SOUTH CAROLINA, so far as only 720 alien registrations and Texas has 137,375. It appears there are not so many aliens in that state.

YOU DRAFT dodgers as well as those who have not been finger-printed and registered as aliens: The time is getting short. Better think it over.

TOTAL DEATHS in Texas via the auto-truck accidents for October mount up to 100. The state report says: "Drivers who operate their automobiles at speeds which are too fast for prevailing conditions are traffic enemy No. 1," according to Homer Garrison, Jr., director of the department of Public Safety.

THANKSGIVING DAY—in both of these days, have passed into history. But, nevertheless, The Booster is publishing a letter mailed from England, Oct. 30, and was received in Waco from England by Major Charles Tenyson to Dr. Christine Fall, a Baylor U. professor. Just read the letter and then stop and consider what Americans had to be thankful for this year. The story is headed: "How They'd Like To Be In America."

NOW THAT the reports from over Texas have been all checked up The Booster thinks we, in Woodville, are in the safest part of the state. The native Woodvillians experienced no snow and ice. Weather not too cold for Turkey day. No homes washed away by flood waters, and comparatively no serious damage all throughout the county. Business continued as usual. As if preparing folks for a greater rain fall some time in the near future, roofs here, there and yonder leaked, and most Woodvillians will take the hunt and reshingle during the summer season. Roofs that never leaked before acted up perfectly sensationally and Woodville should be a good field for a roof covering that actually is water proof. Yes, The Booster house roof carried a guaranteed, patent roof covering, and the driving rain of last week got through, but really of what good is a guarantee, anyway? Did you ever cash in on a guarantee of any kind?

HOW TIME does change the every day practices of men, women and children. Back yonder a man's word was as good as his bond. Today 80% of the American people listen to your talk, your suggestions and your needs and promise to attend to them just so and so soon as they get back to the office. In far too many cases, as far as they are concerned, that is the end of the story. This is written Saturday. We were promised by letter, certain things by Tuesday of Wednesday. Perhaps a week later we may realize on the promise. Out of presence, out of mind, and when pinned down for explanation we get passed on quite innocently: "Why, I am so sorry, certainly intended to attend to it. Hope it made no material difference." Its just the age of the now and now. Too many will do so and so if its convenient. Young folks are the same. Promises that the end. It is time for the present generation to wake up to just what an agreement or a promise actually means.

IF AND WHEN the U. S. government outlaws strikes on all projects engaged in the manufacture of war supplies to be massed here, there and yonder, in the preparedness program, it seems as if it was up to Uncle Sam to buy in the wedding-out program. All foreigners not in sympathy with the United States should be in any way connected with the program.

Mrs. M. C. Rock and J. H. Willard drove to Houston Monday to carry the Chinese Night-gale to the bird hospital. The bird has been ill for six days threatened with pneumonia. The pavement and road from Livingston was damaged badly by the flood of a week ago. The pavement on south end of the San Jacinto bridge has settled some 6 or 8 inches lower than the shoulders.

Mrs. J. G. McKay of Arp, Texas, visited in the Rev. W. W. Hardt home Saturday.

Miss Ruth Splawn and brother-in-law, Rev. J. C. Boyd were in Houston Friday.

Mrs. Lewis Woodell spent Sunday last week in Jasper. They had some trouble to get back to Woodville because of high water.

WOODVILLE NEWS

George Stanley and Carrol Rasmussen, caused a great deal of alarm in the Shiloh community, Saturday night when they failed to return from a Saturday squirrel hunt. The boys, weary and cold after their night wandering lost in the woods in the Indian Village early Sunday morning. They caught a ride in home and appeared none the worse for the experience.

Miss Billie Slocum was home from Baylor U. to spend the Thanksgiving holidays with her parents, Mrs. S. E. Slocum.

Earl Sturrock of Anahuac visited Dr. and Mrs. J. C. Miller a few days last week.

3,500 PNEUMONIA DEATHS LAST YEAR

From now on until after March Dr. Geo. W. Cox, State Health officer, states that every one must be on guard against pneumonia. Last year 3,551 Texans died of this disease, and it is believed that many of these deaths could have been prevented had the patient called a physician early.

The onset of lobar pneumonia is usually sudden and is characterized by chills, fever, severe pains in chest, and coughing up of rust-colored sputum. A person who has suffered an attack of pneumonia does not need to be told how swiftly it attacks. One can be feeling simply chilly and languid. During the next day or two there disagreeable sensations continue, and the average person pays little attention to them. If one has been coughing for several days, he attributes everything to a cold. Then comes a chill, and with it comes pain—not a stitch, but a stab, a continued rhythmic stabbing with every catching breath.

New treatments for pneumonia have been perfected, but to give any of these methods a fair chance of accomplishing a cure, a diagnosis must be made early, preferably before the first chill or at least soon after its appearance.

Pneumonia is spread by contact, but this type does not live long outside the human body. There are 30 types of this germ. Many persons do not realize that pneumonia is a catching disease. Relatives will visit freely the person who is convalescing from pneumonia, although they would not think of sitting in the sickroom of a smallpox patient. Both are communicable and dangerous diseases. Having a physician when any of the symptoms appear is the best method of stopping this needless loss of life.

