BOOSTER

When some opportunity is offered for a social chat, the booster is usually the first to be seen. He has been wonderfully shown up in actual practice. A certain enterprise wanted to locate some land in Beaumont. Owners of wanted land tried to get a fair price. Result of the matter was Houston heard of the attempted grab and offered a land site free, and also a tax exemption for a term of years, and of course, landed the new business enterprise. A swimming pool can be financed in Woodville, but a fancy price on a building lot is out of the question.

**J. H. WILLARD, Editor-Owner
MRS. J. H. WILLARD, Adv. Mgr.**

SOME COUNTRY in which to live might be defined as a place in which any group of officials can defy the law in its enforcement, thereby insuring reelection.

THE TAKE in on the swimming pool in Honey Island annually would pay more than the first cost of construction. Just a hint, that's all for a like project in Woodville.

FROM HINTS and stories located in several different channels. The Booster learns of a new State-wide organization called the Budgeteers. Read their purpose elsewhere.

TAXPAYERS are made up of two groups—those who pay when due, and the other who pay not until forced to come across, and, incidentally, their intentions are a sight for the curious.

IF THE plan is actually carried out in its entirety it will place on the spot, commissioners' courts, city councils and also the school boards—in accordance with STATE LAWS—we have reference to budgeteering.

OH, WELL, it is supposed the city slickers, who chant, "ha, ha, wife's gone to the country," has nothing on the country schemer who deliriously babbles, "I'll be around tonight! Wife's gone to the city!"

IF THE old country continues to become alarmed because of war preparedness, and every foreign nation becomes a war camp, we here, in America, might attempt to change the national hymn to "My Country, 'Tis to See."

EACH DAY every daily paper tells the world the highways are a good place, on which not to be found. Trucks, bus and pleasure vehicles all look alike to the nut under the wheel, who will dramatically explain he only had one small bottle of beer under his belt.

ONE OF America's most famous publications is offering a flat price of \$75.00 for a letter or autographed base ball or something containing the hieroglyphics of his nits, Adolf Hitler. Well, what do you know about that? \$75.00 for the signature. Yep, we'll sell one or two of ours for half that amount.

NEWS REPORTS from Lufkin state the work of constructing a new print paper mill is about to start. It has been reported the initial output has already been contracted. This being a fact it will not be possible now for us little newspaper publishers to take in a good sizeable load of second growth pine and have it converted into enough paper stock to run us for a couple of issues.

IT WOULD make interesting reading, for those who peruse The Booster, were we able to spend the time in locating many thousands of acres of land in Tyler county not on the tax rolls, and, too, if we could manage to discover who are the individuals who pose as owners to the extent of selling timber, thereon, or attempting to negotiate leasing contracts, and were to publish the physical facts. However, no one needs to worry, we have not the time to devote in running-down strays.

IT APPEARS the hours and wage bill has gone through—put over by a bunch of ill-advised men who because during their lives they have not been governed by the number of hours in a day and, also, most of them were comparatively easy back at Hurlwood. In reading a Washington, D. C., newspaper this week we find not a single word in support of a law which would do the trick and file U. S. Senate know about that, but leave and except for the fact of radical labor laws, we have no objection.

FIVE HEALTH clinics are being set up in the county.

The gentle and easy-going Mrs. Parry visited in town during the time and Miss Zara Miller of Pearall returned with them for a visit.

The Misses Evie Jewel, Bostick and Maryell Cruse, Woodie and Bob Frank Cruse are home from Huntsville for the vacation time. All are sincerely sorry to learn that James S. Mann, who has been attending University at Georgetown and was honor student was stricken last week with acute appendicitis while visiting in Kingsville enroute back to Georgetown from a visit with his parents, Dr. and Mrs. J. S. Mann and is recovering from an operation at St. Therese hospital in Beaumont. This was a double blow as James had worked hard these past four years and would be proud of his grades. His mother is with him.

Mrs. L. H. Jennings and Miss Jean David of Gulf Pump Station were in Woodville one night last week.

