## NOW YOU CAN HAVE Air Conditioned REFRIGERATION

Fresh pure air is constantly circulated at just the right temperature and humidity to keep your food in perfect condition. That's modern air-conditioned refrigeration with ice!

**Odorless, Tasteless Refrigeration!**  
 Odorless, tasteless, because the constantly changing air freshens the interior of the modern ice refrigerator, thus removing strong odors. This air-conditioning process makes it possible to place in open view butter, eggs, milk, in the same storage space with condensation on other food with a distinctive odor. The air-washing effect of the melting ice carries all odors off your refrigerator. Each food retains its own individual flavor. Ask your dealer to demonstrate this new method of refrigeration to you.

Use ICE for Air Conditioned Refrigeration. FREE REFRIGERATORS! MRS. E. J. WHITTON of San Antonio, Texas, and the beautiful Refrigerator given her as a wedding gift.
