# HITLER is MASTER of First Army Revolt

By EDWIN L. JAMES

The indications are, and admittedly they come mostly from Nazi sources, that Hitler has quashed the first attempt of German Army generals to overthrow him and to take over the government of the country. But there is some room for doubt that the revolt was planned as Hitler's headquarter and with explicit approval of the Nazi general staff. It is possible that the general staff was working to overthrow Hitler, and that the revolt was planned by the general staff, and that Hitler was not in the know.

They wished to take over with the idea they could make a better deal for Germany than could Hitler. Back in their minds was, of course, the desire to do something to preserve the form of the German officers' clique (Prussian Junkers) which had been skillful enough to survive the 1918 military catastrophe of Germany and to bring the Reich back to where it could start World War II. It is fair enough to say that it would be in the interest of the Allies to be done with Hitler, but the German officers' clique, he can fight no longer than any other. It is a fact that that would only get the Allied interest party for they have to get rid of the German officers' clique just as they have to get rid of Hitler to achieve real peace in Europe.

IMPORTED BOMB EXPLOSION AT HITLER'S ARMY HEADQUARTERS. In a 1941 speech, on July 26, Paul Joseph Goebbels, Nazi German propaganda minister, announced that Col. Count Claus von Stauffenberg planted the bomb that exploded at Hitler's army headquarters, injuring Hitler and some of his top generals. Later reports said two of the generals had died from their injuries.

First-hand confirmation of the attempt to kill Hitler was to compare it with the beginning of the German revolution in October of 1918, which preceded Germany's surrender. In November, 1918, there is a fundamental difference. The 1918 revolt came from the rank and file, while this attempt was engineered by high-ranking officers. There is a fundamental similarity. The officers who didn't wish to 1918 to get out on 11 hours again, thought the Kaiser couldn't win and the generals who tried to kill Hitler thought the Fuehrer couldn't win.

No Free Allied Undertaking. It is not to be presumed that the German generals were working for the sake of the Allies. They were working for their own sake. They quite evidently thought Hitler was leading the Reich to catastrophe and wanted to take over.

Of course, for a long time, it has been no secret that high-ranking German officers had their differences with the Fuehrer. This divergence grew up the suggestion that the revolt was a plot to give Hitler a proper ground for a blood-purge. However, the speeches made by Hitler and Goebbels after the bomb exploded were the speeches of a frightened man.

Revolts Will Have Remorseless. It is not easy to form a complete picture of the situation in Germany. There is little unprejudiced news com-

ing out of the Reich. But there is enough indication that the revolt was widespread and that it was not a plot by a few stars. It may be forced underground, but it may be strong enough to be heard from again.

Furthermore, it seems beyond doubt that the whole business must weaken the German war effort. It will hearten those in Germany who hate the Nazis.

Regardless of the exact situation which is not clear, it is really possible that the German generals may have put ideas in many heads. In 1918 the revolt of the soldiers in Kiel quickly spread over the land until in a week there were soldiers and sailors committing active in all parts of Germany.

There is the Eastern front, where the Russians are making toward the Reich. There is the Narva front where Rommel has just pushed the invaders back into the sea. There is the Italian front where the Germans are being steadily pushed back. There is the air front where the Luftwaffe is gradually fading. Perhaps, it was more than an accident that some of the Nazi spokesmen refer to the attack on Hitler as the "MCC front."

Maybe that is a good description. It is going too fast, perhaps, to compare this revolt with the 1918. It might be more accurate to compare it with the situation in March of 1918. That was when the Kaiser's generals told him "he should not stay." The Kaiser did not stay. He did not them about trying to find a way out. They staged a final military effort in

meanwhile, the Kaiser's army was no longer a force to be reckoned with. The German Army and the British and American forces were in a stalemate. The Kaiser was really forced and he may be months before the total effect makes itself felt.

Germany has been shaken and is being through with doubt by the three-sided Allied attack in Europe. Secretary of War Henry C. Stimson said following the reported bomb attempt on Hitler's life, "There is no collapse in sight and no reason for relaxing on the front."

