## 5 Good Country Tricks for Saving More Used Fats

... [Detailed text explaining five tricks for saving used fats, including tips on frying, roasting, and rendering.]

1. FRIED BAIT PORK—With milk gravy. Bait pork yields so much grease, you won't need it all for gravy. Pour the rest into the grease can.
2. ROAST FAT BIRDS—Use the fat over and over, but when it's too dark and smelly to use any more, don't forget Uncle Ben wants it!
3. ROASTS AND CHOPS—Save all trimmings (scraps from plates, too). Keep them in a small bowl once a week melt them down.
4. BURGERS—They're better if you parboil them first. Melt the fat off the cooking water—scrape the fat from the frying pan.
5. GROUND BURGERS—Melt it before you use it. Scrape off the hardened grease (scrap faster, better, too!).

Your electric refrigerator may have enough years of faithful service behind it to rate a discharge, but it will have to stay on the job until replacement units are available in a minimum number of months from now. Initial production of new refrigerators is reserved for hospitals, blood banks, the Army, Navy and other high priority users, so continued good care of your present refrigerator is a must for some time to come.

#### FOLLOW THESE TIPS ON REFRIGERATOR CARE:

- Defrost whenever frost on freezing unit reaches thickness of 1/2 inch. Remove from electrical outlet.
- Do not store hot food. Let them cool first.
- Keep liquids in covered containers. Moisture drawn to freezer speeds formation of frost.
- Do not overfill food compartment. Compartment below 40 degrees. The temperature is best.
- Do not frost shelves. Allow room for cold circulation.
- Do not open door often or too long. Keep unit compartment clean and clear of clutter.
- Place refrigerator so that all coils are freely under, behind and above it.
- Oil open unit motors periodically per manufacturer's directions. Seal unit with good oiling.
- Have your refrigerator checked by competent technician of the A.S.A. Unit of trouble.

# In This Hour of TRIUMPH

Behind us lie 3 1/2 years of deadly struggle in which, with God's help, we have prevailed.

So, today, we celebrate a victory.

After the celebration, what lies ahead? For most of us, the outlook is a bright one.

If we will simply use the brains, the will, the energy, the enterprise . . . the materials and resources . . . with which we won our war, we can't fail to win the peace and to make this the richest, happiest land the world has known.

For most of us, the years ahead are bright with promise. But for others of us—and, ironically enough, their part in bringing victory was a major one—the years to come must bear a different look.

In America today are hundreds of thousands of injured men. Men with neatly pinned up sleeves and trousers. Blinded men. Men with clever iron hooks instead of hands. Worst of all, men with hurt and darkened minds.

These men need our help. Helping them will cost a great deal of money. We can help them best by buying Victory Bonds.

Far away from America today are millions of Americans. As we would be, they're on fire to get back to their wives, to their children some of them have never seen, to their jobs.

These men need our help. Helping them will cost a great deal of money. And we can help them best by buying Victory Bonds.

This is our day of triumph. But it's theirs too—the injured men, the men who are still far away.

Let's not forget them, in our just rejoicing. And the one way we can help most to care for our wounded . . . to bring our veterans home . . . to give them a fresh start in the country they fought for . . . to care for the families of those who died before the Victory was won . . . is simply this:

Buy all the Bonds you can. Keep all the Bonds you buy.
