WHERE LOYALTY ENDS

Many local merchants have complained for years that an unusual amount of money that should be spent here is being spent annually in the larger cities for merchandise that can be bought in Crockett for practically the same price. A brief moment's thought by these merchants would quickly bring to light the reason for this expenditure away from home. It stands to reason that Crockett citizens do not know what merchandise is in Crockett stores unless they are told about it. Stores in larger cities spare no expense in territory what they have to sell. The in the larger cities tell prospective medium of newspaper advertising is in short, the reason Crockett money is spent elsewhere. The merchants' course, exercise a certain amount of customers through ads what they have to sell. Crockett merchants don't. Crockett citizens should of town store does not think enough of loyalty in buying from home town stores, but where the home town store control against the local sales to and for them the element of loyalty should no longer be considered by the buyer.

NUMBER ONE

(Number One—Continued from Page 1)
The crucial test is now at hand. If you ever intend doing anything really BIG in this race, DO IT NOW. Instead of being in second, third, or fourth or in fifth place, get up at the top and stay there.

Now is the time to secure an insurmountable reserve vote. Now is the time to make reasonably sure of the price you must receive.

Never again after Saturday night, Sept. 28th, and Saturday, Oct. 5th will it be possible to secure the full voting power on subscriptions. This is final and fair warning. To hold back now and to rely on promises to subscribe at a later date simply means that you will have to take less votes on such orders. We are putting it up to you squarely. If you entertain any desire whatever of being declared the winner of the Ford Tudor Sedan, the Chevrolet Coach, or any of the other awards to be given away on October 28th, do not fail to turn in every available subscription for your account before the close of the big credit offer. Not to do so simply means that you will have to double your efforts during the remainder of the race to make up for lost ground. A few long term subscriptions NOW, while they count most, may be the very ones needed to "catch" first honors.
