## LOOKING ABEAD

By GEORGE S. BENSON  
President, Woodville Chamber of  
Commerce

On Our Way  
People in the United States  
are still allowed to own property.  
We are all used to the idea and it  
does not seem strange to us, but in many  
countries it is not allowed and  
many politicians oppose it. They  
are not all in far-away places  
either. Some people right here in  
America think it is wrong to own  
property. They are not using much  
land. It is not such a bad thing to  
own it. It is just a matter of  
getting the right laws.

One of the main things that  
concern politicians are things of  
this kind. They are not using much  
land. It is not such a bad thing to  
own it. It is just a matter of  
getting the right laws.

One of the main things that  
concern politicians are things of

## Big Postwar Need for Food Freezers

Home food freezers will be  
one of the big new products to  
be developed in the post-war  
era. The demand for home  
freezers will be high as the  
population grows and the  
need for preservation of  
food increases.

Economical and Patriotic Use  
If Savings Go Into War Bonds

There is just one thing that will be so popular this summer. The better you know an outfit, the more you will like it. A dress that is both economical and patriotic is the answer. It is a black dress with white trim, and it is the perfect dress for the summer. It is a dress that is both economical and patriotic. It is a dress that is both economical and patriotic.

**BUY EXTRA WAR BONDS Today!**

Something to remember these war-busy days and nights

When your long distance call is going where lines are crowded with war you may hear the operator say "Please limit your call to 3 minutes"

That helps more heavy calls get through quicker.

3. Now 4-F but cut pulpwood regularly and with occasional absence of 2-A or 2-B as an essential farm worker.

**Your Refrigerator NEEDS "BREATHING SPACE"**

Air space in back of your refrigerator and over the top is important.

Because the mechanism, which is usually at the base of the cabinet, requires free circulation of air so that heat removed from food compartment may be carried away.

Check your refrigerator's location. If air cannot flow freely from under the base to the rear, and up the back, circulation is retarded.

Do this — move refrigerator or adjust surroundings to provide free air circulation. If possible choose a location away from a hot stove, direct sunlight or other heat source.
