Published as Second Class Matter A Weekly Newspaper Boosting Tyler County and Woodville WOODVILLE, TYLER COUNTY, TEXAS, THURSDAY, SEPTEMBER 5, 1940

THINK 'EM BOBBIES

Education is easy in America. In China 3,000 thousand characters must be learned to read the language.

The further away from home they get Nazi Germany looks like an empire, just fighting in self defense.

How we grow! Scientists say a suit of armor preserved for the last 1,000 years would hardly fit 13-year-old boy of today.

How'd you like a Holbrook, Mass., strawberry? One that measured nine inches in circumference, weighed 2 ounces.

Did you ever try measuring your foot? Well, the oddity of this measurement, say accredited authorities, is a comely proportioned figure is six times the length of the foot.

A great newspaper says telephone booths in a college building in New York are equipped with blackboards, chalk and erasers for the benefit of the dozers. We looked up that word in Winston's Simplified Dictionary and found that word, but nearly there is "dozaker." The meaning thereof is "log-pole." We wonder how the reporter got that way, or if he meant to say something about log-poles when mentioning erasers.

Sometimes we wonder what to believe. Cut an Oregon on our last trip we learned a German matron who had just arrived from the old country to make her home with her children, who went out to do a lot of shopping. Seeing a crate of eggs she inquired how many she could have. The reply was "all you can carry." She replied in German we can have but two weeks per family. And yet the news from Berlin states the food supply in that nation is ample for a year.

DON'TS FOR DOVE HUNTERS

Austin, Sept. 4. With dove hunters' season well advanced, don'ts listed, followed, will save sportsmen from inevitable troubles with State and federal game wardens have been formulated by the Texas Game department's executive secretary. They include:

Don't shoot doves before sunrise nor after official sundown.

Don't shoot from a car or train, or along a public road.

Don't shoot doves from any gun except a shotgun larger than ten gauge.

Don't forget to plug your gun to three-shell capacity.

Don't forget your hunting license if you leave the county of your residence.

Don't kill more than 12 doves per day and do not have more than 12 in your possession, white wings and morning doves.

Don't forget to clean your gun well before taking that first hunting trip of the season.

Don't shoot when you cannot see, there might be another hunter behind those trees.

Don't leave gates open and always get permission to hunt on private land; trespass law is rather severe.

Don't forget that the quail season does not open until December 1.

Whose Booster do You Borrow?

Texas Fares Well In Government Contracts

Texas concerns continued to receive substantial awards and contracts under the national defense program during the last half of July. Gov. O'Daniel advised local industrialization committees all throughout the state. Relying on a report submitted by the office of Government Reports, the governor announced that contracts totaling \$6,023,499.86 were awarded Texas concerns by the Army department in the two-week end period. At the same time, the United States Housing Authority let a contract for \$989,000 for 250 housing units. Corps of Engineers and WPA approved projects totaling \$325,000 for work at Texas army posts.

The Texas contracts follow:

Par-American Airways, at Brownsville, fuel and oil, \$14,094. Humble Oil & Refining Co., Houston, fuel and oil, \$26,550. Amarillo Airport Corporation, fuel and oil, \$16,800. City of Abilene, fuel and oil, \$9,800.

H. H. Mueller, San Antonio, repair of building at Duncan Field, \$142,258. Robert E. Stevens, San Antonio, excavations at Duncan Field, San Antonio, \$3,762.50. A. J. A. Contracting Corp., Dallas, Dallas, roofing, Beasley Field, \$6,000. E. L. Dalton, Dallas, gas distribution system, Kelly Field, \$15,504.50. Crawford-Austin Mfg. Co., Waco, mattresses, \$98,100. Taylor Bedding Mfg. Co., Taylor, mattresses, \$230,125. Gimberson Diesel Engine Co., Dallas, Diesel engines and parts, \$2,915,255.86. Crawford-Austin Mfg. Co., Waco, folding canvas cot, \$240,360.

H. H. Mueller, San Antonio, superstructure of equipment, repair of building, Duncan Field, \$142,258. Edw. W. Ovington, San Antonio, engine test building, Duncan Field, \$259,200.

The WPA awards were for construction, utilities and roads as follows: Duncan Field, San Antonio, \$250,000; Brooks Field, \$75,000; Fort Sam Houston, \$100,000; General Depot, army, \$50,000; Kelly Field, \$200,000; Randolph Field, \$50,000; Normyle Quartermaster depot, \$50,000; Fort Cavett, \$50,000.

In a previous bulletin, quoting the office of government reports, contracts and awards totaling \$7,807,701.91, received by Texas concerns from the Army, the Navy and the United States Marine commission from June 13 to July 17.

PATE AND CARRAWAY WEEK-END REUNION

The Pate and Carraway families met in their third reunion at the club house at Woodlake, W. C. Pate, Houston, led a devotional, W. C. Pate, Jr., Houston, and Mrs. B. J. George of Beaumont furnished the special message, the Rev. Curry Carraway, Beaumont, gave a history of the two families. The day was lovely and the meeting of friends and dear ones was a happy association to remember as the year elapses before the next reunion in 1941.