There is only one sure strategy for the war still finally and the Secretary declared in a radio on his recent trip to Italy and Germany. "There is for us and our Allies every resource we have in our equipment in a final, unrelenting assault on land, sea and air. The determination to lead this unrelenting present in our aim to uniform. It may also be the guiding thought of every one behind the lines."

STATION LEFT OF FRANCE. American "Giant" symbol of her freedom, the Statue of Liberty on Bedloe's Island in New York City Harbor, is the work of a French sculptor, Bartholdi, and it was made possible largely by financial contributions of the French people, who presented it to the United States as a commemoration of the centenary of our independence. The statue was finished in 1886 and unveiled three years later.

## FIGHTING ABILITY Of German-Jap Flyers

By MAX WOLFFERT

There are not many nations who have fought both our major enemies in the air. Germany and Japan, but among those who have, including the United States, the impression is general that the Luftwaffe (German air force) is far the more formidable force. The Japanese, on the other hand, though not so clearly on a par for main battle, the German is in a better position than the Japanese in a better position, although many Japs are very highly skilled in an airplane.

On the basis of planes, men and equipment against air assault, the following is about the comparison between our two major enemies. The Japs have not produced a four-engine bomber to amount to anything and the more we learn of the nature of the war in the Pacific the less of a mistake we think this might be. A good argument can be advanced against regarding the Pacific war as one in which heavy bombardment planes can play any substantial part.

OUR NEW AIR FORCE—Wingman Kenneth Wolfe, back, Hirscher, Callie, leads the newly formed 20th Air Force Bombing Command which recently smashed war plants near Tokyo with giant B-29's in their maiden mission. The Superfortresses, lower right, which the 1st Flying Fortress group left, look like a modern bomber. They will be used against Germany as well as Japan as 20th swings into full operation as a global task force. (UDAP photos)

principal enemies that I would judge after two months to the Pacific and nearly two months with our air forces in Europe. German fighter planes are as good as ours and take as much punishment which means they are the superior of the two.

firepower and load over the Liberator and Flying Fortress may change the picture, but up to now heavy bombardment work has had limited use. There are no large air bases in the Pacific and Japan's total export supply of fuel is limited. The Japanese are not so much in a better position as we are in the Pacific.

plane may be described as actually important.

Work of some value may be expected from the high-level plane against enemy supply lines. But most often these supply lines lead through jungle or coastal areas.

The high-level bomber needs too much fuel both in the jungle and against ships to be counted on as a reliable weapon for that kind of work. The high-level plane may come into its own if the fight should come within range of the Japanese mainland. In the air, the Japanese fighter planes are not nearly the equal of the German fighter planes. Japanese bombers are about as good as ours, but the German's Japanese fighters are less capable in the air and therefore, on the basis of work accomplished, might have been better to have whose primary concern is not so much to live a little longer as to do the job with the weapon at hand.

Question of Airman Efficiency. On the question of airman, a comparison is much more easily arrived at. Men new to air combat are always poor. There are exceptions, but they only prove the rule, and the rule is as true of our airman as it is of the Germans and the Japs.

In the two months that I have spent living with our fliers in Europe, there have been marked day-to-day variations in their reports on the quality of the opposition. Sometimes the Luftwaffe would seem "hot," as they call it—meaning eager for the kill and immensely crafty at defending itself. Sometimes the Luftwaffe would appear both bungling and timid. It seemed to depend on whether our men were up against new boys or old timers.

This is true of the Japs, too, although unlike the German he is never timid. He will always give battle. However, the decrease in the quality of Jap airman has been much more marked than in the Luftwaffe. There seem to be two reasons for this.

The first is that when a Jap flier loses his plane he generally winds up dead. Either his plane burns or disintegrates under punishment or he refuses to bail out. Or, bailing out, he lands in the sea and dies there or lands in the jungle and dies there.

Chance to Bail Out. German airman has a chance to bail out and when they do, particularly in the Pacific, they get German or German-occupied soil from which they can fight again the next day.

