**40,000 TRENCH SILOS FOR 1940**  
It seems like he might be stretching it a little, but E. R. Eudaly, a dairyman with the Texas A&M Extension service, looks for 40,000 trench silos in Texas by the end of 1940. At that he has a pretty good basis for his estimate. In 1931, there were 18 trench silos in the state. By 1933 there were 435, by 1935, 1,187. From then on, by years the story is 1936, 5,841; 1937, 9,483; 1938, 17,048; and in 1939, 28,831. To reach the 40,000 estimate, Texas farmers and ranchmen would have to build and fill 1,169 trenches over and above what they did in 1939.

**THINKING CITIZENS** of these United States are wondering when some of the XYZ and other intimated projects will be cancelled. The average citizen has a right to think Uncle Sam's preparedness program ought to make a certain shortage, at least the army of the unemployed. The daily press tells daily of new work projects that relate to the ability of placing workers. It is a fact all labor necessary in the preparedness program does not apply to skilled labor, such as die makers and pattern manufacturers.

# The Story of the Newlyweds

## Begin in Virginia—Ends in Woodville

### A Realistic Romance

Ethel, a popular socialite of a central Virginia town, an ardent civic, graceful as a fawn; and Jack, a charming personality, and Jack, too, a fine chap; had for some years lived with the same objective, marriage. Finally Jack woke up one day and decided procrastination was the thief of time, and bliss. He pulls a fast one proposed; is accepted and soon the newlyweds are bidding old friends adieu. The itinerary includes a visit to Woodville, the home of their uncle, George Jones. On arrival, so pleased is Uncle George that he proposed if they would locate here he would build and furnish them a beautiful home and start their life in life. They accept and chose our town for their future home.

Uncle George at once conducts the newlyweds to the **Rayne Hotel**. This, said he, is a history with all home comforts and a congenial hospitable atmosphere under the versatile management of S. L. Rayne many others stop at this well appointed hotel. Uncle George for his gracious service and distinctive culinary and cuisine now has more than a local name.

"Come along," said Uncle George, rising from the breakfast table. The pleasure is all mine to introduce you to your future home. And I am going to build for you a pretty residence at once.

"First of all we are going to Uncle Woodward, our capable contractor, a man of good ideas and good taste in practical architecture and actively associated with the building interests here." Uncle Woodward soon furnished the plans for the residence and agreed to give them a turnkey job. It is an adaptation of the old English type, pleasing in design and its interior arrangement, and just what the newlyweds longed for, a real modern and architecturally beautiful home.

"Plumbing is a first consideration in building," emphasized Uncle George, "for it is appropriate modern plumbing fixtures that contribute so much to the comfort, convenience and beauty of the residence of today. And now," said he, "to avoid trouble in future years we are going to see Joe E. Anderson about this plumbing contract. He understands the fine points of sanitary plumbing and scientific ventilation and will fulfill his contract in the letter, giving us fixtures of current approved designs and color tones. Joe E. Anderson is readily facilitated and execute your contract for every character of general plumbing with dispatch."

"Through his connections with the FIA and CIT corporation, Joe E. Anderson can install improvements in your home on liberal, easy payments."

"Next," said Uncle George to Ethel and Jack, "I must run over to the bank and get another check book. Come with me and meet the boys' and see a modern appointed bank for your convenience and better service. The Citizens State Bank is a progressive yet a conservative bank that will accord you every courtesy and service compatible with sound banking rules. With capable, alert officers and modern banking, keeping a hand on the pulse of business to help conserve its better interests as well as those of its individual clientele. Likewise its officers and directors are responsive public spirited and personally interested, and aligned with the progressive spirit of our own and county affairs."

"Of course you will want a nice car," said Uncle George to the bride. At this suggestion, Ethel beamed with pleasure, exclaiming "Oh, Uncle George, I want a pretty Chevrolet like yours. It is so good looking with such pleasing lines, snappy in appearance and such a comfortable car to ride in. A popular car at a popular price, within the reach of people of modest means." "Bright girl," replied Uncle George, "your wish shall be granted. We'll go right over after lunch and the The Sutton-Fain Chevrolet Co., who are always alert and pleasant in their dealings, and will sell you a car for cash or on reasonable terms. And, of course, everybody knows Gene Martin as a square shooter, conducting our town's live garage and one-stop service station." The beautiful new Chevrolet almost overwhelmed the bride with joy.