P. T. A. WILL SELL HOLLANDS

The executive committee of the P. T. A. met Monday afternoon at the home of the president, Mrs. Watt Barclay. It was decided to arrange the Holland's subscription campaign. All those whose subscriptions are expiring are asked to wait to renew when a member of the association calls.

STUDY CLUB

President's day will be observed by the Women's Study club at its first meeting on Tuesday, Sept. 10th, at the home of Mrs. Martha Hewett. All members of the club are urged to be present at the first session of the fall. Yearbooks will be ready for distribution at that time.

WOULD NOT LENGTHEN THE WORK WEEK

Austin, Sept. 2.—The American laborer's work week would not be lengthened, despite demands for increased national defense production, said Dinshaw W. Hume, of the Regional Informational Assistant of the Wage and Hour Division in a Texas State Network broadcast Tuesday of the United States Government's weekly series. The Federal Wage and Hour Law now limits the work week to 42 hours, and beginning in October it calls for a 40-hour week.

Mr. Hume, interviewed by B. Frank White, of the same board, pointed to the country's experience during the last war and quoted from orders of the Chief of Ordnance and Quartermaster General of the U. S. Army—issued seven months after America's entry—that "reasonable hours, fair working conditions, and a proper scale are essential to high production."

"We must not forget," he said "that there are still eight to ten million unemployed in the United States. It will be time enough to talk about lengthening the work week after industry has absorbed these people."

In reply to criticism from some employers that they could not find skilled workers among the jobless and can't afford to pay for overtime, Mr. Hume said: "A recent tabulation by the Social Security board of some 5,100,000 registered job-seekers at Federal Employment Offices showed there were 980,000 skilled craftsmen and 1,000,000 semi-skilled production workers unemployed and looking for jobs."

HIGHWAY PARK SCENE OF THREE REUNIONS

Sunday was a big day at Highway park. Three of Tyler county's pioneer-families held reunions and some 500 people enjoyed basket dinners there. More than 200 friends and relatives met with the Sheffield clan. Talks were made by Rex Fortenberry of Beaumont and Eesa Sheffield of Lufkin. Officers elected were: Matt Sheffield, Colmesnell, Chairman; Mrs. John H. Arnold, Houston, Sec.; Webb Sheffield, Dies, Treas.; Eacar Sheffield, Lufkin and Miss Ruth Sheffield, Beaumont, program committee.

Prizes were given to Noya Odell Sheffield, Chester, as the youngest baby, to Mrs. Mollie Sheffield, Houston, the oldest lady; Geo. Sheffield, Beaumont, oldest man; to Mrs. B. S. Lee, Warren, the most recently wed couple; Mrs. Will Sheffield, Woodville, the longest wed couple; Mrs. Grover Cooper, Dallas, who had travelled the farthest to attend the reunion. Among others from out of the county were Mrs. L. E. Nantz, Port Arthur; Mrs. Muri Cox, Port Arthur; Mrs. W. W. Ballard and family, Miss Angie Sheffield, Mrs. Rex Fortenberry, Beaumont.

DID YOU EVER WONDER?

There is a time-honored catch-question, to wit: "Which weighs the most—a pound of feathers or a pound of gold?" One attempt to reason out an answer would be to rely on the proposition that a pound is a pound, whether of butter, potatoes, or flour, and so feel safe in concluding that a pound of feathers and a pound of gold weigh the same. A more hasty and superficial reasoning would possibly confuse volume with weight and conclude that, feathers being lighter than metal, the answer would be that a pound of gold weighs the more.

Both the arguments miss the point of the matter which is that there are two different systems of weight concerned. The feathers, which can be classed as an ordinary commercial commodity, would be weighed according to the avoirdupois metal, would be weighed according to the Troy system.

The word avoirdupois is from the Old French, *aver de pais*; and means "goods"; *de*, "of"; and *peis*, "weight." This system is in use in the United States and England for the ordinary purposes of trade. The fundamental unit of the system is the pound of 16 ounces having a total of 7,000 grains. Avoirdupois weight is used for all articles and commodities, except drugs, precious stones.

The Troy system of weight-measures, by which the gold would be weighed, was used earlier for articles of various classes, but today it is used only by jewelers and goldsmiths for weighing gold, silver, jewels, and the like. In the Troy system (named after the town of Troy, France) the grain is the same as in the avoirdupois system, but the pound is lighter, for it contains but 5,760 instead of 7,000 grains. Curiously enough, the ounce avoirdupois is lighter than the ounce Troy, containing but 437.5 grains to 480 grains in the ounce Troy. But there are 18 ounces in an avoirdupois pound and only 12 ounces in the Troy pound.