## The ROBOT BOMB Nazis Secret Weapon

By WAR STAFF EDITOR

A robot flying bomb on June 16 was used to threaten for months to take vengeance for the bombing of German cities. It was one Hitler threat that was not empty. The weapon was a flying bomb, piloted, incapable of being aimed except in a general direction, but Hitler's target was London, big enough to hit. The robot's military effect was to divert some Allied air power to counter measures. It took some of Britain's attention and manpower to deal with the onslaught. It could not Allied military experts agreed, affect the progress of the war against Germany.

The flying bomb is said to have an effective range of approximately 170 miles. By drawing a 170-mile circle about London it will show that Flushing, Ostend, Lille, Amiens, Rouen, Havre and Cherbourg all come well inside the circle. This obviously complicates the Allied job of locating and disposing of all the bomb sites. Search of the bomb sites found in Normandy, France, and Calais, France, has disclosed vast underground works which have already been covered over with earth, making them difficult to spot from the air.

Prime Minister Winston Churchill, in a statement which he described as brutally frank, told the world that German robot flying bombs in three weeks have killed 2,700 persons, seriously injured about 8,000, and have done extensive damage, primarily in London, which he disclosed as the probably enhanced but obvious target of the enemy weapon.

Part About Flying Bomb. The following facts are given about the bomb by the London Daily Mail. The flying bomb is a self-propelled, self-guided, self-igniting missile. It is launched from a launch rail, and is guided by a radio beam from a launch station. It is launched from a launch rail, and is guided by a radio beam from a launch station. It is launched from a launch rail, and is guided by a radio beam from a launch station.

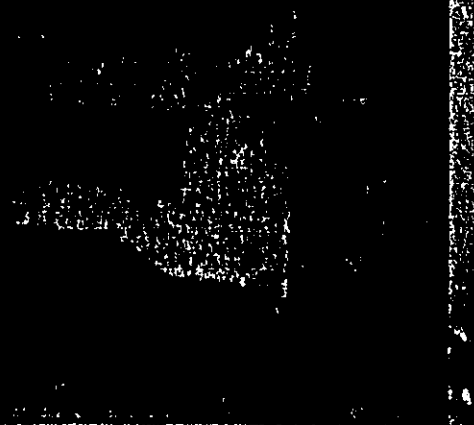

"Giant" About 160 miles. All construction.

Explosive equal to one-ton bomb carried in front part of fuselage.

Control by automatic pilot, not radio directed. Pilot, not before flight, engine having no control over direction once missile leaves launching ramp.

Color-blind. German camouflage dark green or olive drab, blue underneath.

It is now nearly a year since the German Government announced that they had begun mass production of a secret weapon and they very soon afterwards gave hints by radio and in the press which made it obvious that the secret

ROCKET BOMB CONTROL ROOM—Wing James Hirscher, back, and William H. Marks, of Chicago, standing in front of the control room for the robot bomb base captured in France. Marks stands in entrance way.

weapon could only be some kind of jet plane or rocket. Allied were aware of all these things and the bombing by V-1's then began—about France and Belgium and throughout the Balkans and other areas where rocket planes were common.

Winston Churchill, in a statement which he described as brutally frank, told the world that German robot flying bombs in three weeks have killed 2,700 persons, seriously injured about 8,000, and have done extensive damage, primarily in London, which he disclosed as the probably enhanced but obvious target of the enemy weapon.

# TEXAS BRIEF NEWS -- from Over the State

## SEVEN BROTHERS IN UNIFORM

Mrs. M. L. Pope of Marshall (Harrison County) has three brothers in the Navy, two in the Army and two in the Coast Guard.

## NAME PISTOL FATHER CARRIED

Lieut. Richard J. Saunders, of El Paso, who recently went overseas, is wearing the same pistol carried by his father during World War I.

## OLD-TIME PICNIC

Mrs. Roy Barker, of Crystal City (Zavala County), recently was hostess at a picnic for 20 days, all of whom were more than 70 years old. Four local dignitaries joined the party.

