## THINK'MBOBBIES

There are no known records of a fire siren putting out even a grass fire.

Woodville needs a flock of city ordinances. Perhaps a municipal judge would be provided for.

Now that the city taxes are being paid, how about a stop light at the H & H - Matthews corner?

Dan Moody is not going to be a candidate for governor of Texas. He wants none of it, in spite of the wishes of his friends.

The Booster would call attention to every reader that Sunday, June 16th, is Father's day. What are you going to do about it?

The second and final list of delinquent city tax payers is being published for the next three weeks. It is interesting and at the same time surprising news.

We need a weather man to produce good weather for all of these great family reunions. Last Sunday's experiences at the State Highway Park is the proof of this statement.

Will it be good for all when the election is over, and our restless quiet is not ravished by loud speakers telling of the "glories, worthies and nation-saving qualities of John Johnson, candidate for—?"

The newspaper reports of the apparent fall of Paris does not make acceptable reading for the American Republic. But think how it would sound were it printed New York City, U. S. of America, instead of France.

Ancient Chinese, like Hitler, did not have such great respect for everybody and everything, as in the Chinese religion, there was a separate hell for pharmacists and another hell for physicians! Can you beat that?

The American Red Cross in its appeal for funds, a minimum of which they have placed \$10,000,000, says this of the American newspapers: "The success of the American Red Cross appeal for a minimum of \$10,000,000 to aid the war-stricken peoples of Europe largely will hinge on the editorial support of the press of this country."

With school out many automobiles in Woodville are being driven by underage youngsters, and, youngsters do not have driver's licenses. There is an age limit for those who are eligible for driver's licenses. All this means two things, no city ordinances, and no officer on duty whose duty it is to make arrests of licenseless car drivers.

The race for top count among the candidates for governor begins to sound as it did then Mr. and Pa were making the headlines. It is, a fact, the candidates are so crude, so kid-like in their utterances of abuse, they are not interesting, and are absolutely disgusting, provoking anger in the hearts of 98% of newspaper readers. Just like a bunch of fifth graders in some outlying district.

## National Defense By Hubert Harrison of Etex C. of C.

During the last world war most Chambers of Commerce were central power houses for war work of all kinds. Today, with Europe on fire again, we face new problems that will affect the programs of work of every wide-awake Chamber of Commerce, regional and local. National defense, under the leadership of the president of the United States, as outlined in his courageous and masterful recent radio address to Congress, has assumed supreme importance to every American citizen and to every organized group.

All patriotic Americans, regardless of their opinions about various policies of the National Administration on internal affairs, should support the President on national defense. This is no time for political argument on minor points. To quibble and bicker all among ourselves now is as foolish as arguing with your wife over last month's grocery bill when the house is on fire.

With excitement rife throughout the country, there is serious need for immediate sober and sane local leadership on the subject of national defense. The proposed plan for the organization of the National Industrial Defense Corps, for enlistment of civilians to dis-

cover and report disloyal activities and to protect essential industries, is of vital importance. If civilian defense groups are not organized under authorized leadership, there is danger of unauthorized groups being organized under unsound and excited leaders who might do great harm.

There is no reason now to neglect our regular programs for community improvement, agriculture and industry. We must carry on. But national defense has become a definite and urgent additional part of the alert Chamber's program.

The Chamber of Commerce has the organization machinery already set up to serve as the nucleus in local communities for organizing civilian defense groups under the most leveled heads men in each community who will act with and be guided by the duly constituted authorities.

Our leadership and membership help build East Texas. In times of crisis we believe it is our first duty to preserve and defend it. We urge calmness, but there should be no tardiness. Certainly recent events in Europe should be sufficient warning of what may happen to peace-loving unprepared nations.

## Red Cross Quota To Be Made Up

An urgent letter came Monday from Wm. M. Baxter Jr., war relief chairman in St. Louis, that Tyler county double its quota which was \$350.00 and have it raised by June 30.

The County House Bible Class is sponsoring the drive and T. O. Sutton was appointed county chairman of this special call.