Consequently, if we bought a pound of feathers and a pound of gold and put them on opposite pans of a balance scale, the pound of feathers would prove heavier than the pound of gold—W. F. Kessney, in Christian Science Monitor.

ANSWER TO A RIDDLE

How many of you stamp collectors would be able to say just how come were you to wonder how the President of the United States could be in three places at the same time. To be sure the president has to do a lot of traveling out over the states, but suppose you received three letters the postmarked Franklin, Ill., Delano, Cal., Roosevelt, Arizona, all the same day what would you think? and, also all three of these letters the same day? You must admit it would be confusing.

WOODVILLE NEWS

The singing school closed here Friday night but a county-wide singing association was organized with Norman Paschel as president and Miss Vera Mae Dean as V. Pres. There will be a meeting each Thursday night at the Baptist church here to sing. You are invited to attend.

Supt. Lee Henaly spoke at the Rotary meeting Thursday night on the Improvement of a Youth Welfare Program in Woodville. It was a splendid talk with much truth and common sense advanced, for this reporter heard it first hand while seated in her car outside the cafe.

Mrs. J. H. McCombs attended a retail credit manager's convention in Beaumont Sunday of last week. They are now in charge of the Woodville office now located in the Eves Bldg.

Tim Stryker, proprietor of Stryker's drug store, is attending the Executive Committee of the Texas Pharmaceutical Association in Waco today. Mr. Stryker, a member of the executive board, stated the purpose of the meeting is to select the 1941 convention city and to outline policies for the coming year.

Dr. A. Waller, bi-county public health officer, was in Kountze on Tuesday to hold a clinic, assisted by nurses: Hazel Son and Helen Lawson.

Gerald Hicks, Cecil Hayes, Pat Scoggins, Dr. Howard Cohensour and Dr. A. Waller, bi-county public health officer, met with and helped perfect the Junior C. of C. Wednesday night of last week.

WOODVILLE NEWS

Miss Margaret Young has returned to Houston and will again be on the faculty of the Milby school.

Mrs. Autie Dean has returned from a visit in Houston. Mesdames Jack Mitchell, Gertrude Sneed and Emma Sanders of Port Arthur visited Mrs. D. L. Dean Sunday.

Mrs. S. P. Means of Phoenix, Ariz., has been visiting her parents, Mrs. Jim Brown of Spurger and his aunt Mrs. Jennie Hart. Saturday Mrs. Earl Ferguson and three sons visited Mrs. Hart.

Mrs. D. L. Dean spent the week end with relatives in Jasper county. The daughter, Miss Helen, visited with her aunt, Mrs. Hart.

WOODVILLE NEWS

Mrs. T. C. Rock and daughter, Miss Frances, returned Friday from a visit in Kirbyville with Mrs. Joe Wickline. This week Mrs. Wickline's visiting in Woodville.

The New Red Fire Truck Got Us Modern Friday

WOODVILLE NEWS

The peace and serenity of this county seat city was rudely violated Friday afternoon. Folks ran to the doors and windows wondering if Hitler st-kyers were looking us over while hunting for a place to drop a couple of screech bombs.

But it proved to be a echo of what our English friends are putting up with these days. Echo is right.

But citizens soon discovered it was the new Woodville fire truck pumper. It seems the volunteer fire department was out on a "stall" hunt—get that word still—to locate 2 1/2 feet of fire hose of which the city is possessed.

The truck dashed here, there and yonder all over town, on the highways and byways, on the paved streets and off, a-wallowing in the sand.

Each toot of the moaning, howling squeezer seemed to call on any or all Woodvillians who may have secreted the city's fire hose to Give Up! Give Up! We mean business.

We have since learned this hose is assembled at the city water department building.

That screech also meant we want the hose so we can show what this pumper can do. However, the boys gave in in object despair. They learned there were no hose worthy of the name, and that at the time of burning of the Williams' home the hose was stretched from a hydrant at the top of the hill and laid down hill to the source of the fire, or near to. The water was turned on and the hose sprung two leaks. The home was completely destroyed.

Ah, yes, the cooler stopped tooing. The fire truck was stored somewhere.

There's a moral to this.

The Junior Chamber of Commerce which is willing to have officers and members from all of Tyler county, the Women Study Club, ditto the Senior C. of C. organization, the Rotary Club, all of the church organizations should proceed to get the money for a (pair of) duly accredited not to (run) fire hose with which to meet an emergency.

Well, you all know what happened to France, Belgium, etc., etc., including England? Well, lets tolerate no fifth column objectors. Lets get going.

Oh, yes, The Booster will be there with all the boosters and schemers in the rush for preparation. The age limit will not be an excuse for not coming across, nor will conscientious objectors be tolerated.

Yes, C. O. should be conspicuous by their absence.

INSURANCE RATES

Highway users of Texas will be saved more than \$2,000,000 annually by the reduction ordered last week in insurance rates by the State board of Insurance Commissioner, Lynn Shaw, manager of the Texas Motor Transportation, declared today, following the receipt of the order from Casualty Insurance Commissioner R. G. Waters.

