A CIO leader said the government should not force a strike on the health insurance industry.

THE AMERICAN Red Cross chapter in Houston is planning to hold a fund-raising drive.

THE OTHER side of the coin is that the Red Cross is not doing enough to help the war effort.

THE HUMAN element in the war effort is being neglected, according to a report.

THE PAPER in the war effort is being neglected, according to a report.

Bread Cast Upon the Waters

Yes, those men in the large are throwing food overboard. It's good food, too, and the men aren't crazy. This is just the emergency way of handling supplies on a war-torn sea.

The paperboard containers are waterproof. They are flaked out of the ship and carried up on the beach—their contents as perfect as when they left far-off America.

Here is just one of the many new uses that have been developed for pulpwood products—another reason why pulpwood has joined rubber and tin on the scarcity list. But of pulpwood we have an ample supply—in the woods. The only problem is to get it out.

This mill, like almost every other pulp mill in the country, is short of wood. We need all

we can get. If you cut out pulpwood for us, do it quickly—there is no way you could help more effectively in keeping a stream of supplies flowing to our men overseas.

Write or phone for prices, or get in touch with your county agent, for ester or this newspaper

NUMBER 43.

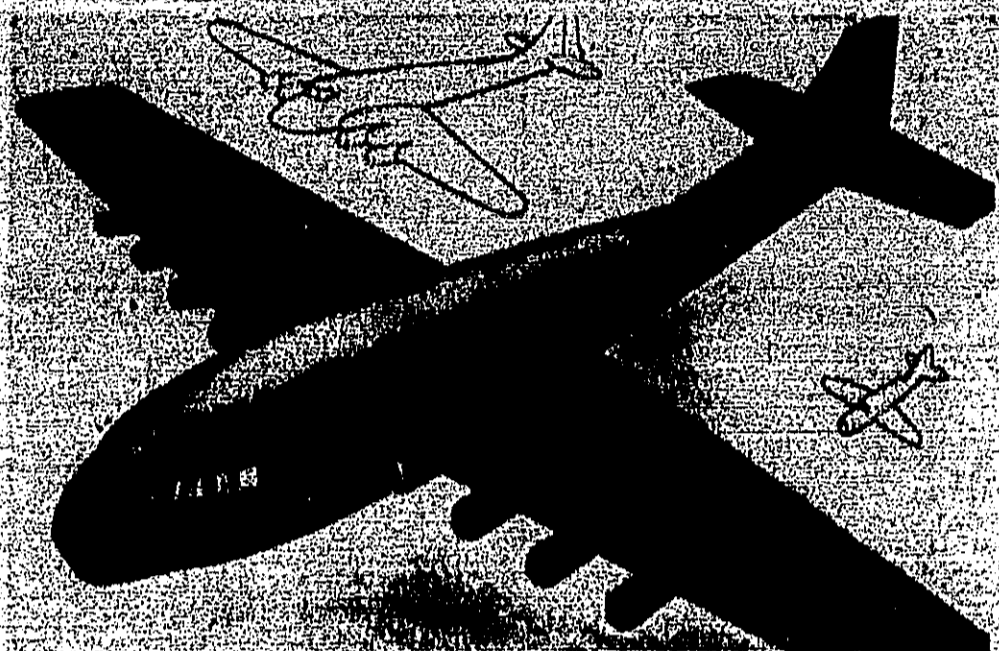

NOTABLE NEWS EVENTS IN PICTURES

MISS MISS AMERICA—In center is Jean Bartel, age 19, of Los Angeles, Calif., who won "Miss America" of 1943 contest at Atlantic City. Muriel Smith, left, "Miss Houston" was second, Francis Mack, right, "Miss Houston" third. Now queen begins 13-week nationwide tour in sell war bonds.

30-FOOT ANOMALY—This weird-looking monster is a Plesiosaur, a 40-foot sea-dwelling reptile, who scientists say lived in hundred million years ago. Pasadena museumologists, who assembled him, say he's the largest and most perfect specimen ever mounted.

