MOVING MOUNTAINS!
AMERICA MOVES its might from
Europe to the Pacific. It faces a
packing and shipping job that staggers
the imagination. Mountain of supplies
must be re-packed and double wrapped
for the trip to the Pacific. Equipment for
millions of men must be wrapped and
packaged for shipment.

Job Calls for More Pulpwood
Paperboard cartons and special con-
tainers of many types; moistureproof
wrappings and other packing materials
made from pulpwood are needed in vast

quantities. This, in addition to the al-
ready huge consumption for plastics,
explosives and other war uses has made
the pulpwood shortage more acute than
ever and has put pulpwood close to the
top of the War Production priority list.
We have a long way to go before the
Japs are ready for Unconditional Sur-
render. We must not let up on our war
job 'til they are beaten!

Pulpwood production is a profitable busi-
ness now, and it will be a good business
in war or peace for many years to come.
