SEVEN AMERICANS will be shot for every Nazi prisoner murdered in France. This is the plan of the American people. It is the only reason why the Germans are going to fail and when they prepare an armistice.

WAS NOT fail to read the story published by the Washington Post, London, England, in London, England, last week. It is a story about the American people who are going to shoot every Nazi prisoner murdered in France.

AMERICAN PUBLIC is beginning to believe the Germans will execute American prisoners of war at the time they realize they have no hope of winning their war. There is no reason of armistice expected to be followed by the gas and the bullets of Hitler. These actions will kill any and all prisoners, and also the German army will kill all the inhabitants of any and all of the several cities in which their armies are bottled at the time of surrender. And what will the English and American troops do about it? We are beginning to believe that every American soldier is in a situation, the armistice expected to be made at this time or at any time. English and American armies are not out and out killers, except when in actual combat, but we cannot, after surrender of thousands of prisoners turn our machine guns to the machine that has made the gas and the bullets of Hitler. We must fight what the Sunday papers printed. Then American will be shot for every Nazi prisoner murdered in France.

A LETTER TO A MOTHER ABOUT HER BOYS

Mrs. Jean Johnson of the Kauter community was made happy a few days ago by a letter from one of her boys' communités. We feel that friends and neighbors and our boys who read the letter will enjoy it. Dear Mrs. Johnson: I have just returned from a tour of duty in Europe and while there it was my privilege to become acquainted with your son, Walter. I hope you will forgive me writing but I thought you might be interested in knowing that your son is getting along very well and is one of the finest young men I have ever known. Walter is in a very nice camp and not far from Cairo, Egypt. He is doing a good job and you can be proud of him. I hope you are all well and I hope you are all well and I hope you are all well.

BLITZ BACTERIA BATTALIONS BY FOLLOWING SIMPLE RULES

From Good Care, Wash Day.

Victory by the home-making front is easily won by those who understand the ruthless nature of the enemies—yeasts, molds, and bacteria—that attack the parts of food to cause spoilage. Usually they go into the air on the food, they are on the surface of broken plates in the sink, they are on the surface of the sink, they are on the surface of the sink. They are on the surface of the sink. They are on the surface of the sink.

Big things are happening over there. And big things are moving faster here. War needs the wires more and more every day.

So if you are making a Long Distance call, over war-time circuits, the operator may say: "Please limit your call to 3 minutes."

I DIED TODAY...
WHAT DID YOU DO?

Make This Dress Yourself and Save for War Bond Purchases

If what you did for the war effort today was an easy thing to do, it isn't enough. We can't hope to give as much as the boy who gives his life, but we can do our utmost!

For instance, if you haven't yet found your self scheming and figuring on a way to buy extra War Bonds, it's a good sign you aren't buying enough!

When your neighbor calls on you during the full War Loan, to ask if you'll increase your purchases, say "Yes" even if it takes a lot of scheming and figuring afterward to pay for them.

That's the way our men are doing their part in the Pacific, in Italy, in Britain. Ordered to attack, they do not first consult themselves to determine whether it's safe or convenient or comfortable. They're thinking of you as they're thinking of their own.

lars you can spare but every dollar you can earn that you don't absolutely need for food, shelter, clothing and the operation of the farm.

War Bonds savings mean more to the average farmer or rancher than to almost anyone else. For they form a financial reserve indispensable for the profitable and efficient operation of his business. War Bonds are safe, they pay a good return, they're easy to buy. When they mature, they mean new machinery and equipment, new conveniences for the home, money for the children's schooling, funds for retirement.

The next time you pick up your paper or listen to the radio news, have a conference with yourself: "Am I doing as much as I can to help win the war? Am I matching what I can do with what the boys are doing over there? Am I investing every possible dollar in War Bonds today to make my future soldier family a better one?"

5 REASONS FOR INCREASING YOUR WAR BOND PURCHASES

1. The scope of this war is being so higher each day. Government expenditures for war are so high. MORE MONEY IS NEEDED NOW!
2. In proportion to WHO HAS THE MOST MONEY, the United States is not buying their share of War Bonds. America must support the war.
3. War Bonds provide the faster and freshest way to help the financial reserves of our boys in uniform. War Bonds will protect the military pay and bonus of our boys in uniform.
4. Money will be needed to pay for the war. War Bonds will provide the fastest and freshest way to help the financial reserves of our boys in uniform. War Bonds will protect the military pay and bonus of our boys in uniform.
5. The more you buy, the more you can do. War Bonds will provide the fastest and freshest way to help the financial reserves of our boys in uniform. War Bonds will protect the military pay and bonus of our boys in uniform.
