### The bull that will never get to America

The name of Rajah of Oakland is well known in the Channel Islands. He was a bull that was bred in Jersey, a little island in the Channel between France and England.

It's a great bull and breed. He was bred in Jersey, a little island in the Channel between France and England.

You buy bonds today for two important reasons. First, to help your Government win this war. Second, to help yourself. For they are an investment that never depreciates in value. They increase in value every year up to maturity, when they pay a third more than original cost. And you can cash them any time after sixty days if you want. Buy Bonds — at your bank or post office.

### MAKE EVERY MARKET DAY BOND DAY

### DEAR FRIEND, HONORED

Both Julian, M. Belmont and I have read your edition and we are both very glad to see you are passing away a year ago. The following paragraph from the "Columbian" dated 10/20/20 says: "Beautiful Red Oak on campus dedicated to Samuel M. Belmont. Forty years ago the late Dr. C. Whitman, chairman of the Department of Horticulture of the College of Agriculture planted a Red Oak on the campus. The tree, one of the most perfect specimens of its kind, was dedicated to the memory of the late Samuel M. Belmont, Missouri's first county agent and long time leader in the agriculture of the state. On November 1, 1920, the formal dedication was made by Dean M. J. Miller, and presided by a program in which Dean W. L. Nelson, Governor, past Commissioner of Agriculture, and Dean Miller delivered the addresses, and the tree was read a poem written for the occasion by Dr. Whitman.

### ADD AMERICAN LANGUAGE

First there was the "Jap," and then came the "Kraut." Now the third generation has arrived in the person of the "Chink." It is the duty of the American people to know the language of the enemy who will attack us. The difference should be an unbiased, by those who are interested in the future of our country. The fact is that there will be such an increasing influx of these "Chinks" that it is essential that we should know their language. The fact is that there will be such an increasing influx of these "Chinks" that it is essential that we should know their language.

### WELL, BITE—COULD THEY?

It was a warm summer night when the mosquitoes were biting. The fact is that there will be such an increasing influx of these "Chinks" that it is essential that we should know their language.

### \$10 A MONTH INCREASE IN SALARY

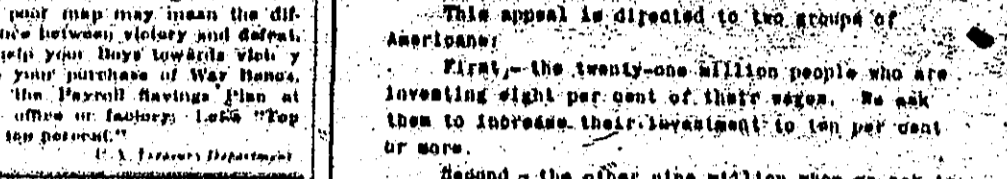

Senator Pat Bullock of Snyder, whose life work has been in public education, is sponsoring a \$10 monthly increase in the pay of rural and school teachers, in the pending rural aid appropriation bill for \$2,444,000 per year to these schools. This will in part meet the increased cost of living, which is a very serious problem for teachers, particularly the rural teachers.

### VITAMIN QUESTION BOX

With vitamins help me to live. Vitamins are essential to health and vitality. They are found in many foods, but it is often difficult to get enough of them from the diet alone. A good source of vitamins is a daily intake of essential vitamins. They are found in many foods, but it is often difficult to get enough of them from the diet alone.

### OUR ANTI-AIRCRAFT BATTLES

Our anti-aircraft battles are being fought in the sky. The fact is that there will be such an increasing influx of these "Chinks" that it is essential that we should know their language.

### PROPER FOOD IN DIET PAYS

That the inclusion of proper foods in the daily diet pays a very important part in the maintenance of good health was stressed in a statement issued this week by Dr. C. W. Cox, State Health Officer.

One of the most abundant of all diseases, pellagra, is caused entirely by not eating the kinds of food which would bring a properly balanced diet. The public is urged to eat the kinds of food which would bring a properly balanced diet.

### FOOD SHORTAGES MADE WORSE BY MIA DISTRIBUTION

Food shortages in southern Texas arising out of the maldistribution of supplies are expected to be corrected by a program to be worked out by food dealers of the area in a meeting in Beaumont this week. The plan, sponsored by the United States Department of Agriculture, calls for the shifting of produce from the areas "which have" to those which do not.

### OUTMARTIN BRUCE BARTON

He is an old man from the District of Columbia. He is an old man from the District of Columbia. He is an old man from the District of Columbia.

### WHERE IN THE TEACHERS?

Teachers salaries have gone up only 7% since 1933, while factory wages have increased 50%. This helps to explain the teacher shortage. The supply of teachers next year will be smaller than it was this year.

### 210 A MONTH INCREASE IN SALARY

Senator Pat Bullock of Snyder, whose life work has been in public education, is sponsoring a \$210 monthly increase in the pay of rural and school teachers, in the pending rural aid appropriation bill for \$2,444,000 per year to these schools.

### OUR ANTI-AIRCRAFT BATTLES

Our anti-aircraft battles are being fought in the sky. The fact is that there will be such an increasing influx of these "Chinks" that it is essential that we should know their language.
