC UTILITIES has become to be known as corporational outfits who manufacture electric energy and sell it to the people have the price to pay. The same rule applies to impounded water which is for home use or irrigation. Newspapers come under that general head and are public utilities. But there is a difference. When you, as a user consumer fail to pay your water is removed and the bill is collected from the meter deposit. When a subscription to a newspaper fails to pay his subscription and the time is stopped, the delinquent subscriber knows no more about it than having notice to remove the news. Many newspapers possess no meter system from which to collect and the newspaper must automatically become a collection agency but the borrower still continues to read the paper. It's a great, big, unthinking business, requiring the duty and weekly happenings getting accepted for no publishing some piece of news—and also, publishing some of the things we are not proud of—and supposed to keep it. All newspaper men find pleasure in reporting the good things and are glad to do it, and sometimes we are not supposed to keep it. All newspaper men find pleasure in reporting the good things and are glad to do it, and sometimes we are not supposed to keep it.

Roosevelt, some say, is supposed to know the—Dallas Morning News financial editor. Our guess is that Roosevelt knows a good deal more. If members of the Republican party will get behind the President and help him, the Republican party will benefit.

DIVIDENDS: Everything is cheaper except the dividends on the investment which have been raised in the form of taxes. Where is the dividend coming in?

FINNEY OF THE FORCE — By Tad Dorgan

Positive Answer

Uncommon Sense — By John Blake

If there were no ground there would be no tobacco. If there were no tobacco, some millions of people would not get up when they take chances which are so small as to be practically negligible.

When Isaac Newton noticed an apple fall to the earth in his father's orchard he did not content himself guessing why it fell down instead of up.

He had at the time no information on that subject.

Probably he asked older people so many questions about it that they wondered what they saw him approaching.

No grown-up person likes to be asked questions when he doesn't know the answer.

But the Newton boy refused to be satisfied, with the explanations that were given to him.

He thought over that problem till at last he concluded that there was some force which controlled the apple's movements.

Pesky (but) force, which no man or woman, boy, girl or baby can see, is the secret of most of the really hard physical work, not to mention, mental work, that pitches up well as controlling the movement of the planet itself.

Don't guess. Know. Know all that there is to be known.

Many (but) of those are not any further off, so greatly interesting as some of the other planets, but it is the only one upon which this race of ours will ever dwell.

Our job is to find out more about it as we study it.

Don't be contented merely with looking at trees and flowers.

Find out as much about them as you can.

Always, thanks to Newton, you know why the water comes instead of up. Down to you.

Questions and subjects complete learning. And if you do not constantly learn you will be as little about your fellow dwellers on the earth as is the snow you scrape from the street after a storm.

Snow, indeed, helps the ants make moist and warm the plants or helps rivers (but turn) mill wheels and produce power.

Nothing brings such self satisfaction, as to know that you are doing some thing thrilling, something, bringing into the world some useful thing that has never been known before.

It was could get rid of the losers and get rid of the mind-killers in the world we would cut rid of hatreds and envy.

That is like a lot of energy and brain power that constantly is "lost" by accomplishment.

I know that it is a common practice in this country for hellish politics and politicians.

Don't Sneer — Their politics, and politicians control politics and politicians in the country.

They always will control that country.

And as some early philosopher said: "If you can't like 'em you can't lick 'em."

For a great many years I was a political reporter in Oregon. In that State and in Washington.

I met many crooked designing politicians.

But they were few. I can't say I enjoy to say in the majority.

I knew many honest, earnest men who were trying their best to better such conditions as could be bettered.

They had been doing that through out their lives.

Those men discovered first in a country where the ballot is free what is called politics is the only force which will make things right for the better—or for the worse, for that matter.

Ever a long time I supposed that every member of the political faction which controlled the State—city and which I live was a member of that.

Since then I have learned that many of the leaders are really sinner men, who would not take graft under any circumstances and who are really trying to get bad men out of office and good men in.

If you will turn back the pages of history you will discover that some of the country's most revered men and women have been politicians.

Lincoln was one. Franklin was another.

Human nature began as human nature, and, so far as I can discover, is likely to remain so.

But not every man in office hungry because he wants a fat salary or because he thinks that his personal business will be helped if he joins some patriotic party.