## BETTER LATE THAN NEVER

Former students of Calhoun College in Houston recently formed an alumni association at a meeting in Dallas. The college closed its doors 67 years ago.

## WAR PRISONERS AVAILABLE

Officers of Eighth Service Command have announced that 4800 war prisoners soon will be available for farm labor in Texas. The prisoners can be obtained by application to the extension services of A. & M. College.

## FUNDS FOR CANCER RESEARCH

Mrs. Rosalie B. Hill, of Houston, last survivor of a pioneer Texas family, has given an estimated \$650,000 to the cancer research clinic of the University of Texas. The bequest is in real estate and bonds and stocks.

## CARRIED KNIFE AND GUITAR

Pet Ernest Barker, of Eastland (Eastland County), was seen embarking from England for France with a rifle over one shoulder and a guitar over the other.

## MOTHER AND DAUGHTER JOIN WAC

Mrs. Anita Andrews of Bellville (Austin County) and her daughter, Maurine Wilson of Houston, enlisted together in the WAC at Fort Crockett, Bellville, native of Bellville.

## COW TAIL HAIR GOES UP

The city of Austin, which operates a slaughter house, has received \$92.80 from the sale of hair clipped from the tails of cattle killed there. Shortage of hog bristles has brought a demand for this new hair for manufacture of brushes.

## DALLAS LEADS NATION IN BOND SALE

Dallas was the first major city of the nation to reach the Fifth War Loan quota of \$2,000,000, which was exceeded several hundred thousand dollars.

## EXTENSIVE DUST CLOTH

Spontaneous combustion ignited a dust cloth in the desk of a stenographer at the State Capitol, Austin. The alarm which followed brought out every fire engine in Austin as it was thought the Capitol building was on fire. Result, no damage.

## BIRD SANCTUARY

Recent inspections show the new bird sanctuary near Houston has many rare varieties of birds already. Included are terns, wood thrush, roseate spoonbills, white glossy ibis and several species of rare herons. The sanctuary is a group of small islands in Trinity Bay.

## 101-YEAR-OLD MOTHER ATTENDS FUNERAL OF 81-YEAR-OLD DAUGHTER

Mrs. Mary Holcomb, of Fort Worth, attended the funeral of her 81-year-old daughter, Mrs. Sarah Jane Payne. The family tried to keep information of the daughter's death from the aged mother, but she sensed something was wrong. When told of it she replied, "I'll go to the funeral service."

## ONLY THREE WOMEN ON ONE PACIFIC ISLAND

Mrs. Huel Simpson, former English teacher in Athens (Harrison County) high school, has gone to join her husband on a Southwest Pacific island. She will be the third woman to live there. Two other officers have their wives with them at the post where Lt. Simpson is a communications officer. Before going to the Southwest Pacific, Lt. Simpson spent 12 months in the Aleutian Islands.

## THE FIRST RODEO

The Pease Enterprise recently carried away the title of the first rodeo. According to this paper, four ranch parties were in town on July 4 and that meant something was liable to happen. Cowboy bragging led to the suggestion that a contest be staged. Many details of the arrangements have been forgotten, but the contest was held in Pease July 4, 1888, with 1000 people on hand for the fun and a barbecue. The article concluded from that humble beginning, "The rodeo has since become a major event in the community and is now an annual event."

## LONG-DELAYED REUNION

Four sisters, who had not been together at the same time in 51 years, held a reunion at Mound (Coryall County). One of the sisters came from Tennessee for the event.

## SHOCK-SHINE BOY REWARDED

Customers of a Houston barber shop clipped in \$127 to pay for the operation when their favorite "shine boy" was sent to the hospital. The 46-year-old Negro has worked in the shop for 12 years.

## TEXAN BAIKER DIR. FOR FILM STAFF

Lieut. Glenn Thompson of Waxahachie (Dalla County) was complimented for his smoking by Film Star Marlene Dietrich after she ate the pineapple caviar which the Texan baked for her when she appeared with a USO show touring Italy.