"Oh, where is a good drug store?" asked the bride. "I must have this prescription filled and I need some face cream too." "Right here," answered Uncle

George, "I'll take you to the highest art of the profession—a home enterprise that merits our fullest confidence."

"For repair work on fine watches and clocks you are advised to seek a shop of utmost reputation. The layman who does not understand the delicate work of such instruments are often the victims of sharp practices." Uncle remarked. "J. C. Lee, Jeweler, is a craftsman of proven honesty and integrity and his repair and work on watches, clocks and jewelry are of unusual merit. J. C. Lee's more than twenty years' experience enables him to give you better work and his fine equipment and large stock of replacement parts make for quicker service. Protect your jewelry investment by dealing there," he told Jack.

Transportation is a vital subject of the age. It affects every nation be it savage or civilized. The Indian in his day traversed the war path in his mocassins. Next we had the ox cart, the spring wagon and later the linden and finally the luxurious automobile. The last word in modern transportation. The fuel is gasoline. The lubricant oil, hence the Magliola Service Stations that dot the highways of the nation for Mobilgas service co-qual with their products—gas, oil and lubricants are always "Tops." Locally Loy Stillings is the wholesale distributor for Mobilgas products with a fine service to these stations. While the Magliola Garage is an outstanding "one stop" general service in out-of-town.

At noon hour Uncle George suggested that the trio go to McClure's Cafe for luncheon, "where friends meet." This popular restaurant, where ladies and gentlemen may go with confidence saying A. E. Pedigo and associates are gifted and experienced restaurateurs and that only the best in the market finds its way to these tables, where these good old savory, toothsome dishes are served, both at the tables and at the quick lunch counter.

In addition to the excellent cuisine and service we like the immaculate cleanliness and cheerful cordial spirit of good fellowship that prevails there, all combined to make the meals here enjoyable and too, a service reasonably priced. And for cold refreshing drinks, bar candies, and good smokes, you can visit McClure's with assurance says Uncle George.

"Now," mused Uncle George, that you are happily married and assuming your places in normal business and social life—as useful citizens, I want to prompt you not to overlook some good life insurance. "My boy, is the many thing to do. Have you stopped to think that a policy in a good company 'immediately' creates an estate to the full amount of your policy. And I am going to suggest we see my young friend W. W. Cruise, and have him write you a policy for \$10,000 in The Southwestern Life Insurance Co., of Dallas, one of America's Standard companies. This will amply protect Ethel and the little "Ethels and Jacks" said Uncle with a chuckling wink. Many attractive policies to suit the individual case, any of which can be had on small monthly payments. On the other hand, your policy reads ten thousand spot cash in case of premature death or accident or a \$10,000 paid up policy should she outlive her policy.

"Don't you know," remarked Ethel at the breakfast table, "I think good, rich pure milk and cream are of first importance in the human diet, because milk is the best balanced of all foods. And I am certainly pleased with Hudson Dairy Milk and Sweet Cream. I often make a meal on their good milk," said Uncle George. "I happen to know that Lee Hudson personally supervises the bottling and handling so its carotene guaranteed high test milk and cream to his host of customers. "You can drink Hudson Dairy Milk with impunity and everybody likes their prompt service."

"Oh," exclaimed Ethel, "I must have some pretty flowers for dinner." "Yes," replied Uncle George, Jack and I will go right over after breakfast and order them from the Woodville Flower and Gift Shop." Mrs. Strickie is gifted in the art of assembling and designing floral decorations for any occasion and with her attentions with leading florists she can telegraph flowers anywhere in America. "Too, the Woodville Flower and Gift Shop is popular with the community for its rare, beautiful and appropriate lines of gift goods."

"Now," said Uncle George, "on leaving home after breakfast, we will drive down to Parsons Service Station, the handy station and replenish our car with gas and oil. They always greet you with a hello and give you that popular Humble Gasoline and lubricants, the best on the market, and don't charge you a penny extra for the smile and good service. This station is up to the minute with every improved device for quickness and accuracy to the long list of patrons that deal there regularly, where your dollars buy quality every time—the popular Humble Products.

"You will find it worth while to drive a little out of the way at times for Ed Richardson's service, the live gas, tires, battery and auto accessory man of our town which service also includes washing, greasing and special equipment for the nationally popular Humble lubrication service.

