WOODVILLE, TYLER COUNTY, TEXAS, THURSDAY, NOVEMBER 11, 1943

### THINK'EMBOBBIES

Free stop to think that the word American ends with CAN.

We read in the newspaper that we grow older and older and older and older.

Day that we lived today and tomorrow that today will be yesterday.

At last, a simple solution to the problem of the old man.

When any new man of any other kind comes to the city, he should be made to understand the conditions of the city and the people who live there.

The question of the old man is a serious one. It is a question of the future of the city.

The old man is a problem that we must solve. We must find a way to take care of him.

The old man is a problem that we must solve. We must find a way to take care of him.

The old man is a problem that we must solve. We must find a way to take care of him.

### The Unknown Soldier

This which takes place today at the National cemetery in Arlington is a symbol of a mystery and a tribute. It is an emblem of the Unknown Soldier, the man who died for his country but whose name is unknown.

The Unknown Soldier is a symbol of the millions of men who have died for their country. He is a symbol of the sacrifice that has been made for the freedom and peace of the world.

The Unknown Soldier is a symbol of the love and devotion that has been shown by the men of our country. He is a symbol of the courage and valor that has been displayed in the face of death.

The Unknown Soldier is a symbol of the hope and faith that has been maintained in the face of adversity. He is a symbol of the strength and endurance that has been shown by the men of our country.

The Unknown Soldier is a symbol of the unity and solidarity that has been achieved by the men of our country. He is a symbol of the common bond that has been formed by the men of our country.

The Unknown Soldier is a symbol of the future and the promise of a better world. He is a symbol of the hope and faith that has been maintained in the face of adversity.

## NOTABLE NEWS EVENTS IN PICTURES

**BAMPERING THE AXES**—Here's indication of why Axis quit foe of Italian boot. Here's railway marshalling yard in Reggio Calabria blasted by Allied shells and bombs. Picture taken early in invasion has just reached U. S.

**FOOD PENNANT**—In upper part of picture is shown new "A" pennant issued by U. S. government for excellence in food production. Displayed in Washington by Agriculture Department girls, Mary Leapey, left, and Donna O'Dell Moore.

**HERMONS FROM SCIENCE**—Rev. Irwin A. Moon, of Grand Junction, Colo., backs up his sermons in Army camps with scientific demonstrations. Here he allows 1,000,000 volts of high frequency current to charge through his body.

**STAR BELLEFIER**—Mr. and Mrs. A. W. Hilton, of No. 6, were hit hard by war; when one son was Pearl Harbor, five sons now in service and another inducted soon. They had no one to pick cotton; naval cadets from nearby stations turned out to

**SWAGGER**—This newly designed swagger coal is mated brown Alaska coal, one of season's new furs in popular price range. It is modeled here by Evelyn, violinist with Phil Spitalny's all-girl orchestra.

**ACE OF ACES**—That's the way you refer to Lieut. Ken A. Walsh, of Brooklyn, N. Y., credited with downing 20 Jap planes in Pacific area. Machine (for a total kill) is recorded by Jap flags on propeller blades. He's shown at a Pacific base. He has been shot down twice.

**WAY DOWN IN CONNECTICUT**—It's cotton picking time in Stamford, Conn. Crop is probably first of its kind grown in Nutmeg State. It's an experiment at American Cyanamid Laboratories to observe effect of a chemical that brings a premature leafless condition, which would make cotton much easier to harvest.

# NAZIS Fight Allies Stubbornly in Italy

By SIDNEY HILLIETT  
Special Staff Writer

With the German strategy, have observed the bitter hammer blows which the Germans have thrown against the Allies since the beginning of the Italian campaign. The German strategy has been to attack the Allies from the rear, to strike at their lines of communication, to cut off their supplies, and to force them to fight on their own terms. The German strategy has been to attack the Allies from the rear, to strike at their lines of communication, to cut off their supplies, and to force them to fight on their own terms.

The Germans are skillfully making their stands in the mountains and on the ridges that chop up the Italian peninsula. Not only must the Allies who successfully concluded the Battle of the Volturno river (the highest the Germans have ever held) be able to fight on a steep, rocky, and often very narrow front, but they must also be able to fight on a steep, rocky, and often very narrow front. The Germans are skillfully making their stands in the mountains and on the ridges that chop up the Italian peninsula.

The Nazis place "successive stands" in Italy.

