**No. 1 -- ZELLA ZIPSWEEP**

who doesn't bother to remove dirt and other hard metal objects from the path of her cleaner

Most everybody has Zella Zipsweep, that coming a cleaner and this, with rolls and Zella rollers can damage the brush, dirt bag or mechanism. It's something to be avoided if you want your cleaner to last. Here are some other tips that mean longer wear and better service:

- Empty and clean the bag after each cleaning.
- Don't pull cord tightly over handle hooks. Call loosely.
- Keep brush free of dirt, threads and lint.
- Avoid bumping cleaner against furniture and baseboards.
- Don't take cord from wall socket.
- Oil cleaner periodically in accordance with instructions for your make.
- Keep papers, rags, etc. off floor.

You need your electric vacuum, more than ever these busy, war-torn days. Take care of your appliances and make them last.

**COMMUNITY PUBLIC SERVICE COMPANY**

**COMPLETE HISTORY OF THE BATTLE OF BULL RUN**

Our James Liberty Hall was sent to London, England, by the Great Eastern Railway, on August 17, 1862. It arrived in Philadelphia during August, 1862.

It was first used in the State House of Philadelphia on August 27, 1862. It was again used by the same firm in Philadelphia during September, 1862.

It was muffled and muffled on October 2, 1862, upon arrival of the H. H. Royal Charlotte, with stamps from England.

It was again muffled and muffled on October 23, following, when the Stamp Act was put into operation.

It announced the people to a meeting to prevent the landing of a contingent of 100 from the H. H. Polly on December 27, 1874.

It announced a meeting of patriots on April 27, 1875, after the Battle of Lexington.

It took its first journey from Philadelphia to Allentown, Penn., in September, 1876, to please captives by the British.

It proclaimed the birth of a New Nation on July 4, 1876.

It was returned from Allentown on June 27, 1878.

It announced the surrender of Cornwallis at Yorktown on October 31, 1781.

It proclaimed the unity of people on April 16, 1792.

It proclaimed the death of George Washington on December 20, 1799.

It was used on the 210th anniversary of the Declaration of Independence of July 4, 1828.

It proclaimed the death of John Marshall on July 2, 1835.

It was used by Walter A. Gillette, in Square and Campaign, November, 1860.

**HOW TO KILL COT-WORMS**

Three weeks ago the winter in the soil in various degrees of maturity, and light to food of some garden plants as soon as they are up. Cot-worms can be satisfactorily controlled by poison bait containing 6 lbs. of Paris Green, 1 lb. of kerosene and enough water (two or three quarts) to make the bait moist. Application should be made by distributing broadcast in the afternoon about three days before the plants are set out, in order to exterminate out worms before they have a chance to damage the plants. If necessary, the same bait may be used after plants are set out.

M. H. HYDE, Co. Ag.

**AMERICAN HEROES**

Deposited at night, men of the Merchant Marine abandoned their fast-making ship, Frederick H. Ziegler, Capt. M. J. Johnson, left his beloved, climbed hand over hand in the falls in legs a 200 pound man, unable to loosen the ropes, he cut the ropes, then, having the strongest man with them, were picked up a lifeline. This is because beyond the line of duty. This was War of 1812.

**PUBLIC WELFARE FUND**

The State Department of Public Welfare distributed last week 176,000 lbs. of Macaroni, 100,000 lbs. of Pasta, 100,000 lbs. of Rice, 100,000 lbs. of Beans, 100,000 lbs. of Lentils, 100,000 lbs. of Corn Meal, 100,000 lbs. of Flour, 100,000 lbs. of Sugar, 100,000 lbs. of Tea, 100,000 lbs. of Coffee, 100,000 lbs. of Soap, 100,000 lbs. of Paper, 100,000 lbs. of Cloth, 100,000 lbs. of Fuel, 100,000 lbs. of Medicine, 100,000 lbs. of Food, 100,000 lbs. of Shelter, 100,000 lbs. of Education, 100,000 lbs. of Health, 100,000 lbs. of Justice, 100,000 lbs. of Peace, 100,000 lbs. of Liberty, 100,000 lbs. of Truth, 100,000 lbs. of Love, 100,000 lbs. of Hope, 100,000 lbs. of Faith, 100,000 lbs. of Charity, 100,000 lbs. of Kindness, 100,000 lbs. of Generosity, 100,000 lbs. of Hospitality, 100,000 lbs. of Fellowship, 100,000 lbs. of Brotherhood, 100,000 lbs. of Sisterhood, 100,000 lbs. of Humanity, 100,000 lbs. of Global Unity, 100,000 lbs. of World Peace, 100,000 lbs. of International Cooperation, 100,000 lbs. of Cross-Cultural Understanding, 100,000 lbs. of Interfaith Dialogue, 100,000 lbs. of Environmental Stewardship, 100,000 lbs. of Sustainable Development, 100,000 lbs. of Social Justice, 100,000 lbs. of Human Rights, 100,000 lbs. of Gender Equality, 100,000 lbs. of Digital Privacy, 100,000 lbs. of Cybersecurity, 100,000 lbs. of Artificial Intelligence Ethics, 100,000 lbs. of Space Exploration, 100,000 lbs. of Climate Change Action, 100,000 lbs. of Renewable Energy, 100,000 lbs. of Space Exploration, 100,000 lbs. of Climate Change Action, 100,000 lbs. of Renewable Energy, 100,000 lbs. of Space Exploration, 100,000 lbs. of Climate Change Action, 100,000 lbs. of Renewable Energy.

