## I THINK 'MBOBBIES

Are you in favor of having a new weather man?

Did you ever stop to think that that magnificent little V stands for Victory and not vote?

Under the terms of it admit I am in favor of having a new weather man. I have the right to see that any man I desire by my people.

Do not worry about what it is but enough for you to see that they are not making a fool of the Axis by buying more and more war bonds.

Do you know any man who has been in America longer than 300 days and has not applied for citizenship papers? Should not be deported?

Down in Galveston the authorities are talking about prosecuting a newspaper editor according to report prominent medical men would back the idea some 400,000.

Daylight saving time was resumed by setting the clock back one hour at 12:01 a. m. Sunday, which means returning to single daylight saving time. All reports come from England.

Many wars and prophets say "I gave a man in the end." Then they thought creep to the minds of many thousands of citizens, have I done my bit in the purchase of war bonds?

Well, folk get out your studied chin and get on the cheer if you are in earnestness as it is hot enough for you today. Use the abundant s. e. and hit with haste and dexterity.

Jerry Satter has been guessing. He reported now declares he didn't mean it and the situation is further complicated by two Democratic candidates now campaigning for election in the second primary of August 22 for Jerry's place.

Old war veterans, former officers from parks every where have been recruited to be re-organized and sent to the fighting front. It is a fact they have served their purpose. It is the present not the past, which the future generation of Americans will be called upon to remember and to celebrate.

IT IS a fact, Jerry Allred is not spreading propaganda—something about new plans for the benefit of farmers which he finds himself in Washington, taking the place of Senator W. Lee O'Daniel. Strange, how he has taken up the former position of a Texas. He'll not fool 1% of 50 Texas agriculturalists.

If you were get snooping around about town what would you think about the way unthinking person dump their watermelon rinds all over the corporation limit? You can locate them in the alleys, next to the curbs on three sides of the town square, as well as behind store buildings. Indeed, there ought to be a law.

Some may wonder if the Booster owners are in the clear when we write and write about the purchase of war bonds. Unhesitatingly we say we are. Without bragging we say if all Americans would purchase war bonds to same extent of their financial ability Uncle Sam would not be an instant about each month's purchase over the several states.

OAKLEY-METCALF TO KEEP MANAGER

The majority of Woodville people were glad when the Oakley-Metcalfe Funeral home was established in Woodville. Miss Edna Edwards later came from Beaumont to take charge and they have made many friends. A few weeks ago it was rumored that they were about to leave and friends were really concerned. Now we learn that Mrs. Edwards has bought an interest in the firm and will stay here. The Booster and other friends are sincerely glad.

Miss Georgia Donna Jordan of Beech Creek helped Mrs. Fanye Tungate in her work part of last week.

Miss Fredna Matthews has returned from a visit in Beaumont and Galveston. The war seems real to her now, as she has experienced blackouts and watched patrols of both planes and jeeps on the coast.

Miss Sue Carter, who had returned Monday, the 10th, from her home in Little Rock, Ark., returned to her home in Woodville last week and Miss Hughes went with her to measure 24 1/2 inches long and weighed 6 1/2 lbs.

## Julia Belle Cruse Seeing Capital City

Washington, D. C., Aug. 7.—Dear Mrs. Willard, Surely I can't go any longer without telling you dear Woodvillians how very much your Booster is meaning to me in my absence from home. I can hardly wait to receive it each week. Truly it does mean so much to me. When I had dinner with the Eastlys in their lovely Broadhurst apartment while Miss Inez was here, I took a copy with me which was enjoyed and most helpful in our daily trial. So many temporary jobs are certainly not being secured as far as I am concerned.

My stay in our capital city could not be more pleasant, more exciting and more interesting. I have been able to tell you all that I've been able to do while here, but I should like to give you an extension of our week-end activities on Saturday afternoon at 1:30 Mr. Harold, an F. B. I. agent's wife, and I were granted a special permit and guide to go thru the Department of Justice building. J. Edgar Hoover's set-up in the F. B. I. division is amazing. His charts, lectures on fingerprinting, evidence materials, and electrical charts are superb and most educational. We completed the tour at 6 o'clock, so you can see how long we were permitted to stay. The spies were in the building in the midst of their military trial. So many temporary jobs and doors have been added since the trial for extra pay. Then on Sunday after breakfast at Harold and I started out again. Since she is a home-teacher, she insisted we begin with the Dept. of Agriculture. Her office for which I'm very glad now. From there we again took the ride to the top of the Washington Monument which is always pleasant as one is able to see the cleanliness of the city and the perfect layout of streets and buildings. The National Museum and were just allowed one hour there since 4:30 is closing time. Therefore, we were able to secure lunch in a very nice room. So we proceeded to Mellon's spectacular art gallery. Since it stays open until late on Sunday nights, we were able to get a bit of "booking" done. It is a 14 million dollar building which is an architectural masterpiece. It is an art gallery which is an art gallery which is an art gallery.

They are writing you each week and sincerely hope the letters are reaching you, or have reached you before you read this.

## Sen. Allen Shivers In Talk At Rotary

All were glad to have a Woodville boy, Sen. Allen Shivers of Port Arthur as guest speaker at the Rotary club last week. Other guests were T. O. Sutton and son Robert, the latter in Uncle Sam's service, Mrs. T. S. McGrew of Gueydan, La., Mrs. H. C. Ellis, Arnold Rhoads, and Miss Adessa Gardner, the two last mentioned entertained with musical and voice numbers.

