Notices to Taxpayers

Those who have been notified by Hon. Geo. H. Sheppard, State Comptroller, that the Penalty and Interest Release Bill introduced by the last Legislature releasing all penalty interest and costs on all delinquent taxes passed the House of Representatives but died on the Senate calendar, therefore there will be no release of penalty, interest and costs.

It will be a great saving to pay your 1942 taxes before July 1, 1943, since at that time there will be added delinquent costs and additional penalty and interest. Also taxes due for years prior to 1942 are being increased each month with additional interest and should be paid as soon as possible in order to save this increase in interest and clear the title to your property.

Table Appliances

POINTS ON TOASTER CARE

- Keep toaster clean by wiping inside with damp cloth, using a mild abrasive powder if necessary. Heating elements clean itself when current is on.
- Use small soft brush for removing crumbs from base. If toaster has no crumb tray, never use a knife or fork in contact with heating elements as they are easily damaged.
- Never immerse toaster in water. Keep dripping racks away from heating elements and electrical connections.
- Do not put toaster head of bread with cheese spread in toaster. Spread this on hot toast after it is made.
- Be careful not to drop your toaster. Wipe up any damage that is done by heating elements.

TIPS ON PERCOLATOR CARE

- A clean percolator is the secret of good coffee. Wash inside with warm soapy water, rinse and dry. Wash inside with damp cloth and mild scouring powder. Never immerse percolator in water.
- About once a week substitute a tablespoon of baking soda for coffee and percolate as though making coffee. This will get rid of rancid coffee oils that cling to metal.
- Always make sure you have just fit water before connecting percolator. Otherwise you will blow out fuse in base of percolator.
- If you have a glass coffee maker, with cloth filter, rinse filter cloth thoroughly after each use. Between usings, keep cloth in glass of cold water.
- Check against dripping glass coffee maker below. Do not let cold water come in contact with hot bowls.
