GILCHRIST GRAIN CO.

WOODVILLE, TEXAS

WOODVILLE is the finest little Wholesale Center open in Texas. Its 15 Ways go out in all directions like spokes of a wheel from a hub. It is the Live Stock Marketing center for several East Texas counties (40,000 hogs and cattle sold through Auction Ring during month of July). Its Lumber industries give year round employment to thousands of workers & after a 20 year rest, our Second Growth Forests have greatest value in Dollars and Cents than ever before in the history of this county. Its hundreds of springs and ever running streams makes ideal grazing conditions. Its thousands and thousands of acres of rich Creek Bottoms is ideal for Dairying. Its mild climate and well drained uplands Paradise for Truck Farmers. Its location is ideal. Only a few Minutes from the Industrial Centers to the South.

OUR PLANS

We Have Just Finished Building the largest Modern Warehouse in Tyler County

10,000 sq. ft. Floor Space, Large Display Room and plenty of parking space. Railway cars unload direct into building and 100 ft. Truck Loading Dock. "It is the Future home of our Wholesale Feed, Seed and Grocery Business"

DELAYED

It will be several months before we can function strictly as a Wholesale Co. Large Trucks and Feeders are not available now.

America faces its greatest food shortage. Sufficient Canned Goods cannot be had. Even Grains, Mixed Feeds and home Hays are critically scarce.

Wholesale Prices for Retail Trade

While waiting for Equipment, material and organizing an efficient personnel and to acquaint Farmers, Stockmen, Poultrymen and Feeders with the Brands we carry we are going to sell direct to the Retail Trade Feeds, Grains, Hays, Fertilizer, Seeds, Feeding and Galvanized Roofing. It will take Weeks to complete Our Stock. BUT

- We Offer Now Cash and Carry Terms**

"HERE'S ONE CROP THAT NEVER FAILS"

DON'T WASTE PRECIOUS TIME

CUT ONLY TOP QUALITY WOOD

SOME of my crops are not worth harvesting this year but I can spend the extra time that gives me in cutting more pulpwood.

Pulpwood is one farm crop that's good for spot cash any time you need it. You can harvest it any time of year—in almost any kind of weather—just whenever you have the time to spare. And our forester has shown me how to select trees for cutting and manage my woodlot so I can cut some every year.

"Funny, I never thought of Pulpwood as an extra cash crop till this wartime shortage came along. Now I'm going to look on it as the most reliable part of my farm income."
