One way to prevent bloat in cattle is to feed them a diet of roughage. This includes hay, straw, and other dry feeds. It is important to provide a good quality roughage to keep the digestive system healthy.

# QUITS Advertising FAILS! [To Continue in BUSINESS in WOODVILLE]

SOME THREE years ago Parker Bros. Variety Store folded up, and Morgan & Lindsey opened up in the same building with another variety store. The manager did some local advertising, and had several sets of circulars printed—some in Woodville and some in out-of-town printshops. Then for the printer some period of "sight time" Morgan & Lindsey did no advertising.

BUSINESS WITH Morgan & Lindsey was good the first year, and during that year they had quite a little account with the local printers for advertising. The second year was not so good—no advertising to speak of.

SHORTLY AFTER that a change in management was tried, and was only a short time after that still another manager, arrived to take charge of the Morgan & Lindsey Variety Store.

THESE LAST two new men did not spend a cent in advertising the business, and late May the word was given out that Morgan & Lindsey's stock was being packed up preparatory to moving to a new location.

THE BOOSTER has been unable to locate hardly any advertising carried by any of the papers in the towns where the Morgan & Lindsey stores are located.

AS COMMENTING on a like condition in Illinois the Log Cabin paper said:

No amount of handbills, circulars, signboards or other devices can take the place of the Newspaper that goes into the home and is read by every member of the family. And by the way, did you remember a Neighbor's boy come to borrow a handbill? Folks do borrow their COUNTY PAPER and READ EVERY WORD IN IT.
