### PURCHASE ENTIRE CUBAN SUGAR CROP

Effective Jan. 4th, maximum prices of raw sugar were raised 25 cents per 100 pounds, duty paid, cost and freight basis at U. S. Gulf ports. This upward adjustment by the office of price administration is in accordance with terms of arrangements just completed by this government to purchase the entire 1942 Cuban crop of sugar.

Studies of refining costs and the extent of unsold raw sugar stocks in the hands of refiners are under way. Increases in the price of refined sugar will not necessarily correspond to the 25-point increase in the raw sugar ceiling, but will reflect the actual situation as to costs, the OPA said.

### WHAT COULD BE DONE WITH HIS PRESENT WAR'S COST

The cost of World War No. 1 has been summed up by Nicholas Murray Butler, president of Columbia University, as follows:

Apart from thirty million lives, the total cost of World War No. 1 was four hundred billion dollars. With that money we could have built a \$2500 house furnished in with \$1000 worth of furniture, placed it on five acres of land worth \$100 an acre, and given this home to each and every family in the United States, Canada, Australia, England, Wales, Ireland, Scotland, France, Belgium, Germany, and Russia. We could have given each city of 20,000 inhabitants and over in each of the countries named, a five-million-dollar library and a ten-million-dollar university. Out of what was left we could have set aside a sum of five per cent that would provide a \$1000 yearly salary for an army of 125,000 school teachers and a like salary for another army of 125,000 nurses. ### MORE SCRAP IRON NEEDED

The Texas USDA defense board meeting at College Station this last week, urged county boards to intensify their efforts to get scrap iron off the farms and into the factories.

The estimated million and a half tons of scrap iron lying useless on American farms, is combined with other necessary materials, would be sufficient to build 139 modern 35,000-ton battleships for the U. S. Navy, it has been stated by the OPM.

The Texas board and the 254 county USDA defense boards have accepted the responsibility of collecting the scrap metal from Texas farms.

Although a great deal of scrap already has been collected from Texas farms, the experience of a few counties which have staged intensive drives has demonstrated that too much of the metal is still going to waste. B. F. Vance, the chairman of the Texas board declared.

When one county goes to work and brings in half a million pounds of scrap, it is considered that as an indication that similar amounts may exist in other counties. The experience of Travis county where the farmers delivered over 500,000 pounds of scrap to dealers appears to be a record.

The total amount of scrap available on American farms is estimated as sufficient to make possible the manufacture of 50 million 50-caliber machine guns or 150,250 light tanks of the type which the British have used so effectively in the Libyan campaign. Scrap iron is an essential ingredient in the production of steel.

### SAVE YOUR SHOES

With this nation rolling up its sleeves for a victory effort, clothing must last as well as tires and automobiles. That goes for shoes, too, and the way to give shoes a long life is to polish them. Polishing shoes feeds the leather, makes it pliable, and protects it.

Many shoes come to an early end because they get wet and aren't properly dried, says Mrs. Dora R. Barnes, clothing specialist for the A&M college Extension Service. Shoes should be dried slowly, never in a hot place like an oven, or in front of an open fire.

This is the right way to dry shoes: First, wash off all mud with a damp cloth and wipe the surface as dry as possible. Oil the shoes lightly with castor oil. Rub it in well. Then stuff the shoes with crumpled paper or with a moderately warm place for several hours overnight. Polish when dry.

Waterproofing helps protect shoes and here is a good mixture: 8 ounces natural wool grease, 4 ounces dark petroleum jelly or vaseline and 4 ounces of paraffin wax. Melt all three ingredients in a shallow rectangular pan such as a bread tin, as large as the sole of the shoe. Let the shoe stand about 15 minutes in enough of this mixture to cover the sole and become saturated with the grease. Do not have grease hotter than the hand can bear.

### DON'T TAKE THE WAR GRIND TOO HARD. 6 BIG HOLIDAYS FOR THE YEAR OF 1942

The first day of the new year produced the first holiday and here they are all dated up:

Jan. 1—New Year's Day.  
 July 4—Independence Day.  
 Sept. 7—Labor Day.  
 Nov. 28—Thanksgiving Day.  
 Dec. 25—Christmas Day.  
 Washington's birthday, Feb. 22, falls on Sunday this year and a lot of people will think they've been cheated out of something. This year there will be only one day which is a law covering that date and day, which is to be the last Thursday of November.