With a reduction of 10% in rates on fire, theft, and comprehensive coverage insurance for private passenger cars, a tremendous savings will be given September 1, 1940, when the new rates go into effect, to all private car owners in Texas who carry insurance on their automobiles, Mr. Shaw said.

Automobile dealers' fire and theft rates were reduced 25% by the order, and the owners of Texas' 335,467 trucks will enjoy reductions in various types of insurance, ranging from 10% to 25%. Long haul truckmen's injury and property damage rates were reduced 10% in all territories in Texas by the order.

Contributing to the saving to private and commercial truck owners which Mr. Shaw estimates at considerable in excess of \$200,000, will be the elimination ordered by the Commissioner of restricted type policies, so that truck operators in the future will be provided coverage any place any where in the United States and Canada at no additional cost. Also, the order makes a reduction of approximately 25% in rates on trailers and semi-trailers over 25 feet in length. On fleet operators where sufficient equipment is operated for individual trucks.

REDUCTION IN AUTO

Highway users of Texas will be saved more than \$2,000,000 annually by the reduction ordered last week in insurance rates by the State board of Insurance Commissioner, Lynn Shaw, manager of the Texas Motor Transportation, declared today, following the receipt of the order from Casualty Insurance Commissioner R. G. Waters.

ROMAN CATHOLICS

Berlin, Aug. 14.—Informed quarters today declared that the conference of Roman Catholic Bishops of Greater Germany at Fulda would publish next month a pastoral letter admonishing all German Roman Catholics to support Adolf Hitler's "fight for Germany's freedom."

These sources said the letter would ask the civil population to bear war's hardships cheerfully because sacrifices demanded of civilians were slight compared with those of the soldiers.

THEY'RE NOT SHILLED

"Waitress, what's wrong with these eggs?"

Waitress—"I don't know, but I laid them on the table!"

P. T. A. MEET

At a meeting Tuesday evening the executive committee of the P. T. A. plans were made for the year. The first gathering will be a reception next Tuesday at the school building. The executive members will be welcomed by those interested in the group. The five or six new members being met and welcomed. The meeting program is being planned and the president, Mrs. Watt Barclay invites members, friends and friends to be present. The committees will be published next week.

NAZIS USE SCRAPS FOR SHOES

These shoes, brought from Germany to the United States, show how every scrap of material used by the Nazis in the production of wartime equipment. They have one-inch wooden soles. The soles are rough and the uppers are made in canvas. The only leather in the shoes is used for trim. And 27 bits of leather were sewn together to make the trim for one shoe.

PREPARING AT TOP SPEED

Austin, Aug. 29.—Secretary of the Navy Frank Knox in an interview broadcast today announced the nation that "we are preparing at top speed a Navy strong enough to maintain peace in a war-wad world." Knox declared the United States has embarked on a building program which will find the Navy composed of approximately 700 fighting ships and 200 auxiliary craft.

America, in a war-tossed world is building her high seas fleet not for the purpose of aggression, but to protect the peace of America. The bitter years that have just passed have taught us how little faith we can put in treaties. How mistaken was our idealism when, in Washington in 1922, we scrapped an amount of naval strength equal to 60% of our present fleet. We were about arriving at premises of the sea, and to promote disarmament for peace was up, and in vain. What happened was that we sunk the navies of Great Britain, Japan, and France. We did not even build up to the limits allowed under the treaty.

The American Way goes all the way, the secretary declared. "We go 100% for or against things, so when we disarmed we really disarmed guns on our battleships and then scrapped the ships. Then came the turn in the tide of realization that we were not hind other nations. We began to build a navy for our own protection.

