**GAS ATTACKS.** The British feel Hitler has failed to use it only because he feared retaliation, but they believe he will get around to it if he cannot find reverses. Accordingly, they have made elaborate preparations for countering with gas attacks of their own.

**LEFT OVERS.** We have every sympathy for the dear motherly woman who placed all of her left-over pills, powders, etc., in a box and brought them to the drug store explaining to the druggist: "I want to help in this emergency, so I put all our left-overs in this box and brought it here so you could use them again."

**THERE IS** a boy in every locality who is taken to task occasionally by an older sister or mother who expects to get all that junk? All real boys do have a pocket or two of junk. Be alarmed if they tell you it is one of the signs of a real, live American boy.

**ELSEWHERE WILL** be found a story prepared by Maj. Gen. Stephen O. Fungua, U. S. A. retired. The object of his story is to keep Americans from believing that the fight is all over. Germany is whipped—ready to quit. It is a fact. Germany is anything else but. This is truly a Southern expression and we know of no other short sentence of five words that tells the whole story. Again, we say: Do not be deceived.

**IN THESE** days when every one you talk with promises to do so and so and promptly forgets, thoroughly forgets, we wonder what has overtaken humans of today. Is your presence distasteful and your auditors promise you to anything mentioned—just to make a safe get-a-way? Can it be possible early education did not include truthfulness as well as sacred obligation to fulfill obligations. Are we that nation to come to the place where only signing in the dotted line is to mean anything in the way of a promise? It is time to stop and ponder this phase of everyday life.

**ANOTHER BIG** subject is before the congressional house of congress. Shall there be a splitting school for the Senate? Reason for this, the tobacco chewers are missing the great brass spittoons and missing up the floor, consequently the proposition is to purchase 300 rubber cuspidor mats. Here is how it works out: 300 rubber mats will represent one-ton of rubber. For a 35,000 ton battleship 75 tons of rubber (for 13,500 mats) are needed; 500 mats of rubber needed for a 2½-ton army and then there are air fuel tanks and fuel lines, 15,000 rubber heels for peacocks and soldier's shoes, and of all this congress does not think of rubber mats for spittoons?

**WATER TUBS ARE** TURNING OVER. A school bus, en route to the Central consolidated school, overturned on a lateral road four miles from the school building, Monday morning, injuring the driver and grammar teacher. The seriously injured was Miss Allen, 13, who suffered a fractured jaw and a fractured leg. She was taken to the hospital.

**DOUGETTE** training camp will commence soon in Doucette. We hope this course will be well attended as we do not know how soon we may have need of such training. It is better to be prepared for any eventualities. Miss Fisher has accepted the position of assistant Scoutmaster of the local troop. Mr. Blakley grew up in this troop and the Doucette boys are fortunate in getting such a fine assistant leader. Beginning next Monday afternoon the Boy Scouts will begin collecting waste paper, rags, metal junk, etc., for Uncle Sam. The boys will donate all paper, etc., to the government and will receive nothing for their work. All they ask is that the people of Doucette assist the boys by having everything ready when they come. They will appreciate your having magazine and newspaper clippings to send to the boys. Miss Doris Tolson is home with her mother again for a few weeks. Her mother, Mrs. E. L. Swearingen, is better, but is still confined to her bed.

**COLMESNEIL** Mrs. Hershel Neal of Beaumont visited Miss Willie Neal during the week end.—Mrs. Lee A. **Government's Not Confiscate**  
Recurring rumors that the Federal Government intends to confiscate all savings deposits are being circulated in many parts of the country. The continued circulation of such rumors might lead to the withdrawal of savings deposits or the hoarding of funds which ordinarily would find their way into banks as deposits. In connection with these rumors, Secretary of the Treasury Morgenthau recently made the following statement:  
"I wish to state most emphatically that there are no foundations whatever for such rumors. The Federal Government does not have under consideration any proposal involving the confiscation of the savings deposits of this country for any purpose. Furthermore, anyone circulating rumors of this character is acting against the welfare of the nation."  
The importance of financing the war effort to the greatest possible extent from current rather than from accumulated savings has been repeatedly emphasized by the Treasury Department. In furtherance of that policy, efforts are being made to encourage all employers to adopt a payroll allotment for the sale of Defense Savings Bonds to their employees, because that is regarded as one of the essential steps in combating the development of inflationary tendencies.  
R. R. GILBERT, President Federal Reserve Bank of Dallas.

