THE BOOSTER is trying to show in "Woodville" that it is presenting the terrible picture of Sunday Death, two days and donating the take-in to the city to help install traffic signals and a red light and a green light in an attempt to make that corner safe for the citizens, young and old. It is a fact the Booster is writing about that corner for over two years, and the reward is in sight.

IT IS HOPED the city dads in preparing a parking ordinance will insert a couple of rows of teeth sharper than the d. Lets make it expensive for a few of the through town motor vehicles, who apparently imagine they have full and complete right-of-way, not understanding the streets have a very considerable amount of pedestrian travel. It is to be hoped infections of the foreign automobile laws will prove to be very expensive.

SURELY, WOODVILLE is lucky. This community managed to get through dry, without city water for almost a full week and we had no fire in a darning nature. Furthermore, the Booster says Woodville is lucky in that the natives hereabouts have not had to pay a visit to the City of the Dead.

The lights are installed, but they are installed, but then it would be possible to place the blame on the other party.

THE AMERICAN Bar Association is calling the rotten

criminal procedure today is that the Judges of the courts permit newspapers to usurp the courts' own functions and duties. And those judicial proceedings in which American criminal justice most needs to be a fair investigation of the "truth" Attorney General Lutz declared, are only the arbitrary, smug, violently prejudiced and punished by the press. And, as many crimes are committed in the name of freedom of the press, he added, "in the name of liberty itself."

The Man Who O O
Tales and Traditions from American Political History
FRANK E. HAGEN
ELMO SCOTT WATSON

INSURGENTS
FORMATION of the Union party for the first time and the nomination of Representative William Lankie of North Dakota for President recalls some of the other "insurgent" parties which have played their part in our political history. The first of these was the Peace party of 1812, composed of Democratic-Republicans and Federalists, mostly in New England, who opposed the War of 1812. In 1824 there was a Peasants party, composed of Democrat-Republicans, who favored choosing electors by the people and in 1825 there was a Coalition party, so-called from the union of its supporters of Henry Clay, with those of John Quincy Adams to elect Adams. There was an Anti-Masonic party in the field from 1827 to 1834, and in 1840 the Abolitionists formed the Liberty party. The Free Soil party, which later became the modern Republican party, was formed of Liberty party members, Whigs and Democrats.

The American party, popularly known as the "Know-Nothing Party" was formed from members of other parties who became dissatisfied with the issue of foreigners and first raised the cry of "America for Americans!" In 1860 it was merged with the Constitutional party.

In this same year there were two Democratic parties—the Douglas Democrats (Northern) and the Breckinridge Democrats (Southern). In 1872 dissatisfied Republicans and pro-war Democrats formed the Liberal Republican party and nominated Horace Greeley for President. Other Democrats who wouldn't vote for Greeley formed the "Straight Out" or "Big Root" Democratic party, which nominated Charles O'Connor.

Seattle, Oct. 10.—A group of sympathetic union pickets belonging to the teamsters, longshoremen and what have you other unions, because their boss had fired two members of the editorial staff, one for incompetence, and the other for insubordination, should arouse every sane, liberty-loving American citizen not only in the State of Washington alone, but in every state in the Union as well, to this living optopus which is spreading out its greedy tentacles to crush the life blood from one of the most sacred provisions of the Constitution of the United States—freedom of the press.

The American Newspaper Guild, a recently affiliated union of the American Federation of Labor, comprising newspaper editorial writers and reporters, claims that two of their members were fired for activity in organization work for their Guild. Be that as it may, the man who works for pay deserves that pay just so long as he gives satisfaction to the man who makes out his pay check. It is not otherwise with justice and freedom to an employer. But the controversy in Seattle reaches much deeper than justice between employer and laborer, and the rights of each for the American Newspaper Guild charter. It is said, involves the right of that organization to dictate the news and editorial policy of its members. This particular year, they favor, the Farmer-Labor ticket. Next year it might be Republican, or Democratic, Communist, Townsendite, Union Party, or what have you, and every writer employed in the newspapers of the United States hiring Union labor, would dig out biased news and editorial columns, as dictated by Guild headquarters.