Jay Kelley, teacher of the class, asks that all churches take a special offering Sunday for this cause, and for everyone to give as liberally as possible. If we could catch one glimpse of the hunger and anguish of mothers, children, babies and old people, we would be glad to give out of our abundance, even though we would need to sacrifice our pleasures and even our needs.

The poorest man, woman or child in Tyler county is wealthy beside the thousands on foreign soil, and through no fault of theirs.

COMPLECTING MISS FAYE MOTT

Honoring Miss Faye Mott of Zavala, who will be married to J. I. Allison of Crockett June 29, Mrs. Charles Coleman of Lufkin and Mrs. Ira Davis and W. T. McMullen and Miss Marjorie Lock of Zavala entertained with a tea at the home of Mrs. McMullen Wednesday during the hours of 2 to 5 o'clock in the afternoon.—Lufkin Daily News.

SINGING AT CONCORD EAST OF ZAVALA

We are inviting you to another jubilee of song—to a big singing convention at Concord, 10 miles east of Zavala on the 4th Sunday and Saturday night before, June 22 and 23. This convention will be held under a large tent with sound equipment and seats for all.

We are featuring a fine quartette, new to this section, and an outstanding song writer; 25 other quartettes and representatives of leading publishers, as well as well known directors, are invited. Bigger even than Shawnee convention. Expect at least 5000. Remember the place: Concord. Date: June 22 and 23. Come one and all. Angelina county folks please bring lunches.

CEMETERY BOMBED

French newspapers reported that the American World war cemetery at Montfaucon, in the Meuse-Argonne region, was bombed on Memorial Day, at the same time that memorial services were being held in the American cemetery at Surannes, near Paris. Three American army cemeteries in France are in German hands and a fourth is under fire.

## Death of Miss Maryell Cruse

The whole county grieves with Judge and Mrs. Lou Cruse in the death of the beloved daughter, Miss Maryell, aged 21 years. A graduate of the 1935-36 class of Woodville High school, she entered Sam Houston State Teachers College. Part of her second year she remained at home because of the poor health of her mother.

Some months she developed inter-mittent fever, but thought little of it and was in the hospital a short while before her parents were notified. She came on home but soon it was decided that it might be serious and she was carried to specialists. For many months she been in John Sealy hospital in Galveston and everything that science and medicine could do was tried but to no avail and on Thursday night the fight ended. It was especially heart breaking to her friends and loved ones as she had been so brave, cheerful and every ready to co-operate and try any thing that was proposed by the physicians. She was loved by the nurses and all who were in contact with her at the hospital and every individual there and here was praying for her recovery. A member of the Baptist church, she was a leader in her home community among the young people who loved and admired her. The Booster family had a big place in their hearts for Maryell for she has sent in the news from her home community for the past eight years whenever she was there. The funeral was held Friday afternoon at the old Fryd Shell cemetery north from the Cruse home, with Oakley-Metcalf in charge. The Rev. Ernest Martin, Tom Campbell and J. C. Boyd speaking words of comfort to the heart broken family. A great crowd of friends were gathered and the floral offering was lovely and beautiful. Pall bearers were school friends and relatives, Clyde Cruse, Jr., Elmer Ray Oats, Woodrow Cruse, Jack Pool, Floyd Cruse and Elvin Davis. Judge and Mrs. Cruse, the sisters, and brothers, Patsy Jean, and Ruby Lou, and Rex of Devers, Bob Frank of Tyler and Carl of Woodville have the sincere sympathy of all who know them.

## EASTERN STAR

Last Friday night the local Masonic hall was the scene of the annual installation of the incoming officers of the Order of The Eastern Star.

The hall had been transformed into a veritable flower garden by the use of lattice fences, trellises and garden gates, all twined with ivy and blue morning glories. The center of the garden was marked by arches covered with ivy and morning glories, between the chairs of the five star points. Masses of pink roses completed the beautiful setting.

Mrs. C. E. Smith was the installing officer. Mrs. Clyde Pedigo of Hull, installing marshal, Mrs. D. P. Rock, installing chaplain, and Mrs. Carroll Rock, installing organist.