Many of them are sincere and honest.

They want to do something to make their country better. They come to oppose the morals and heighten the ambitions of the men and women around them.

They want to make of their country a better place for their children to grow up in.

Outbreaks such as have occurred in the last few years by gangsters and racketeers had their start in the conduct of a great power — the citizens of any and every land.

Show that the people of a nation where it is safe to be honest, where it is safe to be clean, where it is safe to be

PETER PREACHES AT PENTECOST

LESSON TEXT—Acts 2:14-36, 38-39, 41-42.

GOLDEN TEXT—Then Peter said unto them, Repent, and be baptized every one of you in the name of Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost. Acts 2:38.

PRIMARY TOPIC—When Peter Preached a Great Sermon.

JUNIOR TOPIC—What Peter Preached at Pentecost.

INTERMEDIATE AND SENIOR TOPIC—The Source of Spiritual Power.

In teaching this lesson it is essential that the full meaning of Pentecost be apprehended. It is desirable, therefore, that the entire second chapter of Acts be brought into view.

I. The Day of Pentecost Fully Come (vv. 1-13).

1. The significance of the day (v. 1). Pentecost is from a Greek word meaning fifty. It was the feast held fifty days after the wave sheaf offering (Lev. 23:15). The wave sheaf typifies the resurrection of Christ (1 Cor. 15:20-23).

2. The gift of the Holy Spirit (vv. 2-4). On this day the Holy Spirit descended upon the disciples. This does not mean that the Spirit was not in the world before, for He has been in all the ages he has been in the world, giving light and life to it.

3. In what the Spirit came (v. 1; cf. 1:12-15). The twelve and others, both men and women, to the number of one hundred twenty, which shows that the gift of the Holy Spirit was for all believers, not merely the apostles.

4. The notes of the Spirit (vv. 2-4). These marks were external and visible.

a. Sound. (1) The sound of a mighty wind (v. 2). This suggests one of the greatest pervasive and powerful energy of the Spirit.

b. Tongues of flame (v. 3). Each of the one hundred twenty was crowned with such a corona for witnessing.

(2) Speaking in foreign tongues (v. 4). This miraculous gift characterized the apostolic age, but no authentic case has been reported in modern times.

5. Results of the Spirit's coming. Peter, who shortly before this covered before the maid, now, with his associates stands before the chief rulers and declares that they have murdered their Lord and Saviour (vv. 36).

II. The Effects (vv. 5-13).

a. The multitudes were filled with wonder (v. 5-12).

b. Some mocked and accused the disciples of being intoxicated.

III. Peter's Sermon (vv. 14-47).

Peter's sermon is as wonderful as the gift of tongues. It demonstrates the oneness and power of the Spirit because he was a Galilean fisherman, without literary training. His homiletical analysis is perfect.

1. The introduction (vv. 14-21).

a. Defense of the disciples against the charge of having drunk (v. 15). He cited Jewish custom showing that they would not be drunk at such an early hour in the day.

b. A scriptural explanation (vv. 16-21). He showed that this was a manifestation of Joel's prophecy (Joel 2:28-32).

2. The proposition, or theme (v. 36). This was the crucifixion of Christ (1 Cor. 15:20-23).

3. The argument which followed proved that Jesus was the Lord upon whom they were to call for salvation (vv. 21-35).

a. The argument (vv. 22-30). It was threefold.

(1) From Christ's works (v. 22). He was approved of God among the Jews by his miracles, wonders, and signs, which, they were compelled to admit.

b. From his resurrection (vv. 23-32). This Old Testament Scriptures had foretold the death and resurrection of Christ (Psa. 16:8-10). The disciples themselves were living witnesses of Christ's resurrection (v. 32).

c. From his ascension to the right hand of God (v. 33). The proof that he had ascended on high was the wonderful miracle of the Spirit's operation in their midst (John 16:7).

4. The duties of the sermon (vv. 37-42). Many people were convicted of their sins; some three thousand received Christ and were baptized. The evidence that the coming of the Spirit was real was:

a. That they continued steadfastly in the apostolic teaching (v. 42).

b. They continued in fellowship with the saints (v. 42).

c. They continued in prayer (v. 42).

d. They gave their possessions to sustain those who had need (v. 45).

e. They lived gracious lives (vv. 46, 47).