**WOODVILLE NEWS**

Donor, Miss, son of Mrs. E. B. Black of Fort Neeson, spent the week end with Master Charles' 100th birthday.

Miss E. M. Hill, enjoyed a visit from her sister and family of Denver on Easter afternoon.

Miss E. J. Hickey and baby have been spending time with Mr. Hickey near Junction. They all came home for Easter and the end of the year.

G. W. Childs, who is at home in Millersville, has a young boy named Harry. He was in Woodville a number of times during his visit.

**WOODVILLE NEWS**

Opera in the J. H. Willard home Sunday eve. Mrs. J. C. Ziller of Urbana, and cousin Miss Ethel McDowell of Chicago.

Miss Tucker of New Willard, who is slowly recovering from an operation, spent the week end with Miss Jane Dyer, Miss Grace, Miss Irene, Miss Durham, who was home from Fort Annapolis for Easter.

Miss E. B. Sheffield, Miss of South school, preached at the Methodist Baptist church in Neamont at both morning and night services.

"Before the war we used to drive up to Millersville each Spring to visit Aunt Cora. Now we just write each other and plan our jobs. We don't mind. The gas is bad, I think, but the war's over."

**DID you know that...**

Shipments of goods to the war zone in 1918 were valued at \$1,000,000,000.

**Farmer One of BIGGEST USERS of Pulpwood**

5,000,000 Cords Needed for Packaging Products of the Farm

WHETHER he knows it or not, the farmer is in the pulpwood-paper business, either as a producer or consumer -- or both.

A decade or more ago the farmer might have had only a casual interest in the pulpwood supply and demand. It was just another means of making extra money, but it had little effect on his main job of farming.

Today the picture has changed drastically. The farmer has become one of the largest users of pulpwood products. In fact, he runs second only to the service industry when it comes to consumption of pulpwood.

This is because of the increased demand for pulpwood in the production of paper and other products. The pulpwood industry is a vital part of the national economy, and the farmer's role in it is becoming increasingly important.

**THE TIMID SOUL** By Webster

**MEDICINE CABINET**

ONE A DAY

NEURIN

Washington, D. C., was the first of many towns to be named after our first president, although there are Americans who believe that Washington, D. C., was the first. The article says: "The belief is entirely correct, was the first city to be named in honor of Washington, N. C., being the second," said Washington, N. C., the third.

The belief is that as early as Dec. 17, 1776, the General Court of the State of New Hampshire granted incorporation to a settlement previously known as Concord under the name of Washington, N. C. Records published in pamphlets published in the record.

"I feel that the evidence (Brown) had no occasion to check on this, and I know he will forgive me if I correct him in this regard," the New Englander asserted.

But scarcely was this new claim entered than Representative Herbert C. Bonner (D.) of North Carolina took up the subject for his State.

"So as to keep the record straight I desire to call the attention of the House to the fact that Washington, N. C., was incorporated prior to October, 1776," he declared.

As evidence of the claim, Mr.

## NOTABLE NEWS EVENTS IN PICTURES

**NICE TRICK**—Of course she doesn't do this every day. But Dicie Fribelke, performer with the Icecapades, hangs her skates from a large electromagnetic in Milwaukee, to prove it can be done.

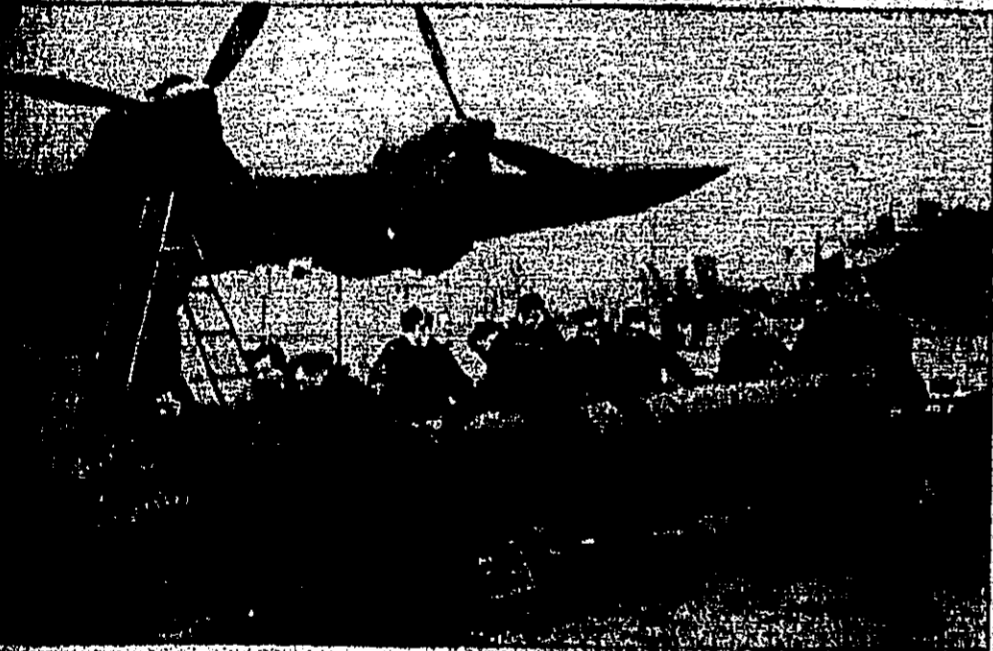

**ARMY'S NEW ROCKET GUN**—When the peppy, portable jet-propelled planes, Yeak anti-aircraft gunners will be ready. Artillerymen at Camp Davis, N. C. Holly Shelter Range, are using jet-propelled rockets that rise from specially designed carriages at velocity of 400 feet per hour as targets to stimulate diving enemy planes. Using .30 calibre machine guns and 20 and 40 mm. weapons to track fast-moving, 50-inch targets that describe a parabola and have maximum horizontal range of 2,200 yards, develops bulls-eye accuracy. Photo above shows how jet-propelled rockets are loaded into launching carriages. One fits into narrow groove between railings that form hoop of carriage.