PLANE OF PICTURE—This is a picture of Henry Kaiser's giant cargo plane, now being built by the Hughes Aircraft Co. of Culver City, Calif. The huge plane is 200 times the size of the biggest plane ever built. Compare it with the Flying Fortress above, or the P-47 Thunderbolt, right. It will carry 10 tons of cargo and has eight engines. Sixty tons is equivalent to two heavily loaded freight cars. Planes of this type have a long flying radius and could deliver freight from New York City to London in 24 to 30 hours. It would also have capacity for transporting 100 soldiers on a one-way trip.

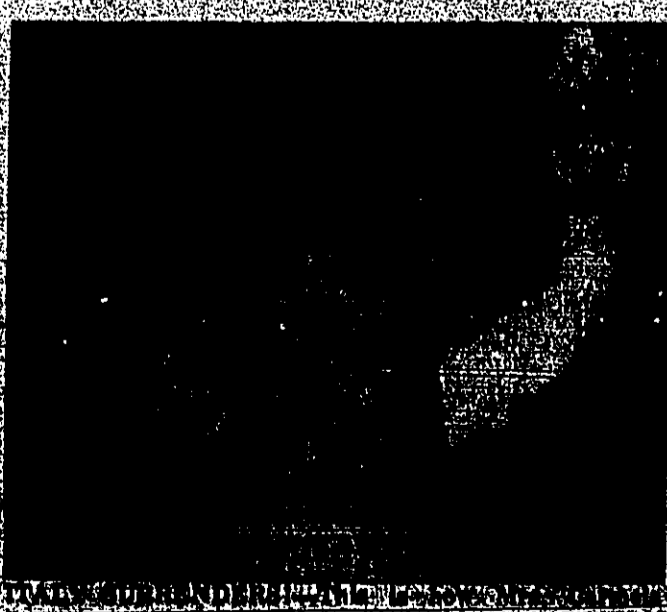

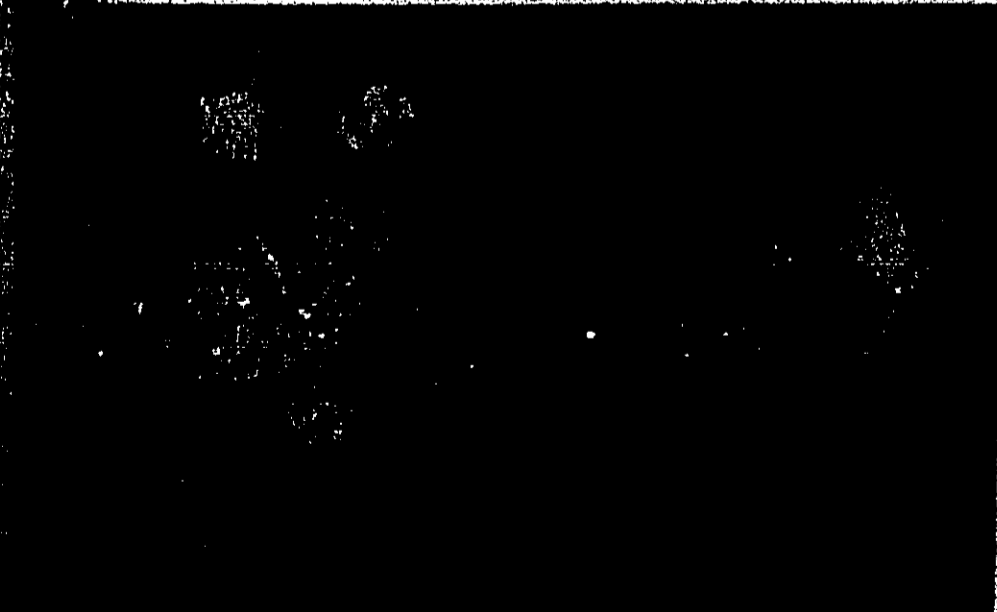

TAKE NOTE—A new wartime record was set when these ten Liberty ships were launched in eleven days at the California Shipbuilding Corporation, Los Angeles. Launch speed in shipbuilding is rapidly overcoming the boat menace. Normally the yard launches a ship every 30 hours.

