Baptist Church News

The church Sunday morning in a special conference voted to accept the responsibility of providing a larger church structure. The character of the building and the time to begin its construction is soon to be determined.

The promotion of the new church building has been committed into the hands of a committee of nine people representative of our most conservative and yet progressive citizens. They can be counted on to lead wisely and aggressively. The church membership stands in readiness to lend the fullest co-operation.

In this paper readers will find the first installment of what seems bound to happen under the present set-up and predominant administration, should this country of ours become involved

ELECTRIC COOKERY
is Clean
★
No Soot • No Smoke • No Grime

Take a tip on kitchen cleanliness from electric range owners. They'll tell you that it's much easier to keep your kitchen spot and spot when you cook electrically. There's a reason. No soot, no smoke, no greasy film or dirt from electricity. Walls, curtains, the range itself—all stay bright and new-looking much longer.

Save cleaning time and redecorating expenses from now on. And enjoy kitchen coolness, more leisure time, better cooking results, and the many other advantages of electric cookery. It costs less to cook electrically today than ever before.

YOU GET CLEANLINESS plus electric coolness... economy of operation... ease of use... safety because there's no flame... sparkling finish... when you Cook Electrically