## CAN YOU REMEMBER WHEN

Recent conversation about the high cost of living sent a Ray City (Majacorda County) citizen in a search for information. He found that in 1920 local stores charged 75¢ for pound of butter, 92¢ for dozen of eggs, 27¢ per pound for sugar, 10¢ per pound for potatoes and a head about cost \$2.81. Cost sold for \$12.50 per ton.

## 100-YEAR-OLD WOMAN DIES

Mrs. L. B. Stirling of Lamb (Lamb County) died at the age of 100. She was believed to be the oldest resident of that section.

## SPARROW CAUSES FIRE

Investigators reported that a two-alarm fire in a Dallas church was caused when nesting sparrows carried a lit cigarette into a small crack in the wall.

## ANOTHER 'MEANEST THIEF'

From El Paso comes the story of another of those meanest thieves. This one, a bus passenger, fished the purse of a blind girl who was on her way to California to purchase a seeing-eye dog. The loot was a money order for \$125 and \$20 in cash.

## LUCKY HOOTS

At least 12 Army fliers in England have won the same pair of high-topped boots while on assignments over Europe. Capt. Lester K. Humphrey of Del Rio (Val Verde County) had them first and they got him through a full tour of duty. When he was relieved he passed the charmed boots along. Others who have worn them are Lieut. Donald W. Bridwell of Winters (Hunt County) and Lieut. in line Lt. Robert L. Davenny of Waco.

## TEXAS FIRST IN PHARMA

Texas, one of the first States in the nation to establish a blood plasma program for civilian use, operates a mobile blood bank through the State Health Department. The plasma is sent upon request to any community.

## BEAUTIFYING A MAIN STREET

Citizens of Palestine (Anderson County) are busy beautifying one of the city's main streets, chiefly through plantings of redbud and dogwood trees. Property owners cooperate by planting the space between curbs and sidewalks.

## WAR BAIKERS INCREASE BIRTH RATE

The birth rate in Texas increased 69 per cent between 1936 and 1943, according to a report from the State Health Department. The department also reported maternal cases of nearly 15,000 mothers and babies of service men.

## IRON LUNG REPAIRED QUICKLY

A Groesbeck (Dimmit County) war veteran is being praised by local citizens for a rush repair job which he did on an iron lung machine. The machine developed trouble and mechanics rushed from Dallas were delayed en route. The patient was able to return to use of the lung without serious complications.

## TEMPTING RAT BAIT

During a rat extermination campaign in Beaumont (Jefferson County), seasoned pecan candy was used as bait.

## SAME BIRTHDAY

Four members of the Jack V. Ash family have the same birthday—July 14. The youngest member was born that day this year.

## NEW HUG CATCHER

Inventors of a new bug-catcher, who is gaining favor in West Texas, have opened a branch manufacturing plant in Soleno (Austin County). Main plant is in San Angelo (Tom Green County).

## YOUNGSTERS CATCH BIG UN

Two Fort Worth youngsters, the Adams 12 and the Youngs 11, fought a big catfish four hours before they finally landed it from the Trinity river.

## ROOSTER ATTACKS CHILD

Janice Graham, age 4, of Palestine (Anderson County) was painfully bit when a pet game rooster attacked. She was injured about the head, neck and chest.

## U. S. IRON MUCH TEXAN GARD

Texas sold 207,120,000 gallons of iron to Uncle Sam during the month of April, according to a report released. Civilian sales during the period were slightly more than 108,000,000 gallons.

## GIANT RADISH

E. D. Lutz, of Waco, found a radish in his Victory Garden which measured 14 inches long and 10 inches in diameter. Other radishes in the same row at the same time showed only normal growth.

## GROWS INTO BOTTLE

Gua Schulte's Victory Garden at Karnes City (Karnes County) turned up with an oddity when the owner found in the garden a well-formed cucumber which had grown into a bottle.

## THREE UNUSUAL PATIENTS

Attendants at a hospital in Addison (Taylor County) reported admittance of three patients in one day from unusual causes, two from rattlesnake bite and one from spider bite.