Since the fighting began in the hills of Italy, Gen. Mark W. Clark's Fifth Army has advanced on the beaches near Salerno on September 8. The German defensive line has been pushed back steadily to north of Naples on the crucial Fifth Army front. The Sixth Army under Gen. Joseph St. Ives has advanced forward on a longer but somewhat less violent front extending toward Rome.

The great German counter-offensive in the Anzio beachhead, which Mr. Stimson reports is firmly established over Italy, and the German Air Force cannot seriously challenge this so long as the Russians continue to oppose their thrust in the east and the

Military observers believe that the best German chance for a total withdrawal is to pull out of the Anzio beachhead as soon as possible.

The plan of Rome may well afford an opportunity for Allied tanks and other armored vehicles to get into action and accelerate the Nazi retreat. Armored units played a conspicuous part in the recent fighting because of the terrain, but if they have any chance in the attack of Rome, they must be used.

## The "HELLCAT" Fastest Fighting Plane

By MAX H. COOK  
Special Staff Writer

The new "Hellcat" is the fastest and best warplane to come out of the present conflict. It is not just a name, it is a reality. The Hellcat is the fastest and best warplane to come out of the present conflict. It is not just a name, it is a reality.

A variety of utilities in dog fighting over Long Island, every time the other fighter completed a maneuver, there was the Hellcat on the tail. Like the Wildcat, the Hellcat's wings fold backward to give more storage space. It can take off and land on a runway 1,000 feet long. It is a real dog fighter.

The Hellcat, newest and deadliest fighter plane now coming off the assembly line, is based on the best ideas and suggestions from the fighting pilots in the war areas. The Hellcat is the fastest and best warplane to come out of the present conflict. It is not just a name, it is a reality.

The Hellcat is the answer to the dog fighter's prayers. It is the fastest and best warplane to come out of the present conflict. It is not just a name, it is a reality. The Hellcat is the fastest and best warplane to come out of the present conflict. It is not just a name, it is a reality.

## The BIG INCH Pipe Line

By ALEXANDER BRIFFIN  
Special Staff Writer

The Big Inch pipe line, the mightiest artery carrying oil from Texas to New Jersey, had snaked its way to the Susquehanna River, Pennsylvania. There, the pipeline abruptly crossed the water on a hobbler bridge of pontoons. Suddenly, a spring gale blew the bridge away.

The bridge, heavy, vision, ingeniously and precisely of nineteen construction firms and their sweating crews. It was a gigantic problem, but they licked it. They removed beyond reach of enemy submarines some 100,000,000 barrels of oil, and they did it in 100 days. The Big Inch is the longest pipeline in the world.

Men danced like monkeys across the awaying depths of 24-inch pipes. Trying to mount the mighty oil conveyor safely to both banks of the river. It was no small feat. The Big Inch is the longest pipeline in the world. It is a testament to human ingenuity and courage.

The Hellcat is the fastest and best warplane to come out of the present conflict. It is not just a name, it is a reality.

**PENNIES BUY BOND**  
Reba Laverne Handley, age 4, of Heath (Rockwall county), saved enough pennies in 10 months to buy a bond.

**FOX TRAPPED IN TOWN**  
After a seven-day chase, a fox had disappeared from their traps right in the heart of San Marcos. Eugene Cant's neighbors set a trap which turned up the fox.

**DEAD WOLF WORTH IN**  
Commissioners of Bexar county have authorized a bounty on wolves killed within the county. It is part of a campaign to rid the county of wolves which have been killing many sheep lately.

**WIFE LIGHTNING KILLED**  
W. A. Spahn, who lives on a farm near Hubbard (Hill county), was sitting on his front porch watching a rain storm. He saw a big ball of fire roll down the hillside toward the house.

**WOLF BOND FOR CHILD**  
Residents of the Randall county community (Randall county) captured an animal and bought a \$25 bond which they sent to Winston Churchill.

**NERVO GETS WAT THRU**  
J. M. Nervo, of Dallas (Dallas county), got a nerve in his back. The nerve was in his back.

**TEXAS COPPER AVAILABLE**  
Dr. E. H. Edwards, University of Texas geologist, says that the time has come for developing the copper deposits in the state.

**JUG OF WATER STAYS IN PLACE**  
A jug of water ... stayed in place.

**RAT CAMPAIGN SUCCESSFUL**  
Approximately 80,000 rats were killed in 30 days during Denison's (Grayson county) extermination campaign.

