NEWSPAPER

A Declaration of War!

By the Unarmed Forces of The United States of America

WHAT I SIGNED TODAY

More than two millions young men have gone to war! They have set aside their hopes and dreams. They have left comfortable homes—postponed careers. Declared a moratorium on life!

Turned abruptly from the ways of peace—they are now digging ditches, peeling potatoes, swabbing decks, emptying garbage, drilling, training—learning to shoot! We may think our lucky stars they don't have to learn to die. They are Americans. They just don't like being kicked around.

They went cheerfully—went where they were sent, and no questions asked. Rich and poor, Republicans and Democrats, Protestants, Catholics, Jews, Gentiles, white and colored. Wealth, position, religion, color, politics—these don't matter when the question is one of freedom or slavery.

There are no limitations on the hours these boys work now. No rates to decide their pay. They've got a grim, tough job to do, and they're learning things every day. These boys we SAY we love. Learning a lot of things we SHOULD know—but stupidly refuse to admit.

They're learning that courage shows in a thus weapon against Axis planes and tanks.

They're learning the tragedy of being for want of a few extra hours in the right place at the right time.

They're learning the brutal, bloody cost of haggling and arguing and debating and stalling—while our sons die!

We stand on the curb as they left. We cheered. We went with them to the station—and shed a few tears. We drove home in our cars to warm firesides. Then in a week or two we stormed the stores when the demand for cloth to CLOTHE them re-

moved the cuffs from our pants. In God's name, America—let's be men—at least as big as our sons!

We are the UNARMED FORCES of the United States. No one of us is without responsibility or duty!

While we haggle over an hour overtime—our sons are being slaughtered!

We live our comfortable lives back of the ramparts they watch. If they fall—there will be no life—but slow, living death!

Our supreme duty—our ONLY duty is to deliver to these young men the planes, tanks, guns and ships they need. Deliver them at top speed—and work as many hours MAKING them— as they willingly work USING them.

They are out there now. Waiting for the coming of each dawn. And for their courage—and our bravery—their sacrifice—they've asked just one thing of us—"Don't let us down!"

We demand that every citizen of the United States, in or out of Government, in or out of management, in or out of labor, shall exert every human effort toward the production of war munitions and supplies in maximum quantity at maximum speed and at minimum cost.

As a sacred duty to our armed forces—and to the Government and the people—we the unarmed forces declare war on all swollen salaries, dividends, bonus payments or profits on war contracts for munitions or supplies, in excess of profits made in peacetime

under conditions of full and free competition. And do demand full and detailed public exposure of all violations.

We declare war on all rules, regulations or agreements which may prevent any worker on any war contract for munitions or supplies, from working as many hours or as many days as he or she is willing to work, or doing as much work as he or she wants to do to increase production—so long as normal health safeguards are observed. We demand full and detailed public exposure of organizations and individuals responsible for obstructing production.

We declare war on all acts or failures to act, by members of the U. S. Senate or House of Representatives, which permit or encourage representatives of either capital or labor to increase costs or obstruct production on war materials. And we demand full public exposure of any member of Congress guilty of failure to protect our armed forces and our people against saboteurs of production in either group.

The signers of this Declaration of war are not concerned with political partisanship. We are neither for nor against any employer—nor any group of employees. We are concerned with action! Full, unbridled, speedy action! And we propose to devote ourselves to these tenets—as a sacred trust. We promise, that when men die needlessly, the responsibility shall be firmly placed insofar as it is within our ability to place it.

To our Commander-in-Chief, the President of the United States and to the armed forces of the people, we pledge ourselves to this unalterable view for the duration of this war.

NOTE—This declaration of war was signed by every member of the Rotary Club at its last week's meeting.

WARREN BAPTIST CHURCH DOINGS

Next Sunday, June 28th is regular preaching day. We are making a special effort to have a record attendance in the Men's Bible class. The Sunday school and B. Y. P. U. continue to do good work. We are having quite a number of 100% pupils reported every Sunday. If you are not attending church somewhere, you are missing a blessing and source of real uplift and help.

We experienced excellent things at Pineville Sunday, a 74-year-old man and a recently young man were baptized into our fellowship.

A revival and vacation Bible school is to be held in the church beginning July 26. We count ourselves fortunate indeed in having secured Dr. Geo. McCall of Dallas to do the preaching. The general public is invited and urged to attend any and all our services during this week.

FLOW OR SWORD?

An Irish soldier on duty in England wrote a letter to his wife saying there wasn't an able-bodied man left and she was going to dig the garden herself.

Pat wrote at the beginning of his next letter "Budget, please don't dig the garden; that's where the guns are."

The letter was duly censored, and in a short time a lorry-load of men in khaki arrived at Pat's house and dug up the garden from end to end.

Bridget wrote to Pat in desperation, saying that she didn't know what to do, as the soldiers had got the garden dug up, every bit of it.

Pat's reply was short and to the point: "Put in the spuds."