**CHECK FOR SUMMER**—Deep pockets, full skirt and rooney cap sleeves make this check-cotton, freedom-loving, wrap-around, featured by Arnold Constable, New York, and Waldorf Astoria fashion show, a practical wardrobe addition for summer work or play.

**STILL SKATING**—If you think ice skating is difficult, you might try taking it while they were. Phyllis Legat, of St. Paul, Minn., only girl still skating in the world, does it. Starring in Ice Palace of 1944 as Miss Peppermint, she does full routine on ice skates that lift her two feet off ice.

**BOMBS FOR BERTLIN**—Pair of 4,000-pound bombs are rolled by ground crew men in England into Halifax bomber that will unload them on Berlin and Nazi Europe. Although the check air-attack is annihilating industrial centers with bombs as heavy as tons in devastating pre-invasion softening up of Hitler's European Fortress.

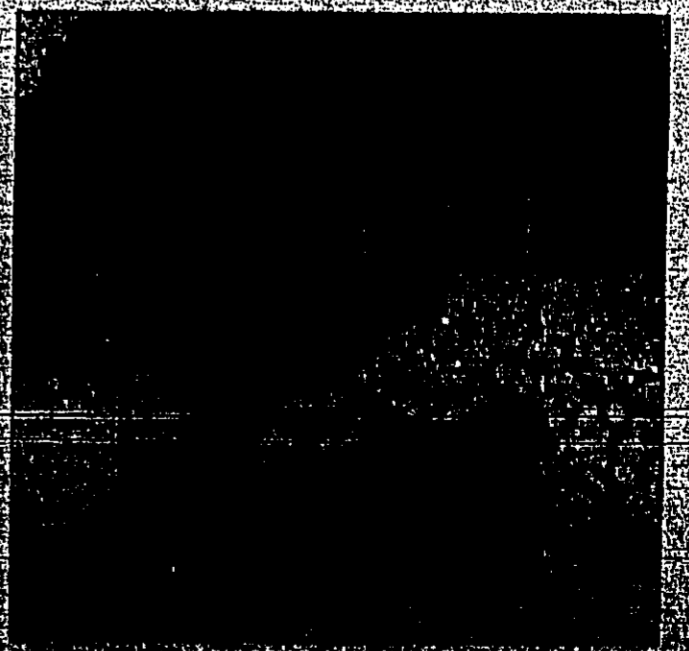

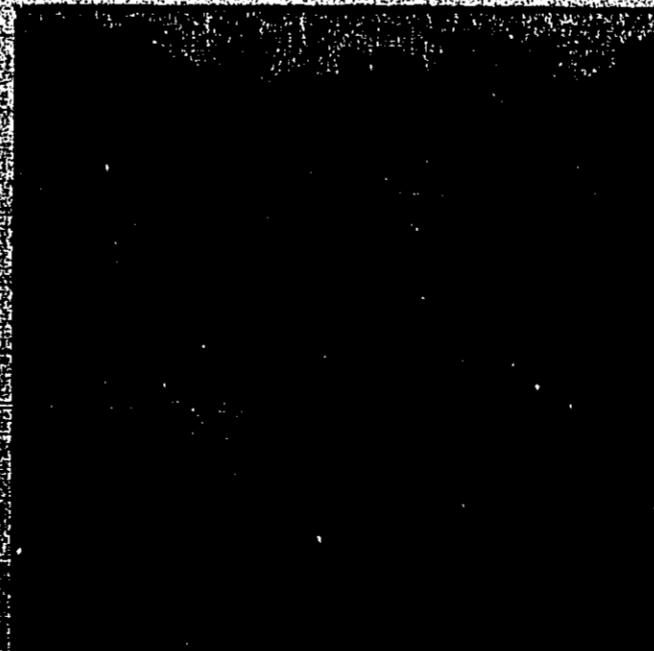

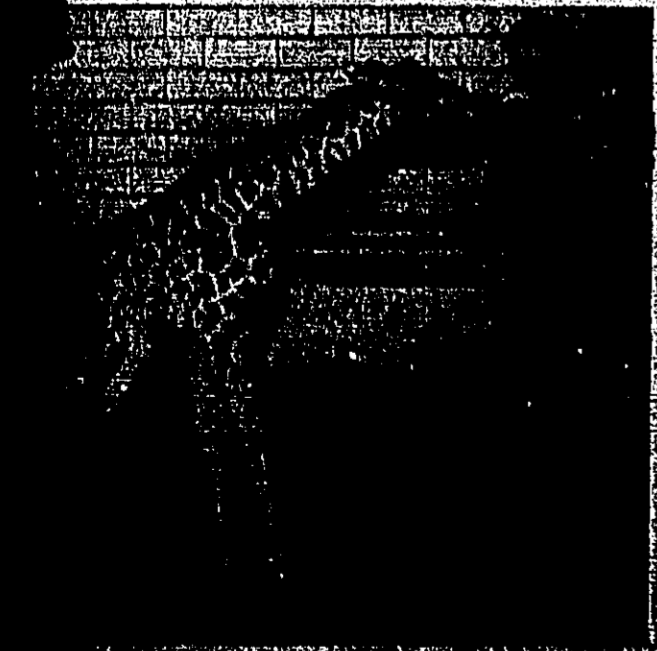

**LIKES HER QUAFF SKIRT**—Little Carol Leski, of St. Paul, Minn., forms a Mutual Admiration Society of one as she looks over grass skirt and lei with her; her uncle, Capt. R. A. Rutkowski, Army Chaplain in the Hawaiian Islands.