In other words, just by some strings of sand, subject, bound out and flavored to the taste of a certain clique. A system most repugnant to every true American, who glories in freedom of speech and freedom of the press, who delights in the spice and variety of myriad opinions, no matter whether he agrees or disagrees with the writer's words. It is high time the Liberty Bell should ring against Sequin (Washington) Press.

Why Gulf is the gas for your Labor Day trip

PACK A PICNIC BASKET, get in your car, and go places over summer's last big week-end. But be sure you use a gas especially refined for current weather in this locality. Otherwise part of the fuel you pay for blows out the exhaust unburned, wasted. For top heat you need that Good Gulf—it's kept in the tank with the Catalyst, so that all of it goes to work, none of it goes to waste. Fill up at the sign of the Orange Disc for a thrifty Labor Day trip.

Everyone enjoyed a nice time and wished her many happy returns of the day.

LADY GAYLORDS
LIVES heart of Mrs. Elva Locke of New York. She was the woman who was twice a candidate for the position of the United States of the Equal Suffrage League. That she was defeated on both occasions is beside the point. The record shows that she was twice the most stalwart of the early-day advocates of "suffragette" in all its forms for the loveless sex. And she accomplished more for them.

In 1882, two years before her thirties were over on presidential banners, Mrs. Locke obtained the admission of women to the Supreme Court of the United States. It was the culmination of a five-year battle, launched at the Suffrage convention in Lincoln Hall, Washington, in 1875.

Mrs. Locke was a practicing attorney herself. For three years she had been empowered to appear before the Supreme Court of the District but was barred from the United States body by lack of precedent. But it required a following, up, campaign of articles, speeches and bills to obtain the desired end.

The speech of Mrs. Locke at the 1877 convention was "convincing to her hearers." Contrary to current recollections of the masculine type of woman who first demanded political equality, she is described in a convention report as "entirely feminine." As an example, Mrs. Locke wore a velvet dress and train.

Mrs. Locke was a candidate in 1888 as well as in 1884. She was active in public life almost to the day of her death in 1917, when eighty-seven years old. After women were allowed before the United States Supreme Court she championed the right of negro lawyers to appear there. Then she shouldered legal suits for the Indians, went as a peace commissioner to Europe, engaged in a score of other worthwhile activities.

THE LIFE OF A MARINE
All parents desire that their sons be properly equipped to meet the problems of life. Good health, education, and physical strength are potent factors tending toward success. Can you as a parent insure his good health while he is passing through that stage of youth during which he wishes to do as he pleases? Can you as a parent insure that your son takes the proper steps to maintain the highest standard of health? The United States Marine Corps offers to young men who are high school graduates or who have an equivalent education, and who can pass the requisite physical requirements, many advantages. The Marine Corps is a part of Uncle Sam's great naval fighting machine, and it has a record of great accomplishments and fine traditions. By means of a system of careful selection from among those who apply for enlistment, the Marine Corps represents a cross-section of the American manhood chosen from the entire country.

The young man who is fortunate enough to be enlisted, immediately becomes self-supporting, thus reducing the cares of his parents from a financial standpoint. In the United States government provides all uniforms, shoes, socks, underwear, hats, caps, gloves and such other wearing apparel as may be required by the climate of the places where Marines are or may be stationed.

Food, sleeping quarters with bunks and bedding, medical and dental treatments when they are needed are also provided at government expense, as is all equipment used in the performance of professional duties. In addition to the above, a young man upon first enlistment in the Marine Corps receives \$21 pay per month. Physical strength and good health are insured by regularity of life, good food and all of the various forms of athletic diversion which the Marine Corps encourages, in addition to the daily exercises incident to the professional training of Marines. Education and broadening of the vision are provided not only by the travel experienced by Marines but also by the correspondence courses of the Marine Corps Institute. These courses include engineering, accounting, architecture, language, and also many other courses, and any Marine who so desires may enroll in the course of his choice without cost to himself.