NEAL COMMUNITY

The recent seige of rain proved to be the most destructive this section of the county has experienced for 11 years. We are pleased to report W. H. Willford has a very neat home under construction which, upon completion, will be among the best in the community. Rev. J. P. Dale of Warren filled his regular appointment at the Neal church Saturday and Sunday. Durham and P. H. Rhodes were Woodville shoppers Saturday. Ed Rhodes, who is attending school at the Marshall college, visited his parents, Mrs. P. H. Rhodes, Sunday. J. W. Findley in company with John and Pearl Duncley visited relatives near Doucette Sunday.

WOODVILLE NEWS

Mrs. T. C. Rock drove from Austin Thursday to Temple for a turkey dinner at 7 o'clock, returning to Austin Friday a. m. The daughter, Miss Frances, came home for the week and with them. Enroute home they enjoyed another turkey dinner with Mrs. J. E. White in Sour Lake.

Mrs. Wanda Pedigo of Town Bluff was in Woodville Saturday and we learn that her son, Edward Hargrove sailed from Washington the 26th for Alaska. He left Ft. Lewis just two days before the terrible explosion, few miles from there, at Tacoma.

Mrs. Pedigo and mother, Mrs. Dora Bonnell, Sunday morning at Beaumont, Miss. Mrs. Pedigo and

W. S. OF CHRISTIAN SERVICE

The Woman's Society of Christian service met at the home of Mrs. Clarence Shivers Monday for their third regular monthly business and social meeting. It was announced that Mrs. Wood-Fain and Mrs. Carlton Young were to act on the sympathy committee, a newly appointed committee to take care of all details in sickness and death. The Society is planning a Christmas party. Mrs. Fain and Mrs. J. H. Harsch are in charge of details. Since 1936, the Society has been sponsoring a Christmas party for the poor of the city.

IMPORTANT-HIGHWAY MEETING TOMORROW NIGHT
This week has been designated by Governor W. Lee O'Daniel as Texas Highway Week. It is being observed by the interested citizens of Texas.

A meeting will be held in Woodville at the courthouse Friday night at 7:30. T. J. Kelley, the district engineer of the highway department and others connected with the department will be present. It is a good time for all of those who are interested in highway development to come out and get acquainted with the program and make such suggestions as they may desire.
Judge J. E. Wheat is county chairman for Tyler county and will have charge of the program. He says that it is hoped that those who are interested in the beautification of the highways and in preparations for the Second Annual Dogwood festival will be present so that plans can be made at this time.
Judge Wheat will speak at a meeting in Livingston tonight.

P-T-A. MEET
Wednesday afternoon will be the last meeting of the P. T. A. and the program planned will be carried out as in the year book except that Capt. Houston will not be present. Miss Katherine Lennard, public school music teacher, will present a 191 voice chorus, in 15 minutes of Christmas carols with Mrs. Fern Humphreys at the piano. The children are from the fourth through the seventh grades and this is the program "Good Will", English Mummer's Carol, God Rest You Merry Gentlemen, Traditional, Bring Your Torches, Old French Carol, Silent Night, Franz Gruber, O Little Town of Bethlehem, Redner, It Came Upon the Midnight Clear, Willis, Gloria In Excelsis Deo, French Carol, March of the Kings, French Carol, Come, Hasten, Ye Shepherds, German, Lullaby, Brahms, C. O. Brock will lead in prayer. After a short business session, the topic "Wise Use of Leisure Time and Recreation" will be discussed with Mrs. G. G. Lennard presiding. Supt. Lee Hensley will present "School, A Community Center"; J. Wood Fain, "Entertainment by Motion Picture"; Mrs. Fern Humphreys, "Music, A Creative Art"; Aubrey Grimes, "Community Recreation Programs". This will be one of the most interesting programs of the year and the members are earnestly urged to be there.

CHRISTIAN LADIES BAZAAR DECEMBER 14
Due to the number of activities planned for the week end of December 21, the ladies of the Christian church have moved their chicken spaghetti dinner and bake sale ahead a week and the date will be December 14. It will be held in the Lazenby building and everyone is invited to come.
Orders can and will be filled from now on to that date for baked goods and there will also be aprons for sale on Saturday, December 14.

SENIOR PLAY
The senior class of Kirby High is sponsoring a senior play festival, tomorrow, Friday night, Dec. 6, at the grade school auditorium. The program will consist of three one-act plays and special numbers featuring both high school and adult talent; between acts. The program will offer a wide variety of entertainment, one of the plays being "The Merry Widow" and "The Sign of the Cross".

