

# WHY Tyler County Should Be Kept Dry

## 1. GREAT MORAL REASON

No sane man or woman believes that men, women or children, Homes, Schools or Churches or any other good thing would be helped by having more liquor drunk.

## 2. FINANCIAL REASONS

Having beer dens or package houses will not appreciably increase our County Income — 1. The County gets \$12.50 only for each beer stand, \$15.00 for each beer and wine store and \$62.50 for each liquor house. It would take ten beer stands to gross \$125 per year. No other revenue is received by County.

This small sum will not begin to pay the expense that would be added to our criminal court through drunkenness.

## 3. ANOTHER FINANCIAL REASON

Old age benefits will not be helped in the least. Our old people have been getting their pensions while Tyler County was dry and surely we have sense enough to know they will keep on getting it if we keep it dry.

## 4. IT WILL NOT INCREASE OUR INCOME

Wild rumors have been afloat that package and beer dens would pour a stream of taxes into our County Treasury. This is utterly false. Taxes on the sale of beer and liquor go to state and federal governments—Not the county.

THERE WILL BE TWO SEPARATE BALLOTS — MARK THEM AS INDICATED HEREON

Scratch This—the Following:

FOR Legalizing the Sale of All Alcoholic Beverages

Vote for the Following:

AGAINST Legalizing the Sale of All Alcoholic Beverages.

Scratch This—The Following:

FOR Legalizing the sale of vinous and malt liquors containing not exceeding four per centum 4% by weight.

Vote for the Following:

AGAINST Legalizing the sale of vinous and malt liquors containing containing not exceeding four per centum 4% by weight.

**The Electric LAUNDRY Center**

**A NEW IDEA FOR HOME BUILDERS AND REMODELERS**

Major inconveniences and minor irritations that once gave "Blue Monday" its bad name are going away with the new Laundry Center. It's a work-saving idea that's sweeping the country.

Everything that is needed to turn out a week's washing with a minimum of effort is arranged on a production line basis. There's a special sorting and sprinkling table next to the automatic clothes washer. Clothes baskets are portable—and the laundry sink has deep bowls. The electric dryer dries everything from diapers to bedspreads and eliminates dependence on the weather. A built-in ironing board folds into the wall when not in use. A roller-type ironer, at which you may sit down while you iron, is also provided.

With modern laundry appliances, washing is not the dainty, dripping job of former years. The laundry need not be relegated to the basement, garage or sun room. A first floor Laundry Center, adjacent to the kitchen, can be prepared in light duty. A new look is a sewing and ironing center a study for the youngsters, a play place for children on rainy days.