**BIKINI BALE CAUSE FAN**  
An Avonlea (Frank county) store had to close its doors to keep from being over-run when it advertised 3,000 bikini bathing suits.

**CIVIL WAR HITCHING POSTS**  
Cross ties from a narrow-gauge railroad built by Union forces near Brownsville now are used for hitching posts.

**TEXAN YOUTH WINS HIGH HONOR**  
Martin Diez III, of Jasper (Garland county), son of the Texas commissioner from that district, has been awarded a sword as the outstanding member of a battalion of naval trainees at Columbia University.

**MOORE CANTON BEANS GROWN**  
Nueces county farmers have sold more than 500,000 pounds of earlier beans this year, considerably more than double the 1948 crop of 85,000 pounds.

**DENISON DAM COMPLETED**  
The last slab of concrete has been poured in the big Red River Dam project at Denison (Grayson county). More than 100,000 cubic yards of concrete were used together with 2,100 tons of reinforcing steel.

**AMMUNITION STOLEN**  
Civilians in the Rio Grande valley were able to get some shotguns, ammunition and Army officers caught soldiers who were stealing it from an Army school about 12 miles away.

**WOLF BOND FOR CHILD**  
Residents of the Randall county community (Randall county) captured an animal and bought a \$25 bond which they sent to Winston Churchill.

**NERVO GETS WAT THRU**  
J. M. Nervo, of Dallas (Dallas county), got a nerve in his back. The nerve was in his back.

## If your dealer is occasionally out of CAMEL cigarettes...

It's because hundreds of millions of Camel cigarettes are now being sent to men in the service. In addition to the government's own purchases for our fighting men, veterans' organizations, fraternal orders, clubs, friends and relatives everywhere are sending them Camels. Yes, Camels! After all, Camels are the favorite cigarette with men in all the services—Army, Navy, Marine Corps and Coast Guard.

While we have pushed Camels' production to new peaks to meet this overwhelming demand from Uncle Sam's fighting men and from the folks at home, yet if your dealer does not always have Camels for you, he asks you to be patient while he is temporarily out of them, believing you will agree that the men in the service should come first.

**First in the Service**

*and you'll be the first!*

# Texas Farm News Reports

U. S. Wheat, 1944-45 season, is estimated to be 1,400,000,000 bushels, according to the following:

1. They won't kill brown rotgerm because it's under the ground and it's under the ground.

2. They won't kill boll weevils because they're under the soil and it's under the soil.

3. They won't improve the soil because they're under the soil and it's under the soil.

4. They won't drive off the soil because they're under the soil and it's under the soil.

10. They won't get rid of the soil because they're under the soil and it's under the soil.

Some 2,000 acres of Presidio county farm land will be planted to hay, according to James M. Farrell, secretary of the Presidio A. C. A. Many farmers have seen results obtained by their neighbors from use of this crop and are going to start planting it. W. D. Butts, chairman of the A. C. A. committee, states that use of hay increased his cotton yield by 600 pounds of seed cotton per acre.