**SOMETHING OF A LEGEND**—That's what War Department says about Sgt. Charles Kelly, awarded Congressional Medal of Honor for killing 40 Nazis in 70 days in Italy. He neutralized enemy machine gun position, wiped out German hold-out Nazi from ammunition storehouse and defended it by himself to let buddies withdraw.

**RUN ON FRUIT**—Photo above shows just part of huge crowd that recently ganged up outside a fruit store in London. Arrow points to what they're after—oranges. Store has just received load of the precious fruit, of which Londoners had seen very little since war began.

# GEARED for INVASION of Western Europe

By HAROLD DENNY  
The Winston-Salem Star

Prime Minister Churchill told the world in his recent broadcast that the Allies' greatest effort and action was approaching, but that it would be preceded by many false alarms, many faints and many draws. He said in his broadcast that the magnificent armies of the Allies are now being trained in the most advanced methods of amphibious warfare.

London's streets, motor buses, public hotels and restaurants are teeming with soldiers of all Allied nations, Americans and British in the majority. Along England's coast, British and United States troops practice assault landings, splash ashore under live gunfire. In other sections, the skies frequently are black with transports, gliders and heavily armed paratroopers—a phase of training for the airborne troops who must seize key points in the German rear and hold them until a junction is made with Allied ground forces. The paratroopers have been taught how to block roads, destroy bridges and generally spread confusion in the interior.

## A Great Military Depot

The British Isles are the middle part of this vast invasion machine. It is here that the supplies are converged to be assembled, sorted, stored and guarded until time comes to use them. The British Isles, from the standpoint of transportation stand midway between the places where the supplies originate—Germany, the United States and the continental battlefield. These islands are the great central depot in history, and the puzzle of how an area of some 60,000 square miles, already

crowded with their own war equipment, troops and aircraft, they have found room for all the men and supplies they are importing. In fact, the American troops, looking at the British Isles, are sure that the sea air beaches since they are arriving, and that it is wonderful for the barrage balloons holding it up. The operation of this arsenal is a business enterprise as colossal as makes the biggest private enterprise look like a corner newsstand. Aggregate fig-

ures show that the British Isles are the most important of all the world's ports. They are the only ports in the world that are open to all nations. They are the only ports in the world that are open to all nations.

Stockpiles of food, clothing, medicine, and other supplies are stored in the British Isles. The British Isles are the most important of all the world's ports. They are the only ports in the world that are open to all nations.

American aircraft crowd the deck of a ship as the vessel arrives at a British port.

ures, of course, cannot be given because they would provide a key whereby the number of our armed forces in this theater might be calculated. The totals in quantity, however, run into millions of tons and in money value into billions of dollars. Directing this vast business, as head-

quarters down, runs a billion and a half dollars' worth of American artillery. In one area of a few square miles are 4,000 "howitzers" of which is stored an average of 22 tons of ammunition of every caliber from 150 to 2,000 pound aerial bombs. On selected railway sidings stand long strings

# The FLYING CANNONEERS Ride to Conquest

THEY were a team in the summer of 1941. The Mitchell bomber leveled off and five barrels of TNT were dispatched, air mail special delivery, straight into the cabin of the Jap destroyer.

The crew of Japanese never knew what hit them. Tokyo's Navy intelligence office can tell all about it now—the surprise packages from Chick San was a 76-millimeter gun on wings, the biggest member of our growing family of flying cannoners.

In World War I the famous field gun of the French, today a light weight version has been adapted for war in the sky, and already it has become legendary. The story is around that in target practice before it went to war, a Mitchell bomber flying at 20,000 feet put 22 out of 25 shells through a six-foot target more than a mile away. The big problem was speed, but it was solved, and the Mitchell's new gun is said to fire a 20-pound shell with precision over an effective range of several hundred yards.

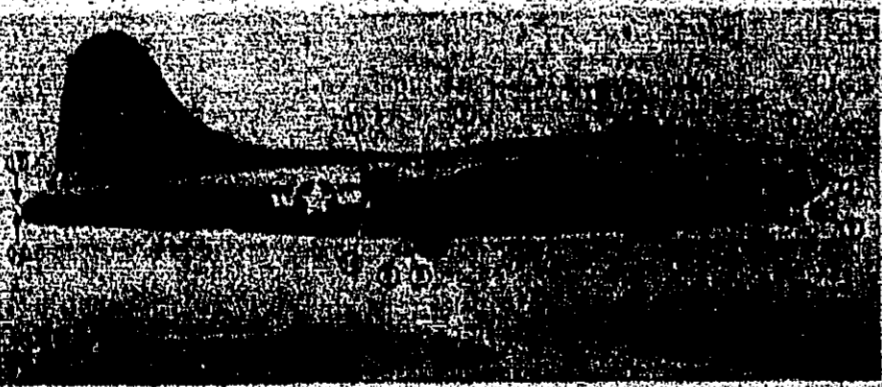

The flying cannoners ride the Mustang, too, and the Douglas Havoc, and the Albatross, with the 37-millimeter waller in its nose.