Miss Mary Jane Webb is at home after months in the Shriner hospital in Shreveport, La. She is greatly improved and all have great hopes that she will overcome the paralysis that hit so suddenly last year.

Glen Clow arrived Sunday from Los Angeles, Cal. Mrs. Clow returned here a few weeks ago with her mother, Mrs. J. F. Shivers.

ANNUAL MEETING OF THE FIRST CHURCH OF CHRIST, SCIENTIST, BOSTON, MASS., JUNE 6, 1938

Boston, Mass., June 6.—A warning to nations "whose governments have been conceived largely in selfish ambition and brought by human force" was issued here today at the Annual Meeting of The First Church of Christ, Scientist, The Mother Church, by the Christian Science board of directors who declared the lessons of history show such governing bodies to be "of few days and full of trouble."

Reports disclosed continued growth of the Christian Science movement, increasingly higher standards for authorized periodicals, and a larger number of

Mr. Palmer delivering his own report as clerk, said prayer as the practical means of stilling the tumult of the world. "The members of The Mother Church need to pray much," he said. "Prayer sanctifies thought and lifts one in conscious harmony with God."

Mr. Knapp as incoming president expressed the need for spiritualizing consciousness. "The way of accomplishment," he said, "is through renewed consecration; a greater purification of sense and self; more love for God and humanity."

Those attending from Tyler county were B. D. Hawkins, chief of this district and Patrolman Allen Riley of Woodville, Enoch Pitts of Warren, Noah Platt of Colmesneil, Thom Jordan and W. M. Bingham of Spurger, E. C. Hughes of Chester, H. E. Carroway, Bill Bell and George McInnis of Fred. Mr. Norman auditor of A&M was present and gave advice on legality of the plans and work. One thing which was interesting to all sections of Texas is that thousands of acres of slash pine trees are to be given to school campus and hundreds to home owners as shade trees where wanted. These trees unlike the long-leaf pines are easily transplanted and grow.

Last week a bad fire was started in the south end of the county on the Gibson farm. CCC boys worked a day and night before it was under control. Four state men arrived, and no doubt that it will go hard with the fire bug when he or she is located. When Uncle Sam takes a hand, relationship and friendly feelings are built and all times the law is the best.

FIVE HEALTH clinics are being set up in the county.

Mr. J. B. Lovary of New Orleans is visiting her parents, Mr. and Mrs. J. B. Lovary, in Houston, Texas, Sunday.

Historic Hoaxes

By Elmo Scott Watson

"Rare Old" Newspapers

IF WILLIE going through an old trunk in the attic, you find a copy of the Ulster County Gazette, published in Kingston, N. Y., in 1800 and containing an account of the death of George Washington, don't get excited over your "discovery."

The chances are about 999,999 out of 1,000,000 that it's a "facsimile copy" of the Gazette of that date and thousands of them have been reprinted and distributed as souvenirs. It was first done back in 1828 in celebration of the fiftieth anniversary of the Declaration of Independence but most of them were produced for the Philadelphia centennial in 1876.

Naturally, in the course of time the paper becomes aged and yellow and brittle. So in that respect it's "old." But it's neither rare nor valuable, unless you can find someone who is buying "fake antiques." Even then he won't give you much for it.

The only known "genuine" copy of this famous paper is now in the Library of Congress. All of the thousands of others which bob up from time to time are reprints. Another "original" may be found some time. But it's very, very doubtful!

Woodville Locals

What do cows have to do with the Government? Well, the Government had six cows and the Government took all of them from him. That's Communism. A peasant had six cows and the Government took three of them. That's Socialism. A peasant had six cows and the Government let him keep all six of them and let him feed and otherwise care for them, but it took all of the milk and all of the calves. That's Fascism.

A peasant had six cows and the Government let him keep all six of them, but made him pay the personal property tax, sales tax, all valorem tax, excess profits, old age pension tax, social security tax, Federal tax, State tax, County tax, excise tax, city tax, school tax, luxury tax, income tax, outgo tax, war tax, peace tax, auto license tax, gasoline tax, inheritance tax, carpet tax, dog tax, syntax and various other taxes until the peasant wondered whether or not he would be better off without the cows. That's Democracy.