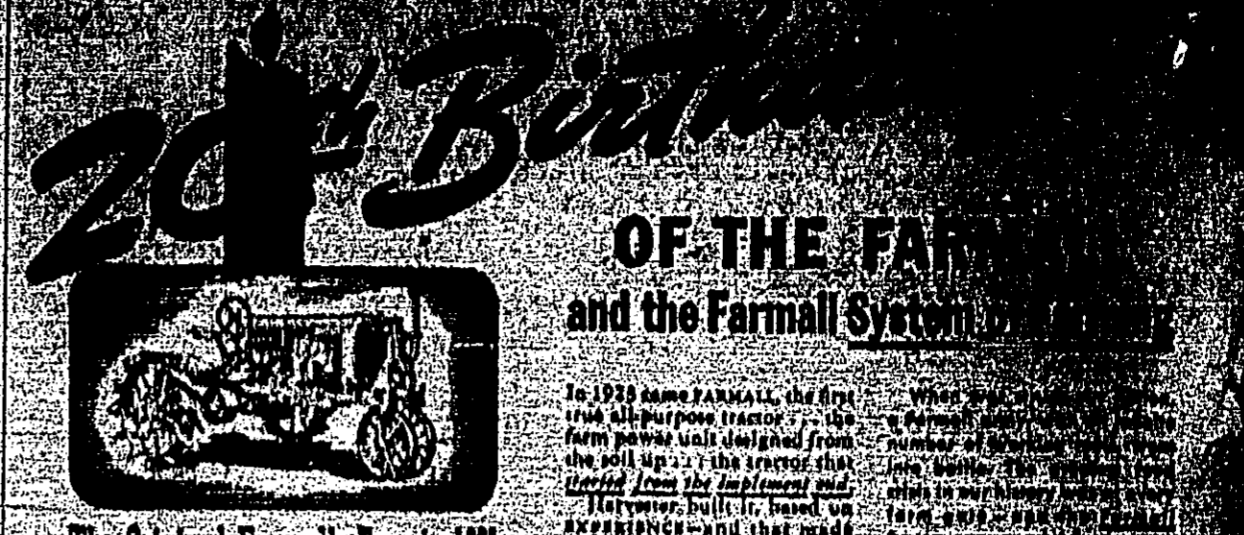

Each cutting in North Central and Northern Texas is the title of a new book which is available to farmers who have difficulty about getting hay. The book, which can be purchased from the University Press, Dallas, was compiled by two members of the Southern Methodist University faculty and the director of the state of Dallas hay project. The book includes chapters on fertilization, water irrigation, feeding, showing, pasture, raising, and other subjects which are not common knowledge with people who have had much hay.

P. M. Duhon, county agent in Dallas county, said that he had 228 bales of hay on his farm because he was able to keep them well watered from a well. The water source was 30 miles away. Mr. Duhon's success attracted the attention of government agents concerned with the hay shortage. He was selected in 1943. The government planted a total of 228 bales on Mr. Duhon's farm under agreement that he would produce and deliver to the government 228 bales of hay. Today the price of hay is about \$4.80 per ton.

For twenty years the Farmall has been the foundation for all experiments in general purpose tractor design.

TODAY a class of modern FARMALLS the "T" and "M" series, are making the way for the tractor of the future.

**To Cure Meat Correctly Without Waste ...**

**Cure the MORTON WAY**

**FIRST** Dissolve Morton's Tender Quick in water to make a rich, salty curing pickle, and pump this pickle into shoulders and hams along the bones. This alerts the cure (B.R.M.) prevents bloat and under-cured spots.

**THEN** Rub with Morton's Sugar Cure. This complete sugar curing salt strikes in from the OUTSIDE, gives a thorough cure and rich wood smoke flavor. Morton's Tender Quick and Sugar Cure, used together, give results you can get in no other way.

This Morton Method has revolutionized the curing of meat on the farm. Assured uniform, positive results all the time. Makes the good work and uncertainty of home-cured meat ... made the job easier and faster.

The safer, sure way to cure meat is to start the cure at the home. Morton's Tender Quick, mixed with pure water, makes the pumping pickle. This fast acting curing pickle, in your home safeguard against bone-rot, souring and soft flavor. Morton's Sugar Cure, rubbed on the outside, strikes in, curing toward the center.

This year when meat is so valuable, try the Morton Method. Enjoy the best-tasting meat you ever had, and the best-looking meat that stays sweet, mild, satisfying from season to season. Use Morton's Tender Quick and Morton's Sugar Cure. And for delicious, rich, smoky sausage, use Morton's Sausage Seasoning.

**FOR DELICIOUS SAUSAGE**  
Morton's Sausage Seasoning contains salt, pepper, sage and other spices, perfectly blended and ready to use. Just mix with the meat and stuff. No sugar, fat or grease washes in. (Time perfectly flavored sausage every time.)

**Finest Sausage During Week over 100**  
Publishers, over 100 pages.

George G. The cotton was a good one, and when shipped to this market...

Many farmers in Texas are faced with making up their first income tax returns. This year's farm income tax returns are due to date by April 15, 1944. Many farmers are having trouble with the tax returns. The Bureau of Internal Revenue is offering a special service for farmers who are having trouble with their tax returns. The Bureau is offering a special service for farmers who are having trouble with their tax returns.

With home-cured meat, you can get the best of both worlds. The home-cured meat is the best, and the home-cured meat is the best.

## Hobbies-Can-Do-It

The pieces will make an animal that lives in the land of ice and snow. Carefully cut out the pieces and try to fit them together to see if you recognize the animal.