Down in the South Pacific, the Douglas A-20 blasted its nose down at the Jap destroyer that was churning a wake like the tail of a drunken comet behind it.

The A-20 had a belly load of bombs, but right now the pilot's thumb was reaching for the button on his control wheel marked "Guns." He pranced and the rumble of cannon fire crashed out the rear of the engine. A burst of red flame washed in moments from the cockpit.

levelled off, then nosed down sharply for another burst. "You got 'em!" He didn't need to make a third attack. The destroyer's deck was smoking when the first rounds struck home, and now you could hear the rear main 5-inch gunner calling excitedly on the intercom: "You got 'em! They're blowing up right now!"

The A-20 Havoc has been put to 27 different uses in this war, including medium-level bombing, dive bombing, ground strafing, and reconnaissance.

ARMY PILOTS FACE IS MUZZLES OF BAY GUNNERS

American Flying Fortress lives up to its name with its 40-caliber machine guns. The accompanying photograph shows the gun positions, leading from nose to tail: guns 1 and 2 are in the new "hot" turret; 3 and 4 are in the "bay" turret; 5 and 6 are in the "tail" turret; and 7 and 8 are in the "tail" turret. The "bay" turret is the most important, as it can be pointed in the front, side or rear, and can be operated by the pilot or a gunner. The "tail" turret is operated by the second gunner and the tail radio operator. The "nose" turret is operated by the tail gunner and the tail radio operator.

One of the latest versions of the A-20 is the P-70, painted jet black and used as a night bomber. It has a 37-millimeter cannon in its nose, and a 37-millimeter cannon in its tail. It is also equipped with 100-millimeter cannons in its wings. The P-70 is a very fast and maneuverable aircraft, and is well suited for night operations.

The A-20 is a very versatile aircraft, and is well suited for a wide variety of missions. It is used for ground strafing, dive bombing, and reconnaissance. It is also used for night bombing, and is well suited for this type of mission. The A-20 is a very important aircraft in the Allied arsenal, and is well suited for the role of a flying cannoner.

The A-20 is a very important aircraft in the Allied arsenal, and is well suited for the role of a flying cannoner. It is used for a wide variety of missions, and is well suited for the role of a flying cannoner. # Replica of HOLY CIT in Oklahoma

By PINCK RHANNON

IN the blue mist of an Easter morning in the late nineteenth century, Mary Magdalene came silently to Our Lord's tomb. Through her tears she saw the two angels sitting within the empty sepulcher. And the angels said: "Woman, why weepst thou? He is not here for He is risen."

An actual replica of the resurrection is unfolded in the Holy City of Jerusalem, Oklahoma, thousands of hushed spectators crowd the hillside facing the town of Lawton. Here, in the heart of the Wichita mountains, the wonder of Christ's return is every year re-enacted in one of the most stirring pageants ever witnessed on this continent.

Every Easter, in an actual replica of Jerusalem, 5,000 actors gather to play scenes from the life of Our Lord. As many as 60,000 automobiles crowd into the valley for the event, bringing spectators and worshippers from 28 States. The pageant has received the personal approval of President Roosevelt, an special tribute, an annual stamp, a P.P.T. card in 1938 bearing the image of the tomb.

It was the spirit of a holy resurrection which inspired the simple beginning of what has grown to be a national event. On an Easter morning, sixteen years ago, the Reverend Anthony Mark Wallock, minister of the Congregational Church of Lawton, Oklahoma, led some hundred of his congregation to the top of a mountain in the Wichitas.

There they enacted a few scenes from the life of Christ. Some Scripture was read. The haunting notes of a violin rose through the stillness before dawn, and the choir lifted their voices in a hymn of worship and rejoicing. As sunlight broke over the mountain tops, Mr. Wallock murmured the benediction which closed the ceremony.

The profound effect of the sunrise upon its participants convinced Mr. Wallock of its inspirational value. He felt that people would have greater faith in both the resurrection of Christ and in their own immortality if they could participate in an actual re-creation of the life of their Saviour. He decided to arrange a similar service every year. And he has never failed in his task.

was built, constructed, entirely of stone. It includes the walls and roof of the city. Galilee, Mount Temple, Mount Zion, and the Garden of Gethsemane. The garden of Gethsemane, the grove of figs which was the headquarters of the ancient papal choir, and thence known in Christian tradition throughout the world.

Just outside the walls of the Holy City a rustic cathedral stands its own steeple against the background of looming Mount Sheridan. It is in this chapel that the music which accompanies the pageant originates. National radio hook-ups permit broadcasts throughout the States.

In a central control room a director watches the entire production, transmitting instructions by way of telephone to group captains in charge of each scene. Giant switches controlling flood lights are guarded by an electrician who has the power to light the streets of Jerusalem for the triumphant

entry or to throw a pall of gloom over Galilee as the Son of God gives up His life. Microphones concealed on the set pick up the sounds that are amplified by a public address system and transmitted to the throngs lining the hillside.

World Peace Theme. Mr. Wallock usually prepares the script for each year's production. The story invariably centers around the immortality of the Son of God, but it is always presented in a different way. This year's theme was a plan for world peace with the doctrine of the Holy Gospels as a constitution.

A board of directors determines policy and supervises the production. But Mr. Wallock always the last word. Whatever he wants is all right with his colleagues.