Source of Disorder

An improper use of time is the source of all the disorders of this realm; another use, it is a treasure, which we would wish to retain forever, yes, which we cannot suffer to remain in our possession. This time, however, of which we speak is little, important, the very means of our eternal salvation.

Just a Little Smile

SHADOW OF DOUBT

Mrs. Birdface was trailing her diminutive husband round the big store much against his will.

After purchasing several neckties she paused and looked pensive.

"Ish," she said at last, "I remember. We want a lamp-shade for the drawing room light."

Presently the article in question caught her eye.

"There's the very lamp-shade I wanted!" she cried. "It's two guineas. Don't you think it will do, Jedh?"

He shook his head.

"No, my dear," he replied miserably. "I think it's a shade too dear."

Town a Bit Slow

"Well, how are things in the old home town?" asked an early-day resident of a former neighbor whom he met in Chicago.

"Say," replied the old neighbor, "you remember how dull the town is. You remember Bill Watson? Well, he dropped dead in front of the post office one Sunday and they didn't find the body until the next Thursday."

Heaven, No!

Clerk—May I have the afternoon off to go to the dentist? My tooth is aching dreadfully.

Chief—You only came back from your holiday today. Didn't it ache then?

Clerk—Yes, it tortured me all day and I could not sleep at night.

Chief—Why, didn't you have it out then?

Clerk—What? And spoil my holiday?—The Indian Sachem, London.

His Heir

"I have something I have to say to you—er—something very close to my heart, and—er—

"I think I can guess what it is.

"Indeed—have you?—You know you—

"Yes, you want to ask me where I put your last when you came in!"—Montreal Star.

Red Tape Forever

Bandit—Hands up! Out with all the money you've got.

Post Office Chief—One minute, please—kindly fill out this withdrawal form.

Intricacies

"A financier has to be an expert to explain intricacies of finance."

"Yes," answered Mr. Dustin Star. "But it's easier when he's talking to a board of directors and not to a grand jury."

Fancy Work

"And we are young, will you?" sang Will—when I come back from Manila."

"I'll be as young when I'm back!" answered Penelope. "I am not going to—Lippincott's.

And Indigestible

"I haven't much time for music," said the fair driver, "I accidentally have a bit at the wheel."

"What's it, Alf—tough?" shouted Bill, "and sic before—Vancouver Province.

No Fake!

Registrar—Have you been married before, madam? And, if so, to whom?

Prim Miss—(primly) Do big (dear) Mummy best.—London Humorist.

Heard

Mr. B.—I can't stand this meddy, money, money business much longer. The next time you mention money I'll leave you.

Mrs. B. (sweetly)—How much does?

Great Things

He who will do great things must put himself together.—Goethe.

Dr. Caldwell's SYRUP PEPSIN
It isn't what brand of laxative you take, that's so important—it's the form. A liquid laxative can be taken in any required amount. If only a little is needed, you need never take a bit of more.
Doctors favor the easily measured liquid laxative. Instead of any form that does not ensure variation from the dose is needed now you'll be an overdose for you—or your child.
Always remember this one thing about constipation: *the secret of any real help is correct dosage.*
Give the bowels only as much help as they may be needed, and they hold on the need grow less. You will find Dr. Caldwell's Syrup Pepsin an excellent aid in regulating the bowels. It relieves sense and colors, natural laxative action, and clear up any bilious, sluggish condition without upset. Delightful taste, pleasant to swallow. You'll straight for it.

SOCIETY NOTES

Mrs. Mattie Hewett was hostess at the Crescent theatre Tuesday afternoon to the Study club. The subject is still laid in Italy and History and Achievements of Rome studied.

On Friday, January 25, Mrs. C. M. Davis was hostess to the Bridge club at three tables. A valentine motif was carried out in decorations and bridge accessories. Mrs. McKee found that the verse on her tally, "You Take the Cake," really meant it for when prizes were presented, she received a cake of Yardley's soap. Mrs. Bennie Dismukes held high score and Mrs. Carlton Young won cut gift. A delicious sweet course with coffee was served which called forth many compliments on the hostess, as a chef. Last week the Friday club enjoyed the afternoon with Mrs. Mattie Hewett at three tables. Mrs. R. A. Cruse held high score and Mrs. Dave Mann won cut prize. The serving of a chicken salad course with coffee brought to an end the afternoon's hospitality.

