HURRY!
 We need more dressings!
PULWOOD CAN SUPPLY THEM

THAT might be your boy there on the operating table. Or the boy who used to live next door. Whoever he is, he is getting the most amazing medical care in history. Hundreds of thousands of men will come back from this war who would not have come back from any other. This is a service and a record of which we can all be proud and in which we can all have a share. Many of the surgical dressings now used are made of cellulose fiber which comes from pulpwood. Containers for blood plasma are made of pulpwood, too. These are just two of the many uses of pulpwood in modern warfare. Others include rayon for parachutes, packaging for food and medical supplies.

Pulpwood Prices are at a Peak
 More pulpwood is vitally needed. Try to get all the pulpwood you can. You can make a difference in your country.
