

ISN'T HE WORTH IT?

THIS message is written to you mothers — from your government.

It concerns the most precious thing in all the world to you — your child.

It asks you to help protect that child — from fear, from starvation, from death — the fate that has befallen millions of children under the rule of Nazi and Jap tyrants.

It asks you to urge your husband to join the Payroll Savings Plan — the easy way to buy War Bonds that will furnish the ships and guns and tanks and planes so desperately needed to guard you and yours from the horrors of defeat.

Or, if your husband is already buying War Bonds through the Payroll Savings Plan — it asks you to urge him to buy more, to increase his savings to at least ten per cent of his salary or wages.

Remember. Millions of your brothers, husbands, sons, friends are risking everything. You are asked to risk nothing. War Bonds are the World's Safest Investment.

As you buy them through the Payroll Savings Plan — today, you are doing your part

to help protect your child today! And at the same time setting up a savings fund to help bring up, educate, and develop that child — tomorrow.

Talk it over with your husband tonight. And resolve to put at least ten per cent — not 6%, or 7%, or 8% — into War Bonds through the Payroll Savings Plan. Do it for that child of yours. Isn't he worth it?

WHAT YOU SHOULD DO

If you are . . .

1. Already setting aside 10% of your pay in War Bonds through the Payroll Savings Plan — boost that 10% if you can.
2. Working in a plant where the Plan is installed, but haven't signed up yet — sign up tomorrow.
3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman or plant manager — and see if it can't be installed right away. The local bank will be glad to help.
4. Unable to get in on the Payroll Savings Plan for any reason, go to your local bank or wherever bonds are sold. They will be glad to help you start a Plan of your own.

Rainey Says This World War Is A Struggle For Legitimacy

Preservation of the only remaining form of democratic government against totalitarian revolution and the necessity of creating some form of world control over social, economic and political forces — such as the present world conflict — this, Howard P. Rainey of the University of Texas, declared last week.

"Perhaps the most fundamental issue in the world today is that of democracy versus two of the most virulent and revolutionary forms of government the world has ever seen — communism on the left and fascism on the right," Dr. Rainey asserted in a radio address.

"There are only two recognized legitimate forms of government. One is aristocratic and monarchial, the other is democratic. The first world war resulted in the final overthrow of the monarchial idea.

"The struggle today, therefore, is to determine whether or not the one remaining legitimate form of government — democracy — is to survive in the face of the opposition of the totalitarian forms.

"Another tremendous world force underlying the war 'is the necessity of creating some form of world control over social, economic and productive forces which have long ago burst the bounds of our national states," he said.

"Modern science and technology, modern means of transportation and communication, and the spread of education and culture have in a very real sense obliterated national boundaries and in a very real sense have transcended the concepts of nationalism. In these areas of life we are already living in a world community, but we are still trying to hold on to a political framework based upon the concept of the national state that is wholly inadequate for modern conditions.

"The nature of the war and the nature of the forces back of it are such as to make some form of world control absolutely imperative. This is the great political issue of the future and for its solution it will require the keenest political understanding and imagination of which the mind of man is capable."

Men are dying for the Four Freedoms. The least we can do here at home is to buy War Bonds—10% for War Bonds, every pay day.

found, but you can get it done by careful measuring and carefully measuring. E. Tungate, county home demonstration agent, and you need to know a very little trick of saving coffee flavors, for flavor and the pick-me-up are largely what you want from coffee.

To begin with coffee should never be kept in a warm place. It will keep better if you put it in a tightly closed can or jar and store it in the refrigerator, use level measurements, one level tablespoonful of each cup of water, the idea of one tablespoonful extra for the pot is definitely out during the days of rationing.

Make only the amount you intend to serve and serve it just as soon as it is made. It loses flavor if it stands overcooked. Use only fresh coffee, this has a better flavor and goes better. Lastly keep the pot clean. Every time it is used scrub it good with soap and hot water then rinse thoroughly, set the pot with coffee holder, lid, etc., in the sun regularly for the rancid oil from old coffee can spoil the taste of new.

What You Buy With WAR BONDS

Stop Spending, and Save for the future. That has been good advice since biblical days. You can't buy tires today, but you can start saving to buy that new set of tires when they go on the market again.

Your regular investment of ten percent or more of your earnings in War Bonds through your Payroll Savings Plan will provide the necessary funds to buy those tires later and help win the war now. Let's "Top that Ten Percent."

Excerpts From A Friend's Letter

In a letter from Rev. Kenneth Minter we publish a part of it for our readers:

Gonzales, 12-9-42. Tyler County Booster. Mr. and Mrs. Willard. Dear kind friends, I read in an issue of The Booster several weeks ago that my very dear old friend, Louis Seale, has passed on.

And did you once see Sealey plain? And did he stop and speak to you? How strange it seems, and how new!

