## THINK MOBBIES

• Remember to think that the word mob means violence.

• We like the way, Jimmie, you are thinking. It may not be the best, but it is a good one.

• Most people are honest and true, but some are not. Be sure you are one of the good ones.

• It seems that Willie, Jerry, and the other boys are all getting into mischief. They are not to be trusted.

• These boys are all getting into mischief. They are not to be trusted.

## Meteoritic Rise and Fall of World's Greatest Bluffer

July 20, 1888—Born in the Italian province of Parma, Italy, the meteoric rise and fall of Benito Mussolini, the Italian dictator, began on this day. He was born in the village of Predappio, a town of 10,000 people, 20 miles from the Adriatic coast.

His meteoric rise began in 1919, when he organized the Fascist Party in Milan. He was elected to the Italian parliament in 1922. In 1925, he became prime minister. In 1929, he signed the Lateran Treaty with the Vatican, which gave the pope complete independence in Italy.

His meteoric fall began in 1943, when the Allies invaded Italy. He was forced to flee to Germany. In 1945, he was captured by the Allies and executed. His body was thrown into the sea near the island of Brioni.

His meteoric rise and fall were the result of a combination of factors. He was a brilliant speaker and organizer. He was also a ruthless politician. He was able to build a coalition of support that included the army, the police, and the clergy.

His meteoric rise and fall were also the result of the Italian situation at the time. Italy was a weak and divided country. The people were looking for a strong leader who would bring order and unity to the country.

His meteoric rise and fall were also the result of the international situation at the time. Italy was a key ally of Germany in World War II. The Allies were determined to bring Italy to its knees.

## SMILKS FROM WALK, STREY JOURNAL

Conversations with Mrs. Strey, who was returning, and with the other members of the Tyler County Board of Commissioners, were held at the Tyler County Courthouse, Thursday, July 27, 1945.

At the meeting, Mrs. Strey, who was returning from a visit to the hospital, was asked to give a report on the condition of the patients. She reported that the patients were improving and that the hospital was well equipped.

The meeting also discussed the proposed new hospital building. It was decided that the building should be built on the site of the old hospital, and that the new building should be completed by the end of the year.

## Allied Flags and Their History

It is interesting to note that the Allied flags of World War II were the result of a combination of factors. The flags were designed to represent the different countries that were fighting against the Axis powers.

Read 'Em and Reap OUR ADS. This is a personal invitation to come and worship with us. Each and every one is invited, and welcome to any of these and every service that is held in the Methodist church.

### The 500 Millionth Gallon

As a result of the global war effort, at one of the most amazing feats of modern industry, the 500 millionth gallon of 100-octane aviation gasoline made by Humble Company has just been produced.

One million gallons is a tremendous quantity of gasoline. It would fill 200,000 five-gallon gas cans. It would fill 200,000 five-gallon gas cans. It would fill 200,000 five-gallon gas cans. It would fill 200,000 five-gallon gas cans. It would fill 200,000 five-gallon gas cans.

**HUMBLE OIL & REFINING COMPANY**  
13,000 Texans United in the War Effort

Humble fuels, lubricants and greases have been field tested and used by successful farmers for years. There is a Humble product for every farm need. Look to your Humble Bulk Agent for advice on your fuel and lubrication problems.

**WOODVILLE NEWS**

Patients in the county were glad to see Vernon Beckin looking up from the hospital. Beckin, who has been in the hospital since he was injured in the war, is now being discharged.

They and Mrs. J. C. Boyd left early last week to attend a Baptist Convention at Abilene. They are enjoying a two week vacation from the local Baptist church.

Mrs. J. E. Wheel, Mrs. J. H. Henson, and Mrs. J. H. Henson were here one day last week to see Dr. Wilson Henson.

**East Texas' Role in the War**

Army and Navy awards that have been made recently to factories in our region of Texas, for unusual efficiency in the manufacture of material and supplies for the war effort, are a fitting tribute to the industry of East Texas in the war effort.

The industry of East Texas is of far-reaching significance. First, it is a recognition of the vision and ability of our industrial managers; second, it is an honor to every man and woman whose industry, skill and skill have been put upon the altar of our country's service; third, it emphasizes the power of teamwork between labor and free management; and fourth, it demonstrates the power of democracy which would be impossible under the slave-driving methods of the dictators of the world.

**HOUSTON PARKERS SAY WE ARE UNDEIR AT RISK ABOUT THE INFANTILE PARALYSIS CAMPAIGN**

Houston people have become indubitably alarmed over the infantile paralysis situation in this city. The fact that the cases have been dropping since the summer months has not been sufficient to give them confidence in the health officials reported Friday.

"As a matter of fact," he declared, "there is one case of polio in Houston and Harris county for every 12,000 persons. The reason for this alarm is not hard to understand. The disease comes, infantile paralysis, with its integration of the muscles of the arms and legs, and usually attacks children and little is known of how it spreads."

Dr. H. H. suggested a few points for the people in their effort to minimize the likelihood of the spread of polio.

He said persons should avoid contact with exposed sewage, because the germs of polio often have been found in sewage, and that persons should make certain that the water they drink is free from sewage.

He suggested that all persons avoid contact with persons who are ill with polio, and that persons should avoid contact with persons who are ill with polio.

**Nationwide Molly Pitcher Tag Day**
