Visit Spoiled
Sunday afternoon Mr. and Mrs. Cordell Collier visited in the C. M. Davis home and when they started to leave discovered their car gone. Some time later they returned to Hillister in the Davis car. During the night the Collier car was left in front of the Davis home and when he returned the Davis car Monday a. m. his car was still there. However there was no card of thanks attached to it nor cash to cover gas and oil and use of the car.

Old and New
This is slightly out of our line, except that we reveal in all kinds of gossip. The gossip is that all is not well within the State Department of Public Safety. It seems that the Rangers, who are allowed to retain their glamorous names, also want to retain their traditions, and the State Department is not willing to do this. The Rangers would be brought up to date. Plans are being made in terms of reduction and fingerprinting same, while the Rangers are being told that their job is to go out and hunt for the bad guys and to hunt with their own hands.

Did They Call Your Name Last Week?
Among the freak writing business for 1936 was the creation of insurance coverage for motion picture theatres that used the "Bank Night" idea and similar awards to pull in the crowds from the sidewalks. The National Insurance Underwriters is said to have written a policy to insure a theatre patron's chance of winning an award. London's Lloyd's has been approached in this form of coverage but has not yet entered the field. In fact, the policy is so absurd that it might be considered a joke. It would insure a patron's chance of winning an award. London's Lloyd's has been approached in this form of coverage but has not yet entered the field. So's Your Old Man
The following income tax report is said to have been sent in to the Washington officials: "GENTS: The enclosed forms on which I am asked to make a record of my income for the last fiscal year, is returned to you with my respects and deepest appreciation of this subtle form of flattery. I was particularly impressed by its resurrection of old forms and figures of English speech such as 'compensation from outside sources,' 'net profit received,' 'income from rents,' 'interest on bank deposits,' etc. "The question I got a great laugh out of was 'Were you during the taxable year supporting in your household one or more persons related to you?' Boy, that's a honey! "Say, Mr. Secretary, you would be surprised. There are so many persons closely related to me staying at my home that I can't tell you would call surroundings. Only the bluest day, three more distant cousins of my wife's, plus a visiting new high school friend, and one of them brought a friend."

Another BIG Tomato Yield From LONE STAR BRAND 6-10-7 Fertilizer

LONE STAR BRAND 6-10-7 IS THE RESULT OF EXPERIMENTAL WORK CONDUCTED WITH TOMATO GROWERS THROUGHOUT EAST TEXAS.

Tomatoes are a fast growing crop and require a High Grade Fertilizer with a correct amount of different sources of Nitrogen, sufficient Available Phosphoric Acid, and a liberal amount of Potash to balance the Nitrogen and Phosphoric Acid. Experiments now being conducted may prove that 7% Potash is still not enough for the largest possible yields. Fertilizer should be well balanced in order that Big Yields can be produced without impairing the quality.
The TEXAS FARM PRODUCTS COMPANY are continually conducting experimental work with Practical Farmers and Vocational Agriculture Teachers right in your community and are closely watching the Quality and Production from the time the plants go in the field until the fruit reaches the Eastern and other markets. This is the kind of co-operation you want. Fertilizer Manufacturers are giving the farmer and that is just the reason you see so many boosters of Lone Star Brand Fertilizer.
WE RECOMMEND LONE STAR BRAND
