Pulpwood Stumpage Price Stated

The regulation governing the sale of pulpwood stumpage in National Forests, lands, etc., announced by Joseph C. Kirsch, Regional Forester of the U. S. Forest Service. Of special interest to private land owners in the state, the minimum price of \$1 per standard cord for pine pulpwood stumpage in National Forests.

As in the case of saw timber sales, pulpwood stumpage must be sold on competitive bid basis in accordance with the department of agriculture regulations. Payments are based on actual measurements of timber after it is cut and stacked by purchaser, and in no instance will the bid of less than \$1 per cord be received. Mr. Kirsch stated the minimum bid of \$1 was set because he believed that unless at least that much could be secured for stumpage, it was better business to hold it for future sale.