## THE BUSY BEAVER

Condensed from "The Beaver" by HILL, MANNINGHAM

Beavers forget to teach the beaver how to swim. Although he is the most expert swimmer in the animal world, he has to learn the art of swimming from his parents or other beavers. He is not a natural swimmer.

The beaver is a rodent, and as such, has a pair of incisors that grow constantly. These teeth are used to cut down trees and dig for food. He is a very hard worker and spends most of his life building dams and levees.

The dam is built by the beaver's teeth and mud. It is a long, low wall that stretches across the river. The beaver lives in a lodge made of sticks and mud, with a tunnel leading to the water.

The beaver's dam is not only a home for himself and his family, but also a source of food. He stores up nuts and berries for the winter. He is a very clever animal and has many tricks up his sleeve.

## THE BECKON

As the bird begins to sing, the sky is filled with a soft, mellow sound. The sound is so sweet and so beautiful that it makes one's heart melt. It is a sound that has been heard for centuries and will be heard for centuries to come.

The bird's song is a language of its own. It tells us of its joy and its sorrow, of its love and its hate. It is a language that we must listen to if we wish to understand the world.

## TREE-ROOSTING

Imagine if you could climb up a tree and sleep in the branches. This is what some birds do every night. They find a place where they can sleep safely and comfortably, and they stay there until the morning.

Some birds, like the night heron, have special adaptations that help them sleep in the trees. They have long legs and long necks that allow them to stretch out and sleep in a tucked-up position.

Other birds, like the woodpecker, have strong bills that help them dig into the bark of the tree. This allows them to sleep in a hollowed-out space where they are protected from predators.

The beaver, however, is not a tree-rooster. He lives in a lodge made of sticks and mud, with a tunnel leading to the water. He is a very hard worker and spends most of his life building dams and levees.

The dam is built by the beaver's teeth and mud. It is a long, low wall that stretches across the river. The beaver lives in a lodge made of sticks and mud, with a tunnel leading to the water.

The beaver's dam is not only a home for himself and his family, but also a source of food. He stores up nuts and berries for the winter. He is a very clever animal and has many tricks up his sleeve.

The dam is a masterpiece of engineering. It is built by the beaver's teeth and mud, and it is strong enough to withstand the force of the water. It is a testament to the beaver's intelligence and hard work.

The beaver is a very important animal. He has helped to shape the landscape of North America, and he has provided a home for many other animals. He is a creature of great value, and we should all strive to protect him and his habitat.

The beaver is a symbol of hard work and perseverance. He is a creature that never gives up, and he always finds a way to overcome his challenges. He is a true hero of the natural world.

The beaver is a creature of great intelligence and hard work. He is a creature that has shaped the world around him, and he has provided a home for many other animals. He is a true hero of the natural world.

## With a problem

New, the always popular Sunshine Krispy Crackers are the perfect accompaniment to soups, salads and spreads. But why not enjoy their delicious flavor right through a glass of milk, vegetable, fruit, honey-wine and this an economical way to give their families extra good-tasty.

## Safeguard for Goodness!

FREE

Admiration

3 MIL CONSTRUCTION BOKED WITH RUBBER

The Lamolmi package is really four packages in one. The innerliner is a sheet of special grease-proof paper bonded with a film of patent rubberized cohesive. To see this, tear a piece from an Admiration package and hold briefly over a mesh screen which heated will separate. This innerliner is contained in a lithographed paper bag - another protection - and both are enclosed in moisture-proof cellophane. This packaging therefore safeguards the goodness of Admiration.

When vacuum packed coffee went to war, we examined dozens of packages. We needed one that would safeguard Admiration's wonderful freshness, aroma and flavor. Finally, in collaboration with a prominent container manufacturer, we developed our own. It's called The LAMO-LMI Package. Lamolmi seals out moisture, this prevents staleness and rancidity. Lamolmi also seals in the goodness of freshly ground coffee. When freshness evaporates, loss occurs in aroma, strength, flavor and other qualities that are blended into a fine coffee like Admiration. By a process of Admiration today, Admiration is doubly sure that you are getting the best of the best. Admiration is doubly sure that you are getting the best of the best. Admiration is doubly sure that you are getting the best of the best.