## PEDALS 2600 MILES

Marguerite Strvill, age 24, rode in Dallas on a bicycle after pedaling more than 2600 miles. She began her trip in Portland, Oregon, after having been turned down for enlistment in WAC because of a knee injury.

## BIRTHDAY PARTY FOR GENERAL

William E. Bain of Ferris (Ellis County) was given a party on his 100th birthday which was attended by men 70 years old and over. Part of the festivities included a horse and buggy ride through the town.

## OVERLOOKING BIG OPPORTUNITY

Dr. K. F. Jones, of the University of Texas research staff, says importation of certain types of Texas has increased from \$10,000,000 to \$20,000,000 annually in short time. He says we are overlooking a big opportunity to do 40 ceramic plants in the state turn out more than 100,000,000 art pottery and other items.

## HISTORIC FIGURE DIES

Oscar Hlat, aged 78, died in Bellville (Kleberg County) and was buried in Flatonia (Pavetta County). He was named for his father when he got to Texas in the 1870's.

## MORE DAMS FOR HILAZOS

Contracts have been signed for construction of plans and specifications for three more dams on Brazos River. Contract was let by the Brazos River Conservation and Reclamation district. This is part of the district's post-war program.

## HUNTING LEASERS IN DEN

Frederickburg (Gillespie County) chamber of commerce officials heavy mail inquiry for deer leases. They say it indicates the hunting season will be as large as in the past.

**WHEAT IN PANHANDLE PAVEMENT**—Not phased by acute shortage of horsepower, storage space and transportation facilities, Texas growers of Panhandle's 72-million-bushel wheat crop got together and found solution for their difficulties. They simply sweep the little-used-paved streets in small towns and stack the wheat on pavements, as shown here.

## TEXAN SOLDIER WANTS FLOWER SEEDS

Lieut. Thomas Paul has written from India to his parents in Georgetown (Williamson County) asking for some flower seeds to plant around the new barracks at his post. Included in the shipment were bluebonnet seeds.

## CONSCIENCE MONEY

See Roy Harard, of the State Fair of Texas, Dallas, recently received a letter containing \$5 and a note which said "In payment for the times I slipped into the fair by the back gate without paying."

## HOT WATER ROUTS PROWLER

A Houston woman heard a noise in the front of her house while she was cooking breakfast. She slipped to a floor and saw a man trying to pry open a window screen. Hurrying to the kitchen she got a pan of boiling water which she threw into the man's face. He ran away howling with pain.

## PORCUPINE ONLY EATS CORN BREAD

Many residents of Milam County got their first glimpse of a porcupine when one was captured on the Mrs. E. Fisher ranch near Hahover. It was the first one ever heard of in that region by old timers. Of the many bits of food offered the animal, it would only eat corn bread.

## PAINFUL ACCIDENT

Three small boys of Marlin (Falls County) were badly burned when they tried a dangerous stunt. They poured gasoline into an oil well, then threw a lit match down to see the gasoline burn on the water. The flash, which occurred near the surface of the well, caused hospitalization for two of the boys and the other one was painfully burned.

## VIGILANT KAT

A cat who saved five young children from a snake attack was named Kat. The cat was working on the 104th Street in Dallas when it spotted a rattlesnake coiled around a young child. Kat sprang forward and coiled around the snake, hissing and growling. The child's mother, who was nearby, saw the cat's actions and called out to it. The snake was killed and the child was unharmed.

## MENTAL MARVEL

Chief Warrant Officer Hugh H. McManus, of Fort Bliss (El Paso County), is a memory expert who can recite the Constitution of the United States and its amendments, Lincoln's Gettysburg address, and dozens of long poems, such as the "Rime of the Ancient Mariner." Mr. McManus, who has been in the army 22 years, started his hobby more than 20 years ago.

## GOOD FISHING

Residents of Ellaville (Young County) really had two days of fishing luck when big catfish swarmed against the mill dam. The catch, estimated at 1000 pounds in two days, averaged from five to 20 pounds to each fisherman.

