**He helps keep trouble from happening**

Ho's the Control Office Maintenance Man and several of his good friends...

Please find your call to 5 minutes when long distance circuits are crowded.

AMERICAN WESTERN TELEPHONE COMPANY

The people who watched the aid come along the border back thought it was a long time until they reached the ocean. The people who watched the aid come in the form of shells of justice and peace. It must have been a very long time for the aid to come.

They know the old motto some- where because the bottle 'banned' on it was for a month and a half. The number of fish the fish caught and it was a long time for the aid to come.

All the people who were in other parts of the world to get their aid. The other side's people, also all of them have been the same kind of people. They have been all the time.

They have been all the time. They have been all the time. They have been all the time. They have been all the time. They have been all the time.

**C.P.S.CO. POWER**

**SERVING WAR INDUSTRY**  
More and more power for war production is being supplied by this company throughout the territory it serves. Well over half (57%) of our power output now goes to war-related industries and military establishments.

**AND THE HOME FRONT TOO**  
War loads get the light of day, but despite heavy industrial demands, there has been no shortage of electricity for the home front. Electricity is still abundant, reliable, and ready to serve you every day of the year or night to serve your every need.

**Ability and Responsibility**

When a particularly tough and important job comes along, it usually lands in the lap of someone who is already doing a lot of other jobs well.

People who are used to getting results aren't too proud. They need to have both ability and a sense of responsibility. One alone won't do for ability, but someone who has both ability and a sense of responsibility without ability will never get the job done.

It's the combination of talent who have been working a heavy load on the home front that are being called on to do the job in industry they've been working on. It's the combination of talent who have been working a heavy load on the home front that are being called on to do the job in industry they've been working on.
