Eagles Win Over Saratoga 13 to 7

A 15-yard off tackle gullyop by bruising J. Risinger, 180-pound Eagle full back, in the fourth quarter gave the Eagles a 13 to 7 victory over the Saratoga Alligators in the opening game of the season Friday night. A capacity crowd was on hand to see the two well-balanced teams battle on even terms through a major part of the game. Woodville scored early in the first quarter when Risinger skirted right end for 25 yards and a touchdown. The attempt for extra point failed.

During the second quarter Saratoga threatened, marching to the seven-yard stripe, only to lose the ball on a costly fumble. In the second half, the most thrilling play of the game came when Tom Linton, Gator back, took the kick off on his own side, reversed the field and then scampered 90 yards for a touchdown behind splendid down-the-field blocking. Payne plunged off the line for the extra point. The game was marred by frequent fumbles on the part of both teams.

### National News Paper Week

Next week is supposed to be National Newspaper week. Editors have that one paper in all the year to think up new ideas, how to hold up the dear common people; to discover, if possible, some new plan to work for unsuspecting merchants, etc. Well, we'll have none of such. We know just about what the supporting traffic will fall on and we are highly grateful for what we receive, and shall not attempt to make an unpopular nuisance of ourselves, trying for donations, such as thank you cards, welcome ditties and proof of patriotism at so much an inch. This! All! Thank you.

### WOODVILLE NEWS

Bob Reid, president of the Big Thicket Federation called a meeting of her executive board at 10 o'clock last Thursday morning in the Christian Endeavor room of the Christian church, to plan the coming year's work. Two main objectives set up by the group were publicizing the Big Thicket through the press, contests in the schools and Big Thicket trails, and also highway beautification.

The application of the Jasper Garden club for membership in the organization was recommended by the board and will be presented to the general membership meeting next month for final acceptance.

At 12:30 a luncheon was served by the ladies of the church, and the guests found the dining room lovely with baskets and bouquets of flowers, and a miniature "Big Thicket" some 6x8 feet with forest, lakes, streams, hills and valleys, the back ground a real thicket of magnolia, pines, oaks and other East Texas timber but in the foreground a tiny log house with chimneys, a road, a bridge and a stream with a deer and a turkey watching the crowd. This work of art was the labor of Mesdames G. G. Wheat, T. C. Roek, and J. E. Wheat and was left intact for the Rotarians to enjoy that night.

The next meeting will be on October 8 at 8 o'clock in the hall near Kirbyville where R. E. Balthis will be in charge and will show the group some of the work carried on there.

### MEMORIAL SERVICE AND DINNER AT CHURCH

A large crowd gathered at the Christian church Sunday morning for the Memorial and Dedicatory service of the Baptistery. The children and grandchildren of Mr. and Mrs. J. D. Collier who helped organize the Christian church in Woodville had given the baptistry and lovely drapes in their memory. Two daughters, Mesdames O. T. Craver of Atlanta, Ga., and E. M. Rogers of Buisson and a grandson and granddaughter, Joe Wickline of Kirbyville and Mrs. T. C. Roek were present at the service. The very beautiful painting of the Jordan river, was given the church by Mrs. Ruth Stewart who was present with Mr. Stewart and their family of Beaumont.

Some 20 other visitors from Beaumont also attended and after the service joined the local membership in a dinner, served buffet style in the church dining room. The pastor, Rev. Tom Minyard, assisted by Judge J. E. Wheat and Jay Kelley, president of the church board, led the dedicatory service which was very effective, and will be long remembered by those present.

### Does your child SQUINT?

When you find your child squinting and groaning over his homework, maybe the best thing you can give him is better light. You may not realize that the lighting in your home is unsafe for young eyes. Yet science has discovered that one out of every five school children suffers from defective vision. A child can "see to read"—and yet be risking a serious case of eyestrain.

See the new I. E. S. study lamps that were especially designed by scientists for safe, easy seeing. Eyes are priceless. Good light is cheap.