There is a flock of other days that a lot of people like to think should be holidays, and many do, for a fact, keep these days as follows:

Jan. 19—Robert E. Lee's birthday.  
 March 2—Texas Independence Day.  
 April 21—San Jacinto Day.  
 June 3—Jefferson Davis' birthday.  
 Oct. 12—Columbus Day.  
 Second primary on Aug. 22, and a general election on Nov. 2.

Other important dates, though they do not call for holidays are:

Feb. 14—St. Valentine's Day.  
 Feb. 18—Ash Wednesday.  
 March 6—Fall of the Alamo.  
 March 15—Andrew Jackson's birthday.  
 March 17—St. Patrick's Day.  
 March 21—First day of Spring.  
 March 29—Palm Sunday.  
 April 5—Easter Friday.  
 May 10—Mother's Day.  
 June 21—Father's Day.  
 Sept. 23—First day of Summer.  
 Oct. 31—Halloween.  
 Dec. 22—First day of winter, shortest day of the year.

The Federal Crop Insurance Corporation, with AAA leaders attending a two-day meeting at College Station one day last week.

It is planned to establish allotments can be established for every Texas farm six months ahead of time and Food-For-Freedom pledges can be signed in 30 days, then plots of cotton crop insurance can be sold by closing dates.

Leading the discussion of crop insurance and how it applies in Texas were T. H. Learning and M. F. Learning, both connected with the Southern Division of the AAA in Washington.

Following the meeting there, the AAA commitment men and fieldmen will hold similar meetings throughout the state to acquaint county and community AAA committees with the crop insurance program.

Federal all-risk crop insurance is being offered this year for the first time on the South's principal crop, cotton, although it has been in effect on wheat for the past three years. To be protected by insurance, the cotton grower must make application through his county AAA office prior to the closing date or before planting. Applications is earlier. Texas has four closing dates for the different cotton-growing areas. First deadline is January 31 for Cameron Hidalgo, Willacy and Starr counties.

### BENJAMIN BEST

Another place made vacant in the ranks of East Texas' older generation, when "Uncle" Ben Best passed away Thursday at his home. He had not been well for some weeks and when pneumonia set in he did not have strength to combat the dread disease.

Uncle Ben was the son of Julius Jasper and Eliza Jane Reed Best, both natives of Georgia, coming to East Texas in the early days. He was born on the farm where he died, on Nov. 7, 1863. After his marriage in 1895 to Miss Lou Tolter, they started housekeeping on a farm near Warren but later moved there where he has lived since and reared his three daughters, the Misses Gerlie and Willory Best of the home and Mrs. H. E. Clawson, of Richmond. One of the happy gatherings of each year was the birthday dinner for Uncle Ben, on the Sunday nearest to the 7th day of November, when relatives and close friends came in to help him celebrate the occasion. No invitations were sent out, but the understanding was that all who could would return the next year for the happy association and dinner.

The funeral was held Saturday afternoon at M. P. Paschah's home, friend and neighbor of many years. Rev. R. L. Pope in charge of the services, and Oakley-McCall in charge of interment. Beloved nephews acted as pall bearers. He is also survived by three brothers and four sisters: M. B. Best of Hillister; John and J. B. Best of Woodville; Mrs. Mollie Peannington of Conroe; Mrs. Jim Powell of Chester, Messes M. G. Cant and M. I. Tolar of Warren. The bereaved family have the sincere sympathy of all.

### PAINTING WARREN CHURCH

The interior of the Community church in Warren is being re-painted and decorated this week.

### ORCHESTRA FOLLOWS LEADER AND ENLISTS EN MASSE IN ARMY

It will take more than war with Japan to break up Edwin Gerlach, Jr., and his college dance orchestra known as the House of Hilarity. Hilarity threatened to cause a sour note when Edwin, who is leader, enlisted in the air corps and was sent to Ellington field.

