

Five Years Ago

Public health nursing service was inaugurated, and the first chapters throughout the United States. This nursing service was established to create better health conditions for the forgotten families, those who reside in rural areas and are deprived of nursing service by the barrier of distance. From a few scattered points in outlying districts during 1912 until today, the Red Cross Public Health Nursing service has increased the number of its annual visits to more than one million.

Classes in home hygiene and first aid were conducted by 930 chapters of the Red Cross during the past year, reaching 68,450 persons. During that period 1,615 nurses acted as instructors—all persons qualified to teach this important subject. The thousands who left the classes carried into their homes the knowledge to safeguard their families, and to brighten some of the dark places that spring up from negligence or ignorance.

Red Cross nurses have been called into many situations during the past year. A small army of more than 2,500 of them were out in the field during the disastrous Ohio and Mississippi heavy floods last spring, where they carried on, in battles against epidemics, nursed victims of fires, tornadoes, shipwrecks, explosions and many other catastrophes. In addition, they have conducted systematic campaigns for better community health conditions. All this work is made possible by the annual Roll-Call held each year on November 11, and resulting day.

W. W. Tubbs entertained the Women's Study Club at the Red Cross last night. The members answered roll call and discussed the novel "Work of Art" by Sinclair Lewis. A report from the evening dinner honoring the hands of club members was given. Most of the business was given over to a discussion of the plans for the coming year.

Among the many from Chester to attend the big game in Beaumont Saturday were Messrs. Leo Peters, Leonard Jones, Prof. Jim Lambart, Sept. and Mrs. J. H. Stack and back and Mrs. Roy W. Lambart.

By a two-vote margin, Lubbock was given the 1938 convention last Friday night, as the Texas Congress of Parents and Teachers concluded its 29th convention in Beaumont.

Friday night 22 interested people from over the county, met at a fried chicken dinner at the Rainey Hotel. Red Cross county chairman, J. E. Wheat, presided at plans for the Red Cross roll call drive which was then nine days behind schedule. As Thanksgiving is supposed to be the end of the drive, however, this county will work on through the entire week. Chairmen for the several communities were presidents of Woodville's two P. T. A. Meetings: Forest Pate and T. J. R. Slinger, Monroe; Tom and Fred J. H. Kenness, Dilbeck; George E. E. Chester, Maurice; C. W. Sweeney, Hillister; Ray, Hank Warren; Mrs. Carson, Rockland; Mrs. Pitts, Camp 11.

When you start to take a serious view of youth's high rate and don't notice a sharp silhouette and Saturday night becomes just another evening of the radio, when your heart doesn't flutter at the phrase "and you say," "No, that's one's enough." Old-time catches—Chicago Tribune.

Zipper Off the Track

Ask Atty. McCraw

General Joking Atty. Gen. Bill McCraw, blushing modest candidate for governor last week, was late for a banquet in Baytown. So anxious were the 200 Baytown banqueters to hear McCraw's witty remarks that they wanted him to arrive at the dinner hour. Finally, after 8 a. m. he came in but made no explanation for his tardiness. But the next day in the Houston Post under the headline of "crack politician" McCraw's tardiness was revealed. The reason for McCraw's late arrival was that he was in a hurry to get to Houston to see the general. General McCraw's tardiness was revealed in the Houston Post. The article stated that McCraw was in a hurry to get to Houston to see the general. The article also mentioned that McCraw was in a hurry to get to Houston to see the general.

There were three tick quarantine violations, three convictions, no dismissals, no cases pending in the court, and the court assessed a total of \$50.00 in fines and court costs in Tyler county during the month of October. The livestock sanitary commission of Texas will continue the work in Tyler county until it has been cleaned of all fever tick infestation. The above work was conducted under the supervision of Oscar Millar, county supervisor of tick eradication work, Woodville, Texas.

Woodville's First Community Drive

An old-time Christmas season with all of the community pointing together in celebration is planned for this year in Woodville. A union church service on Sunday night at the Christian church will mark the season. A special program will be given by the churches. At 7:30 p. m. there will be a special program of songs and hymns. At 8:30 p. m. there will be a special program of songs and hymns. At 9:30 p. m. there will be a special program of songs and hymns.

Would Exempt Roads From Grade Crossing

To relieve the railway from responsibility for damages at highway grade crossings might not reduce the accident rate, but it would be fair to the carrier, according to a current editorial in the Sherman (Texas) Democrat.

First County Plane License

Thomas Miller and Earl Gardner were in Beaumont Sunday. Both these boys are licensed pilots and have been very busy each week end for months, studying flying. Thomas has been flying for some time past, but Earl made his solo flight some three weeks ago. His father has purchased a two passenger Duo Control Monoplane for Earl and Tyler county issued his first plane license for this ship. It will be used for transportation and student trial trips. Olan Allison of Warren has also taken of this line of work.

1938 Motor Tags To Be Black on White

Black on white. Tyler county motorists next year will all color scheme of license of that color scheme on passenger cars. The license will be issued in February, according to Roy Felt. New licenses must be attached to cars by midnight April 1. Others to show the state registration fee has been paid are with the background listed first. Commercial cars and all trucks, black and orange. Farm trucks, orange and black. Tractors, orange and black. Tractor-trucks, orange and black. Motor buses, orange and black. Motor vehicles, orange and black. Motorcycles, orange and black. Motorcyclic side cars, black and orange. Four other types manufactured by the railroad commission to issue buses and trucks which it regulates are: Common carrier trucks, orange and black. Contract carriers, orange and black. Special commodity cars and trucks, black and white. The colors are changed from year to year to make it easier for officers to know when the taxes have not been paid and for other law enforcement purposes. Passenger car colors this year were black and ivory.

THANKSGIVING DAY, '37

The Booster folks were supposed to have a story about Thanksgiving this year, but as the paper is almost late this time, many will not get their paper until the last of the week—too late for "dope" on the privileges of Turkey day. We could very easily hatch out some 40 steen reasons for our thankfulness just at this time, because they would apply to all Americans, not Japs, Spaniards or even Ethiopians. As Americans it is hoped, next year, this country has not become embroiled in any kind of an armed conflict. All Americans hope for a continuance of good government and that panic financial distress nationwide has not come. A salty old-time American citizen writes personally.

But It's True
