GEMS OF THOUGHT

TRANSMISSION
Perfection is immutable, but for things imperfect change is the way to perfect them.—Folliott

This time do shift each thing as it comes. New things grow old as former things grow old.

If a great change is to be made in human affairs, the minds of men will have to be changed. The general opinion of things will draw that way.

Nothing never loses any good thing. Intellectual, or moral, or spiritual, or better, and then the gain, the step, the way, is the way.

WE BOUGHT EXTRA WAR BONDS
4TH
WAR LOAN

Display your colors now!

During this 4th War Loan Drive you are again asked to do something extra to help against the Axis. Your part is to invest in at least one extra hundred dollar bond. But don't stop there if you can do more. For remember—no matter how many bonds you buy, you are not sure what the situation will be. You get back on maturity \$4 for every \$3 you invest. And that's the world of Uncle Sam, creator of the

safest investment the world has ever known. So before you look into your wallet, look into your mind. Your country, the place where you work, has been given a guide to invest in the 4th War Loan Drive. Do your part to help meet this guide. And remember, millions of America's fathers are waiting for your answer, your pledge that you are backing them in the limit.

Women of America
IT'S UP TO YOU!

OUR ENEMIES have boasted that American women are pampered, luxury-loving, materialistic who would be of no help to our fighting men at war. But they were wrong. American women everywhere are doing a bang-up job—in the service, in industry, in business, on the farm and in the home.

But bigger incomes are tempting some women to buy luxuries they've wanted for years, but which they don't really need now. Every true American woman knows that the war will end soon. But you've got to do more

to hasten victory, for 1944 is the year of decision. You've got to do your full duty by our boys at the front by keeping up your regular purchases of War Bonds by buying at least one extra \$100 bond during this Drive and by saving every cent you can in the world's most investment.

War Bonds of the Fourth War Loan.

When the war is over you'll have a lot more money to buy what you want. Meanwhile, you can assure in the knowledge that you are fighting for your country in the most effective way possible. Women of America—it's up to you!

AMERICA'S FIGHTING POWER
Stems from his genius

THOMAS ALVA EDISON
February 11, 1847 - October 18, 1931

THIS week America honors the memory of a man who was a pioneer in the development of the modern world. Thomas Alva Edison, the great inventor, died on October 18, 1931. He was born on February 11, 1847, in Milan, Ohio. He was a man of many talents and achievements. He was the first to invent the phonograph, the motion picture camera, and the electric light bulb. He was also a successful businessman and a philanthropist. His inventions have changed the world and continue to influence us today.