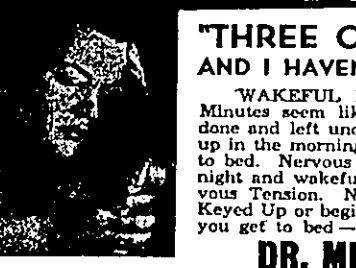

Browning was emphasizing that truth that every generation that passes from the earth, takes with it a world that has literally ceased to be.

Louis Seale belonged to the world in which I was reared. In fact, he was quite a prince in that world. He was reared on a farm only about 2 1/2 or three miles northwest of the court house at Woodville. His parents were highly respectable. He had an older sister, Miss Ruth; (incidentally, she was once more than just a friend to my oldest brother. He also had other sisters, I think, Miss Annie and Miss Grace, and a redheaded brother, William. I went to school with all of them, in the old Masonic hall.

Louis had great talent for drawing. When some great holiday drew near he would take a piece of chalk and draw such pictures on the school-room blackboard as anyone with common sense

schoolroom blackboards were things to remember. On one occasion, I had a drill, play, or pageant where the Thirteen Colonies were represented. Louis represented Virginia, and I was the one who started his speech with the line— "I am Virginia, The Mother of Presidents," he "brought down the house."

Those were the days of the great saw-mills. On leaving school Louis learned saw-milling. I do not remember which branch he took up, but I do remember that he made a success of it. After a long absence from Woodville, he returned, dressed in fine tailor-made clothes, with plenty of money.

DATED at Woodville, Tyler County, Texas, this 30th day of November, A. D. 1942. HARVEY PHILLIPS, Sheriff of Tyler County, Texas. Dec. 3, 10, 17, 1942 N. 26-1-2

NOTICE OF EXECUTION SALE

THE STATE OF TEXAS, COUNTY OF TYLER.

By virtue of an order of sale and execution issued out of the District Court of Travis County, Texas, on the 5th day of November, 1942, on a judgment rendered in said court on the 14th day of October, 1942, in favor of plaintiff, The State of Texas, and against defendant, Cobb Lumber Company, Incorporated, for the sum of Four Hundred Twenty-four and 10/100 (\$424.10), together with interest and or penalty thereon from November 1st, 1942, at the rate of one per cent per month until paid, in a certain case styled The State of Texas, et al vs. Cobb Lumber Company, Incorporated, being No. 67,208 upon the docket of said court, I did on the 8th day of December, A. D. 1942, at 8 o'clock P. M. levy upon the following described land and premises situated in Tyler County, Texas, as the property of said defendant, Cobb Lumber Company, Incorporated, to-wit: 30-4/10 acres of land out of Josiah Wheat Survey, Abstract 357, Tyler County, Texas, and sawmill, planer, all buildings, machinery and improvements of every kind, as well as all other real and personal property owned by Cobb Lumber Company, D. L. Cobb and wife, Ida Mae Cobb, used in business, as described in Volume N, pages 463 et seq. Deed of Trust Records, Tyler County, Texas, which deed of trust in its records reference are referred to here for a better description of said land.

And on the 5th day of January, A. D. 1943, being the first Tuesday of said month, between the hours of 10 o'clock, A. M. and 4 o'clock, P. M., on said day, at the Court House door of Tyler County, in the City of Woodville, Texas, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said defendant, Cobb Lumber Company, Incorporated, in and to said property, together with all the right, title and interest of D. L. Cobb and wife, Ida Mae Cobb, in and to said property, situated in Woodville, Texas, as follows:

The first World War came and Louis was among the first to go. He had plenty of experience in France and learned much. Among other things, he had learned about "The Decameron of Boccaccio." Now, I had learned that this book was among the great classics of the European literature, and several years before I had had a book concern to order me a copy at considerable expense. I had read one outside of Tyler County.

Christmas, 1942

In these turbulent times it is well that we pause to reflect upon the full meaning of Christmas and to pledge renewed diligence for the New Year to hasten that happy day when "peace on earth, good will toward men" will prevail once more.

HUMBLE OIL & REFINING COMPANY

WANT VARIOUS COLORED FLAMES—You can have them if the pine cones or logs are soaked in different chemical solutions. According to the General Electric Science Forum question-and-answer man, fireplace fuel soaked in a lithium chloride solution will produce a purple flame, while strontium nitrate will present a beautiful red. Copper sulfate will give you blue, and calcium chloride will burn with an orange flame. Yellow is produced with sodium chlorate. Wood or cones that have barium nitrate in them will give a green flame.

The directions are simple. Dissolve one pound of the chemical powder in one gallon of water, have the fuel soak a few minutes, then let it dry.

Large logs will also produce the same effects if the chemicals are soaked on them before being placed in the fireplace.

These inexpensive chemicals can be purchased in drug stores or hardware stores.

