## THINK 'BOBBIES'

Those Olden Bibles aren't such a bad idea at that, for it seems all things in Congress received Bibles bound in a beautiful white cloth.

The 130th District conference of Bibles will be in session April 25-27, which days are Sunday, Monday and Tuesday. It is expected a number will be present from Woodville.

Over 2,000,000 pairs of stockings weighing about 17,000 pounds were turned in during two months beginning Nov. 15, 1942, as a contribution of American women to the silk and nylon salvage program.

Henry and wife, Mrs. Frank Pollock, Houston, says they will give \$5,000 to the Hill Country Military Commission in honor of the 1944. The other half of the money will be used for a walk.

How would it be to get a shooting in the condition of the boys in the school? The boys are not in the school, but in the field. The boys are not in the school, but in the field.

Well, we are not in the school, but in the field. The boys are not in the school, but in the field. The boys are not in the school, but in the field.

It seems the boys are not in the school, but in the field. The boys are not in the school, but in the field. The boys are not in the school, but in the field.

The boys are not in the school, but in the field. The boys are not in the school, but in the field. The boys are not in the school, but in the field.

Can you tell us about the children who are in the school? The boys are not in the school, but in the field. The boys are not in the school, but in the field.

The boys are not in the school, but in the field. The boys are not in the school, but in the field. The boys are not in the school, but in the field.

## Hang On To the Life Line, or Else

It doesn't do any good to throw out a life line if you don't keep a firm grip on the other end. Our men serving with the armed forces in the combat zones are counting on us to hold out to them the life line.

When emergencies arise at home, problems of all kinds that haven't come through serious illness, but all the things that have stopped us from doing our job, we are counting on you to hold out to them the life line.

## Why The Great Rush Well, Girls, Are You To Get On A School Board?

Kachange papers from small towns arrive each week, and almost without exception there can be read news items in some, if not all of them, that tell that the community has lost another teacher who quit to take a more lucrative job in war industries.

It seems too bad, but no one blames the teacher for quitting the school room where the salary is usually small, and, so it is alleged, must frequently be divided with another member of the school board in order to get and retain the job. The teacher's tenure bill now in process of formulation will create a system that will make the teacher's position secure.

### ANNUAL REPORT TO TELEPHONE USERS

A summary of the performance of Bell Telephone Company's 1943 Annual Report. Recently issued.

**"PEARL HARBOR"** was only three weeks out in 1943, but already the telephone system had felt the first of war's pressing demands.

Miss metals vital in war are also vital to telephone service. During the year we were able to get, for example, only a year's supply of copper normally needed.

Telephone people somehow had to make their telephone of materials in demand for entire telephone systems at Army camps and Navy bases, for service in new war industries, for new telephones in thousands upon thousands of homes.

**Service held up rather well**

The skill and "know how" of these people were in most cases equal to the job. During the year the company added 123,698 telephones. It ended the year with 1,867,751 telephones in service. But in many cities, lines and equipment simply could not serve all who wanted telephones.

The quality and speed of telephone service held up rather well during the year. There

### VITAMIN QUESTION BOX

Q. Is there any one vitamin that is especially vital?  
A. No. While vitamin A helps maintain healthy vision, and vitamin B and C are essential for the body's normal functioning, all vitamins are equally important.

Q. How can I get the most out of my vitamins?  
A. The average American diet is not so low in required amounts of calcium for bones and teeth and iron for blood building.

Q. Do you have questions about vitamins?  
Write to: Bell Telephone Company, P. O. Box 1000, New York 10108. Address envelope and mention name of this column.