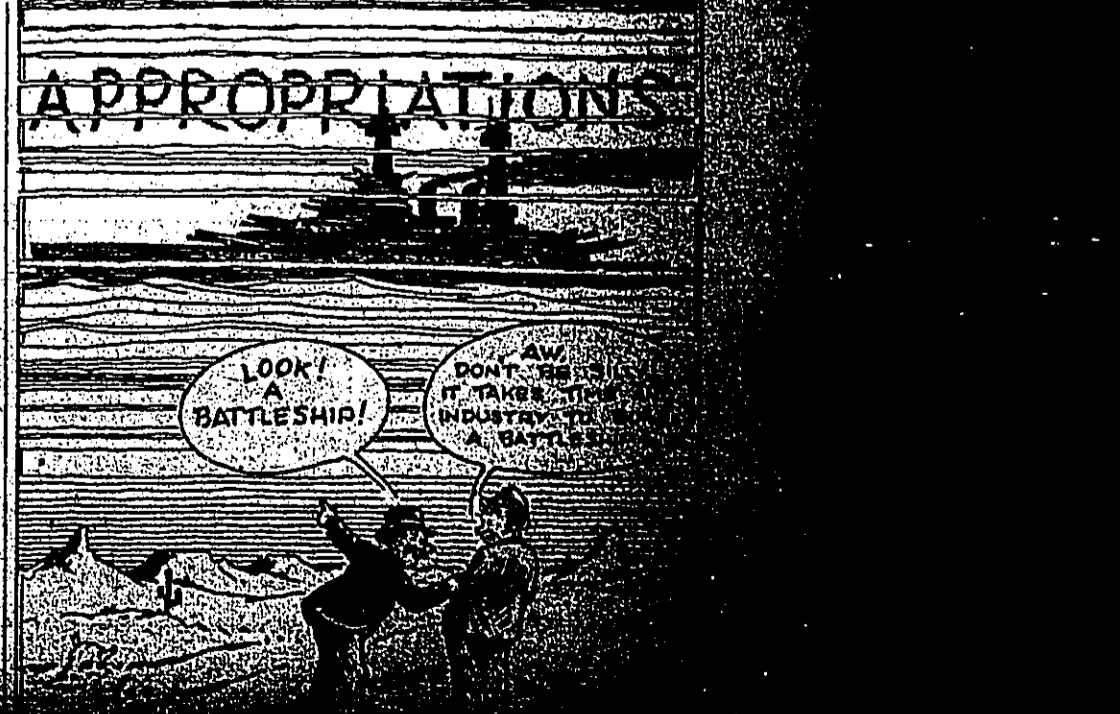

"When asked if this means a 'two-ocean navy,' Knox replied: "No. We keep our fleet intact. We don't split it up. We began building a navy adequate to meet the demands of our policy as laid down by the president and the congress."

Questioned concerning the naval air service, the secretary said that the Navy is now authorized to have 15,000 planes. Although the current figure fluctuates, he added, the Navy now has 11,000 planes on order or on hand, 3,000 more on order or on hand.

GET THAT new hunting and fishing license now. The one you have expired August 1.
IF YOU do not believe the Germans are not wasting anything these days find the story elsewhere headed: "Nazi Use Scraps."
IN THESE times whoever speaks the language of oppression, bigotry, or hatred cannot be speaking at the same time as a loyal American.—Rabbi B. B. Glazier, New York.
WHEN WE take over California, is a threat made by a Japanese store man in California when an American lady asked a Jap store man if he didn't have a better grade of oranges to sell, replied: "You'll be lucky to get as good oranges as these."
 We believe Japan will make the American government more trouble inside of 15 months than will Hitler.

IN ANOTHER column will be found a lifted editorial by our Washington life-long friend, the wife of our former kid-time associate, who took up the job of continuing her husband's business in publication of the Sequim Press, at the time of his demise. Incidentally, she's publishing a better paper than ever before. Also this young lady is not a conscientious objector, but rather a serious thinker. She does believe the matter of conscription should have gone to a vote of the masses. She cites the fact woman suffrage was not put over by Congressmen. There are two boys in her family and they'll probably go to the training camps. She'd disown them if they objected. Find the story editorial, headed "National Conscription."

JAP PROPAGANDA tells us in a special news report from Tokyo, under date of Aug. 31.—Japanese should regard compulsory military service in the United States as honorable service, the newspaper Nichi Nichi said Saturday in an editorial. Such loyalty to the United States harmonizes with the Japanese spirit, the paper said, and failure to fulfill such a duty should deprive American-born Japanese of their right to vote. Worse, it said, they may be considered fifth columnists. Estimating 20,000 Japanese will be affected, it said they must be prepared to face on the battlefield men of any race who become enemies of the United States. . . . This is like the story The Booster carried two weeks ago from Berlin as published in New York City in "Facts in Review," headed "Give us Credit for Some Common Sense."

MORE FATALITIES AT CROSSINGS THIS YEAR

Fatalities resulting from highway-railway grade crossing accidents in the first five months of 1940 totaled 772, an increase of 184 fatalities compared with the corresponding period last year, the bureau of Statistics of the Interstate Commerce Commission reports.
 In the first five months of this year 1,967 persons were injured in such accidents compared with 1,622 in the corresponding period of 1939.
 There were 119 fatalities resulting from highway-railroad grade crossing accidents in the month of May alone, an increase of 185 compared with May, 1939. Persons injured totaled 247 compared with 244 for the corresponding month of 1939.
 Miss Jean David of Gulf Pump Station, with Mrs. J. H. Willard enjoyed Sunday night with Mrs. H. C. Filler of Urbana.

WARREN SCOUT TROOP
ON TWO DAY OUTING
 The Warren Scout Troop No. 52 with their scout master D. H. Watts and local troupe committee chairman C. H. Wilbanks, spend two days at Lake Telas near Colmesneil. C. H. Wilbanks was unable to stay with the boys all the time but provided ways for the boys to carry their supplies by furnishing his trailer and went up after the boys while Mr. Watts remained all the time with them. The boys making the trip included Edward Martin, Milton Jones, Louis Bradberry, Ralph Glenn, Lounier Bradberry, John Freeman, Billy Welch, Vernon Davis, Billy Seales, Charles Steagal, Walter Ray Overstreet, Lester Novils, Harold Loy d Gardner and Tommie Gene Huff.