Should she MATE HIM?

...and when she was in the hospital, tried to believe the wicked stories. In her own heart there was certainly that Gus Van Tassel was a hoodlum, a crook whose very soul was hated by all who knew him. But after all he was her father.

Then came Bill Denton, broad and handsome, the man whom Jane's father despised with a deadly loathing for revenge. How should she regard this young stalwart? Should his vow of undying love be accepted or must she follow the choice of her father and stamp Bill Denton as one to be scorned?

Jane Van Tassel followed the dictates of her heart.

Mrs. R. E. Pennington and children and Mrs. Walton left yesterday to visit the Centennial. County Agent and Mrs. M. S. Hyde have purchased the lot just south of the Joe Shillings home and hope to build some time in the near future. Judge and Mrs. J. E. Wheat and children arrived home late Monday from their vacation trip into the great north, west and Canada. Giving them a few days to get back into the work harness of office and home, and a rest from the trip this reporter will enjoy a visit with the family and learn of the wonders of the trip. The Boosters folk have been all over that section but failed to go over into Canada. Clyde Dean has been very ill this week after having some teeth extracted. Mrs. LaRocca of Beaumont is visiting her parents, Mrs. Tom Sutherland. Mrs. Charley Young enjoyed having every member of their immediate family with them Sunday for the first time since the children started away to school and to face the world for themselves. Mrs. Sam D. Young of El Paso, Mrs. W. F. Ryan and Thomas Young of Houston, Mrs. T. A. Young of San Antonio, Mrs. Mike Young of Yaleta, the Misses Margaret and Phoebe and the two boys who are still at home. It was a happy occasion. The W. O. Livingston family is now located in Livingston. Mr. Livingston will take the night operator shift on the Southern Pacific R. R. The news comes that Mrs. A. L. Tucker has sold her beauty shop in Jasper and has moved to Lufkin where the children can attend college. She will open up a beauty shop in Lufkin. C. G. Shivers was a business visitor in Beaumont Tuesday. Miss Lola Drew of Livingston has arrived and is getting her department ready for the opening of school on Monday. Mrs. Austin Ogden returned Tuesday from a visit in Fostoria with the brother and wife, Mrs. Ed Ogden. Mrs. George Durham spent a few days in Nacogdoches recently and for the last week has been ill. Her sister, Mrs. L. H. Jennings of Chester was down one day last week. Dr. Sam Pate with Mrs. Peggy Pate drove to Beaumont Tuesday. The baby son of Mrs. John Hunter is much better and they have returned from Beaumont. Mrs. Pearl Williams and the George Boyd family visited in Livingston Sunday. Mrs. G. W. Weeks and two sons, Johnnie Lee and Kelvin and wife of Colorado City are visiting the daughter and sister, Mrs. Vera Hope and other relatives. Miss Leah Kincaid and Mrs. J. P. Shivers were in Beaumont Monday. Mrs. Gordon Anderson visited Mrs. Wayne Harrison in Nacogdoches Sunday. E. R. Risinger of Sour Lake spent Sunday with his father, J. D. Risinger. Mrs. C. V. Selman and daughter of Orange were also up for the day. Miss Ava Lee Cobb is visiting Mrs. C. V. Gilbert and family in San Benito.

...and when she was in the hospital, tried to believe the wicked stories. In her own heart there was certainly that Gus Van Tassel was a hoodlum, a crook whose very soul was hated by all who knew him. But after all he was her father.

Then came Bill Denton, broad and handsome, the man whom Jane's father despised with a deadly loathing for revenge. How should she regard this young stalwart? Should his vow of undying love be accepted or must she follow the choice of her father and stamp Bill Denton as one to be scorned?

Jane Van Tassel followed the dictates of her heart.
