AN EDITORIAL by President Roosevelt: "Fires of Freedom and Civil Liberties Must Be Made Brighter in the United States."
THE BOOSTER is still attempting to find out who stole the funds allotted to Tyler County for the express of erecting a historical marker.
ASK ANY man from New Orleans what he thinks about the CIO organization. You'd be surprised at the answer and Lewis would wonder what it all about.
THE BOOSTER published a call for two sets of bids for materials, etc., for the new school building. It appears something is going to happen after so long a time.
WEEK-BY WEEK the local political campaign gets warmer and warmer, and it is really astonishing how many can be found willing to sacrifice themselves on the altar of public service.
IT HAS come to the notice of The Booster that relief work and continuance thereof has entered into the picture of Tyler County's politics. Strange as it may seem the report will not down.
CAN YOU imagine politics becoming mixed up with Relief? Senator Walsh, (D-Mass.), denounced the use of relief funds as dragging "the relief of human misery, actually down to the level of 'Gutter Politics.'" Well, Senator, that's rather rough, but we're with you all the way.
WHEN A city gets growing pains, its awful, not always visible, but those riding in motor vehicles don't have

any idea of the pain and suffering which is being inflicted upon the people of the city.
AND NOW comes a complaint the Booster is not delivered into the postoffice-boxes until the day following the receipt thereof. The next time we receive a like complaint, we are going to make a complaint to the proper authorities. By the way, we know to whom to apply for a correction in the practice of keeping the paper a full day, to read it before placing it in the lock box of the subscriber to whom it is addressed.
ONE OF the speakers at a pie supper recently made the statement: "I am for the sales tax. You'll hardly notice it. Why, you have been paying a sales tax on postage a long time, and it has worked no hardship. Three cents on each first-class letter, and it does not bother you much? The sales tax would not bother you much, either." Well, now, isn't that refreshing? That extra cent on each first-class letter is a hardship and the more letters a business firm has to mail, the greater is the wish Jim Farley would get next to himself and reduce the postage to its former price, instead of making us all contribute to the fund that keeps air mail in the air—for a comparatively few.

EVER SINCE organized labor became a factor in the political and capital fields, this country has been rocked by upheavals and kinds which resulted in strikes of various kinds. That was to be expected, because capitalists had become possessed of the rule or ruin of all laborers. Of late years, however, the American Federation of Labor, governed by Pres. Green, great strikes were not as numerous, and, it is a fact, up to the time Wall Street overdid, not only its own organization, but all the hangers-on, labor and labor employers were going along. Came a day when the new fangled stuff CIO, came into being. Its demands were made and refused because all out of line with a nation making a great effort to recover from the depression. John L. Lewis made the CIO labor union. He imagined himself the greatest man then was later dubbed as a "National Clown." If labor was sure enough wise, CIO would be dropped and membership in the AFL would be sought under time tried, proven leadership. Capitalists can deal with Green. Lewis? Out of the question.

CHAPTER I

A girl and a greyhound were running in the dark. Not running away, not going anywhere; running in a sort of rounded square, running with separate delight in running, in motion, in smooth and lively speed.

In the morning there would be a fight, but in the intimate struggle the hills had their hour, large and mild and kind, brooding the earth below them. Sometimes the girl looked up at them, but the dog kept her eyes on the dimmed, immediate foreground. There was a certain similarity between them—both young, fleet, with thin, strong legs and flat, firm, excellent wind, and both of a bronze brindle-brown. There was, likewise, a kind of spirit, or at least a deportment, for each was shy, secret, distrustful. Presently they stopped running and stood still, breathing deeply and easily, happily tired.

The greyhound pressed delicately against the girl's knees and slid a long muzzle into a slender hanging hand.

"Lightning . . ." the girl said absently. "Lightning, dear . . ."

She turned toward the one open edge of the field. "Come!"

The Santa Clara valley rolled out beneath them, twinkling and trembling with lights; golden—and crimson like a carnival, but just below the windows of Danavale glowed gently. Danavale was not a town.

It had over a dozen residences generously spaced in a gracious landscape, with orchards and vineyards and tennis courts and swimming pools, which formed a sort of architectural chronology from the great-grandmother Dana house, with its needless early-seventies skimping of porch and hall, down to that strange, modern conglomeration of Ardine La Mont Dana.