**THERE'LL ALWAYS BE A WEST TEXAS**  
Out in the vast area which pleases to call itself West Texas, and which reaches from the middle of the nation's largest state to its westernmost boundary, north and south as far as Oklahoma and a muddy stream, more romantically remembered as the Rio Grande, will allow, there is a part of the United States of America which will ever be there. It is a section which is almost different from the rest of the country. It is a race of people have been bred, and it is an area where democracy might well have been born, for there it will never die.  
Its people, like its soil, bear no taint of artificiality or camouflage. Vegetation is open and accessible in just such a manner as is the West Texas' mind, philosophy, and relationship with its fellow. West Texas is an empire which tolerates no subversion of friendliness, goodwill, and helpfulness. Likewise there is no room in those great open spaces for the rattle-brasher, the trouble-maker, or the penurious parasite.  
Nothing in its history has ever been as bad as West Texas have before seen. Dust-filled winds that burn complexions and grind into dispositions are always mild today in comparison to some that have swept that domain. No depression is ever as bad as one preceding it, and prosperity booms spring up from recessions like mushrooms' as over-night products.

**Blushing Peaches**  
WE have often wondered why peaches blush, because they really haven't anything to blush about. Their beauty is more than skin deep. It reaches to their hearts, and their hearts are so delectable that it has been adopted for lovely lingerie, curtains and even complexion.  
Beauty Aids  
And speaking of complexions, perhaps the best way to get that peach-and-cream complexion is that shade that is just a bit lighter and pinker than sun-tan or honey-dew—is to eat more peaches. If you eat them out of the sunshine, so much the better, for sun rays and fruit juices are both aids to beauty. Here are some peach suggestions for the picnic lunch or the porch party:  
Peach Puffs: Beat one egg until foamy, add one and one-half tablespoons sugar, one tablespoon cream, one tablespoon sherry flavoring and enough flour to make a stiff consistency to roll (about one cup). Then roll very thin, cut in squares and put a drained slice of peach in the center of each. Sprinkle with nutmeg, fold over diagonally, moisten the edges slightly, and press together. They should be triangular in shape. Fry in deep fat until golden brown. Drain on brown paper.  
French Peach Tart: Roll out rich, slightly sweetened pastry into a large oblong. Dice peaches from a No. 1 can, add four tablespoons sugar, one tablespoon flour and enough peach syrup to make a large oblong. Spread this along the middle of the pastry and bring the long sides up over toward the middle, leaving a gap along the top about one inch wide. Place ends together. The whole makes a hot loaf-like pastry. Bake in a hot oven. Slice warm or cold.