The flowers show, sponsored by the Woodville Flower and Gift Shop, had more than 200 varieties of flowers. The festival closed Saturday afternoon. A quarantine on azalea plant shipments into Texas from the states of North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi and Louisiana went into effect yesterday by order of J. R. McDonald, state commissioner.

**YOU CAN GO TO MAINE TO SEE MOST OF WORLD**

China is only 95 miles from Lynchville, Me. Seeing's believing, and the following sign says so. It's the name of a town in Maine, however, not the sprawling war-torn nation in far-off Asia. The same goes for the other names on the sign. All are towns in Maine: Norway, Paris, Denmark, Naples, Sweden, Poland, Mexico and Peru.

Denmark . . . 23 miles	Naples . . . 23 miles
Sweden . . . 25 miles	Poland . . . 27 miles
Mexico . . . 37 miles	Peru . . . 46 miles
China . . . 94 miles	

The very air is vibrant, fraught from the harvest, spiced with wood smoke, bracing from the first frosts shimmering with the glorious sunshine that fills the shortening autumn days with splendor and makes thin and luminous the attending shadow.

"Bob White" shrills of "more wet, more wet," his Quakerish little wife, with half grown brood, trundles speeds across the roadway into the ripening corn, or with musical whirr-r rises, to dive into the distant sea of undulating brown.

Prairie larks trill and carol on the rusty wire, or perched on the infrequent posts that hold the cattle from the ripen field. Hawks fly low; frightened sparrows flutter into trees and hedge row; rabbits scurry from bare pastures to grassy covert, or sit erect and watch with distended eyes, quivering nostril and rigid ear, the impending danger.

The murmur of voices, the mourning caw of the lowing of cattle are as distant music, carried softly to the ear by the voluptuous air.

Corn shocks dot the fields—tents of an army that stand—

**WAR FUNDS EXCEEDS \$20,000,000 QUOTA**

The American Red Cross, \$20,000,000 war relief fund has been over-subscribed almost one million dollars, Chairman Norman H. Davis announced. Total receipts to date were \$20,924,120, with additional sums being daily reported as receipts come in from various Red Cross benefits and other contributions.

In announcing the successful conclusion of the appeal to the American public for funds with which to aid the victims of Europe's war, Chairman Davis expressed deep thanks to the generous donors. He said their dollars had saved the lives of several thousand French, Belgian and French refugees in France following the invasion of Belgium, the Netherlands and France. Even today, he added, these contributions were bringing vitally needed clothing, medicines and hospital care to the wounded and homeless in the British Isles.

**WOODVILLE NEWS**

The FFA boys helped Thursday and Friday to clean up Woodville. They were a regular job and make brigade under the orders of the Junior C. C., which sponsored the campaign.

Mrs. Edward Cherry and the small son of Oil Center, New Mexico, and father, E. A. Thompson, of Kaufman visited the sister and daughter, Mrs. Kirby Griffin (fifth the first of the week).

The Hopewell school community has built a two room log house near the school house to serve hot lunches in through the winter. WPPA aid can be given there as well as a building.

C. C. Pool, of Jasper, came through Woodville Friday enroute to Marlin. Mr. Pool started to Marlin a week before he and Houston, met the bank examiner and returned to Jasper with him, thus delaying the new day.

Mrs. James D. P. and T. C. Rock visited Mrs. Joe Ashby in Jasper a couple of days last week.

Mrs. Arthur Griffin, daughter, Miss Marthell, were in Beaumont Thursday.

Mrs. J. H. Jennings, at Gulf Pump Station Sunday.

**GIVING UP THE GHOST**

When a newspaper gives up the ghost, it is almost like a woman being buried in a coffin. Many times a newspaper is given up before it is really dead.

## CHECK SHOE WORKERS ORDERED SENT HOME

Before you read this story, we'd like to ask you, reader, how do you rate on this kind of citizenship? We believe the owners of the Bata shoe company should also be sent across the ocean.

Washington, Sept. 26.—The government today ordered 59 Bata shoe company employees to return to Czechoslovakia on the ground that the company misrepresented the kind of work they were brought into this country to perform. Announcing this decision, Attorney General Jackson also declared that the company's apprenticeship system at its \$2,000,000 Belcamp, Md., plant, was "completely foreign" to American ways and said that the chief characteristics of the Bata method were "child labor and low wages."

