THE PUBLIC may not know it, but during his incumbency as president, Mr. Roosevelt has declared 30 "crises" since 1933. The story is on page one.

THE CLEANUP campaign of last week is reported to have been successful. Every one of the over-ripe valley grapefruit was cleaned off the court house lawn.

WHAT DO you think of Hitler's scrap of paper? It proved to be worth \$119,862,500, and that's going some. It appears Hitler has it all over Kaiser Bill.

LEAVE IT to the solons at Jefferson City, Missouri, to start something. These learned Missourians can be counted on to start the unusual and they did that when they attempted to ban the toothless show. We're for 'em—the legislators. Story on first page.

WHY SHOULDN'T some of the governmental alphabetical outfits appropriate a sum sufficient to provide a parking lot for exclusive use of automobiles belonging to WPA owners. Ah, now listen in for the Dallas State Press quacking paragraph.

ONE OF the Texas kid legislators in Austin got gay with Jas. H. Goodman of Midland one day last week and Mr. Goodman replied, "I want you to apologize or I'll take you out of here and tell you something." It is evident Kid DeWitt Hale of Farmersville, representative, ah, a law student, got his wisdom teeth out even though he took the hint and actually did apologize.

IF SOMEBODY would only come to Woodville and drill for a deep water well. Why? Read the story on page one about the Herstead oil well. The Herstead comes in in this immediate field it will stay oil and not finally drift off into pure drinking water. Anyway, Woodvillians want a deep water well p. d. q., and get this. The Booster is not in any way jabbing at the Woodville water system, which, as far as we are concerned it 100% to the good.

