SAYS SECRETARY OF AGRICULTURE:

Despite Victory Used Fat Saving Must Go On!

Every woman in America should know that our country continues to face a serious fat shortage. And Victory over Japan won't solve the problem immediately. We must keep on saving used fats in our kitchens!

If you have any thought that saving used fats is one of those war-time chores we can drop, now that Victory is here, please consider these facts and tell them to your neighbors:

America still needs salvaged fats. Not even at the peak of our war effort, when fats were required for mountains of shells and bombs and medicines, in addition to the ever present need for soap, were our needs for salvaging fat greater than now. Our stocks have been drained by four long years of war, and there isn't enough on hand to meet all requirements.

Don't let "Victory psychosis" blind you to this national need! If home wars stop saving fats now, the shortage will become even more critical.

Don't let a single drop of used fats go to waste! Little trimmings of fat left on the plate at the table, scraps left on plates, and even the skinning of soups and gravies are important. It is the essential saving of even these small amounts that counts.

Don't turn in fats that can be re-used! Fat scraps, such as those rendered from lard and lard, are not suitable for reuse. Put them immediately in the salvage can. And, with other fats, after you've got all cooking good out of them, there is always a little left. No matter how little it is, save it.

Your butcher will still give you 42 and 172d points for every pound you turn in. Save consistently, save every drop you can, every day until Uncle Sam says the job is done.

Clinton Anderson
 Secretary of Agriculture

Approved by USDA and OPA. Paid for by Industry.