Special music for the evening was furnished by Mrs. Audis Wilsenbaker, who sang "In the Garden" and "Ah! Sweet Mystery of Life" and by Martin Nellius, who sang "Open the Gates to the Temple."

Gifts were presented the installing officers from the worthy matron, Mrs. Nannie Feagin. These presentations were made by Mrs. Carroll Rock. Miss Bennie Frances Dismukes presented the gift to Mrs. Rock as installing organist.

Miss Dorothy Feagin presented a gift, with an appropriate message to Mrs. Feagin from the installing officers. A lovely calligraphic nosegay was also presented Mrs. Feagin by Mrs. Fred Matthews.

Past Matrons and Past Patrons jewels were given Dr. and Mrs. Watt Barclay from the chapter as an appreciation of their past years service.

About 150 members and friends were present with visitors from Warren, Kountze and Orange.

A social hour followed the installation.

Funeral services for Mrs. A. Hamilton, who has been making a monthly donation to the Red Cross since the first of the war.

 —With apologies to Kate Smith.

**THEY DO** say the automobile of 1941 is here—the same that we all have. That is to say, the great manufacturing plants will be turning out defense war munitions. The Rooster will not even after a mild complaint. We'll drive with a smile while the nation actually prepares for peace.

**NO THE** Rooster is not unduly alarmed at all this war stuff and fifth column talk and foreign propaganda practice now in the air. What we are attempting to do in our own small way, it to get people realizing and to thinking for their own personal good and safety. England imagined it could not happen to them you already know a part of the answer.

**RIGHT NOW** America is the best place in all the world. It has been that way since long before we can remember. And now the first real threat for our security appears on the horizon. And so as taxes mount, as politicalism seems to be challenged, as our very citizenship appears to be threatened by the so-called Fifth Column stuff, we must not for an instant relax, or imagine most of the stuff we read at not true. We must think, believe, work for, live right and pray for America. Kate Smith's "God Bless America" should become the national anthem.

**LAST MONDAY**, we listened in on President Roosevelt's morning radio talk. We got one high-light, i. e. "I suggest a Sixth Column in America, made of ex-servicemen in plain clothes whose duty it shall be to look and listen. When the communists are located, burn them." That was fine, but folks are wondering where in them in Congress should be two laws, effective when signed by the President. One to provide detention camps, one to make it possible for all Fifth Columnist aliens to be deported, without fuss, lengthy law suits, etc., to the country from which they came. And, also, all mail from German cities, be examined and all printed matter containing propaganda, be immediately destroyed. America and Texas, in particular, on the Mexican border, wants no more performances such as originated in the Valley and in Del Rio, or Odessa. Can you imagine a bunch of un-Americanism actually defying the local authorities? Do you believe this country should have no laws to stop propaganda spreaders to the end they stick up their noses with the statement "There's nothing you can do to us?"

**AND WHAT** has Tyler county done in the way of aiding the U. S. Red Cross in its great humanitarian work in worn-torn Europe? If anything is to be done, NOW is the time. Red Cross officials are not specializing in burial work, but rather attempting to aid the LIVING in every possible way. Up to now we know of no donation of cash made to the Red Cross from any one in Tyler county, save and except one. We know of that one offering because it was our own personal check, and because we wanted to help right now. We sent our offering direct to St. Louis, Mo., headquarters. What has Tyler county done. Will anything be done? If something is to happen to aid unfortunates, why delay. It is a fact, it may deprive some of us a few extra luxuries, or even a new dress or sport suit for men. All we know of the horrors of war we learned from the newspapers. A few exservicemen know because they were over there back yonder. But we civilians—have we seen our homes blown to bits, have we seen our children after hit by a shell, can we imagine all of Woodville's inhabitants homeless, foods destroyed, air planes swooping down and killing us as we attempt to find

the radio and the daily papers keep us informed, Tyler County has, as yet, Friday, June 7, 1940, not put over its drive for funds.