The pageant work is a labor of love. Everyone has a duty. One person has a thousand of continuous work. There has never been a day when the pageant was not being prepared. The pageant is a labor of love, and everyone has a duty. One person has a thousand of continuous work. There has never been a day when the pageant was not being prepared.

# CURRENT AFFAIRS

### New Secret Weapon Being Developed

Officers in Italy are unveiling the mystery of military secret weapons. The instruments are controlled by remote control and do not require a human hand to pull into enemy lines and then to scatter them with terrific force.

The new secret weapon is not directed by radio as first thought, but by an electrical control system which links it to the enemy's own radio.

The device is a two-foot long, two-foot high, two-foot wide, and weighs 700 pounds. It is a portable explosive charge which is propelled by a two-horsepower engine.

The device is controlled by a radio receiver which is carried by the operator. The device is controlled by a radio receiver which is carried by the operator.

### The New Alaska Highway

Tom Hullah, a Texan, who worked on the new Alaska highway project, says he is not a wonder in the Department of the Interior.

The road is 3,000 miles long, beginning at the Canadian border and extending through the heart of the continent to the Gulf of Mexico. It is a road that will be built through the most rugged and mountainous terrain in the world.

### The Pied Piper of Washington

# TEXAS BRIEF NEWS — From Over the State

### NEW INDUSTRY FOR TEXAS

Construction of a \$2,800,000 fertilizer plant near Houston will begin at once, according to the president of the Southern Acid and Sulphur Co. of St. Louis.

### MILITARY BACKGROUND

Major Harry A. Blizard III, of Palestine (Matagorda county), has the distinction of having a father and two grandfathers in the armed forces.

### MONTANA MAN ORDERS TEXAS CORN MEAL

Mr. Fox of Killbuck (Hall county), recently received a \$300 bill for an order of 100 bushels of corn meal from Montana.

### DEEP RIDES AND RED CROSS

Members of the Texas Red Cross will ride to Austin to deliver 100 bushels of corn meal to the Red Cross.

### TEXAS DUMB IN MOVIES

Bill Gunn, Amarillo (Potter county), spokesman, recently said the liquor of Texas is dumb in movies.

### RED CROSS HELPS OLD DOLLAR

Mrs. J. H. Anderson, of Elgin (Harris county), gave a \$100 bill to the Red Cross. The bill was one which was her father's pocket at the time of his death.

### 17-FOOT SNAKE BORN

J. H. Jones, of Midland (Midland county), has received a 17-foot python from a friend, Capt. Glen Walker, who is on duty "somewhere in North Africa."

### TEXAS HISTORY CORRECTED

For more than a century Texas has read in their history books that 68 patriots signed the Declaration of Independence at Washington on the 20th of September, 1776.

### OPTIMIST SOLDIER

Robert Arhelger, Fredericksburg ( Gillespie county), received a letter from North Africa to a friend of his. The letter was from a soldier in that county.

### LIBRARY OF TEXAS BOOKS FOR SALE

Sellers on an airplane carrier are not supposed to have much time for reading, but nevertheless, those on the "San Jacinto" have had time to read 225 volumes of Texas books.

### TEXAS CAME FOR MARKING MUSICAL INSTRUMENTS

One of the largest manufacturers of reeds for musical instruments obtained 50,000 reeds in the vicinity of Del Rio (Brewster county).

### BLACK WIDOW WIDERS GO TO SEAR

A San Antonio woman contributes much valuable effort to the war program by catching black widow spiders.

### LITTLE TEXAN COMES HOME

Denise Chenoweth, age 11, has come back to her native country, almost a stranger. She spent 10 of her 11 years in England.

### BATTLE TORN TEXAS FLAG

Gov. Coke Stevenson has received a battle-torn Texas flag from Italy. It was carried into battle by the famous 36th Division.

### ANOTHER MEAN TRICK

Houston reports a trick who sold the old baby buggy which a 14-year-old negro woman used for collecting newspapers.

### LARGE EAST TEXAS FAMILY

Laura McCullin, aged 78, who lives between Jacksonville (Cherokee county) and Athens (Henderson county), has 14 children, 48 grand children and 55 great-grandchildren.

### TRAFFIC DEATHS DECREASE

The Texas Department of Public Safety reports that traffic deaths in 1944 showed a decrease of 11 per cent over the previous year.

### PENSION MONEY BUYS WAR BOND

Mrs. M. A. Narworthy, aged 16, recently bought a \$100 war bond with money which she had received as a pension as the widow of a Confederate soldier.

### IMPROVY CASE REPORTED

City Health Officer Dr. Louis C. Robinson of San Antonio has reported the finding of a case of typhoid fever in that city.

### RAVE BIRTH IN ZOO

The Fort Worth zookeeper reports the birth of an elephant calf.

### SAGE OF PANHANDLE DIES

D. F. (Uncle Sam) Williams, aged 84, known as the "Sage of the Panhandle," died at his farm home near Dalhart.

### AVATORS FINE

Yanks fighting in the Marshalls don't have to worry about water.

### TRIEK REAFFIRMATION PROGRAM

The Real Estate Board of San Antonio has contracted to have 100 Negroes trained along boulevard in a reaffirmation program.

### CO-OP GINNERS ELECT

R. A. Graham, of Greenville (Hunt county), was elected president of the Texas Co-Operative Ginner's Association for 1944.

### WHEN WILL HITLER DIE

Gene Howe, editor of the Amarillo Globe News, offered a price of \$500 to the person who guesses closest to the date of Adolf Hitler's death.