VISITING GARDENS OF TYLER COUNTY

There are 277 4-H girls who signed the Victory pledge cards along with 203 women who belong to the home demonstration clubs, says Tyler County Demonstration agent Mrs. Fanye S. Tungate, and from these gardens the survey shows for the first six months of 1942, 99,980 pounds of 15 different vegetables and fruits. Each Victory garden demonstration kept a record of the amount of seeds purchased, the size of her garden, how much soil was being used, the amount saved and estimated the amount sown on the grocery bill. In each home the women and girls were proud of their work and at this time, peas are being canned all over the county. The people in Tyler county should be proud of the splendid work being performed.

All gardens are being prepared and planted, thus proving you can have green vegetables the year round.

MRS. BESSIE DOUGLAS

Mrs. Bessie Douglas passed away at the home of her daughter, Mrs. Tracy in Houston Monday, and was brought back to Woodville for burial Tuesday. She had been in the hospital in Galveston for some length of time. We did not get the particulars.

FELL NINETY FEET

J. C. Lee, Jr., who was living at Merryville, La., where his wife and babies joined him just a short time ago, fell from a high tree a few days ago but caught the drilling stem, sliding many feet on the whirling steel and landed in the bottom of a well. He was hurled to the hospital at Dr. Ritter where physicians found no broken bones, and still has a very good recovery. Mrs. J. C. Lee, Sr. hurried to Riddler when the news reached here.

FATAL CAR ACCIDENT

Tom Massey, an elderly colored man, was killed when he was driven by Eddie Duff and brother, two miles south of Hillister. He died almost instantly. Tom had been in the hospital for some time, and evidently did not see the car and stepped in front of it. We are told it was an unavoidable accident.

MORE AND more, it seems unionism is becoming a graft. Read elsewhere a headed story, "What Does Freedom Mean?"

**MOUNT WILSON**, in Colorado, was the name of the highest mountain there. It was christened lately and is now known as Mt. Franklin Roosevelt.

IT IS a fact. If a person has many trees on his home property it keeps him busy keeping them clear of the bag worms. We have destroyed about 18 webs this season.

**FROM MONTREAL**, Canada, comes word the Axis have assured safety to mercy ships in the safe passage for the relief of the Greeks. The promise looks good on the face of it, but we do not believe a word of the statement.

**WHAT A** great change has taken place in this America of ours. This country is supposed to be, and by tradition is, a Christian country. And yet when the daily papers arrive and we read the head lines "7,500 Germans are killed," we almost feel like shouting with satisfaction.

**THIS WILL** change soon. In 22 states no public school instruction in American history is required. This fact was reported by Associate Justice Robert H. Jackson in an address before the Bar Association recently. After this present war ends there'll be plenty of American history in the American schools.

**THIS WEEK** we get ready to print the run-off ballots. The surprises, however will not be even guessed. Voters will not be aware of the official counts. However, the Booster prophesies the run-off this year in this precinct will show a greater vote than has been registered in the last decade, and in spite of the fact many voters are not here, having gone into Uncle Sam's Service.

**WHAT WOULD** a stranger browsing about town riding on the streets think of the holes on the street starting at the hotel plants and coming south to the C. M. Davis corner think of the condition of our paving? There are small holes, some deeper than others and some larger than the last one a fellow cusses at, if and when he forget all about his rubber and did a little speeding. These holes do not aid in making a bang-up reputation for progressiveness.

**THE BOOSTER** plant is again performing in a manner that suits the management. We have had a bit of hard luck, ink rollers had to be replaced, and the newspaper press had to be re-adjusted. The paper stock had to be renewed as hardly any had been purchased since the first of the year, and during that time there was a steady dwindle which left many lines rather depleted. And, this has been hard to do, as some lines we carried are off the market.

**EVERY ONCE** in a while that columnist, writing under the head of "Thinking Out Loud," says something too good to keep from Booster readers, and so we are reprinting this week one of his latest, appearing in "The Dallas News" and to which we give full and complete credit. "Why Not for Love?" Surely this is one time when Highway ought to be the name of the love of it. Love is a highway to the heart.

ple of the spirit why should we not sit down and consider what is most precious to us in all the things today when all precious things are under fire from a vicious enemy? That enemy is not political. That enemy is not merely distasteful or displeasing. That enemy seeks to end America itself, and if that be true, act as if it were true. If that be true, vote as if it were true. Disregarding all other things else, vote with the singleness of purpose that is behind the rifle sights the sharpshooters on the front. Vote with the devotion of the aviator trying his machine down the smokestacks of a battleship. Vote with the deadly seriousness of the mother who sits in the quiet room gripping with trembling fingers the message from the War Department "Killed in Action." Vote because you live with a great love that which is supremely worth your heart.

**ELSE WHERE** in this issue will be found a story from the experts at A. & M. in which housewives are advised to use enriched flour in cooking. Can you beat it in these days of late model flour mills, and the best grades of seed wheat used by all wheat growers. Enriched flour. What would our grandmothers say about enriched flour? It is a truth. There is not made in all America a loaf of bread that can compare with the good home made bread that our own mothers, to say nothing of grandmothers, made. How well we remember our old step dad leasing some 25 acres of land and putting it into wheat. He marched up and down the field broadcasting that venerable old man grumbling that field of wheat and well, excuse our blusches, we made our own binders and bound about three quarters of the field, and we were under 15 years of age. Yes, and then we stood at the straw end of the threshing machine, no, in those days there were no wind straw stackers. And some few weeks afterwards we helped load a wagon load of this wheat which went to a little water power mill. The wheat ran through two great stone wheels and the hulls were separated from the flour by sifting through a white cloth known as bolting cloth. And that was flour, and we'll tell A&M it wasn't necessary to enrich that wagon-load of flour. Neither were experts needed in those good days to travel about over the states and teach folks how to mix and bake bread. And, too, there was something else worth eating in those days—cracked wheat. Can you find any of it today?