The lake is a very excellent place for camping and Tyler County is fortunate in having this in the county. The boys in our troupe wish to thank all parties connected with the lake for the invitation to attend this two days camp and assure you the days are well spent.
BOND VOTED FOR WARREN SCHOOL
 Recently a \$10,000 bond was voted for the purpose of installing steam heat, as recommended by the State Department of Education in the annual report of last year, and equipping a public school building of wood material in said school district. Work will begin on this project in the early spring so that the plant will be ready for use in Sept. 1941. Since wood has already been purchased for the coming year installation of same would interfere with school work, the board has set early spring to complete the project.
 Miss Etta Leola Jordan of Spurrier, was awarded her degree at SFA, Nacogdoches, the 23rd, also T. E. Howell and Miss Mae Peace of Colmesneil.

and should be treated with a long and absolute candor. It is an innovation which affects every home. For it will remain a national institution once it becomes a law. The editor's great appreciation is for the majority of the United States citizens who entered military training in the summer of 1918. The first printing press was brought to this county from England by Rev. Jesse Glover and Stephen Day (or Daye) in 1838. The press was set up at Cambridge, Mass. by Rev. Glover having died at sea en route to this country. The first important press printing shop in this county was founded by Freeman Olin. This plant in 1884 passed into the hands of Samuel Greer. In 1885 William Bradford, an English Quaker, established in Pennsylvania the first printing press outside of Massachusetts. Green became later endowed with the title of Royal Printer for New York Province in 1893 at a salary of \$200 a year and held this office for more than 50 years.—Typographical Journal.

SUMMER IMPROVEMENTS IN WARREN SCHOOL
 During the summer a junior high school library, apart from the senior library has been completed, and all books repaired, catalogued and ready for regular use. The summer library project has proven to be of great value to both students and to adults; being kept open from 8 to 4 throughout the summer by Miss Molly Kirby and Mrs. Nellie Richardson.
 Other summer improvements were rubber matting placed in

NOTHING TO NOBODY
 An illiterate person, who always volunteered to "go round with the hat," but was suspected of sparring his own pocket, overheard once a hint to that effect, replied, "Other gentlemen put in what they think proper and so do I. Charity's a private concern, and what I give is nothing to nobody."
 Mrs. Austin Ogden of Town Bluff visited in the home of Mrs. G. C. Bracken in Silsbee early last week.

NOTHING TO NOBODY
 An illiterate person, who always volunteered to "go round with the hat," but was suspected of sparring his own pocket, overheard once a hint to that effect, replied, "Other gentlemen put in what they think proper and so do I. Charity's a private concern, and what I give is nothing to nobody."
 Mrs. Austin Ogden of Town Bluff visited in the home of Mrs. G. C. Bracken in Silsbee early last week.

and should be treated with a long and absolute candor. It is an innovation which affects every home. For it will remain a national institution once it becomes a law. The editor's great appreciation is for the majority of the United States citizens who entered military training in the summer of 1918. The first printing press was brought to this county from England by Rev. Jesse Glover and Stephen Day (or Daye) in 1838. The press was set up at Cambridge, Mass. by Rev. Glover having died at sea en route to this country. The first important press printing shop in this county was founded by Freeman Olin. This plant in 1884 passed into the hands of Samuel Greer. In 1885 William Bradford, an English Quaker, established in Pennsylvania the first printing press outside of Massachusetts. Green became later endowed with the title of Royal Printer for New York Province in 1893 at a salary of \$200 a year and held this office for more than 50 years.—Typographical Journal.

SUMMER IMPROVEMENTS IN WARREN SCHOOL
 During the summer a junior high school library, apart from the senior library has been completed, and all books repaired, catalogued and ready for regular use. The summer library project has proven to be of great value to both students and to adults; being kept open from 8 to 4 throughout the summer by Miss Molly Kirby and Mrs. Nellie Richardson.

CHURCH MEMBERSHIP LISTED AT 55,807,366

According to a Census Bureau report, there are 256 religious denominations in the United States, with 55,807,366 members, a gain of about a million since 1936. Church property is valued at \$3,839,509,571 and annual expenditures are estimated at \$518,953,571.

The leading denominations with their membership are: Roman Catholic 19,914,571; Jewish, 4,541,104; Negro Baptists, 3,792,469; Methodist Episcopal, 3,569,753; Southern Baptist, 2,700,155; Methodist Episcopal South, 2,061,693; Presbyterian, 1,797,927; Protestant Episcopal, 1,735,335; Northern Baptist, 1,329,044; Yutheran, 286,612; Disciples of Christ, Baptist, 1,329,044; Lutheran, 1,192,315; Congregational, 976,388.