Hilarity was restored when all members of the orchestra decided to join up with him. Now, the entire group is at Ellington field playing in the army band, according to his father, who is vice-president of the First State Bank of Livingston.

The Houstonians like army life and hope to play a tune which the Japs won't enjoy dancing to.

### BEAUMONT FOR AMATEUR BOXING FEB. 11-16

Simon pure flatcutters from Southeastern Texas and Southwest Louisiana will descend on Beaumont February 11, 12 and 13 to play wall-to-wall in the 1942 Annual Beaumont district Golden Gloves boxing tournament at the city auditorium, a three-day flatcutters' festival sponsored by the Beaumont Lions Club.

The tourney is open to all amateur boxers 16 years of age or over and there will be competition in eight classes, from 112 pounds through the heavyweight ranks. The winners will receive attractive jackets and an all expense trip to Fort Worth to participate in the state tournament February 14-15 at the Cotton Bowl.

Championships for the National Golden Gloves tournament will be held at the Cotton Bowl in Dallas, Texas, Feb. 16-17.

TOWN BLUFF AND ANTOCH

A big crowd attended the 7-county singing convention in Colmesneer Sunday. Beside the cars driven the school bus carried a load. The rain at noon forced the crowd to eat indoors which rather spoiled the plans of the convention.

Messrs J. H. and Clyde Pedigo made a business trip to Beaumont Tuesday.

J. T. Hamilton and niece, Miss Jessie Boyette, who have been very ill are some better.

Mrs. Joe Dean are confined to their bed with the flu.

Mrs. Fate Crumpler of Zavalla spent the week end here. Mr. Crumpler is going to work on the highway and they plan to move back here to Woodville.

Mrs. John Fitzgerald of Oakhurst spent Saturday night with Mrs. J. V. Ogden.

This cold weather inspired hog killing in this community and farmers were very busy this week.

MRS. JOSIE HATTON, Guardian of the person and estate of Allavee Hatton, Minor. Jan. 22, 1942 No. 7

It seems we're going to have a lot of sports fans on this year for the Red Cross, Navy Relief and other patriotic causes. It's a fine thing an' such shows will deserve the support of sports fans if they're really staged for the benefit of these worthy causes.

But, we had sum and experience durin' th' last war when racketeers promoters took advantage of th' cityashun an' th' Red Cross, etc. cum out at th' little and th' horn. They ain't innu better time then right now, 'my way o' thinkin'.

I suggest th' Red Cross an' others 't see th' sports fans git a square deal.

It's a pity we had in this country a lot of crooks what don't want an' set an' walk ferfess. Cash in on patriotism an' th' charitable goodness in human beings.

I got as mad as a hornet when I saw a list of names for a grand prize for kids an' th' amount was tellin' 'em that if they were really red-blooded Americans they would join th' Red Cross an' give a badge an' booklet. BUT they had 't include a WRAPPER from a package of WRAPPERS. This fellow was talkin' about kids over th' radio an' he was malkin' 'em feel they were unpatriotic unless they joined the Red Cross. I don't know how ya feel but I don't think much of a radio stahun what was allowin' such stuff 't go on th' air. An' a manufacturer ain't innu more honest in his advertisement than that there his product can't be honest.

Whin sum bird starts 't yer patriotism 't all stop an' think. You ain't only one thing curra headin'.

DEFENSE STAMPS BONDS.

It's a simple thing 't do this. 'Fore th' sports fans is asked 't buy tickets tell 'em in advance just how much of each dollar what is took in will actually go 't th' Red Cross or other causes what it's been staged fer. Yep. It's just as simple as that.

Durin' th' last war sum promoters really cleaned up under th' pretense of bein' patriotic an' wantin' 't help win th' war. They had several schemes. One I remember well was th' plan 't send advance agents ahead 't th' towns an' git sum wimmen's organizations all steamed up 't sponsor 't show an help sell tickets. Th' newspapers gived plenty 't publicity believin' they was helpin' th' good work along.