BE GOOD, BARK!—Soldiers long away from friends or relatives often endow their inanimate companions with human traits. Here, Private Nick Cuelotti, of Philadelphia, shows his affection for the 185 mm. "Long Tom" rifle by climbing to its muzzle and pressing a kiss on it before it hurls a shell against Nazi in Italian operations.

LOVES GAME—Pretty Juanita Clark just loves to play tennis on a Hollywood studio court and, they say, she swings a wicked tennis racket. The studio executive predicts a brighter future for Juanita on the screen.

CURRENT

The Italian Ship

Gen. D. Eisenhower has said that under the terms of the armistice, the Allies have surrendered Italian naval vessels. The Admiral added that the Allies would have the heavy ships against the Japanese. He also disclosed that leaders of the Italian submarine force were being set up all over the place to suit the backs of the Italian fleet.

Nine Months Added to Average Life

Despite the hardships of war, American women and their families are living on the average longer than ever before, according to the statistics of the Metropolitan Life Insurance Company. Their conclusion is based on the observation of life expectancy in 1941 to the company's limited policy holders which reached the new high figure of 47.7 years, a gain of 9 months over the 1941 figure.

Air War Buffeting Reich

The tone of the victory over Germany is "not supremacy in the air and then a crushing invasion by land and sea," General Henry H. Arnold, commander of the United States Army Air Forces, said recently in London. "I have every confidence in the fact that Germany will be completely destroyed by the combined forces of the air and the ground," he said. "The destruction of the German air force will be a major step toward the final victory."

Industry Profits Up for First Half of Year

Large increases in volume of business during the first half of 1942 enabled American corporations to show substantial improvement in earnings, both before and after taxes, as compared with last year, according to a report by the National Industrial Conference Board.

Ship Owners Win Battle at Harbors

The Shipbuilders' Council of America has announced that the battle waged for control of the harbors, the control of the harbors, is now being won by the shipbuilders. The council declared that the control of the harbors is now being won by the shipbuilders.

New Alcohol Motor Fuel

Mixtures of gasoline and alcohol may soon be used in automobiles as motor fuel, according to a bulletin issued by the National Automobile Dealers' Association. The bulletin states that the use of alcohol in motor fuel will be a major step toward the final victory.

100,000 Mile-Tires Coming

You'll have to wait until the 100,000-mile automobile tire will appear sometime after the war. The development will come from certain synthetic grades that will be produced in large quantities by the new synthetic rubber plants.

Booklets Meet American Needs

Books in growing this summer from American needs, enough food to fill 7,000,000 mouths, or 500 ships. This food will be the margin that will carry a literally half-starved population of 70,000,000 through another winter of war, and the Russian War Relief, Inc. will be the beneficiary.

Battling Bible

There is some talk in the book trade of the need of a "battling Bible." The publishers just don't seem to be able to print enough Bibles to supply the demand. Particularly great is the demand for pocket-size Bibles, although bookstores report a remarkable increase of purchases for Bibles of every variety.

Where the Sun Is Going

Where the sun is going now baffles scientists. Whether the sun is going in its present journey toward a star has interested astronomers for the past two and a half centuries. For whether the sun goes there or the earth and all the other planets, they fly so independently about the solar system.

Synthetic Fat From Petroleum

Scientists are making synthetic fat out of paraffin from petroleum mixed with synthetic glycerol by means of a new process of paraffin oxidation. They are also extracting the marrow from bones by a new solvent process. This information comes from the official journal of the British Association for the Advancement of Science.

Conditioning After the War

After conditioning units which give forth cold air in the summer and heat in the winter may be within the reach of average income families after the war. Lloyd L. Carmichael, division manager of the Zone Steel Co. of East Northport, N. Y., said recently.

30,000 Heliother-Kilns by Widens

The great gray timber waves of the high North are still building a steady stream of kilns. A kiln is a building used for drying lumber. The kilns are being built in large numbers in the North.

20,000 Deer Will Be Lost

The 20,000 deer we will lose this year represent 2,000,000 pounds of meat, it was stated by one official who has made a study of the deer problem. The government bought the deer and gave the greater part of them to the Eskimos in an attempt to establish a stable economy in the Arctic. The Eskimos are now in a state of emergency.

