CHEVROLET TRUCKS
Chevrolet users say:
"They're the most economical trucks for all-round use."
Thousands of Chevrolet users will tell you that the answer to your transportation needs is—Chevrolet. Chevrolet trucks have the greatest pulling power in their price range... because they have a New Compression Valve-in-Head Engine which wrings last ounce of power out of every gallon of fuel.
Chevrolet trucks are the most economical around they... because they give maximum mileage and will keep on serving over a long minimum care and attention.
And Chevrolet trucks are extra, more desirable... because they're the only trucks with Perfecting Hydraulic Brakes, New Steering and extra-strong Chevrolet construction throughout.
Ask your nearest Chevrolet dealer for more information.