MRS. JUD COLLIER MAKES STATEMENT
Talk now going the rounds to the effect that the national defense program will drain so much money out of Texas that legislators consider any new tax measures as anything from "inadvisable" to "impossible" has been questioned as to the motives behind such reasoning.
That flat statement comes from Mrs. Jud Collier, Mumford, chairman of the Women's Committee on Economic Policy for Texas.
Mrs. Collier says bluntly that certain of the interests who stand to make contributions to the social security measures if a tax on natural resources is enacted are putting words in the legislators' mouths.
Talk of submitting the tax problem to the people is nonsense, she said. The motto of the Women's Committee on Economic Policy for Texas is "We are tired of nonsense."
Our legislators have already had two mandates from the voters. When the people voted for the establishment of the teachers' retirement system, for instance, they told the legislature to put the plan into effect. That was one mandate. The other came when the present legislature was elected. Each member has only to remember his campaign pledges to find out how his constituents want him to act on the question of financing the retirement and pensions for the needy aged.
The present talk is nothing more than a dodge to throw up additional obstacles to the passage of a natural resource tax, Mrs. Collier charged. The vested interests know that the people would vote overwhelmingly for a tax on natural resources, but by advocating voting on it they hope to defer action. It takes time to hold a referendum, she added. Wealth of Texas is going to add tremendously to the income of the state as a whole and to big business in particular, Mrs. Collier pointed out. "It is apparent that Texas' gross income is going to be larger during the next few years than ever before, she stated. Since all of the big corporations who deal with Texas natural resources are entirely controlled and 95 per cent owned by out-of-state individuals, there is really only one question to consider in the establishment of a tax on natural resources, she held. That is, do we want part of the taxes paid here for use in Texas or all of it in states such as New York and New Jersey?

TO CUT THIRD PASS
Cutting of a pass at Murdock Landing through Padre Island from the Gulf into Baffin Bay is expected to send a constant flow of "sweet" salt water through the length of the Laguna Madre. Work on the pass by the Texas Game, Fish and Oyster Commission's dredge, the AE, will get under way the first week in December. Work on the 10,000-foot cut, which will be more than 100 feet wide, will require five months.
The Game Department has already cut and is maintaining passes at Corpus Christi Pass and Cedar Bayou. With the completion of the pass at Murdock Landing, the flow of water through the three passes and the Laguna should be nearly constant, it is believed. The eastern passes are fifty miles from Murdock's.
The Game Department dredge, after completing work at Corpus Christi Pass and Cedar Bayou, was reconitioned at Rockport and towed to Murdock Landing. Unless passes are maintained all through the islands, fish die during drought years by the tens of thousands in the Laguna Madre, which is considered the greatest natural spawning bed for salt water fish along the coasts of the United States. Dead fish lined the shores of the Laguna in 1939, when there was very little flow of fresh water from the land side. Few fish died in the Laguna last summer. Cutting of the pass at Murdock's was made possible by the co-operation of Burton Dunn, Corpus Christi banker and cattleman, who formerly owned Padre Island, and who retains grazing rights on it. His consent to the cutting of the pass was necessary before work could be even started.

At Rate of \$15,700,000 Per Day

\$16,799,283 in new paper money is being printed daily at the present rate. This is made possible by the greater demand and the life of the dollar bill is only about six months. After that it is a factored bill, to it is recalled to the treasury department and carefully destroyed. Some of the principal stages in the manufacture of Uncle Sam's paper money are shown here. No coins are minted in Washington.

Mrs. Carl Fairchild of Chester were week end visitors in Oklahoma.
Dr. Jesse Lee, district superintendent of the Methodist church, will preach at the morning service Sunday at Chester, and quarterly conference will be at 2:30 o'clock. The Baptist pastor will preach at Enon that day.
Mrs. G. S. McAllister have returned from Buras, La., after a visit with the daughter, Mrs. Archie Snow and family.
Mrs. J. H. Willard visited Mrs. L. H. Jennings Sunday night.

YOU SHOULD USE YOUR OWN THERMOMETER
One of the most potentially useful gadgets in the home during the winter months is the thermometer. Unfortunately, its possibilities as a health guardian are seldom realized by the general public, quotes Dr. Geo. W. Cox, State Health officer.
In homes where the thermometer is used intelligently it becomes a valuable defense mechanism. As a preventer of colds and more serious respiratory diseases that have their origin directly and indirectly in overheated rooms, it can and does render valiant service.
A maintained superheated atmosphere causes one to perspire, however imperceptible the process may be. When suddenly exposed to icy blasts, the body in that condition is more vulnerable to attack from respiratory infective agents than normally. Moreover, the body softening consequences that arise from constantly living in unduly warm living quarters in themselves are devastating.
On the negative side of the coin, the sense of comfort associated with excess heat is an invitation to underactivity, which frequently is unwisely accepted. Thus, instead of taking a normal amount of exercise in the open during the winter months, fondness becomes acute and "nudging the fire" routine. In this manner the actual life and zest-building possibilities that go hand in hand with cold weather are utterly chucked, and personal health is less positive than logically could be.
It is not recommended, of course, that one should adopt a Snuggly attitude toward winter. It is merely suggested that excess heat, the open in winter is a plain medium by which one is invited to one's physical condition. The objective is definitely minimized: the overfueled chair and overheated living room are shown as substitutes.
Both from the disease-preventive and health-developing standpoints, the thermometer should be kept within the safety limits of 68 to 72 degrees. Were this rule generally observed, and exercise in the outdoors regularly taken, it is entirely possible that many persons who contract colds and more serious respiratory conditions during the winter could sidestep them, and in addition, feel healthier.
