**REVIEW** It is not Texas

Democrats ("D") are asking Texas

Democrats to vote the Repub-

ican ticket. Page Ripley.

**DRS.** AT the top. How

strange it is when a life

of events puts a life

of struggle to attain his

goal he usually thereafter dies.

The younger generation then

takes up the struggle and appar-

ently it is youth all history

shows, that attainment without

standing, grows from the bottom.

**TODAY IS** October 1, 1936. This is the month when many do not want to look you in the eye. It is the month of record. October is the last day to register absentee votes.

**HOOT! HOWDY!** How

dry. If anybody knows of a

newsmongering community re-

gards the old and new know

which way to jump East No

western election day. The Bo

oster suggests Al Smith be sent

to put in a speech and then

whatever way he says is the

exact opposite. There

Roosevelt's victory.

**UP A TEXAS** Republicans

can hold itself too. The Bo

oster, though financing it is

a fact another record will be

made in modernism.

**THIS PART** of East Texas

seems to be the most favored

part of most any section of the

United States. We have had a

little local flood back a few

years, but getting lots of fire was

and damage while nothing

here there and wonder if it was

a complete wash away such as

several parts of America have

experienced this year.

**THE STATE** Week Austin

says the Texas deficit climbed

to \$100 million in running

opposition to the U. S. in

the figures of deficit.

**IF YOU** ask us we'll say

the Jeffersonian Democrats (we

have been unable to learn just

what that term implies) cannot

expect to get very far with S.

W. Adams, head of its executive

committee. Now the Booster has

not its hammer out for Adams

as a mauler but for the things

he puts into print or the beliefs

for which he pretends to stand.

Varsity live politics collects

strange bed fellows.

**IT IS** said Louisiana Sul-

phur plants wants to locate in

Texas because of the Louisiana

tax rate. But wait until the Texas

legislature gets through with oil,

sulfur and gas.

**IT APPEARS** the Repub-

lican candidate for President of

these United States will not do

the great rank and file of all

American voters, while not ac-

tually believing in all the acts

of the present administration,

do believe that of the two men,

Roosevelt and Alf M. Landon,

the latter does not measure up to

a scale able to fill President

Roosevelt's position. This coun-

try should stop, look and lis-

ten and consider what can hap-

pen with an administrative

change.

**THE TEXAN'S** editors

want censorship by State board

of control, remote control, or any

kind of control so that the Uni-

versity paper can dip into politi-

cals.

**TO THE** question "what is

news?" someone replies "news is

what is in a newspaper and that

adds newspaper what news

newspaper men make them. The

question is academic. Many cor-

rect answers may be given, all

depending upon the point of

view. The working newspaper

man spends no time looking for

an answer. He spends part of

his time finding news, then he

lets the task of evaluating and in-

writing. Some papers are com-

plete. All limited interest

and other are more important

and more intelligent. Some

are developed by skillful

reporting. One reporter may