## DUSY WOMAN'S WORK BASKET

### Applique' Panties

By MRS. ANNIE GARD

Make your own trousers. Christmas gift. In very practical way—day after day. The fine silk and cotton are always worn have just disappeared from the store. To make these panties, let's just go ahead and make them out of a yard of fabric and a yard of silk. Applique' them with whatever flower design you like. They are designed to be small and to fit close.

The design you'll enjoy creating. Letting and coordinating in the Applique' Panties. The book is a novel falling source of inspiration for needlework you'll love to do. The Applique' Panties is 15 cents. Please do not send order to Mrs. Margaret Stute, Fort Worth, but order to Agnes Clark, Northwest Magazine, 510 7th Ave., New York, N. Y.

### HEROINES OF THE HOME FRONT

One of the most important and least appreciated tasks of the war effort is the work of the women who are working in the hospitals and who are doing the housework of the hospitals. The women who are working in the hospitals are the heroes of the home front. They are the women who are working in the hospitals and who are doing the housework of the hospitals. They are the women who are working in the hospitals and who are doing the housework of the hospitals.

The women who are working in the hospitals are the heroes of the home front. They are the women who are working in the hospitals and who are doing the housework of the hospitals. They are the women who are working in the hospitals and who are doing the housework of the hospitals.

Money that before measuring honey, please honey, contains to stand a minute or two. It will then pour more easily. For a thick custard dish, the thicker you make it, the better it will be. To keep the contents of a baking dish or casserole from turning over in the oven, rub the rim of the baking dish with butter.

Remember the end when you are making. Freshly washed fruit from your oranges will help balance out the acidity. To make orange juice, take a few oranges, wash them, and then juice them. The juice is best when it is fresh.

Put your fresh celery leaves in a paper sack and stand in a cooling oven to dry. Fine for flavoring soups, stews and pot roasts. When seasoning ground meat, add a few drops of lemon juice for added flavor and tenderness.

*They Satisfy*  
NOT A SLOGAN BUT A FACT  
**You Can't Beat It**  
**MILDER BETTER TASTE**  
There's no better place than Washington, D. C., for a control room of America's mighty war machine. Chesterfield is the busiest cigarette in town. It's the job every minute giving smokers what they want. Milder, Cooler, Better Taste makes Chesterfield the best.

The school child is learning to read, and this is a very important phase in his education. He should be encouraged to read for pleasure and to learn the joy of it.

The school child is learning to read, and this is a very important phase in his education. He should be encouraged to read for pleasure and to learn the joy of it.

**Discipline**  
The backbone of war is crime. Of course crime never occurs in peace time, but when war comes, crime becomes a necessary part of the war effort. Discipline is the key to success in war.

**TEXAS WAR FILM PROGRAM**

The Texas War Film Program has been organized to provide educational material for the state's schools. It features films on various aspects of the war effort, including the role of women, the production of war materials, and the impact of war on civilian life.

**DOCTORS PRESCRIPTION FOR A BOTTLE OF MILK**

San Antonio, Sept. 25.—The city health department has issued a prescription for a bottle of milk. The health department is urging parents to ensure that their children are getting enough milk for proper nutrition.

**ONE A DAY VITAMIN TABLETS**

ONE A DAY VITAMIN TABLETS are a complete daily source of the vitamins your body needs to stay healthy and active. They are easy to take and provide essential nutrients in a convenient form.

**NERVINE**

NERVINE is a natural remedy for nervousness, stress, and anxiety. It helps to calm the mind and relax the body, providing relief from the symptoms of a nervous system imbalance.

**Alka-Seltzer**

Alka-Seltzer is a popular over-the-counter medicine for relieving pain, reducing fever, and easing cold and flu symptoms. It is known for its quick action and pleasant taste.

**QUICK RELIEF FROM Discomforts of Diets and Arising from STOMACH ULCERS DUE TO EXCESS ACID**

Quick relief from stomach discomforts and ulcers can be achieved by controlling excess acid production. Proper diet and the use of antacids can help neutralize the acid and provide relief from symptoms like heartburn and indigestion.

**MANN'S PHARMACY**

MANN'S PHARMACY offers a wide range of pharmaceuticals and health products. They are committed to providing quality care and service to their customers.

**PRISONERS ARE SET ON TEXAS KIDNAPERS**

Fort Worth, Nov. 4.—The holiday season has set the Texas kidnappers against the state's prisoners. Several kidnappers have been arrested and are now in custody, with their names being set against the names of the prisoners.