The girl and the greyhound halted before the pioneer house. It was narrow-chested, narrow-hipped, outmoded as a calico wrapper or a boot-jack, behind its low picket fence and china stoves and china stoves and candyfuff.

She opened the gate and went up the dim path and rane the strident bell, and waited.

The great-grandmother opened the door herself. "Sairy Lynn! Come in!"

"I can't stay, Great-granny. I'm late for dinner now."

"My stars, when you say you're after seven, when you've been, child," she peered up at her out of eyes like embers.

"Walking."

"Didn't you know your beau's back?"

"I knew."

The old woman laughed a shrill, implish cackle. "And a dinner party and a new dress pressed out on the bed and here you be, tramping over the hills in the dark! You better march yourself home, quick's ever you can step on it! There'll be the devil to pay."

The great-grandmother had crossed the plains in a covered wagon and Great-grandmother Sarah Ann Klitredge Dana was, to all intents and purposes, still in it, well up in her ninety, content to potter about her house and dooryard and wait for the dutiful droppings-in of her daughters and granddaughters and great-grandchildren.

"I know," Sairy Lynn said somberly. "I can't help it."

A voice came down the narrow sudden stairs. "Hi Sairy Lynn!"

"Hello, Lynn! I'll come for you in a moment. I can't stay," she ran up the precipitate steps.

Lynn Dana lived with the ancestress on the upper floor of the old house. He had been sitting in a chair more than half his life—approximately since the day he had made the winning touchdown for Stanford and failed to scramble up with his yelling teammates.

"Hi Sairy Lynn!" she said again halting on the threshold of his door.

"I should think not!" he looked at the clock. "You can't even be here! My eyes deceive me. At this very instant, in the habilliments of high festivity you sit at the festive board."

He regarded her linen shorts, her pull-over, her brown, bare knees. "Duncan arrived?"

"I suppose so. Lightning and I have been up in the hills."

He laughed. "Well, you're due down in the valley now, young woman, and you'd better be on your way."

"Rather stay with you and Great-granny," she said solemnly.

"And we'd rather have you! But I can't stay this evening. Big it, my dear!"

Sairy Lynn leaned in the doorway for a long moment. "All right; I'll

go. But I won't do it! Nothing can make me—not even Mother." She departed swiftly, without farewell.

A small figure was waiting in the shadows of the big house of her father.

"Hello, Penny!" Sairy Lynn said. Miss Ethelinda Pennington had been her governess in the old days and was still a component part of the Edwin Dana household. Sairy Lynn Dana was the lone star of her existence and she had not said ten words of praise to her in the 17 years she had been with her. She spoke now in shocked rebuke.

"Sarah Lynn! Dinner's waiting! Mr. Duncan's been here since six! Your mother is greatly disturbed. Wherever have you been?" She was bustling her air of a garden path toward a side door.

"Running."

"Running away! Really, Sarah Lynn, at your age! I wonder at you."

"Not running away; running round and round in circles, the way I always do. Penny," her charge said bitterly. "Never getting anywhere."

"They went into the house and instantly there was a soft rustle and a muted exclamation and her mother was upon her, big and beautiful, sunny-eyed."

"Darling!" she cried. "I know you couldn't have realized how late it is! Are you quite all right? Then it doesn't matter. You'll be down just as soon as you possibly can—in your sweet new dress!" She kissed her.

"Hurry, darling. Oh, Duncan! This naughty child walked farther than she realized and she hadn't a stitch on her back when she got to the house in two minutes!"

A pallid youth who looked as if he might have been born in a dinner coat had come into the hall. "Sarah Lynn," he said glantly.

She gave him a limp hand. "Hello, Duncan! I'll hurry, Mother." She ran upstairs.

Duncan followed Sarah Lynn onto the wide veranda, down the steps, onto the lawn. The greyhound came toward them in lovely leaps but stopped in chill reserve at sight of Duncan, her ears flattening.

"I've always liked dogs," he said a trifle defensively, "but I can't see Boston bull at home, regular dog. He came closest. 'No, I'm not crazy about your hound but I am crazy about you, Sarah Lynn.' His hand clasped her elbow, slid down to her hand, cool, unresponsive. "No fooling!"

"Duncan, please! Let's not begin that all over again."

"I'm going to begin it again and finish it, this time! Listen, Sarah Lynn, I've never wanted anything in all my life that I didn't get."

