It's the start of what we think gamization is doing one big thing technical advisors a pleaty.

Costly in Man-Power

The purpose of all this organization is called "renerotration," meaning to figure all war centracts over again and change them if they show too much profit for anybod going to take a lot of help. The Navy had only 1,000 men at such on July 1, 1941; a year later 4,000 and the Navy has only 10 per cent of the estimated three million contracts to be renegotiated. might ask: "Don't you be

Here in channating excessive profits. from war contracts?" I need certairly do! I want every dollar of boodle wrung out of them in a way that will not consume the energies of thousands of men who mucht better be doing something to help win Thackery; (c) Stev President Roosevelt famous September 7th address

told us how. He said "Recapture machete my car a match b x through taxation all war profits not necessary to maintain sufficient/war production " And the President's plan will work. Excessive Profits Rare

It is a known fact that the Excess Profits Tax already in force drains | Anzac y a w of war contracts. But tracke new i boards pay no attention to that, They re-figure all contracts. Here is a fair example If a farmer had urned 90 neres of a 100 acre tract with a gang flow and found ten FERTHLIZERS AVAILABLE acres of odd patches unbroken, he might resort to smaller tools, but

little visible success.

sands of men and millions of dollars. ing when Mr. Disney's amendment was offered; they fought it and killed it. Now, while married men take up arms and leave their wives to run their farms, other men of like age will be getting soft bureaucratic well paid jobs. Urging your congressman to do something about it can still help. The Disney amend-

ment would have helped greatly. This article is being published in about 1,000 county newspapers. It is my sincere opinion that congress pays more attention to readers of rural papers than to any other group. Congress recognizes that people who live on farms and in small owns are the sanest, most conservative and most dependable segment of the nation. I appeal to rural America to make its voice heard to save man-power,

★ Remember 1933 — when times were tough?

Maybe you didn't have a job. Maybe you and your wife and kids didn't eat too well - dress too well - have too much fun. Maybe you swore then that if things were ever different, you'd make up for it.

Chances are, today, things are different. You've got a job. You're getting good money. And you'd naturally like to have a little fun with it. You'd like to buy some of the "extras" that you and your family never had during the hard times.

It's only human to feel that way. But right now --- we've got to quit being

Right now, over in England, a bunch of fellows are getting ready to tackle one of the bloodiest jobs ever given an Army. In the Pacific, another bunch is playing hide-and-seek with an enemy that thinks the right treat ment for a wounded prisoner is a bayonet through the guts. Others at sweating in Africa - still others are on cold, dreary, fog-bound islands near the Bering Sea.

That's their job.

and a great deal of thought to

planning some way of improving our health conditions during the

The American people are very

ortunate. We have scientific

inance, and government. We are

probably the most realistic and

practical of all people. We should

measures that unite effectively the

coming year.

But it's our job to give them the tools they need to win --- by buying War Bonds! And so far, we aren't doing our full job!

Right now, there are still people who ought to be buying War Bonds through the Payroll Savings Plan - but aren't.

While plenty of people in the Plan are investing more than the 10% Uncle Sam needs, a lot are putting aside less than they can.

The fellows who aren't yet in the Plan - or, being in, haven't yet hit their 10% - aren't unpatriotic, or 5th Columnists, or anything like that. They're just human. They just haven't realized their Country's bitter, crying need - now! They haven't realized that Americans have been licked in battle for lack of planes, ships, tanks and bullets - tools that the money we'd like to spend for fun has got to buy!

Uncle Sam hopes that every single one of us will realize it - by January 1st, 1943. By that date, everybody on a payroll should be on a Payroll Savings Plan -- and we'll "Top That 10% by New Year's."

So, if you aren't setting aside your 10%, go on in and tell 'em you want to raise your sights. Not to 6%, or 7% or 8% — but at least 10%. If you can put in more than 10% - do it. If you aren't yet in on the Payroll Savings Plan --- sign up tomorrow!

WHAT YOU SHOULD DO:

1. Already investing 10% of your pay in War Bonds through th Payroll Savings Plan - hoost that 10% if you can.

- 2. Working in a plant where the Plan is installed, but haven't signed up
- 3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager - and see if it can't be installed right away. The local bank will be glad
- 4. Unable to get in on the Payroll Savings Plan, for any reason, go to your local bank, or wherever Bonds are sold. They will be glad to help you start a Plan of your own.