This man is not dead. He is just sleeping. And sleeping a little more soundly, perhaps, because there are still many Americans who are not putting at least 10% of their pay into War Bonds on a regular Payroll Savings Plan. How about you joining a lot of other fellows in giving the little paperhanger a rude awakening? How about you signing up with a Payroll Savings Plan today... to the tune of not 6%, or 7% or 8%, but 10% and more if you can? LET'S TOP THAT 10% BY NEW YEAR'S.

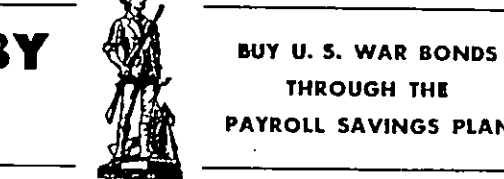

WHAT YOU SHOULD DO:
 If you are...
 1. Already investing 10% of your pay in War Bonds through the Payroll Savings Plan—boost that 10% if you can.

2. Working in a plant where the Plan is installed, but haven't signed up yet—sign up tomorrow.

3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager—and see if it can't be installed right away. The local bank will be glad to help.

4. Unable to get in on the Payroll Savings Plan for any reason, go to your local bank, or wherever Bonds are sold. They will be glad to help you start a Plan of your own.

 Mrs. Frances Dean was a Beaumont shopper yesterday.

Mrs. Milton Wallis of Beaumont spent part of the week with the parents, Mrs. G. C. Lowe.

Mrs. Bill Mangum of Strawn spent the week for a visit with the parents, Mrs. G. C. Lowe.

Mrs. Scott Willis of Spurger spent part of the week in Woodville while Mr. Willis was in Austin.

Mrs. A. L. Jordan was a Beaumont shopper yesterday. She went down with Mesdames Lee Neal and J. Massart of Warren.

Mrs. M. E. Lindsey is again at home after spending some time with her daughter, Mrs. Mary Johnnie Lindsey in Beaumont who was seriously ill, and suffered a serious operation. She is reported as slowly recovering. Is able to sit up some.

Mrs. Margaret of Chester was a county seat visitor Tuesday.

Mrs. John Reid drove to Beaumont Tuesday to meet her mother, Mrs. F. L. Smith of Austin, who will spend the holiday season with the family.

WOODVILLE NEWS
 E. W. Casburn was home from Kilsno part of last week. Mrs. Casburn and the children spent the week end in Warren with her parents, Mrs. Busselle.

WOODVILLE NEWS
 The fire alarm roused many a slumbering soul at about 6:30 o'clock, and we remarked that the boys won't get there as fast as usual, but the words were hardly spoken when the truck men were heard. A rather noisy connection to the water heat, or at the J. B. McCombs home had caused a blaze which was soon extinguished, but it caused a bad scare, and a nasty mess to be cleaned up. All are sincerely glad that no more serious results were had.

Mrs. F. G. Feagin, J. L. Vial and Joe Feagin of Chester were in Woodville Tuesday.

WOODVILLE NEWS
 Messrs. E. W. Tubbs, J. B. Reid and P. B. Sullivan have had a real job this week, as they were appointed as judges on the Forestry essay contest, and it's always a problem to settle such an important matter. We hope to have a report of the winners for next week's booster, but most likely AAM can not get its report back before Jan. 1.

MAKING THE MOST OF YOUR LIGHTING

(No. 6 of a Series)

Let One Reading Lamp Do The Work of Two

By arranging furniture and lamps carefully, you can often make one lamp do the work of two. An I. E. S. Lamp at the end of the divan, for example, can be moved to the center in back of the divan. Or two chairs or a chair and a divan can be grouped with a lamp to serve two persons with good light, as illustrated above. Be sure the lamp is close enough to both pieces of furniture, though. A difference of 12 inches can reduce the light you get by as much as 50%.

WATCH THIS SPOT

Inspect lamp cords where they come out of the lamp base. They fray and crumble quickly at this spot. If too badly worn they should be replaced or repaired to prevent possibility of short circuits.

Make Every Payday Bond Day!

Wasted money is wasted lives. Don't waste precious lives. Every dollar you can spare should be used to buy War Bonds. Buy your ten percent every pay day.

PENS AND PENCILS

This country, in 1941, produced 1,205,280,000 wood-cased lead pencils, 60,000,000 mechanical pencils, 50,000,000 fountain pens, and 23,760,000 penholders.

In 1943, under orders just issued by the War Production Board, output must be limited to 225,400 wood-cased pencils, 24,000 mechanical pencils, 18,000 fountain pens, and 17,280,000 penholders, while no rubber, either crude or reclaimed may be used in the manufacture of erasers.

With the grand total of 1,120,225,400 new handwriting implements, the American people should be able to get through next year. That is, if their Government cuts down, instead of continuing to increase, its own output of long, unnecessary and duplicating questionnaires.

Joe Palooka says—

"Hey, youse folks, don't forget to go over to the top with that 10% by New Year's! 10% for War Bonds every pay day!"