## TAR AND FEATHERS

Armadillo mothers had a busy time when their youngsters tried to feast on a lot of birds which had become stuck in fresh tar being used for street paving. The youngsters, many of them, wound up covered with tar and feathers.

## OLD FORT RINGGOLD MAY BECOME SANITARIUM

Mayor of the Rio Grande Valley section organized a campaign to have Fort Ringgold converted into a tuberculosis sanitarium. The fort recently was abandoned by the Army as a military establishment.

## MEAT THAT GLOWED

Health officials were much concerned when some meat sold in Mexico gave off a strange glow. First report came from a Negro who said that when he opened his box the meat was all lit up. Persons who cooked and ate the meat suffered no ill effects.

## HIEN ADOPTS PUPS

A hen, which belongs to Mr. and Mrs. Karl S. Johnson of Port Arthur (Jefferson County), was refused eggs when she wanted to hatch her own family. But she satisfied her maternal instinct by adopting five German police puppies. She hovers them and scratches worms, which the pups will not eat, but she does her best.

## PATRIOTIC MERCHANT

A drygoods store in Pasadena (Harris County) used advertising space in support of war financing which said, "Don't buy any merchandise from us that you don't need during the Fifth War Loan Drive. Put your money in War Bonds."

## CONSCIENCE STRICKEN

Thirteen years ago a woman shoplifted several items from a Dallas department store. Just a few days ago she went to the store manager, told him of her stricken conscience, and paid for the items.

## SHARK MEAT FOR FOOD

A California fisheries company is ready to begin operation of a plant at Port Isabel (Cameron County), which will specialize in production of oil from shark livers, and the sale of shark meat for food. Waste will be made into poultry feed.

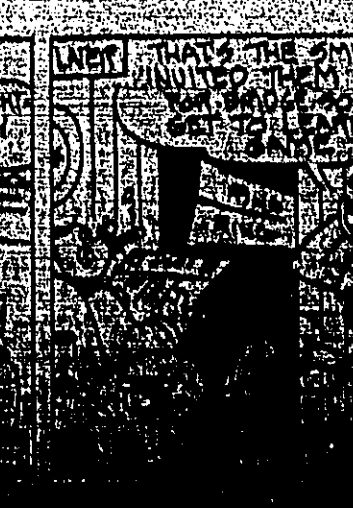

## MANY TEACHERS CHANGE JOBS

More than 20,000 of the 48,000 public school teachers in Texas changed jobs during the school year just closed, according to a report of a survey made by the Texas State Teachers Association. The report showed also that in 618 districts studied in the survey, it was impossible to fill 874 positions.

## Typographical Error

Typographical errors occur in the best of newspapers. This one is no exception. The editor of the *Washington Post*, Mr. R. M. Harbo, of Arlington, Va., has been in the city for a day or two.

## Never Heard of Him

I was told this one about ex-Gov. Lehman of New York, who died that year. He was not a farmer, but he was a farmer's friend. He was a farmer's friend. He was a farmer's friend.

## Not Bargained For

A soldier on the march felt something in his boot. He took it out and found a pellet of paper lodged in the toe of the sock on which was written, "God bless the soldier who wears these socks."

## Going Too Far

A dense old woman in Vermont was much surprised by the contents of a letter she had received from her nephew. He had written her to tell her that he was going to get married.

## GARY MOORE

GARY MOORE: "I don't know what I'm trying to find out in what you are doing to improve your health."

## JIMMY DURANTE

JIMMY DURANTE: "Well, I don't think your kind of vitamins and last week I took enough iron to build a cathedral."

## Those Americans

Those Americans: "I don't know what I'm trying to find out in what you are doing to improve your health."

## Going Too Far

Two American authors of European fame for months on dehydrated beef, dehydrated milk, dehydrated butter and dehydrated vegetables. Visiting a Latin American they saw their first monkey.

# Poultry News

Walter B. D'Amico, in *American Poultry Journal*, says: "The importance of feeding the laying flock is generally recognized. For not only will it save the cost of feeding a number of profitable layers but it will also materially improve the breeding quality of the stock."

