WE ARE ONE OF OUR OWN BEST CUSTOMERS

In its various departments, the Humble Company operates more than a thousand passenger cars and trucks. This equipment put to much harder use than the average car or truck, serves as a laboratory for testing Humble motor fuels, motor oils, greases and automobile specialties. As one of our own best customers, we agree with thousands of other Texans who say of Humble products: They're definitely second to none.

Certainly, we leave no stone unturned to keep Humble motor fuels and Humble motor oils in the front rank, not with sporadic improvement from time to time, but with continuous improvements from day to day. But you, as a user, are even better qualified than we to pass judgment. We invite you to try Humble motor fuels and motor oils in your car. Make your own decision regarding their quality. We think you'll agree with all of us, customers—that continuous improvement keeps Humble ahead.

Both men were impetuous, passionately eloquent in speech and mollified by their followers. Both were master politicians and dominated the councils of their parties. Both had left nothing to a political enemy whose faithful followers followed them all through their days of striving for the presidency. Andrew Jackson was Clay's nemesis; Joseph C. P. was Clay's ally.