**ANNUAL MEETING OF THE FIRST CHURCH OF CHRIST, SCIENTIST, MOSTON, MASS.**

Boston, Mass., June 3.—An appeal for calm and more faith in the omnipotence of God in the face of present world turmoil, featured the gathering here today of thousands of Christian Scientists from all over the world for the annual meeting of the First Church of Christ, Scientist, in Boston, Massachusetts.

"Trusting in the omnipotence of God," said Harry C. Browne, First Reader of The Mother Church in reading a message from The Christian Science Board of Directors, "enables one, through demonstration, to enjoy the freedom of thought resulting from the unfolding of the characteristics of divine Mind as expressed by Christ Jesus."

"Increasing cognizant of the true idea about anything, exposes its suppositional opposite as a lie. Therefore, when the true idea of man's relationship to God in universality is expressed, misunderstandings between men and nations will vanish."

"The divine Mind is in reality the only power; therefore nothing can resist the manifestation of righteousness. With due regard for the necessary human footsteps, which our Leader, Mary Baker Eddy, says are indispensable in meeting problems, it is also imperative to look to the divine mind for guidance and wisdom to supply the impulse to do all things in a right way and at the right time."

Mrs. Margaret Murray Glenn Matters, C. S. B., of New York, daughter of the late Major General Edwin F. Glenn, of the United States Army, was elected President of the Mother Church to succeed George Shaw Cook, C. S. B., of Brookline, Mass. Edward L. Ripley of Brookline and Ezra W. Palmer of Marshfield were re-elected Treasurer and Clerk, respectively. The chief duty of the President is to serve

the normal and natural, to accommodate the clergy, to provide adequate office facilities, it became necessary recently to add 38% additional floor space to the Clerk's office."

**WOODVILLE NEWS**

The Trustees Under the Will of Mary Baker Eddy reported Mrs. Anea H. Harris, Secretary, assisted many branches of The Mother church in carrying on various church activities including contributions toward the cost of church property. A number of churches to receive aid in the past have voluntarily made repayments to the trust fund.

Reading the report of the Manager of Committees on Publication, Mrs. Florence W. Saunders, Assistant, said that the Committees are grateful "for an increasing manifestation of the spirit of friendliness on the part of the press and of the clergy toward Christian Science. This friendliness is evidenced in the lessening of public attacks on Christian Science, and in an increasing number of requests for speakers on the subject of Christian Science."

 WOODVILLE, TEXAS

Referring to the apparent strength of unity or quantity in material organization, she quoted Mrs. Eddy's statement in Miscellaneous Writings (p. 128): "I once thought that in unity was human strength; but have grown to know that human strength is weakness."

In a parallel vein, George Shaw Cook, the retiring President, pointed out that "the effort of one individual or nation to dominate others, or to exploit them, by means of force, coercion, dishonesty, or deception, may appear temporarily to succeed, but it cannot permanently prosper for the simple reason that evil has no divine Principle. Its nature is self-destructive."

"The ultimate triumph of good is not merely a question of hope or even of faith. All that is good in human experience is upheld by divine or spiritual law. And this law is able to assert itself and enforce itself in spite of the effort of misguided mortals to interfere with or to prevent its operation."

The report of the Treasurer for the fiscal year ended April 30, 1940, showed as usual that the funds of The Mother church were in a sound, healthy condition, and that there was no indebtedness at

the important recognition of our Leader, is being given from time to time. The honorable John H. Bartlett, former Governor of New Hampshire, in his book 'A Synoptic History of the Granite State,' makes this statement: 'No writer's name will ever live longer than that of Mary Baker Eddy, and no book will be read by more generations than 'Science and Health.'"

**WOODVILLE NEWS**

A. Warren Norton, Manager of The Christian Science Publishing Society, declared that "The Pub-

lishing Society, under the supervision of the Executive Superintendent of the charitable institutions, expressed gratitude for the many demonstrations of healing at the Christian Science Sanatoriums, also to the graduates and undergraduates of the nurses' training courses. "Taught by experienced instructors," he said, "they are bringing healing, comfort, and love to the performance of the duties of their chosen professions."