STRENGTHEN GUNNER

Millions of dollars went into smoke and shell production in 1941. The total production of shells was 1,000,000 tons. The production of shells was 1,000,000 tons. The production of shells was 1,000,000 tons.

Our Boys and Girls

Kiddies-Can-Do-It

WHEN IS A GLASS FULL?

Have someone fill a glass as full of water as it can be filled without overflowing.

Then say carefully: "I am dropping coins and pins into the glass. You'll see how the water level rises and how it overflows."

THEY will show that a full glass will overflow if you keep pouring in more. Don't forget to be careful when you fill the glass to the top.

HUNTING THE BIG GILGIZA BEAR

The Gilgiza bear is a very large bear that lives in the mountains of Gilgiza. It is very fierce and can kill a man in a few minutes. The hunters are looking for it because it is very valuable for its fur.

It is a very big bear and it is very fierce. It is very valuable for its fur and the hunters are looking for it.

The hunter of you on all four when you are a bear and you will see a great blow with the bear.

One day a hunter was in the mountains and he saw a bear. He was very happy because he had found a bear. He was looking for a bear because it was very valuable for its fur.

GIZZA POPPIN

THE GI-BERNARD

He had a human face and a bear's body. He was very fierce and could kill a man in a few minutes.

We first hear of these bears in the mountains of Gilgiza. They were very large and very fierce. They were very valuable for their fur.

DRABBED A SOURCE OF FOOD

Seaweed are now being grown in California. They are a very good source of food and they are very valuable for their nutrients.

DAVIS ... IS ... Coming

She'll tell you when Long Distance lines are busy

The Long Distance operator knows, first-hand, when the rush is heaviest and what lines are busy. Then, if your call isn't vital, it will help if you cancel it altogether.

When you must make a Long Distance call over a crowded circuit, the operator will say: "Please limit your call to 3 minutes. Others are waiting."

Sure, I'll take a Texas Share

Your County War Fund is another "Victory weapon"

The United Way Chest of Texas through war fund organizations in every county of the state is charged with the responsibility of raising \$4,885,781.00 for the 17 approved war appeals of the National War Fund. The national goal is \$125,000,000.

Each of the 17 participating agencies was carefully budgeted to stretch every dollar contributed before it received the approval of the President's War Relief Control Board.

United Way are being asked to take a Texas Share in their County War Fund.

HOW TO GET MORE LIGHT FROM YOUR PRESENT EQUIPMENT

Use One Large Bulb Instead of Several Smaller Ones

It might seem that four 25-watt bulbs would produce the same amount of light as one 100-watt bulb. But that is not the case. A 100-watt bulb produces as much light as six 25-watt bulbs, yet uses one-third less current. Therefore, when practical, always use one large bulb instead of several smaller ones of same total wattage and you'll get more light for your money.

OTHER WAYS TO CONSERVE LIGHT

- 1. Turn off lights when you leave a room.
- 2. Clean light bulbs regularly. Dirty bulbs waste energy.
- 3. Use frosted bulbs instead of clear ones.
- 4. Use the correct wattage bulb for the fixture.
- 5. Use the correct type of bulb for the job.
- 6. Use the correct type of bulb for the room.
- 7. Use the correct type of bulb for the task.
- 8. Use the correct type of bulb for the time of day.
- 9. Use the correct type of bulb for the season.
- 10. Use the correct type of bulb for the weather.

YOU can help prevent disastrous forest fires!

CARELESSNESS costs more than \$200,000,000 in the United States every year. Carelessness destroys millions upon millions of feet of timber. Now a national movement is being organized to prevent forest fires.

YOU can help prevent disastrous forest fires by observing the four simple rules illustrated here and you're in forest trouble. And by using that silver burner here.

There are so many different ways we can help prevent forest fires. We can help prevent forest fires by observing the four simple rules illustrated here and you're in forest trouble. And by using that silver burner here.

More than 6 million acres are burned yearly because of YOUR carelessness. We can help prevent forest fires by observing the four simple rules illustrated here and you're in forest trouble. And by using that silver burner here.
