

WOODVILLE

WOODVILLE is the county seat of Tyler County, Texas, and is located on the northwestern corner of the state. It is one of the oldest cities in Texas, having been founded in 1856. The city is situated on the banks of the Red River, which is one of the largest waterways in the state. Woodville is a thriving community with a diverse population and a rich history. It is known for its beautiful scenery, historic architecture, and warm hospitality. The city is a major center for commerce and industry in the region, and it is home to many of the state's leading businesses and organizations. Woodville is a city that offers the best of both worlds, combining the charm of a small town with the amenities of a large city.

THE BOOSTER still thinks Herb Hoover and Al Smith would make a great pair of presidential candidate partners. He is on the same ticket, and you tell 'em, wouldn't the constitution be spoiled?

LEAVING ALL kidding aside, how'd you like to be the 2-millionth person to attend the big Dallas show? If you've read the daily papers properly you know what happened to Fred E. Beuge of Norman, Okla. He was the millionth person to enter the Texas Centennial. And the officials took him in hand and showed him things he didn't even know were on the inside of the gates. He had the time of his life, and friend: wife was back home in Oklahoma.

SOME OF the juke warm judges certainly take the cake in the gentle art of passing the buck. We never did blame some of the judges for dismissing booze cases now and then. Foot fellows, they were probably dry. But for a judge to give a suspended sentence, on a proven charge of driving an automobile without a license, even partially suspended, is beyond the most wild imagination of any right-thinking citizen. The daily press is publishing, nearly every day, court action proceedings where the suspended sentence is given. Does Texas need the result act? You tell 'em, brother, you tell 'em.

THE BOOSTER made a mistake last week. Picked up a wrong signature line. And the ad under the Sutton-Fain folks began to show up. Some Bill Parsons attempted if he ever does go in the auto business, he'd consider the Chevrolet. Consider is right—because the firm of Sutton-Fain never will let that agency get away from them. However, there were two of us to blame. We gave a good printer the line and he proceeded to work some 20 minutes in getting it properly adjusted. The merchant, played ad, and he admitted he never read the type just made. It hit right. Speak up about newspaper errors. They happen for the best shops all over America. The wonder of it all is that there are not more errors of commission and omission. Count the separate letters that go to make up a line of reading in your favorite newspaper, and then try and figure out how many chances there are for mistakes. Would it surprise you to know there are some 50,000 chances to go wrong?

IN THE general trend of events it seems Woodville is shy two important necessities. When we say necessities we mean just that. Stop lights are needed terribly bad at the four-house corner where is located the Folin theatre, the City Hotel and the Bill Parsons Service Station. It is going to be necessary to kill a couple of citizens before this safety device is installed. No, the device is not howling just to hear itself think, quite the contrary. We are pleading for the safety of each person who has to cross the street at that corner. Stop lights are needed terribly bad at the end of packed cars to see if he can safely make the attempt to cross highway 40, or to turn on highway 40. Let's not wait until we have a pile-up in a gas station, or at Magnolia cemetery. If you don't think that corner is dangerous as we have pointed out, suppose you make a bet on it. "I WOULDN'T RISK MY LIFE ON ANY OTHER TIRE"

Says Louis Meyer—
Only three times winner Indianapolis Race 28 33 36

EQUIP YOUR CAR WITH
Firestone
GUM-DIPPED TIRES
for Greater Safety!

THERE is a reason why Louis Meyer won the 500-mile Indianapolis race this year—and why he is the only man ever to win this gruelling race three times. He always used Firestone Gum-Dipped Tires, and never experienced tire trouble of any kind.

Louis Meyer knows tire construction. He also knows that to drive for 300 consecutive miles over the hot brick track, negotiating the dangerous curves 80 times at the record-breaking average speed of 109 miles an hour, requires tires of super strength and greatest blowout protection, as a blowout on any one of the dangerous curves would likely mean instant death. By the Firestone patented Gum-Dipping process every cord in the tires on Louis Meyer's car was soaked and coated with liquid rubber, thereby preventing internal friction and heat. This is the secret of the extra strength and reserve safety built into Firestone Tires.

When you make your holiday trip this week-end, you of course will not drive 109 miles per hour, but at today's higher speeds you do need tires that will give you greater blowout protection and will stop your car up to 25% quicker. Take no chances! Let us equip your car today with Firestone Gum-Dipped Tires—the safest tires built. It costs so little to protect lives worth so much!

SOCIETY NOTES

One of the lovely affairs of the summer was enjoyed at the T. E. Wheat home when Mrs. Wheat was hostess to the friends of the Ladies Aid of the Methodist church. Mrs. George West of Laredo was the guest of honor. The table appointments were of the most artistic and the refreshments of chicken salad, take and food were served. The evening was very enjoyable and the guests were most complimentary. Mrs. Bennett Dismukes, Mrs. O'Brien, Mrs. C. M. Easley and Mrs. Neel. Mrs. Walt Barclay called on her friends at the home of Mrs. Neel. Mrs. Neel received a lovely gift from Mrs. J. Wood Fain. Mrs. J. Wood Fain entertained with three tables of Monday, Thursday afternoon in honor of her guest, Mrs. Martin. Mrs. J. Wood Fain was hostess to a party at her home on Monday. Chevrolet owners say: "We got \$200 worth of extra values by choosing the only complete low priced car!"

... and these owners are right, as we believe you will agree when you consider the following exclusive Chevrolet features:

Think of the extra dollar value in one great tire feature alone - NEW - PERFECT - INFLATED - BILKIN - which will keep your tires from developing all ways ruptured - always dependable.

There is also plenty of extra value in Chevrolet's SOLID STEEL one-piece TURRET TOP - it puts the safety of solid seamless steel over your head and protects your legs - keeps the car cooler in summer and warmer in winter.

Another feature that will be worth a great deal to you is Chevrolet's IMPROVED KNEE-ACTION GLIDING RIDE - it absorbs away bumps and holes - assures perfect comfort for both you and your passengers - it's recognized everywhere as the world's smoothest, safest ride.

Also extremely valuable, also exclusive to this car is FISHER NO DRAFT VENTILATION - think of how convenient it is to be able to stop in refreshing breeze on the hottest days - eliminate drafts - prevent clouding of the windshield in bad weather - all at a touch of the regulator.

The extra value in Chevrolet are yours still higher when you consider the advantages of SHOCKPROOF STEERING - it eliminates steering wheel vibrations, protects your hands and arms from constant shock, makes driving easier and safer than ever before.

And, finally, there is Chevrolet's HIGH-COMPRESSION VALVE-IN-HEAD ENGINE - not only does this engine give the finest all-round performance, but it will also save you many dollars a year in gas oil and maintenance. Add them up, and you will find that these exclusive Chevrolet values are worth at least \$200 to you!