### DRAP-HEARD PIANIST

Residents of Matador (Molloy county) had the rare opportunity of hearing a piano concert by Miss Helen May Martin.

### 101-YEAR-OLD WOMAN DIES

Mrs. Mary P. Latham, aged 101, died in Austin. She left 248 survivors.

### TRAITOR DIES

Charles J. (C. M.) Campbell, aged 50, died at the home of his daughter in Chicago.

### LIQUOR HAD HIDDEN UNDER ORANGES

State Liquor Board agents recently stopped a truck near Houston to inspect the load.

### TEXAS NURSE OBTAINS DEPARTMENTAL DECORATION

Lt. Mary L. Roberts, of Dallas, was given the Army decoration of the Silver Star for gallantry in action when German artillery shelled an Army hospital in Italy.

### POPULATION CHANGES

Orange county led Texas in population gains during the period 1940-43, according to recent announcements.

### EAGLE ATTACKS HUNTER

Bob Mansfield, from Hoboken, Jack Flansburg, and J. J. Jones while hunting near Danbury (Harris county) were attacked by a big Texas eagle.

### WATER PUMP

Yanks fighting in the Marshalls don't have to worry about water.

### FREE REAFFIRMATION PROGRAM

The Real Estate Board of San Antonio has contracted to have 100 Negroes trained along boulevard in a reaffirmation program.

### CO-OP GINNERS ELECT

R. A. Graham, of Greenville (Hunt county), was elected president of the Texas Co-Operative Ginner's Association for 1944.

### WHEN WILL HITLER DIE

Gene Howe, editor of the Amarillo Globe News, offered a price of \$500 to the person who guesses closest to the date of Adolf Hitler's death.

Mrs. Mary P. Latham, aged 101, died in Austin. She left 248 survivors.

### TRAITOR DIES

Charles J. (C. M.) Campbell, aged 50, died at the home of his daughter in Chicago.

### MISSISSIPPI MONIAL

The Mississippi River Valley Exposition and Fair in St. Louis is expected to draw a million visitors.

### FLY-IT-YOURSELF PLANES

Firms which rent drive-by-yourself automobiles have been in business for many years.

### PRAYER BOOK STOPS BULLET

Alfred H. Hargrave has written his parents in Fannett (Jefferson county) that a prayer book in his breast pocket stopped a bayonet while he was fighting at Arway on New Britain Island.

### VETERAN SUNDAY SCHOOL TEACHER

Mrs. Mollie Young Riley, aged 87, of Midway (Madison county), holds a record of having missed teaching her Sunday School class only four times in 60 years.

### U. OF T. GETS BIG MICROSCOPE

U. of T. has received a \$10,000 microscope from the University of Texas.

### LADY TRUCK DRIVERS GET JOB DONE

Women have replaced men on many of the big commercial trucks which serve Newcombs (Newcombs county).

### WHITTIER CARRIES TRAIN

John King, well-known woodworker of Sulphur Springs (Hopkins county), has just finished building a miniature replica of the first successful locomotive.

### PLow UNCOVERS \$100

More than a year ago Andrew McClure was plowing on a farm near Mesquite (Dallas county) when he lost a purse containing \$100.

### HE WILL REMEMBER THIS ONE

Red Shields of Austin (Travis county) decided to fish once more in his favorite stream before putting on a Navy uniform.

### MYSTERY DIGGER

For many years now residents of Stanton (Martin county) have watched the mysterious workings of an old, white-haired man who speaks a treasure buried in Sulphur Springs.

### BLIZZARD

A blizzard hit the state today, bringing heavy snow and high winds.

YANKS FIGHTING IN THE MARSHALLS DON'T HAVE TO WORRY ABOUT WATER. A water pump, being pumped into large distillation storage tank where it is processed into fresh water.

## Our Boys and Girls

**Kiddies Can Do It!**

**Queen Little Creature**  
 That Has Pockets in Its Cheeks

**THE RAT**  
 Did you ever see a rat? It's a very common animal, but it's not very popular. Rats are known for their ability to survive in almost any environment. They are also known for their intelligence and their ability to learn from experience. Rats are often found in urban areas, but they can also be found in rural areas. They are a pest to many people, but they are also a source of food for many other animals. Rats are a very interesting animal, and it's worth taking the time to learn more about them.

## ENDS 6 YEAR SEIZURE OF CONSTIPATION!

**"Now as Regular as Anybody!"**  
 Sayll G. Durand

My wife and I have been suffering from constipation for six years. We tried everything, but nothing worked. Then we found Sayll G. Durand's medicine. It worked so well that we are now as regular as anybody. We are so happy and healthy now. We recommend Sayll G. Durand's medicine to everyone who is suffering from constipation.

**REVOLUTIONARY WAR PRICES**  
 The American Revolution was a time of great change and progress. It was a time when the people of the United States fought for their freedom and independence. The war was a difficult one, but it was worth the fight. The people of the United States are proud of their history and their freedom. They are proud of the men and women who fought for their country. They are proud of the sacrifices that were made. They are proud of the progress that has been made. They are proud of the future that lies ahead.

**MACHINERY**  
 We have a large stock of machinery for sale. Our machinery is of the highest quality and is available at a very low price. We have a variety of machinery to choose from, including tractors, plows, and other farm equipment. We also have a variety of industrial machinery, including pumps, motors, and other equipment. We are a one-stop shop for all your machinery needs. Contact us today to learn more about our machinery and to place your order.

