THE BOOSTER BOOSTS FOR A GREATER WOODVILLE. BETTER SCHOOLS. MORE GOOD ROADS. MORE EPIC FARMING. DIVERSIFIED FARMING. A NEW COUNTY BUILDING. TAX REDUCTION. SUCCESS IN TAX PAYMENT. NEW BUSINESS BUILDINGS. BETTER HOME EDIFICES. BETTER MAKE WOODVILLE A BETTER PLACE IN WHICH TO LIVE.

WHO EVER heard of a successful man attending only by pedagogues?

UP AT DALLAS is a fellow who wishes to write features (?) for the country press under the head of "Nobuddy's Business." Well, after looking over his stuff we imagine it is just that, and why we did not fall for his line of literary bunco.

IT BEGINS to look as if during the coming primary election campaign the air is filled with mud balls, just the same as in north the air is full of icicles and snow balls. About the only difference is the fact that mud balls are clean and did you ever see a clean mud ball?

A NEWSPAPER friend of The Booster's writes out in Oregon has returned to writing his own paper. He says: "I'm most respectful about what you've done up a newspaper of which you have been editor during the best and most active years of his life. He has the best of it, and he would have folks say the thing that would have spared him to attempt bigger and better things for the country. He has a good eye in the 'Gulf' Grove. (Ore.) Sentinel."

THE INTERSCHOLASTIC County League of the Woodville High School has been organized. The league is composed of the following schools: Woodville, Dallas, and several others. The league is a very important one, and it is hoped that it will do much to advance the interests of the county.

WE ARE about to get under way with a new city government. It is in the air things are going to happen. Somebody said something about investigating a franchise for two or three outfits operating in Tyler county. For the sake of the county, let us hope that the investigation will be a success. Another set of citizens are looking for acceptable places in which to place poles upon which to string electric light and power lines. Then, too, there is another set of citizens who wonder how some—along about election time there appears to be no activity seen in the genre of collecting signatures for taxes. Wonder if the appropriate primary election has anything to do with a hands-off policy. It is a fact, politics and business seem to get along better at election time than any other time in both prosperous times and times of depression at all.

My attention to the Woodville high school last week while making my home with her sister, Mrs. J. E. Bell.

Mrs. A. D. Carson returned Friday from Groesbeck, where she was called by the illness of her son. Jack has been seriously ill with pneumonia.

The Misses Christine Egan, Irene Davis, and Francis Williams and their guests, Miss Martha Miller of Tostine and Miss Margaret Dierkorn of Dallas returned to their studies at C. J. A. Denton last night after spending the spring holidays in Tyler county with their parents.

T. J. McCubber of Doucette is recovering from a recent operation at the Woodville hospital. John L. and Willie Lee, sons of Mr. and Mrs. W. L. Russell of Doucette are also in the hospital with pneumonia.

GASOLINE CONTAINS 1,000 DIFFERENT INGREDIENTS

A number of interesting facts about gasoline, not generally known to the public, have been revealed by the world's largest producers and refiners of oil in connection with a series of advertisements begun in the "Booster" this week.

In adopting the phrase "Keep in Step with the Calendar" as our advertising theme for 1938, we believe that few people realize that gasoline is a mixture of more than 1,000 different substances, and that certain of these chemical properties must be carefully controlled according to the weather conditions to give the best possible performance.

Sharp Shooting in Newton County
 By F. E. Pope

Newton, March 31.—(Dot. Mr. Willard.) Yesterday morning, about 8:30, while rolling smoothly and almost noiselessly along highway 48, between Woodville and Town Bluff, and enjoying to the fullest the beautiful vista of green spread before me a big male timber wolf jumped into the middle of the road right in front of the car and then into the brush on the left. He seemed to be in a great hurry to get somewhere; but, like Lot's wife and some others, he made the fatal mistake of finally pausing to look back.

I brought the car to a sudden stop and while my left hand was rolling down the window glass, my right was reaching back to look back at the terrible monster he had just seen. His stop was very brief, or so I intended, but just as he was in the act of turning his head, a little 22 bullet struck it, a glancing blow, knocked his right eye out and bringing him down. However, he was up at once and crawling around in the brush, evidently badly injured. He finally crawled back into the highway about 100 yards below me and I got out of the car and after him with a vague hope of running over him if he kept at the road, which he did, for at least 200 yards. I had to get the car up to about 50 before overhauling him and as I did not care to do any quick dodging at that speed, I finally ran by him and brought him to a stop. As soon as I was within 100 feet of him, he turned out into the woods but instead of taking off at right angles, he continued to crawl the road, the car following. I let him have a couple of shots so fast that they were practically as one, both bullets passing through his heart less than an inch apart.

Thus ending the long and no doubt bloody career of a born killer. However, I must say I derived no pleasure from the deed, for as I looked down at the still form of this magnificent specimen of our native wild life, I realized that he was no wise to blame for being as he had been. He had been created by nature to fill a niche in the general scheme of things—a kind of governor of balance to check certain parts of nature in check to prevent overproduction of certain species, etc., which formed his natural prey. Man is the villain who has upset things generally and made a complete mess of the whole original scheme. In fact, the Lord or Creator, once he became disgusted with the way man turned out, he decided to wipe the slate practically clean and start all over again.

However, there is one thought there which has always been a puzzle to me. God must have

The New Pain-Relieving, Alka-Seltzer, Effervescent Tablet. Watch it bubble up, then drink it. You will be amazed at the almost instant relief.

It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Aspirin-Salicylate) it first relieves the pain of every-day ailments and then by restoring the alkaline balance corrects the cause when due to excess acid.

After trying many brands of medicine, I called for Alka-Seltzer, and all of them failed. I gave up hope. By chance I tried Alka-Seltzer, and no more than satisfied. Get Bennett's.

IT'S TIME TO Summerize Again!

Your Car needs this SEMI-ANNUAL CHECK-UP!

Summer is hard on automobiles. The higher temperatures used for quick water starting are not made to stand up to the terrific heat of hot weather driving. For best protection and smoothest performance, you should have a semi-annual check-up.