**MINNIE LUCY WILLIAMS AND HERNESTINE STARK**

Are invited to see "NO PROUDLY WE HAIL OR THINKING TRAIL" at the Tyler County Booster Club Theatre for Admission.

**BEECH CREEK**

Miss Elnora Dunbar visited relatives in Hillier Sunday. She was accompanied by several family members and enjoyed a pleasant visit.

**WEEK OF 100, THURSDAY 98 VICTORY IN CONCO**

Conco, Nov. 4.—Mrs. Martin Meverson of Oklahoma, now on a visit to her son, Geo. Meverson of this city, is believed to be the oldest woman in Montgomery county. She is 98 years old and has lived a long and interesting life.

**WOODVILLE NEWS**

James Boyd Dickerson, 74, died Sunday night in Rockland after an illness of two years. A native of San Augustine county, Mr. Dickerson had lived in Tyler county since he was 10 years old. He had been a member of the Baptist church and a devout Christian.

**WITNESS OUR HANDS**

Officially, this 20th day of October, A. D. 1943. LOU CRONE, County Judge; JOE W. PATE, Commissioner Precinct No. 1; J. E. POWELL, Commissioner Precinct No. 2; H. C. HOPSON, Commissioner Precinct No. 3; J. L. GABRIAY, Commissioner Precinct No. 4.

**LOOKING AHEAD**

As a result of work during the past year, Engineering Department students have found that the use of water can be improved by running it through a tank containing crushed limestone and gravel. This is a very effective method for water treatment and is being used in many industrial and municipal water systems.

**DISCIPLINE**

The backbone of war is crime. Of course crime never occurs in peace time, but when war comes, crime becomes a necessary part of the war effort. Discipline is the key to success in war.

**HEADACHE IS SUCH A BIG LITTLE THING**

Ready for an evening of fun and enjoyment? Anti-Pain Pills usually relieve not only headache, but muscle aches, neuralgia, rheumatism, menstrual pain, etc. Monthly supply \$1.50. You use Dr. Miles' Anti-Pain Pills if you are in pain. They are the only pills that give you relief from pain. They are the only pills that give you relief from pain. They are the only pills that give you relief from pain.

**VITAMIN QUESTION BOX**

Q. How often should I take Vitamin D? A. One a day is best.

Q. What are the benefits of Vitamin E? A. It helps to maintain good health and prevent disease.

Q. What are the benefits of Vitamin C? A. It helps to boost the immune system and prevent colds and flu.

Q. What are the benefits of Vitamin A? A. It helps to maintain good vision and healthy skin.

**NO ARMISTICE TODAY**

Twenty-five years ago this world went wild with joy. The world called it "Peace". But there was no peace. There was only a truce. This time there must be no truce. This time we are determined to see the job through. We will make what we can, we will do it as our own business, we will do it as our own business. We will do it as our own business. We will do it as our own business.

**FIGURE IT OUT YOURSELF**

Psychologists say the character of a man is formed in early childhood. The idea is not new. Benjamin Franklin said the same point 200 years ago. Would the good parents who do the children's bidding are a blessing? Yes, if the child's character is formed in a way that will allow him to grow into a useful citizen. If he is not, he will be a burden on society.

### WORLD COMMUNITY DAY

Today, all over the free world, is being held a World Community Day and a program "The Price of An Enduring Peace" is being held at the Christian church to day the ladies of the churches of Woodville are holding a service with 15 minutes at noon for sandwiches and coffee with a wonderful program of talks on the subject of peace and world unity. It can't be said that the service will be a success unless it is attended by a large number of people. It will be over by 5:30 on 1:00 o'clock.

### WARTIME SAVINGS SUGGESTIONS

for Electric Appliance Users

**Nine Ways to Operate Your Refrigerator More Economically and Efficiently**

- Defrost whenever frost reaches thickness of 1/4 inch. Frost acts as an insulator--makes the motor run longer.
- Do not open door of door than necessary and close it quickly.
- Do not maintain colder temperature than necessary--40 to 42 degrees is safe.
- Do not over-crowd shelves. Circulation is needed for efficient refrigeration.
- Cover all liquids. Milkme draws to freezer speeds formation of frost.
- Avoid quick freezing as much as possible.
- Keep condenser coils free of dirt and dust.
- Do not store hot foods--let them cool first.
- Oil open unit monthly periodically according to manufacturer's directions.