**WELL MACHINERY & SUPPLY COMPANY**

**ALLIGATOR HUNT**  
 The Golden State is home to a large population of alligators. These alligators are a threat to the people of the state, and it is necessary to hunt them. The Golden State has a long history of alligator hunting, and it is a tradition that is still practiced today. Alligator hunting is a dangerous sport, and it requires a lot of skill and experience. It is a sport that is enjoyed by many people, and it is a way to protect the people of the state from the alligators.

**WHAT MAKES A VOLCANO?**  
 A volcano is a mountain that has a hole in the top. This hole is called a crater. The volcano is made of lava, which is a hot, molten rock. The lava flows out of the crater and forms a mountain. The volcano is a very powerful force of nature, and it can be very dangerous. Volcanoes are found all over the world, and they are a source of great interest and fascination for many people.

## More FARMALLS This Year —But Still Not Enough for All

MANY MORE new Farmalls are being built this year than last. They are on their way to the farms of America, ready for the big food production job that lies ahead. But there still will not be enough to go around.

If you need a new tractor, you may be able to get one from the 1944 supply. If it means waiting, wait for the all-purpose Farmall.

For 20 years the FARMALL tractor has led the way in power farming. For 20 years the FARMALL system, a way of farming that combines tractor, power and a complete line of working tools to fit the tractor, has enabled farmers to produce crops on an efficient, economical, time-saving basis. When you own a Farmall you have a tractor that was designed from the implement end. Such a tractor, for one-man operation, is a blessing when farm help is a premium.

We're well into another planting and cultivating season. Our country is counting on Agriculture for another big harvest. The favored weapon in the fight for food is the FARMALL TRACTOR.

Your International Harvester dealer is doing his best to help you get the new farm equipment you need, and to keep your present equipment on the job. He's your supply man for the entire FARMALL SYSTEM.

**INTERNATIONAL HARVESTER COMPANY**  
 180 North Michigan Avenue Chicago 1, Illinois

**20 Years of FARMALL Progress**

The original Farmall was designed as the power belt of an implement tractor. During 20 years of development, every machine has been added to the Farmall line. Today, the complete Farmall system and all the accessories are known everywhere. With these, as well as with the new and improved Farmall tractor and equipment, you can get the most out of your Farmall, and lead the way in the future, just as it led the way today.

**ALLIGATOR HUNT**  
 The Golden State is home to a large population of alligators. These alligators are a threat to the people of the state, and it is necessary to hunt them. The Golden State has a long history of alligator hunting, and it is a tradition that is still practiced today. Alligator hunting is a dangerous sport, and it requires a lot of skill and experience. It is a sport that is enjoyed by many people, and it is a way to protect the people of the state from the alligators.

**WHAT MAKES A VOLCANO?**

# HOUSEHOLD HELPS

MRS. MARGARET STUTE, 1111 N. 10th St., Phoenix, Ariz.

## WOMEN'S HOME WORK BASKET

### Embroidered Pillowcases

By Mrs. Anne Gadow

Embroidered pillowcases are a happy and useful addition to your home. They make charming gifts of hospitality to the embroidery in white or in color. The designs are simple and easy to make.

To obtain transfer patterns for the Embroidered Pillowcases, write to the author, Mrs. Anne Gadow, 1111 N. 10th St., Phoenix, Ariz. The author will send you a copy of the patterns for the following designs: "The Spring Alliance," "The Summer Alliance," "The Autumn Alliance," and "The Winter Alliance."

Needlework from the author's book, "The Embroidered Pillowcase," is available in paperback form for 25 cents. Write to the author for more information.

### A WOMAN'S WISDOM

(Excerpts from Dorothy Dix's "How to Be Happy")

Make up your mind to be happy. Happiness is mostly a matter of attitude. You can think yourself happy, or you can think yourself miserable.

Don't let your face tell the world that you are not happy. A smile is a wonderful thing, and it is a wonderful thing to see a woman who is happy.

Don't borrow trouble. You have to pay compound interest on that kind of trouble. It will make you forget your own troubles.

Don't worry about the future. The future is a mystery, and it is a mystery to God. Don't worry about it. Worry is a waste of time.

Don't let your face tell the world that you are not happy. A smile is a wonderful thing, and it is a wonderful thing to see a woman who is happy.

### SPRING COIFFURES

Don't let your calcium intake be too low. A diet rich in calcium is the best for the body. It is also the best for the bones.

### BESTED RECIPES

**STRAW**  
By Mrs. Meade  
Cabbage and onions are inexpensive in money and health. They are easy to prepare, nutritious, and filling. A hearty lunch stew with tomato soup is an entire meal in itself. Serve it with milk and a simple Omelette.

**MEAT**  
A pound of meat with a half of lamb shoulder meat with vegetables. Cook the meat in a high sauce. Drain half the sauce with flour. Sprinkle all of the meat with 1/2 teaspoon salt, 1/2 teaspoon pepper. Brown slowly in 1/2 tablespoon fat. When the meat is a brown as you like, add a cup of water and cover the pan closely. A heavy lid is best for slow cooking. Allow it to cook for 2 hours. The stew is done. Add the vegetables 45 minutes before serving time, and leave them whole. Turn in meat.

**VEGETABLES**  
After the vegetables have gone into the stew, add a cup of water and a pinch of salt. Cook for 15 minutes. Add the potatoes. After the vegetables have gone into the stew, add a cup of water and a pinch of salt. Cook for 15 minutes. Add the potatoes.