CURIOS SPECTACLE

Unless and until all of the transportation agencies of the nation—railway, motor, waterway, air, and pipeline—are brought into focus, until they are co-ordinated as a homogeneous whole, each leaving the public in the way that it is best fitted to do, and all being supervised with the sole purpose of providing for the greatest people the most economical and efficient transportation humanly possible, we will continue to witness the curious spectacle of Uncle Sam shoveling money out of one door of the treasury to subsidize and develop transportation facilities, and from another door shoveling money to transportation industries which the government subsidized facilities compete. From the Galveston News.

FLUID DRIVE FOR A DODGE

Reports will have fluid drive for Dodge word from factory headquarters to local Dodge dealers.

The news is out of Dodge, driving sense is remembered as a sharp in all

WOODVILLE, TEXAS

Sept. 12, has been announced. The program proper starts at Beaumont, under the direction of E. C. Davis, general chairman. Beaumont Rotary Club Conservation Luncheon, Hotel Beaumont at noon, Wednesday, Sept. 11, Address by H. M. Seamon, vice-chairman and general manager, Kirby Lumber Corp. "Why Business Men Should Be Interested in Conservation."

First session of conference, Sky room, Hotel Beaumont, at 2:00 p. m.

The following subject will be presented. Conservation of Water Resources, Hon. J. E. Sturrock, Texas Board of Water Engineers. "The Development and Use of Southeast Texas Forests, Capt. I. F. Eldridge, Regional Survey Director, Forest Service, U. S. Department of Agriculture. Progress of Soil and Water Conservation in East Texas, C. B. Spencer, Soil Conservation Service. Chemurgy's Part in Conservation, with special exhibit, M. F. Hendley, Instructor, Trinity Valley Chemistry Institute, Romayor. The Conservation Program of the Southern-Pulpwood industry, Frank Heywood, Jr., General Manager, Southern Pulpwood Conservation Association. Rodent Control as a Conservation Measure, C. L. Landon, State agent, U. S. Biological Survey. Conservation of Wild Life in Southeast Texas, W. J. Tucker, Executive Secretary, Game, Fish and Oyster Commission.

Wednesday Evening, 7:30

John D. Rogers, Pres. East Texas C. of C., presiding.

Conservation and the Extension Service, H. Williamson, Director, Extension Service. Co-ordination of Conservation Endeavors, Hon. J. E. McDonald, Commissioner of Agriculture.

Introduction of guests by P. B. Doty, chairman Agricultural Committee, Beaumont C. of C.

Thursday, Sept. 12

Second day of conference at State Forest No. 1, five miles southeast of Kirbyville, Jasper county. Chairman for the day: O. M. Stone, Jasper.

10:00 a. m. Trips to various projects in the Forest under direction of Texas Forest Service.

12:00, noon, Barbecue, community singing.

Welcome to State Forest No. 1, E. O. Shecke, director Texas Forest Service. Conservation of Wild Life, M. L. McKnight, representing Louisiana State Conservation Commission. Community Forests in East Texas, Elmore Torn, Director Agriculture and Forestry, East Texas C. of C. A new Thought on Fire Prevention, T. C. Richardson, Associate Editor, Farm and Ranch. Pastures, the Handmaiden of Conservation, J. F. Combs, Agricultural Agent, Jefferson county.

Cars will leave Beaumont at 8 a. m., Thursday, Sept. 12 for the State Forest No. 1, returning in time to make train connections on Missouri Pacific and Southern Pacific east and west.

County commissioners, land owners, business men and civic leaders in this county should find such a conference helpful.

takes the place of the engine fly-wheel and consists of only two working parts, two bowl-shaped shells into which vanes or fins are welded. One shell is mounted on the engine crankshaft, the other on the drive shaft. Both shells which do not touch others, are enclosed in a sealed housing filled with oil.

It is this oil which, set in motion by the turning of the forward shell, passes the power rotations to the rear and the drive shaft.

Simple as the fluid drive mechanism is, the different driving results it produces are exceedingly interesting. You can climb a hill at speeds as slow as a mile an hour with gears in high and the car will keep going smoothly without straining the engine or any other mechanism.

You can also stop the fluid drive car, leaving the transmission in high without stalling the engine. You can start in high without bucking, and drive, all day, at any desired speed, slow or fast, without having to bother about shifting gears. You can do these and many other things and in addition enjoy a smoothness in get-a-way, stopping and speed variation that is a downright revelation.

Where the new Dodge fluid differs from most mechanical improvements is that its advantages can actually be expressed, reports Mr. Powell. That is why he expects to have a busy time demonstrating the remarkable new drive to the people of this city from the moment the first fluid drive cars are received and which will be soon.