"It's only because you can't have me. Ever since you were born they've handed you everything you cried for—the car, the clothes, the skates and sleds and a pony and a car and a yacht. Now you think they're going to hand you—me. My mother, your mother. But they won't, they can't."

He laughed contentedly. "They don't have to! You'll do yourself. Oh, I'm not going to rush you! I can play a waiting game. But just get it through your head that you belong to me."

Sairy Lynn thought he was rather pathetic with his fragility and his pallor and his elegance, casting about for the character of the conquering male.

She detached herself, not ungraciously, walked away, stood looking up at the stars. Suddenly a single shoe separated itself from his foot and moved smoothly across the sky. Shooting star? Flying star? Plane. Sometime, she told herself, sometime she would fly away in the night.

Home-coming Danas always paid prompt respect to the matriarch. Sairy Ann Dana, constant traveler and occasional author, would not even stop for her casual unpacking before she made her devotions to the ancient head of her tribe.

"Mercy! Not ninety-six! Not really! I have the feeling that I must dash over there—that she may be gone any minute!"

"No! No! She is quite marvelously well, our precious little pioneer," Aunt Helena said. "But she has longed to see you."

Sairy Ann Dana came near to her great-grandmother's place and stood still to appreciate it, but the narrow front door opened suddenly and the old woman popped out.

"Sairy Ann! And here you be, safter tramping the wide world over!" she chirped. "Come in! Sairy Ann! My land! My third daughter Molly's boy Willie's girl! And I know more'n that!" She peered up

at the clock. "You can't even be here! My eyes deceive me. At this very instant, in the habilliments of high festivity you sit at the festive board."

He regarded her linen shorts, her pull-over, her brown, bare knees. "Duncan arrived?"

THIRD OF CCC BOYS GOT JOBS IN 1937
New York, June 14.—The Civilian Conservation Corps, set up by the Roosevelt administration to take idle youth off the street corners, found jobs in private industry for a third of its entire enrollment last year, according to the CCC Educational Director, Dr. Howard W. Oxley. He said 90,000 young men had been taken off the "forest army" pay roll and put into private employment during 1937, and gave credit for this accomplishment to programs evolved in each of the 1,600 CCC camps in the country.

From his first day in camp, the Educational Director said, each CCC enrollee is made conscious of his occupational training needs. Camp educational advisors keep one eye on his guidance and the other on his ultimate placement in a permanent job.

Dr. Oxley summarized the success of the program in an article in the current number of Occupational magazine issued by the National Occupational Conference.

Of the 90,000 youths discharged from the CCC for private jobs in 1937—41% were actually placed through the CCC program. The remaining 81.4 per cent used what they learned in camp to find jobs by themselves, through relatives or friends, the employment service, agency or some similar source.

The division of the jobs obtained was: agriculture, 29.4%; manufacturing and mechanical industry, 19.7%; transportation or communications, 12.1%; business trades, 10%. Lesser numbers in mining, clerical positions, forestry and park service, and domestic service.

Dr. Oxley said, too, the CCC officials contacted approximately 18,000 former enrollees during 1937 to ascertain their condition and employment status. It was found that 55% of those contacted were employed in either regular or part time jobs, and of this number approximately 2% had shifted jobs for which they had received special occupational training in the CCC.

If Plaintiff be not entitled to recover under paragraph 1, then as an alternative plea, Plaintiff adopts paragraph 2 and further says it has been damaged in the amount of One Hundred sixteen (\$116.64) with interest, and cents tiled to judgment on said vendor's lien note and for foreclosure and to have said land sold in satisfaction of its judgment. ON FARM AND RANCH

In Texas, farmers outnumber city folks 2 to 1—there are about 4,000,000 men, women and children on Texas farms and ranches. These people contribute heavily to the material and cultural welfare of the state; our traditional Texan is a man of the open spaces, a man intimate with the soil, the sun, the blue Texas sky. The Humble Company, as a Texas institution, values highly its twin privileges of association with the farmers and ranchers of Texas in the development of Texas' greatest natural resource, and of supplying them with the motor fuels, motor oils and lubricants they use. Made by Texans from Texas crude oils, these Humble products evidence their quality with day-in-day-out dependable performance in actual use. Try them; you'll find a product for every farm need at a price for every purse.