In addition 't havin' th' wimmen sell tickets th' promoters had sum high-powered telephone solicitors 't sell blocks of tickets 't merchants an' others. Nobuddy really knowed how much money was took in 'cept 't promoters.

O' course they was sum promoters what staked 100 per cent honest shows fer th' Red Cross, etc. It's unlawful 't advertise benefit fer th' American Red Cross unless th' ENTIRE proceeds in gived 't th' Red Cross. No allowance is maid fer expenses an' if ya violate this law Uncle Sam kin put ya in th' hoosegow fer a year an' fine ya \$500.

Course sum promoters kin think up other causes outside th' Red

**Whose Booster Do You Borrow?**  
Rotarians enjoyed a program put on by Tommie Barnett of Port Arthur. Barnett has a host of friends in Woodville and he is at all any gathering.

Fairchild of Chester is visiting her sister, Mrs. Thomas in Winnie.

Terrible sickness in the family. Dr. and Mrs. J. F. Shillings have been ill; Mrs. Loy Shillings has been confined to her bed for ten days; Mrs. Jay Kelly has not been able to be at the store; Mrs. J. H. Willard were not able to be out for a number of days; the small son of Mrs. Ed Richardson is recovering from a serious cold.

One of the nice happenings during the holidays was a chicken dinner at the McClure's Cafe when J. H. Fain of Doucette was host to 29 of his boys who belong to his Sunday School class.

Mrs. George Stanley has joined her husband in Port Arthur and Mrs. John Rotan is taking a much needed rest from her work at the McClure Cafe. Cakes, telephone office as well as other businesses are feeling the influence of war and the changes it causes, by the loss of help of all kinds.

## ANOTHER LOCAL FIRM FEELS THE WAR RATIONING

The Dr. Pepper Bottling Company, Woodville, is another firm to feel the effect of government rationing of certain commodities. They have been put on a restricted sugar ration, according to the proprietor, J. B. Coffman.

Dr. Pepper, one of the nation's drinks, will be henceforth rationed to consumers. This is necessary in order that the company may continue operations on a specified quantity of sugar. There is no shortage in other things going in to the drink, according to the local agent.

During the last war sugar was also rationed to the family and may be again this time.

## AN APPRECIATION

January 13, 1942.

Dear Mr. Willard: I cannot find words which will describe in any way my thanks and appreciation to you for sending me The Tyler County Booster. When it comes I really dig into it to see what all of my friends and relatives back home are doing. I am looking forward to the day that I can be back with all of you again. Woodville is only a small unit, but I can really see by The Booster that it is going 100 per cent strong.

Yours very respectfully, Prentice Brown, 308th School Squadron Kestler Field, Mississippi.

## FIRST COTTON INSURANCE APPLICATION SIGNED

Vickers, San Patricio county cotton farmer, signed his name on the dotted line of the first cotton crop insurance application in Texas and he inaugurated the program which will guarantee cotton growers an income in bad years as well as good.

Vickers, who owns and operates three small farms with a total cotton allotment of 83 acres, hasn't suffered a crop loss during the 7-year period on which his insurance rates are based.

As a result of his no-loss record, Vickers will pay the minimum rates on his insurance. On his 34-acre allotment, 10.8 pounds of cotton per acre will insure a yield of 192 pounds, 85% of his normal yield. On a 12-acre allotment the rate is 12 pounds insuring production of 229 pounds per acre. On a 15-acre allotment a premium of 8.3 pounds per acre insures a yield of 229 pounds.

Federal all-risk cotton crop insurance is available to farmers for the first time on their 1942 crop. Administration of the crop program is being handled by the Federal Crop Insurance Committee.

## WOODVILLE SCHOOLS ON SIX-DAY BASIS NOW

It was announced to students of the Woodville schools this Wednesday that, effective this week, the schools would be on a six-day schedule. School being held on Saturday every week until its finish. This, it was stated, would shorten the school term enough to bring dismissal for the summer vacations in April.

It was also announced that in savings time that is to be put in operation at the postoffice in Woodville, will be put in effect between February 9th and 12th. This would require that children reach schools about 7:30 a. m. In the announcement it was stated that the new plan had something to do with defense.