**Annual Report of the Tyler County Agent**  
Summary of the Tyler county agent's report of activity in his department of county work for the year 1941:  
Eighty-two farmers and cattlemen planted for range and pasture improvement, 3400 lbs. of white Dutch, hop and Persian clovers, 7200 lbs. of common and Koba lespedeza, and 14,825 lbs. of dallis, curpet and Italian ryegrass on 1906 acres. This brings the total acreage seeded since the eradication of the fever tick to 57000 acres.  
1250 acres was mowed to control weeds and briars, and 300 acres of underbrush cut to allow a better growth of grass.  
Four more trench silos with an average capacity of 25 tons were dug in 1941, which brings the number of trench silos to 14 in the county, many were not refilled this year on account of crop failures.  
Sixteen farmers have planted alfalfa in addition to the two who have harvested two tons of good hay per acre this year.  
67 registered Hereford, Brahma and milking Shorthorn bulls and heifers have been brought to this county since the eradication of the fever tick.  
14 demonstrations on pruning and spraying of fruit trees to control San Jose scale, plum curculio and the peach tree borer, 22 farmers were helped in the selection of orchard sites.  
31 sheep growers sold their wool cooperatively, bringing them \$2459 for 5500 lbs. Eleven of these growers brought purebred Hampshire and Rambouillet rams, 15 sheep and goat growers started dipping to control lice. 21 of these growers wormed their sheep regularly.  
A one-day forestry school was held for farmers and timber owners to learn the best methods of selling their timber and for the conservation of forests. 30,000 pine seedlings were planted on cut-over pine land and old fields.  
41 farmers built terraces on 430 acres of land. The most of these terraces were constructed by the commissioners of the county.  
40 of the 75 4-H club boys enrolled completed their records. 21 of these boys conducted corn demonstrations on 41 acres for a net gain of \$408.65. 17 boys had pig or broodfosters for demonstrations that made a net gain of \$339.84. Four boys had poultry that made a net gain of \$53. 3 boys had dairy beef cows and calves which made a net gain of \$357.55, and four other boys had sheep and field crops for a net gain of \$128.35, making a total net profit of \$1287.30 for their work in 1941.  
10 demonstrations on culling poultry of approximately 1200 chickens in 10 different communities.  
Vaccination of hogs was held at 114 different farms in 12 communities.  
386 farm visits at 308 farms with 1370 office calls; 333 individual letters, 30 circular letters, distributing 148 farm bulletins and gave 668 method demonstrations to 1455 people in conducting the county agricultural agents' work for 1941.

**WARNS HITLER PLANS TO BOMB AMERICA**  
Newark, Ohio, Jan. 19.—Hitler will attack the United States as soon as weather permits, Ernest Winkler, former German youth leader, asserted here.  
Addressing a regional labor and educational conference here, Herr Winkler, recently escaped from a German concentration camp, declared that Hitler was preparing to send bombers across the Atlantic.  
"When the attacks come there will be 20 bombers at a time," he said. "Each will be manned by a crew of eight—all expert pilots."  
"Hitler figures that half of the 20 will be shot down. The crews of the remaining 10 will have orders to land and work damage from within the country. All will speak perfect English and it will be difficult to detect them," he warned.  
Herr Winkler is the former leader of the (Hitler) Catholic Youth Movement in Germany and a former German army officer. He said he, along with 2,000 other German officers, refused to take the oath of allegiance to Hitler.  
Herr Winkler said he would ask Congress soon for authority to establish a Liberty League, to be comprised of 35,000 young Germans in this country who want to fight the Nazis.  
The meeting was one in a series being sponsored in Ohio by the American Federation of Labor.

**STATE HYGIENE DAY ON WEDNESDAY, FEB. 4.**  
The sixth national social hygiene day will be observed in Texas on Wednesday, February 4, 1942. Doctor Geo. W. Cox, state health officer and chairman of health and emergency medical service, announced one day last week.  
By the menace of social diseases will be made greater by the crowding of large groups of workers into war industrial areas. A recent survey of 216,000 industrial workers in one large city showed 2.98 per cent to be infected with syphilis and 9 per cent with gonorrhea. We must fight vice and venereal diseases and protect our workers.  
Physical fitness not only of our soldiers, marines, and sailors but also of our civilian population, will determine the effectiveness of our war effort. We must realize that the nation's defense depends on a healthy civilian population, able to produce needed materials.  
Social Hygiene day, nationally sponsored by the American Social Hygiene Association will be observed throughout the county on Feb. 4. Army and navy officers, industry, management, labor unions, health and welfare agencies participate in this nationwide campaign and collaborate on educational, educational, and protective measures to fight venereal diseases among industrial workers.

DEFENSE BOND HITCH

The treasury is losing some of its enthusiasm for the campaign to buy defense bonds and stamps in the form of Defense Bonds. It appears an unexpectedly large number of citizens who received bonds as bonuses or as Christmas presents have already started trying to convert them into cash, although none of them are convertible until held 60 days.
