**TEXAS GULF COAST**  
*Press Association*

Cooperative Americans will preserve Democracy. This is the slogan of the Texas Press Association.

**SHOW**—AND that we had the family. "Well, I expect the Hillites will be the poison gas before they Thriftly... Probably the reason why they have not died is because now is because they know we definitely have an unlimited amount of the deadly stuff of our own."

**WE'VE BEEN** reading several stories in the daily papers about what might happen, come the November election time, should the Germans hold up. Our paper even mentioned the advantage the OK outfit might experience were the war to hit the "back door." We could not wonder if ANY American citizens would be willing or wishing the country continue just for the convenience and satisfaction of carrying their wishes as to who would be elected. To all of which we can but say just one thing—such people are damned poor specimens of Americans!

**STINK WAX** Production Board has announced that the distillers will be permitted to produce 20,000,000 gallons of miscel. whiskey for beverage purposes during the month of August. That will amount to approximately two gallons for each family in the country. What a travesty, after urging farmers to raise greater crops than ever and advising everyone to cultivate Victory gardens in order to insure an adequate food supply, to now permit the distillers to use up thousands of tons of grain for the manufacture of poisonous liquor instead of being made into bread. Nasty little (it's) journal.

**OWE CIVILIANS** imagine we are having a tough time these hot days. And just think of it, we are all enjoying all the pleasures of home with a superabundance of everything we want to eat, drink, having a rest now and then with an electric fan, and then getting because we can't have all the gas we want a new car, and all the help we could wish in our business during what is home. Yes, we're having a terrific time and our boys... well, they are lucky not to get a leg or arm shot off, to get enough to eat to keep body and soul functioning, to be able to get a little sleep now and then. Yes, we are having a heck of a time—it's too warm to even play bridge.

BEFORE THIRWAY IS OVER, there may be only two kinds of people in America:  
 1. Those who can still get to work in automobiles.  
 2. Those who are forced to walk.

If you want to be in the fortunate group who will still be riding to work in automobiles, join Gulf's "Anti-Breakdown" Club today. How do you do it? Just come in for Gulf's Protective Maintenance Plan.

This plan was conceived by experts in car care. Gulf developed it because car maintenance is a most important civilian job.

**1. Protects your car at 39 danger points.**

**2. Guards your bearings and motor parts.**

**3. Helps you compare your car with a like car.**

**4. Get an appointment at your Gulf station.**

GULF's Protective Maintenance Plan includes Gulf's Regular Lubrication which reaches up to 89 vital points with six different Oil-Free Lubricants that reduce wear, and lengthen your car's life.

IT'S IMPORTANT to give your car a check-up and change regularly. Gulf's Protective Maintenance Plan is a check-up and change regularly. Gulf's Protective Maintenance Plan is a check-up and change regularly. Gulf's Protective Maintenance Plan is a check-up and change regularly.

His day is long stay late to finish in the Humble's know Mac has on the home front.

**THE LIGHT THAT BUR**

Yep... folks noticed the light shining inside the stallen way after closing time and they knew Mac was working late again.

Mac is like most Humble Service Station men today. He's trying to do the work of three or four men. His help has gone to war and so have most of the things he used to sell. But as long as there's essential driving to be done Mac's staying on the job to do his part.

He starts earlier and works later. He fights the "black market" and urges all his customers to stick to the rationing program in his entirety. He shows them how sensible cars leave repairs and when help is short you'll see him wrestling the details of rationing with the best of lots.