**ONE MILLION Texans**

One million Texans would have to find other means of livelihood if the Texas petroleum industry were to shut down tomorrow.

Steady employment, good working conditions, reasonable working hours and fair wages are the industry's responsibilities to its workers and their families—a million Texans in all.

It must maintain production, find and develop new fields, meet competitive markets for its products and pay its total expense bill of 750 million dollars a year, which includes its payrolls.

The Texas petroleum industry now has to pay 97 million dollars a year in taxes to Federal, State and local governments before it can consider wages and employment.

*When expenses must be cut to satisfy increasing tax demands, employment suffers, and with it, the buying power that employment creates in our State.*

### TEXAS OIL FACTS

For every barrel of petroleum produced in Texas last year, 98 cents was paid in wages and salaries to Texas oil workers.

Oil from seeps near Nacogdoches was used to lubricate axles of wagons traveling the old Spanish Trail as early as 1790.

Texas oil and gas operators drilled 2,459 dry holes in this state last year.

Texas oil refineries refined 400,000,000 barrels of petroleum in 1939, or over four-fifths of the State's total oil production.

The first use anywhere of oil as fuel for a locomotive was in 1898 on a train operating between Corsicana and Hillsboro.

Texas oil workers and Texas farmers and landowners receive over \$400,000,000 a year from the Texas oil industry. This is nearly three-fourths of its total operating expenditures of \$550,000,000.

Mrs. G. E. Richardson of Jasper returned home with her sister, Mrs. Moye Pope last week, who had spent a couple of days visiting her.

### SUL-FA-NIL-AMIDE

Dr. Irving S. Cutting, dean of medicine at Northwestern University and a member of the Chicago Rotary Club, writes a health column for the Chicago Tribune. In it, recently, he mentioned sulfanilamide, the new drug whose potent properties are described as exceedingly numerous. The item raised one of the Doctor's faithful readers to these heights of poesy:

I like old Doc Cutter,  
 But doggone his hide,  
 He stumps me about this Sulfanilamide.

It is not the taking,  
 For Doc knows his onions;  
 And if old Doc said it  
 Was sure cure for bunions,  
 And if I had bunions,  
 The first thing I tried  
 Would be a large slug of Sulfanilamide.

peacock is a young bird is a peacock, and the hen is a hen. In India a peacock is a protected sacred bird.

To this day some imagine a peacock feather is unlucky. Geo. W. Stimson says "According to Greek legend, Juno metamorphosed the hundred-eyed Argus into a peacock and transferred his eyes to its train, where they still form the beautifully colored disks.

From this story the peacock's tall became the emblem of the evil eye and the superstition associating peacock feathers with misfortune is probably based on the same mythological tale.

Five hundred years ago the knights of Staverden castle in the Netherlands adopted white peacock feathers as their crest and to this day several hundred white peacocks are kept at Staverden on the only white peafowl farm in all of Europe.

### DOUCETTE

Miss Annie Belle Causey returned from Beaumont after making a business trip and undergoing treatment from a physician there. Rev. J. C. Marshall filled his regular appointment in the Methodist church Sunday. Mrs. A. Hopson of Midway visited friends here Sunday. Dr. J. C. Miller, who is very ill, was taken to the hospital in Beaumont Sunday. Mrs. Leland Hammock of Beaumont spent Monday with her parents, Frank Baskin. Edw. Hopson of Midway, visited friends one day last week. Mrs. Hensarling have as their guest their daughter of Kilgore. Jim Pope is at home from New Orleans where he has been attending Tulane University. The Missionary society met at the church on Tuesday afternoon at 3:30 with a very interesting program. The meeting was opened with a prayer by the president, Mrs. T. H. Townsend. Mrs. Alice Pope gave an excellent talk on "Name Holding, the Texas-Mexico Missionary." Mrs. A. J. Collins gave an interesting talk on "I am a Circuit Rider." Plans were further discussed for the benefit of those who were absent at the last meeting about the zone meeting to be held in Woodville. Their pledges were turned in to help in placing a life membership at this zone meeting. A donation was made to help Mrs. D. D. Wittington, district secretary, in her trip to Mt. Sequoia.

