"Hi, Mom, it's me!"

The first day of the year is a day of new beginnings. It is a day when we look back on the past and forward to the future. It is a day when we set our goals and dreams for the year ahead. It is a day when we renew our faith and hope in the Lord. It is a day when we start anew and begin our journey once again.

### THAT'S JUST WHAT WAR BONDS ARE FOR!

**EVERYBODY'S PLANNING.** Recent farm surveys show that a majority of the people who own their own farms are ready, the minute war ends, to build and repair barns and buildings and make many other improvements. Twenty, too, are on the lookout for farms of their own to build on in the post-war period. This is going to take many millions of dollars. Wise farmers have been saving the money for these purposes. Many of them have saved it in War Bonds and many more are on their way.

**HOW TO GET READY.** You probably have many plans on the farm for post-war money: new materials and machinery and equipment are again available and you have the money. So why not start right now? Stop your savings by buying War Bonds—the best and safest way to invest for future needs.

**WHEN THE BOYS COME HOME.** Your youngster in service is doing a man's job now—and he's ready to do a man's job when he gets home again. But he won't be happy with his own buildings and equipment unless you've saved for them.

**FOR ANOTHER FUTURE, FOR EVERY FUTURE.**

# America — This is it!

## He's doing his part . . . We must do our part!

For him the terrifying grand climax of the war is at hand.

The supreme military risk—bloody, costly in American lives. Our boys know this. They don't have to read the heart-rending headlines or casualty lists to know what is expected of them.

They are in it.

But they are not flinching . . . not holding back.

They will see the grim venture through to the bitter, victorious end.

And if, for your boy, or some boy you know, the price of Victory is death, you can be absolutely certain that he did his part courageously . . . for the cause of Freedom.

For us, too, the terrifying grand climax of the war is at hand.

This supreme, desperate call for American dollars—*16 billions of them*—is to enable our fighting men to carry through the grim, bloody assault to a successful conclusion and Victory.

Not just American dollars—but the dollars in your pocket—in your savings account.

You must buy War Bonds—now! At least twice as much as you bought last time. If you are already buying Bonds on a pay-roll savings plan, buy EXTRA Bonds during this Drive.

Your Government is counting on you. Your boy—and your neighbor's boy—millions of them—are counting on you. Just as desperately as you are counting on them in this fateful hour.

4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.

**GOVERNOR TUTT FOLLOWS UP ON QUESTIONS TO TROOP HEAD**

Your questions dealing with work of the president's law, and questions practice committee in Texas are posed in a letter from Gov. Clegg to the regional director of the TROOP HEADS of which was received by the Dallas Morning News.

Questions asked in development of law were:

"1. By what authority do you conduct your activities in Texas?"

"2. What is the scope of your operations and what is the object sought?"

"3. Do the purposes of your activities include the violation of any of the 'unwritten' laws of the Government?"

The governor then submitted his answers to the TROOP HEADS and said:

"We have in this state a law providing for the regulation of the sale and distribution of motor vehicles. This law provides for the regulation of the sale and distribution of motor vehicles which are in violation of state laws."

Fence Posts each year. From the Southern Pine Forests of the U. S. Farmers and the food crop require millions of and from trees that will NEVER grow to sawing size, these Fence Posts could be produced if the labor and equipment were available.

None of these posts should be cut from fast-growing, dominant trees that will eventually make sawlogs, poles, or other valuable products. In Tyler County many saplings are being choked to death annually that could be converted into Fence Posts.

These Fence Posts are partly manufactured by the producers in the forests. That means they are a semi-finished product. They must be clean-peeled, all inner and outer bark completely removed, cut to specified lengths, sizes and partially seasoned before shipping. The buyer pays for all this.

The demand changes from time to time. At present farmers want posts with a minimum top diameter of three inches and seven foot in length. No posts should be made without conferring with the buyers or creosoters.