The ladies of the W. M. U. of New Bethel Association met at Chester on Wednesday of last week in an all day session. At 10 a. m. the President, Mrs. W. M. Maddox of Hillister, called the house to order, and opened the meeting with a familiar old song, Mrs. E. J. Riley leading and Miss Ida Barclay at the piano. Mrs. C. V. Mashburn led the devotional, and Mrs. E. J. Riley welcomed the visiting members. Mrs. J. R. McCombs, in the absence of Mrs. Robert McCombs, made response. Recognition of visitors was made. Then Mrs. F. W. Wilcox of Beaumont used the time until noon to speak of the duties of officers and chairmen. Mrs. Wilcox is one of the most beloved mission workers in Texas and each time she speaks, those who hear her have only one regret, that every woman in the church is not there to learn and enjoy the messages. Mrs. J. M. Lewis of Hillister led in prayer and gave thanks for the happy association and the dinner to be enjoyed. Plates were served by the Chester ladies, which were enjoyed. This basket dinner is always a big part of these all day meetings and Mrs. E. J. Riley stated later that Chester wanted the meeting again soon and would furnish all the luncheon and visitors need not bring any. When the meeting again came to order, Mrs. W. H. Mormion of Beaumont spoke on the Young People's work, calling upon Mrs. Jack Wall, leader of young people of Magnolia Baptist church in Beaumont to tell of her work. Rev. Hogan, a returned Missionary, and now district associational missionary of this district was present and recognized by the chair. Mrs. Ralph Davis of Kountze reported the work of District Mission study. Minutes of the last meeting were read by Sec. Mrs. B. V. Ferguson of Hillister and old and new business cared for finished a day of real pleasure and value to all who attended.

Woodville Locals

Mr. and Mrs. Floyd Pope are rejoicing over a baby grand daughter who has arrived in the home of their son of the Shiloh community.

Mr. A. B. Ford enjoyed a visit Sunday from her brother and wife, Mr. and Mrs. Graham of Bryan.

C. L. Williford who has been living on the C. S. Spurlock farm at Hillister has moved to the Ernest Williford farm and Mr. Spurlock has done quite a lot of work on the inside of the house. They are moving back there this week. A host of friends are sorry to lose them from Woodville, but are glad that they will be near.

NUMBER ONE

(Number One—Continued from Page 1)

coln of history was developed, or brought out by the sufferings and struggles of four blood-soaked, tear-drenched years of loneliness and anxiety," Bowers said.

"Politicians scorned Lincoln to the end of his life, and the people will love him to the end of time.

"No two great leaders of opposing forces in all history have been more strangely identified in their careers. They were cast for opposing roles in many a drama of their day, their lives touched at many points, and as long as Lincoln is remembered Douglas can not be forgotten.

"By all the dictates of convention all the advantage in the contest should have been with Douglas. Douglas had the back ground of success; Lincoln of failure.

"The year that Douglas was admitted to the bar, Lincoln went to the legislature where he was soon joined by Douglas, and these two youths instantly took rank as debaters and managers of men. It was Douglas, not Lincoln, who offered the constructive measures.

"And then Douglas forged ahead with his election at 30, to the nations of Congress. The next three years are the least inspiring in the life of Lincoln; the most fruitful in that of Douglas. Lincoln entered Congress without the enhancement of his reputation.

"This, to me, is one of the mysteries of Lincoln. Nine years before the great debates, eleven years before the presidential contest of 1860, no prescience could have foreseen the possibility of the reversal of the positions of Lincoln and Douglas.

"When the Kansas - Nebraska act called Lincoln again to face his old antagonist, it was a new Lincoln that appeared—a deeper, sadder, stronger, simpler, humbler, nobler Lincoln, convinced of the elemental truth of his position. Henceforth until the last phase, while Douglas was dealing with what we now know to have been phantoms and fighting shadows, Lincoln with inspired vision was struggling for the eternal verities on which depend the value of humanity and the ultimate success of American democracy."