### TRUCKING INDUSTRY TO PAY ADDITIONAL TAX

If government plans are carried through, the Texas trucking industry will soon be paying an additional \$2,012,802 more for gasoline each year, according to figures compiled by Lynn B. Shaw, manager of the Texas Motor Transportation Association.

### 100 MILES TO MONT LOCKE

Less than 100 miles from the University of Texas' McDonald Observatory—located on Mount Locke in the Davis mountains—are the oldest living trees on the North American continent and possibly in the world. Botanists say they may be 10,000 years old. Microscopes must be used to see their annual rings.

### WATER SAVES LABOR

A tendency to consider a farm home water system a luxury and not a labor saving device is gradually becoming overcome in Texas, reports M. R. Bentley, agricultural engineer for the Texas A&M college extension service. He cites the paradox that while water is the most necessary and useful item around the home, many families give little attention to making the water supply convenient. Probably the heaviest work in a farm house is carrying in water or carrying out waste water. This heavy work may be lightened greatly by the installation of a kitchen sink with water piped to it and a waste pipe to dispose of waste water. Contrary to popular belief, a simple water system of this type does not cost a great deal. Where farmers wish to install home water systems and plan doing much of the labor themselves, they can consult "Waterworks for Texas Farm Homes" published by the Extension Service. This publication, available free at the offices of county agricultural and home demonstration agents, includes information on wells and cisterns, diagrams of several simple water systems, and necessary materials so that a farmer may estimate the cost of installation. Additional information available includes complete plans for a one-home-sewage disposal system obtainable from the Extension Service, and three Farmers' Bulletins, Nos. 1426, 1446, 1460, which may be secured from the U. S. Dept. of Agriculture.

### MISS DOROTHY MITE SHACKEL

Miss Dorothy Mite Shackel, daughter of Alexander H. Shackel, of the E. D. Hawkins and Fritz Muller building, visited her parents in Woodville Sunday.

Washington, June 14 (AP)—Roosevelt, it was learned today, decided on his emergency re-armament program after the staff command had frankly advised congress a week earlier that the U. S. army would be virtually helpless before modern "blitzkrieg" warfare.

Testifying behind closed doors, the high command unfolded a startling story of—

A protective force so poorly equipped that it is actually short of uniforms and blankets.

An air corps lacking even one completely modern equipped plane.

An entire fleet of bombers (Douglas B-18's) so outdated that the chief of air corps asserted "it would be suicide to send them against modern equipment."

A shortage of ammunition so serious that the chief ordnance declared "it ought to be emblazoned on the Flatiron building so the public would know."

Appalling deficiencies ranging from 50 to 100 per cent, in vital weapons, including mechanized equipment, anti-aircraft guns, senescent artillery, anti-tank guns and automatic rifles.

An overall antiquation in the entire protective force so critical that it will take from at least a year to two years to catch up with Europe's ultra-modern war equipment.

Those were the highspots in the secret testimony, not a word of which has been made public.

### POSTS DON'T ROT IF PROPERLY TREATED

Green, sappy posts of such nondurable woods as sap pine, cottonwood, and post oak will last from 10 to 15 years, possibly much longer, when treated with zinc chloride.

The chemical is applied by the so-called tire tube method, and is inexpensive as compared with many other types of fence posts.

A number of Texas farmers have demonstrated the practicality of this system of post treatment in cooperation with C. W. Simmons, farm forester of the Texas A. and M. Extension Service and with county agricultural agents.

Wide use of the method has been hindered because the chemical was not available but supplies are now being sold in commercial quantities.

The U. S. Department of Agriculture Forest Service has compiled a 1940 edition of complete directions for post treatment by the tire tube method, as a result of considerable experiment during the past two years, and copies of this booklet can be obtained through county agents or by writing to C. W. Simmons, Farm Forester, Extension Service, College Station, Texas.