STORY TELLING HOUR HELD ON WEDNESDAYS

The P. T. A. is sponsoring an hour of story telling through the summer for grades 1-2-3-4 on each Wednesday afternoon from 4:30 to 6:30 o'clock. Send or bring your children, for this means much to them. It is both entertaining and instructive and will help them in their future school studies. Miss Julia Belle Chase will meet with the first group on Wednesday.

CAN SEE AFTER 52 YEARS OF BLINDNESS

Memphis, June 6.—Richard L. Willis looked into a mirror at the Memphis Eye, Ear Nose and Throat Hospital here and for the first time in his life saw the image of his own face.

Almost timidly he put his hand to his throat and straightened the tie he saw dimly on the image in the mirror. Then he shouted at the nurse: "I can see!"

The day before he had been able to distinguish dark from light and see objects as shadows, but today he was able to distinguish form and bright colors.

His exciting discovery came as Willis was dressing to leave for his home in Nashville, where he will learn for the first time what his friends look like.

Willis had been blind since birth, but the miracle of sight was given him through a corneal operation two weeks ago. As the bandage was removed from his left eye, on which a cornea had been grafted, he was able to distinguish the shadows of a nurse's hand as she waved it in front of him.

Willis rode in a taxicab from the hospital to the office of his physician, and as the car rolled through the city traffic he was as inquisitive as a small child. He pointed out the larger objects along the way and asked numerous questions of his attendants.

His greatest desire, he said, is to have the face of the physician who restored his sight etched sharply before him. He can see the face now, but the features are blurred and somewhat dim.

Each 4th Saturday afternoon at 3 o'clock Davis Brothers will give away absolutely free valuable articles. Spend cash or pay your account. Cash register coupons. See list of gifts.

Woodville Locals

Children visit the funeral of Jackson in Beaumont Sunday. Mrs. W. A. Barclay and small daughter have returned from a visit with relatives in Burkeville. Ruth Gillis has returned from a visit with friends in Liberty. Marguerite Rainey of Houston was a week end visitor of her parents, Mrs. S. L. Rainey, J. Hope of Sweetwater and daughter, Mrs. Wilson of Rosenberg, are visiting the daughter and sister, Mrs. Lottie Rainey.

You don't even have to be present to accept when your name is read at 3 o'clock on fourth Saturday afternoon. Davis Bros. will save your gift and notify you. You get a token with each cash purchase or when you pay.

Sutton-Fain Chevrolet Co.

IN WOODVILLE

PUT THIS

Feather

in your

LEGISLATOR'S HAT!

Don't Let the Lone Star State be Alone in unfair restrictions on Motor Transportation.

Cargoes coming to Texas must be transferred to more trucks at the border, thereby blocking interstate commerce, raising shipping costs, increasing congestion, jeopardizing safety. All other states permit heavier loads with no highway damage and less public hazard. Don't let Texas be alone. Speak to your legislator about it.

When He Votes for Repeal He's Working for YOU.

Repeal of the 7,000-pound load limit Law means allowing more adequate loads, not bigger trucks, but fewer trucks with less highway hazard, lower shipping costs to producer, lower living costs to consumer. Repeal will benefit YOU. Your legislator doesn't work for any one transportation agency, but when he votes to repeal the load Law, he's really working for you.

Vote for the Man who Votes to Repeal the 7,000 lb. Load LAW

Motor transportation is very vital to the progress and development of Texas. Its quick, mobile, economical service is important to every Texas citizen. It must not be put in a straight-jacket of hastily conceived, ill-advised laws which curtail its public service. Each vote to repeal the 7,000-lb. load Law is a vote in the public interest. The legislator who stands for its repeal is worthy of your vote. Put this big feather in his hat! Make sure he votes in YOUR interest!

REPEAL the 7,000 lb. Load LAW. SAFER CHEAPER SERVICE.

Texas Motor Transportation Association