**THE OLDEST NEWSPAPER**

The oldest newspaper in the world is the Peking Gazette, a Chinese newspaper, which has been published continuously now for 1028 years. Eight hundred of its editors are said to have been beheaded for printing articles that displeased the authorities. What price editors had to pay in the past in order to secure for us the freedom of the press! All totalitarian governments today revert back to the ancient custom of throttling the freedom of the press.—Liberty, The Magazine of Religious Freedom.

## Easy Bean Dishes

**WE** might as well admit it. We're all looking for easy ways and short cuts these warm summer days. Providing of course, that the results are as good. Happily there are some very simple ways to prepare beans which are usually delicious. Thus, they solve the problem of that hot vegetable dish you wish to serve, along with your cold cuts of meat and crisp cold salads. You'll like the following:

**Tested Recipes**

**Parley Lima Beans:** Heat the contents of a No. 2 can of lima beans for five minutes in their own liquor, then drain. Add four tablespoons lemon juice and two tablespoons lemon butter. This serves six persons.

**Stringless Beans Hollandaise:** Heat the contents of one No. 2 can of stringless beans, then drain, saving the liquor for soups. To one cup of hot white sauce add the drained cup of maxonoline and two tablespoons lemon juice. Stir until smooth. Pour over the hot beans and serve at once. This serves six persons.

**Buttered Beans:** Heat the contents of one small can of stringless beans in their liquor for about five minutes. Add salt and pepper to taste and one and one-half tablespoons butter. This serves four persons.

# Ellery Queen

**THE FAMOUS RADIO DETECTIVE** and author of the sensational best-seller "The Adventures of Ellery Queen" PRESENTS

You will be held breathless by this startling, fast-moving story of murder in a modern hospital. Daring, clever, extraordinarily exciting, this is one of the most amazing adventures of the famous detective.

Because we want you to know Mercury Books (selected and published by The American Mercury), we'll send you this one—The Dutch Shoe Mystery, by Ellery Queen—practically free. We'll supply the book if you will pay 10c for postage and handling. Out of more than 60,000 copies printed we have less than 3,000 left—and they're selling fast. Hurry and send a dime for the complete copy of this intensely interesting book. (Sorry—only one to a customer.)

Here's my dime. Send me a copy of the Mercury Book, "The Dutch Shoe Mystery" by Ellery Queen.

## MYSTERIES THE WORLD HAS NEVER SOLVED

**VIRGINIA DARE**  
*What Was Her Fate?*  
By MADOO OWENS

A BLACK wall of mystery faced the Jamestown colonists when they landed in Virginia in 1607. Sir Walter Raleigh had charged them to seek Virginia Dare, the first native white American, and her fellow colonists, upon whom the forest primeval had so mysteriously closed some 20 years before.

But only the pine and the hemlock in the depths of that leafy wilderness could tell whether these lost ones had so strangely vanished, and until Raleigh's head fell upon the block of the executioner it was trouble with wonder as to the fate of his "lost Roanoke colony."

Those 150 men, women and children he had sent to Virginia to found an agricultural state in 1587, in three ships they had sailed away from Plymouth on a balmy morning of April, but they did not touch their restless feet to the sands of Roanoke island until the sun of late July had scorched it. Their Governor, John White, brought with him his daughter, Eleanor, and her husband, Ananias Dare. The colonists had hardly been their cabins out of the woods when they had occasion to celebrate the birth of a daughter to Eleanor and Ananias, and the Governor christened his little granddaughter—the first child of English parents born in the new world—Virginia Dare, in honor of the new province and of Britain's Virgin Queen.

Made Friends With Indians. Having upon his arrival found skeletons of an English colony that had preceded him, Governor White wisely determined to cultivate the friendship of the Indians. So Chief Manteo, who lived some distance away upon Croatan island, was a given the title of baron and lord of Roanoke, thus receiving the first and last peerage ever created on our soil. At the same time Manteo accepted the rite of the Christian baptism.

It soon became necessary for the ships that had brought the colony to return to England for supplies and Governor White went along to hasten their departure. He left behind him 89 men, 17 women and 2 children. On his way home he stopped at Ireland, where he gave the populace some potatoes, the first of that kind ever seen in Europe. He started back with two ships laden with the needed supplies.