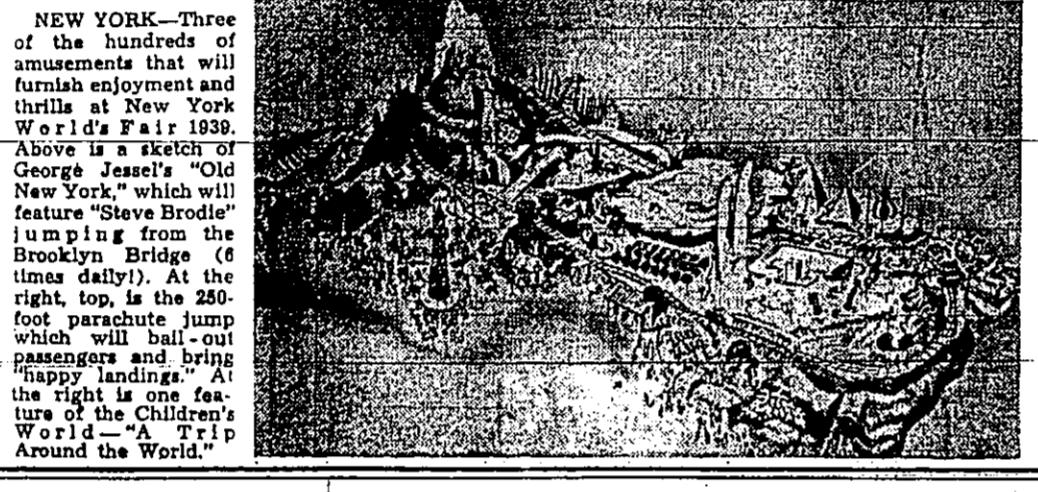

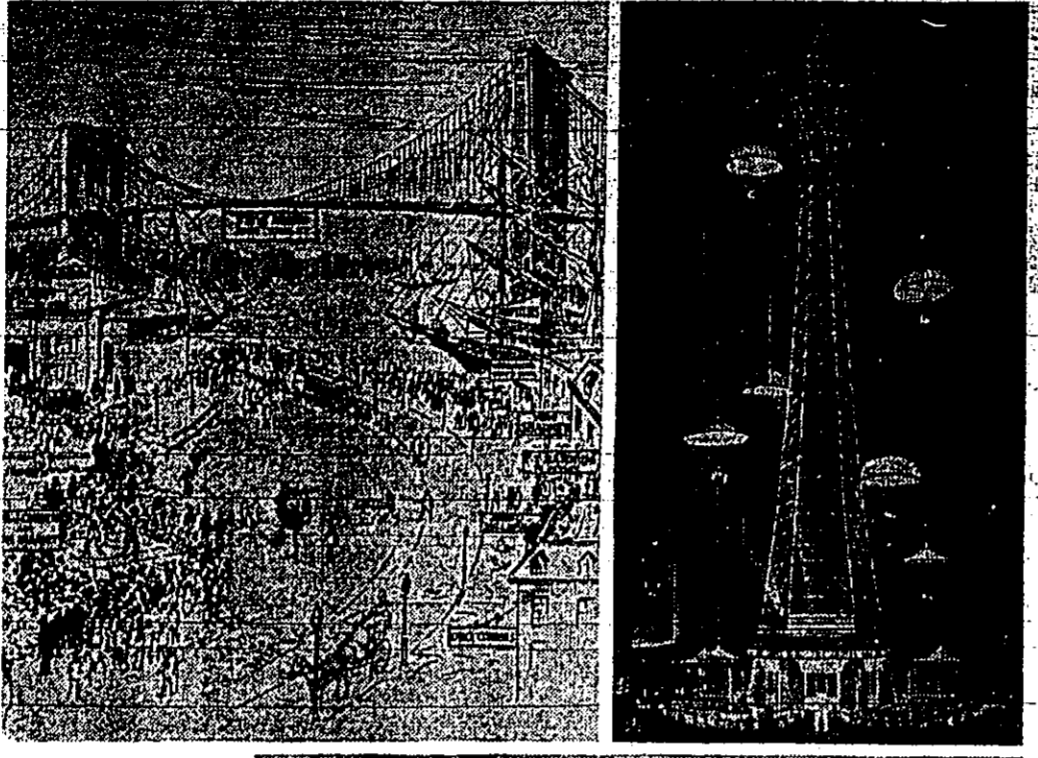

IF THIS writer was a Russian we know how we'd feel about Germany, remembering the massacre of many thousands of Russians that were surrounded during the World War, when the machine guns were turned on the captives until they were completely annihilated. We rather imagine Russia is not afraid in any way of Germany and will be able to give an excellent account of themselves if/and when the "imperial armies attempt to slice of a great section of the Russian empire.

IT BEATS all how much trouble a man possessing the wrong viewpoint upon life, law and consequences for wrong-doing, can accumulate. The following is a list of crimes for which such a man was wanted in California, Washington, Texas, Oklahoma, Kentucky and Missouri, all since March 4, 1936. He is charged with and has been arrested for narcotics, grand larceny, petty larceny, automobile theft, burglary, kidnaping, robbery with firearms, shoplifting, loitering, burglary of a safe, peddling with out a license, theft, vagrancy and swindling.

THE PROPOSED 2 1/2% sales tax under consideration at Austin has been figured as able to turn in an excess of \$40,000,000 annually. If the legislature in some way could get all the Texas land on the tax rolls, and in some manner could collect taxes from all inmates for which instead of from only comparative few who do pay their taxes, it seems that a 1 1/2 or 2%, at the wildest guess, would pay the old-age pension tax and the other little odds and ends to which the public's attention is called nearly every day in the daily news dispatches from Austin.

YOU remember Bill Miller, the former war lord of Germany, who in breaking all these agreements, exclaimed, ah, how I hate a scrap of paper. How did he like it? When Chamberlain, the British foreign secretary, declared that the channeler declared that he had all it wanted and for narcotics, for more. Well, it is a little bit right in the line of the channeler's more...

IT BEHOVES one these days to know how to handle the estate, how to arrange for the time when he passes on and his earthly possessions are to be passed on to the family surviving, to the end the Federal Government may not grab off too much in "stolen" different kinds of taxes. Some of the "musts" are hereby mentioned. There are a few banking institutions in Texas that advertise in newspapers how they can help the childless and the widow. The following taken from a Dallas newspaper is the advertisement of a Dallas banker, and will be interesting reading to all concerned: "How much of your estate will be certain to take a generous slice of it if you leave much more than \$40,000 dollars. And every dollar paid to him (the Federal Government) in estate taxes, leaves that much less for your family. Your estate must also pay State taxes in some instances, even if you leave much LESS than \$40,000.00. Three men can help you to protect your estate against unnecessary taxation shrinkage. (1) One of our trust officers can help you to plan economical administration and transfer of your estate. (2) Your attorney can write a will that will assure the successful execution of that plan. (3) Your life insurance counselor can show you how to provide your estate with cash to pay the taxes, thus preventing sacrifice sale of assets of your estate. Ask one of these men for further information."

**SAVE YOUR POPPY SEED**  
 Save your garden variety of poppy seed and cure your sinus trouble, Junius - Evans, University of Texas pharmacy student, would advise.

Evans, who has already had his bachelor of arts degree, has begun research on poppy-seed oil of the common garden poppy to see if such oil may be successfully iodized. An iodide poppy-seed oil, now imported from France, is used in treatment of sinus trouble. Placed in the sinus region the oil gives up its iodine providing the therapeutic powers that Evans hopes to obtain.

**WEDDING PICKETED BECAUSE OF A CANOPY**  
 St. Louis, Mar. 12.—A fashionable church wedding was picketed here Saturday night. Instead someone claimed. But instead of being a heart-broken sutor it was a labor union that objected. The pickets paraded in front of St. John's Methodist church in protest against erection of non-union workers of a sidewalk canopy.

The news dispatch did not say whether it was CIO men or AFL leaders who were responsible.
