There's no need to cover foods in a modern Air Conditioned ice refrigerator

The 1935 RHINELANDER
 Handsomely designed in sparkling white porcelain enamel. Heavily insulated. Needs no covering. Only once for four to seven days. Contains over eight square feet of glass and floor space. AIR-CONDITIONED refrigeration. \$24.40. Other models \$22.00 up. Easy terms.

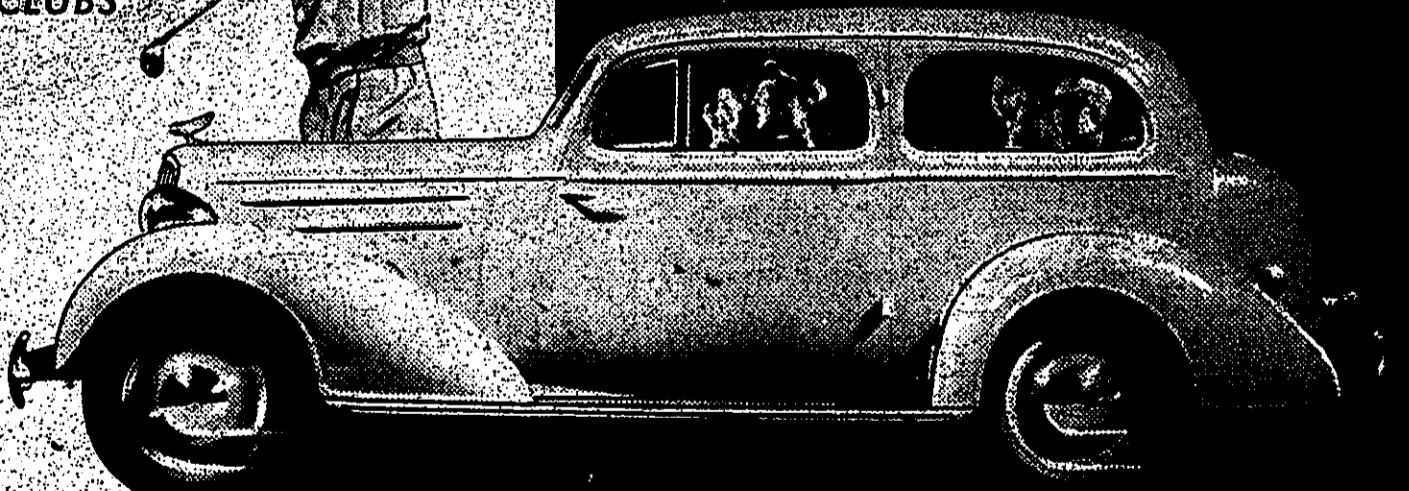

1. Proper Humidification. The melting film of water on the ice keeps humidity properly balanced, neither too moist nor too dry.
 2. Elimination of Food Odors. Objectionable food odors are picked up by circulating air, absorbed by melting ice and passed out through the drain.
 3. Uniform Cold Temperature. A continuous flow of cold washed air maintains temperatures below 50 degrees throughout the entire food chamber.
- Modern AIR-CONDITIONED refrigeration with ICE gives you the thick-ribbed protection of low cost heavy insulation and improvements in design make re-charging easier only once in every four or five days in summer and once a week in winter. For beauty, convenience and economy, investigate the new AIR-CONDITIONED ice refrigerator TODAY. Ask for 10-day free trial.