CARS CONTINUE TO TAKE TOLL

Reports of the heavy toll taken by motor cars on Texas highways continue to pour into the executive secretary of the Game Department. The latest is from the game warden of Colorado county, which in 100 miles of driving

CHILDREN EXCLUDED FROM SCHOOL

Dr. Geo. W. Cox, State Health officer, in a statement issued in Austin last week, urged all local boards of education to pass regulations providing for exclusion from school of all children not presenting certificates of vaccination against small pox and immunization against diphtheria.

Parent teacher organizations, the public health personnel, and local medical organizations are strongly in favor of preschool examinations and vaccination. In this campaign against unnecessary death and disease among the school children of Texas, the State Department of Health lends its full support.

END OF SUMMER TERM

College Station, Aug. 31.—This little town, the home of some 6,500 Texas Aggies became a deserted city this day, when the final term, summer session, of the 1939-40 school years came to a close. From Saturday, until Tuesday, Sept. 17, the day on which new students officially report for the new year, the only activities here will be the work in preparing for the new year, and the football practice.

The campus will be dead only for a short time but will come back to life with a thud when the 6,500 odd men swarm the place after vacation time. New students are urged to be at

A&M on the morning of Sept. 17 in order that they may receive their physical examinations. The students will register the following day and the former students will register the following day. Students required to take entrance examinations will be given this opportunity Monday, Sept. 16.

CALIFORNIA UNIVERSITY STUDENTS WARNED ACTIVE OPPOSITION TO U. S. DEFENSE MAY MEAN SUSPENSION

Berkeley, Cal., Aug. 30.—University of California students were warned by President Robert Gordon Sprout today they might be suspended from college if they actively opposed America's defense program.

Welcoming new students to the university in the first general assembly of the year, Dr. Sprout pledged the university's resources to the nation's defense program.

Referring to a student meeting called for next Tuesday at Sather Gate to discuss the draft bill, the university president said:

"For those who prefer to fiddle while Rome burns or to accelerate the pace of destruction by building private bonfires of their own, I shall have little sympathy. Indeed, I may find it necessary to ask some of them to defer their enjoyment of education at the state's expense until the life and prosperity of the state have been made secure again by their more patriotic fellows."

YOU SAID IT

"Rise every morning" a magistrate advised a man in court, "with a fixed determination to make your wife realize that you are master of the house, and see what happens."

We know what will happen. He'll have to get his own breakfast.

Methodist Church J. C. Marshall, Pastor

Woodville: 11 a. m. Special all students service, by students, for students. Both college and public school students.

Doucette: Preaching 9:45 a. m. and 7:45 p. m. Sunday Schools 10 a. m. Let everyone start back to school on Sunday.

FOUR NEW MOVIES RELEASED BY FORD

Four new movie features ranging from symphonic fantasy in technicolor to a picture tour of the 1940 World's Fair have just been released by the Ford Motor Company. These productions are available, without charge, for showings before school and also church groups, and service clubs and various civic organizations and private clubs requesting.

"Symphony in F," one of the first "stop action" movies made in technicolor, is a "new" picture in action, technique and seven entertainment. With Linton Wells, famed CBS news analyst as narrator, the 15-minute feature traces in an extraordinary manner the far-reaching influence of the motor car industry throughout the world in gathering raw materials, manufacturing, fire plant

the movie swings from comedy to actual pictures in color of various manufacturing processes at the Rouge, with comments by Wells on scenes in the steel mill, glass plant, plastics division, motor assembly building, tire plant

the picture takes the viewer to the beginning of the Ford Motor Company's assembly line.

Other new Ford pictures include "While the City Sleeps" showing some of the amazing but little known tasks performed by night workers in a big city. "Keep to dealers."

We're Celebrating the Arrival of

The NEW SARGON With IRON and IMPROVED SARGON VITAMIN B-1

With A Most Amazing FREE TRIAL Low Price Introductory Offer

SARGON IS FOR EVERYBODY

Suffering the Misery and Agony Of Sluggish Digestion, Lumpy Nerves (Due to Lack of Vitamin B-1), Incomplete Elimination, Iron-Poor Blood And for Any Run-Down, Weakened Condition Due to Inorganic Causes

Here's good news for all our people. The New and Improved SARGON, so amazingly successful in bringing new energy, lusty appetites, improved digestion and assimilation, and a generally improved nervous and physical condition to thousands in metropolitan cities, has come to town.

Many of our old residents know the old SARGON helped them through sickness and ill-health. The younger generation know how SARGON can be relied upon in time of misery and agony of illness caused by inorganic troubles. Now, the New and Improved SARGON is twice as good. The fortifying of Iron with Vitamin B-1 and adding other ingredients increases SARGON'S invigorating power far beyond its former scope.

In addition to its medicinal and tonic value, SARGON has a pleasing, wine-like taste, and can be taken freely by all until desired results are obtained. SARGON'S worth as a powerful, invigorating tonic is so pronounced, that if you don't benefit from its use we'll refund your money.