One of the big time and labor savers in poultry production is running water. At this time of the year, especially with the breeding season, considerable time and labor are saved by having water piped to the flocks.

# Texas Farm News Reports

### Year-round growing of carrots

Year-round growing of carrots will have a good test in the region around Fort Worth (Tarrant county). A large company is joining a big truck farmer in the experiment which will comprise 2,000 acres. Soil analysis shows carrots produced in that region have very high quality. The project calls for harvesting starting during 10 months of the year.

### Alma Belle Finley, Hill county, home demonstration agent, has been displaying a catalogue of milk which bears 10 heads. The entire crop, plant weighed four pounds. Miss Finley and her husband have stakes with two of these heads before. It is never anything like the 10,000 this one.

### Farmers' and ranchers' report

Time growth from heavy crops and "mature" crops, peas which were planted last fall. Some also planted and so as protection against wind. Others, others for a few. Others seeded the beans as part of a soil building program. And some intend to harvest next fall as a money crop.

### George Moore, member of the Texas 4-H Club of Moore county, has tested the

Adaptation to a wheat crop. According to a wheat expert, Agricultural agent, John R. Hunt, Moore planted the potatoes the last week in October on one acre of well prepared and fertilized land. On May 21 he harvested 4 1/2 bushels of grade 1 and 1/2 which sold for an average of \$1.50 a bushel. The land has been reported to produce three times the yield of other acres.

### Robert, husband of Mrs. C. G. Smith, has planted 200 bushels of sweet potatoes in a field near his home. The crop is expected to yield 100 bushels of grade 1 and 1/2 which sold for an average of \$1.50 a bushel. The land has been reported to produce three times the yield of other acres.

### Robert, husband of Mrs. C. G. Smith, has planted 200 bushels of sweet potatoes in a field near his home. The crop is expected to yield 100 bushels of grade 1 and 1/2 which sold for an average of \$1.50 a bushel. The land has been reported to produce three times the yield of other acres.

### Robert, husband of Mrs. C. G. Smith, has planted 200 bushels of sweet potatoes in a field near his home. The crop is expected to yield 100 bushels of grade 1 and 1/2 which sold for an average of \$1.50 a bushel. The land has been reported to produce three times the yield of other acres.

(Lubbock county) is recommending this to farmers who have joined in an anti-cotton acreage program. Mr. Kerr says he has seen 100,000 bushels of a flock of 100,000 bushels of an experimental of the Johnson brass seed. He has kept up the practice since and today has no Johnson grass on his farm at all. He says that do not bother cotton and do not while grazing.

### PROLETARIANS

**THE ADULTS IN THE MONEY**  
 The money market is showing a decided upward trend. The Federal Reserve Bank has increased the discount rate to 4 1/2 percent. This has caused a general rise in interest rates throughout the country. The stock market is also showing a strong upward trend. The Dow Jones Industrial Average has risen to a new high of 280. This is a reflection of the confidence of investors in the future of the country.

### IN BULGARIA

**ROUND ITS EQUATOR**  
 The Bulgarians are showing a decided interest in the study of the equator. They have discovered that the equator is not a straight line, but a curve. This discovery has caused a great deal of excitement in the scientific world. The Bulgarians are now working on a plan to build a canal around the equator. This canal would be the longest in the world and would provide a direct route between the East and the West.

### BE A GOOD SOLDIER, SAYS PAUL

BE A GOOD SOLDIER, SAYS PAUL  
 Paul was not a defender of the institution of slavery when he offered some wholesome Christian counsel to a runaway slave. He was not an apologist for war when he used the terms of warfare and soldiering to define the nature of the Christian life.

### THE EARTHLY SOLDIER DOES NOT ALWAYS SERVE UNDER PERFECT COMMANDERS

THE EARTHLY SOLDIER DOES NOT ALWAYS SERVE UNDER PERFECT COMMANDERS  
 He may be called on to obey orders that are mistaken, and he may even know that they are mistaken. But the Divine commander never asks us to say or do anything that is not the right course.
